Friend Lewis,

Your letter
came at hand in due time
and I was glad indeed to hear
from you I thought you
would not write at all. I
had not heard that you had
left Bridport. I am well now
We came to Putnam three weeks
ago to work. I don't like Putnam
very well. The people seem to
be so intent upon their own
selfish aims and desires that there
seem to be no feelings of
friendship for any one.
Now I think you did well to
get away from Bridport

you had more spunk than some
that live there. though Bridport
~~is~~ is not a bad place by any
means. I did not think when I
was up there last spring when you
and Cyra were talking about going
away that either of you would
go. I don't think if I had been
in Cyra's place I would have gone
back quite as soon but perhaps
he had reasons for going that
the world knows not of.

I have not heard from Bridport
in a good while don't know any
thing that is going on there.

I must go there by and by and
make the folks a short call.

Willis has been waiting for my
step father until last week.

he came down here Friday
and went to Saratoga yesterday
to visit our sister there.

You said that you went down
to No. I suppose you called
to see Mr. Post's folks and Henry
Whitford were especially
how was she pray tell. I don't
get acquainted with any girls
now have no more to do
with them no more than as if
there was no such a commodity
in the world. Some times I feel
lonesome and then again I feel gay
and festive. I wish I had my
trade well learned you would see me
getting up a dust for some other
parts of the world than VT.

I have a very pleasant room
in my boarding house and feel
just about as comfortable as I
well can now. all I lack is some
pleasant company which I do not
find here. There is a man
works & rooms with me.
