

I spoke to uncle Luther
about seeking unto Pella's
Place. He said that he
should not let Frost there
in any way.

I guess he wants to
get the minister to
take the place & take
care of the old Lady he
is afraid she will not
be as tough as, common
much longer. He does
not want to take her
home & take care of her

but I think we can
get the place if he don't
& he don't talk much
like it now well it is
almost chore time &
I must cut this short

I want to get to town
to night if it don't
rain to there
