

Minutes of the Meeting of the Board of Trustees of the University of Kentucky,
Tuesday, September 17, 1968

As provided under KRS 164.170 the Board of Trustees of the University of Kentucky met in regular session on Tuesday, September 17, 1968, at 2:00 o'clock, Eastern Daylight Time, in the Board Room of the Administration Building on the campus of the University with the following members present: Governor Louie B. Nunn, Chairman; Dr. Ralph J. Angelucci, Vice Chairman; Mr. Sam Ezelle, Secretary; Mrs. Rexford Blazer, Mr. William R. Black, Mr. Smith Broadbent, Mr. Richard E. Cooper, Dr. Harry Denham, Mr. George Griffin, Mr. Robert Hillenmeyer, Mr. Robert Miller, Mr. B. Hudson Milner, Dr. N. N. Nicholas, non-voting faculty members Professor Paul Oberst and Dr. Robert W. Rudd, and non-voting student member Mr. Wallace Bryan. Former Governor A. B. Chandler and Mr. Wendell P. Butler were not in attendance. The University administration was represented by Interim President A. D. Kirwan, Vice Presidents A. D. Albright, William R. Willard, Glenwood L. Creech, Stuart Forth, and Mr. G. J. Ruschell, Business Manager, who was representing Vice President Robert F. Kerley. Members of the news media were present.

A. Meeting Opened

Governor Nunn called the meeting to order at 2:00 p.m. and, following the invocation, asked the secretary to call the roll. Mr. Ezelle reported all members present except Governor A. B. Chandler and Mr. Wendell P. Butler. The meeting was then declared officially open for the conduct of business.

B. Minutes Approved

On motion by Dr. Angelucci, seconded by Mr. Ezelle, and passed without dissent, the reading of the Minutes of the July 19, 1968 Special Meeting of the Board of Trustees was dispensed with and the Minutes were approved as published.

C. President's Report to the Trustees

President Kirwan indicated that he was following the format for meetings of the Board of Trustees as established under the administration of Dr. Oswald. He commented briefly on each item contained in PR 1. Mention was made of the appearance of presidential candidate George C. Wallace at a Convocation held on the campus on Saturday, September 14, the first candidate to accept the University's invitation to speak. Governor Nunn complimented the student body on their conduct at the Convocation and commented they had shown themselves to be responsible,

mature students. He then moved that the Board of Trustees adopt a resolution of commendation of the student body. His motion was seconded by Mr. Ezelle and passed unanimously.

Mr. Ezelle complimented the University on the progress which has been made in developing its safety program and pointed out that the savings in workmen's compensation payments for employees should more than pay the director's salary.

The Governor accepted the President's Report on activities with thanks and it was ordered filed.

D. Recommendations of the President (PR 2)

Governor Nunn explained that agenda materials had been mailed to members of the Board in advance of the meeting and that, unless there was some item which needed discussion or clarification, he would call for a motion for adoption of PR 2 as a whole. Mr. Ezelle called attention to the length of service given to the University by the three persons recommended for retirement and suggested that the Board should take cognizance of these people. Dr. Kirwan agreed to work out some means whereby the Board of Trustees could show its appreciation to persons with 30 years or more of service at the time of their retirement.

Before the motion was called for Dr. Kirwan said he wished to mention one appointment which he had made which did not appear in PR 2. This was the appointment of Dr. Stuart Forth, Director of Libraries, as Acting Vice President of Student Affairs, to serve until a permanent appointment might be made. During Dr. Forth's service as Vice President of Student Affairs, Mr. Harold A. Gordon will serve as Acting Director of Libraries.

On motion by Mr. Hillenmeyer, seconded by Mr. Ezelle, and carried, the recommendations made in PR 2 were approved as a whole and ordered made an official part of the Minutes of the September 17, 1968 meeting of the Board of Trustees. (See PR 2 at the end of the Minutes.)

E. Two New Departments Established in the Medical Center (PR 4A and PR 4B)

Dr. Willard briefly stated the need for the establishment of a Department of Oral Biology in the College of Dentistry to provide basic science teaching in the College of Dentistry in the fields of biochemistry, physiology, biophysics, pharmacology and microbiology. He added that the establishment of such a department had the approval of the basic science chairman and administrative officers of the College of Medicine. Dr. Willard further recommended that Dr. Donald E. Knapp, presently

Associate Professor in the Department of Pharmacology and Oral Surgery, be appointed as Chairman of the new Department.

