COMMONWEALTH OF KENTUCKY

1929 ROAD MAP of KENTUCKY

Showing Condition of U. S. and State Routes

ROAD MARKERS AND SIGNS

All square signs indicate school zone. Pass cars under control. Use care and speed. Follow all posted detours to avoid delays.

All diamond signs indicate danger ahead.

All circular signs are warning signs of danger.

All signal signs are RED with white.

State Highway Commission

GOV. F. D. SAMPSON, Member Ex-officio.
BEN JOHNSON, Chairman, Hartford, Ky.
W. C. HANNA, Secretary, Shelbyville, Ky.
COV W. CHALK, Member, Pineville, Ky.
JAMES A. SCOTT, Member, Flemingsburg, Ky.
R. R. BALLARD, Executive Inspector, Frankfort, Ky.

Central Office

J. E. WATKINS, State Highway Engineer.

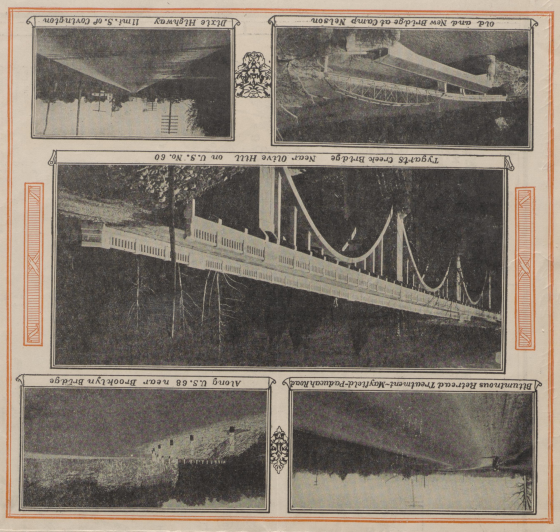
EXECUTIVE STAFF

H. D. PALMORE, Engineer of Construction.
W. M. JAMES, Engineer of Maintenance.
T. R. YOUNG, Engineer of Equipment.
R. N. EVANS, Auditor.

District Officers

F. A. SHORE, District Engineer, HOPKINSVILLE, KY.
HOWLING GREEN, KY.
D. C. BROOKS, District Engineer, LOUISVILLE, KY.
J. A. REID, District Engineer, COVINGTON, KY.
Citizens Bldg.
M. D. MOSS, District Engineer, COVINGTON, KY.
Coppin Bldg.
C. H. WOOD, District Engineer, WINCHESTER, KY.
J. F. STROUD, District Engineer, CORBIN, KY.
A. J. BRAUN, District Engineer, ASHLAND, KY.
F. S. WHITNEY, District Engineer, PADUCAH, KY.

(Issued by the State Highway Commission under authority of provision in Section 4, Chapter 254, Acts of 1924.)



RULES OF THE ROAD

Keep to the right.

Give the right of way to the vehicle approaching from the right.

Pass other vehicles going in the same direction, only when the way is clear, and then always to the left of the other vehicle, etc.

Slow down when approaching intersecting highways, bridges, causeways, levees, dams, sharp curves, steep descents, schools, groups or gatherings of persons or animals on or near the highway, railroad or interurban grade crossings, pedestrians on the highway, or horses or other animals that show fear.

Stop when signalled to do so by raising of the hand by a person who is riding, driving or leading horses or other draft animals; also in case of accident. At some points a full stop is required at designated grade crossings, and behind street cars that have stopped to receive or discharge passengers.

Signal with outstretched hand when about to slow down, stop, or turn to right or left, unless your car has a stop signal on the rear.

Sound your horn whenever there is real danger to yourself or others, but never needlessly.

Never attempt to pass another car without sounding your horn.

Edge over to the right of the road as far as possible when apprised by signal that another car wishes to pass you. Also when about to stop on the highway.

Never attempt to traverse roads that are legally closed by barriers. Walk on left side facing traffic, and step off to left when necessary and keep out of middle of road.

Dim your lights when approaching other cars at night, unless your headlights are equipped with a thoroughly effective non-glare device. Glaring headlights are murderously dangerous.

Be courteous; give the other fellow the benefit of the doubt.

Do not hog the road!

Keep your temper.

Smile!

Kentucky License Laws

Non-residents Exemption. Reciprocal, for passenger vehicles, where laws of home state have been complied with. Speed Limit. Passenger cars—15 M. P. H. in closely built up sections. 20 M. P. H. in residence sections. 35 M. P. H. in open country; 40 M. P. H. on unobstructed straightaway. Head Lights. Non-glare law in effect. Resident License Fees. Passenger cars—$1c per horse power, plus $5c for each additional 100 lbs. weight. The fee for any fraction of a year is figured on the basis of one-twelfth of the total for each calendar month remaining.

Parking

The operator of any motor vehicle must not park entirely on any part of an improved State Highway even for repairs nor shall any motor vehicle be parked at a sharp turn or curve or on approaching the crest of a hill where a full view of the highway ahead for a distance of five hundred (500) feet is obstructed.

Table of Distances Between Cities, Towns and Points of Interest

The distances shown are the most direct and traversable roads in the Primary System of State Highways.