The second department that Dr. Willard recommended be established in the Medical Center was a Department of Clinical Pastoral Counseling in the School of Allied Health Professions. Dr. Ralph S. Carpenter, Hospital Chaplain, has been conducting a training program of some magnitude in the field of hospital counseling which is worthy of formal recognition within the University framework.

Dr. Harry Denham strongly endorsed both recommendations and moved that a Department of Oral Biology be established in the College of Dentistry, effective September 1, 1968; that Dr. Donald E. Knapp be named Chairman of the Department of Oral Biology; and that a Department of Clinical Pastoral Counseling be established in the School of Allied Health Professions. Mrs. Blazer seconded his motion and, without discussion, the motion passed without dissent. (See PR 4A and PR 4B at the end of the Minutes.)

F. Further Activation of Organizational Plan in the College of Business and Economics (PR 5)

Dr. Albright indicated that the recommendation contained in PR 5 was merely a further implementation of an already approved organizational plan for the College of Business and Economics and recommended its approval.

On motion by Mr. Hillenmeyer, seconded by Mr. Ezelle, PR 5 was approved as presented. (See PR 5 at the end of the Minutes.)

G. Approval of Degree Candidates (PR 6)

On motion by Mr. Ezelle, seconded, and passed, the list of candidates who completed work for degrees in August was approved as presented. (See PR 6 at the end of the Minutes.)

H. Budget Revisions for 1968-69 (PR 7)

Noting that the budget revisions recommended in PR 7 resulted from increased income, Dr. Angelucci moved that they be authorized and approved. His motion was seconded by Mr. Ezelle, and passed unanimously. (See PR 7 at the end of the Minutes.)

I. Appointment of Dr. Harold Earle Swim Approved (PR 8)

Dr. Albright indicated that the recommendation that Dr. Harold Earle Swim be

appointed Professor of Microbiology and Chairman of the Department of Microbiology was an extremely important one. For the past seven or eight years the development of Biological Sciences in the University has been a prime target for the Medical Center, the College of Agriculture and the College of Arts and Sciences. The search for an outstanding person to head up this program has been a long and serious one. With the appointment of Dr. Swim to serve as Chairman, it will be possible to consolidate the present departments of Microbiology and Cell Biology into one department to be known as the Department of Microbiology. This is one of the most significant steps in this important field in the past ten years and perhaps in the next six to eight.

On motion made by Dr. Denham, seconded by Mr. Ezelle, and carried, the Departments of Cell Biology and Microbiology were consolidated into one department to be known as the Department of Microbiology and Dr. Harold Earle Swim was named Professor of Microbiology (with tenure) and Chairman of the Department of Microbiology for a six-year term subject to renewal, effective December 1, 1968. (See PR 8 at the end of the Minutes.)

J. Authorization for Cremation of Paid Bonds and Coupons (FCR 1)

Dr. Denham indicated that the Finance Committee had met prior to the meeting of the Board and had discussed and approved all items included on the agenda under the Finance Committee Report section.

The first item relative to cremation of paid bonds and coupons was routine and on motion duly made, seconded, and carried, FCR 1 was approved as presented. (See FCR 1 at the end of the Minutes.)

K. Authorization of Issuance of Community College Educational Buildings Revenue Bonds

Dr. Kirwan stated that it was in order for there to be considered a resolution authorizing the issuance of \$11,650,000 of "Community Colleges Educational Buildings Revenue Bonds, Series C," of the University of Kentucky, which would finance in part the reconstruction, construction and completion of various buildings, with appurtenances, at various Community Colleges and to declare certain Community Colleges under the Community Colleges Educational Buildings Project. He further stated that there would be considered at a later time the authorization of "Community Colleges Educational Buildings Revenue Bonds, Series D," but that sufficient grants and loan agreements are in affect with governmental agencies to assure the successful completion of the Project which is to be financed in part by such \$11,650,000 of bonds.

Thereupon, Dr. Harry Denham introduced and caused to be read in full a resolution entitled "A RESOLUTION AUTHORIZING THE ISSUANCE OF \$11,650,000

'COMMUNITY COLLEGES EDUCATIONAL BUILDINGS REVENUE BONDS, SERIES C, ' OF THE BOARD OF TRUSTEES OF THE UNIVERSITY OF KENTUCKY, " a true copy of which resolution was presented to the meeting at which such resolution was adopted, and a true copy of which resolution is attached to such minutes. Such member of the Board of Trustees thereupon moved that all rules be suspended and that such resolution be adopted, which motion was duly seconded by member Sam Ezelle, and said motion having been duly considered, the Chairman of the Board of Trustees put the question, and upon the roll being called the following voted AYE:

Governor Louie B. Nunn, Dr. Ralph J. Angelucci, Mr. Sam Ezelle,

Mrs. Rexford Blazer, Mr. William R. Black, Mr. Smith Broadbent,

Mr. Richard E. Cooper, Dr. Harry Denham, Mr. George Griffin,

Mr. Robert Miller, Mr. B. Hudson Milner, Dr. N. N. Nicholas

Mr. Robert Hillenmeyer

NAY: None. Whereupon, the Chairman of the Board of Trustees declared that such resolution had been duly adopted.

A RESOLUTION AUTHORIZING THE ISSUANCE OF \$11,650,000
"COMMUNITY COLLEGES EDUCATIONAL BUILDINGS REVENUE
BONDS, SERIES C," OF THE BOARD OF TRUSTEES OF THE
UNIVERSITY OF KENTUCKY

WHEREAS, the Board of Trustees of the University of Kentucky,
by Resolution entitled:

A RESOLUTION CREATING AND ESTABLISHING A COMMUNITY
COLLEGES EDUCATIONAL BUILDINGS PROJECT OF THE
UNIVERSITY OF KENTUCKY; CREATING AND ESTABLISHING
AN ISSUE OF COMMUNITY COLLEGES EDUCATIONAL BUILDINGS
REVENUE BONDS OF THE BOARD OF TRUSTEES OF THE
UNIVERSITY OF KENTUCKY; PROVIDING FOR THE ISSUANCE
FROM TIME TO TIME OF SAID BONDS; PROVIDING FOR THE
PAYMENT OF THE PRINCIPAL OF AND INTEREST ON SAID
BONDS AND REPEALING ALL RESOLUTIONS OR PARTS OF
RESOLUTIONS IN CONFLICT WITH THIS RESOLUTION,

adopted March 4, 1963, as amended in certain respects by a Resolution
adopted April 2, 1963 (hereinafter referred to collectively as the "Resolution"),
has created and established an issue of "Community Colleges Educational
Buildings Revenue Bonds" of the Board of Trustees of the University of
Kentucky; and

WHEREAS, the Resolution authorizes the issuance by said Board
of said Bonds in one or more series pursuant to a resolution authorizing
such series; and by a certain resolution adopted on April 2, 1963 (the
"Series A Resolution"), said Board authorized the initial series, being
\$1,200,000 "Community Colleges Educational Buildings Revenue Bonds,
Series A," dated May 1, 1963 (the "Series A Bonds"), and the same

were thereafter sold and delivered and are outstanding in the amount of \$1,070,000, without default, and without deficiency in the amount required by the Resolution and the Series A Resolution to be paid into the "Community Colleges Educational Buildings Project Bond and Interest Sinking Fund" (the "Bond Fund"); and

WHEREAS, by a certain resolution adopted on June 12, 1964 (the "Series B Resolution"), said Board authorized the second series, being \$1,000,000 "Community Colleges Educational Buildings Revenue Bonds, Series B," dated May 1, 1964 (the "Series B Bonds"), and the same were thereafter sold and delivered and are outstanding in the amount of \$919,000, without default, and without deficiency in the amount required by the Resolution and the Series B Resolution to be paid unto the "Community Colleges Educational Buildings Project Bond and Interest Sinking Fund" (the "Bond Fund"); and

WHEREAS, the Board has determined that it is in the best interests of the Board to issue at this time an additional series of Bonds to be designated "Community Colleges Educational Buildings Revenue Bonds, Series C" (the "Series C Bonds"); and it has been ascertained that the average of the annual Revenues from the Community Colleges Educational Buildings Project (the "Project"), for the two Fiscal Years immediately preceding the proposed issuance of the Series C Bonds (being the income

derived by the Board and the University during the two Fiscal Years immediately preceding such issuance, from the source established in the Resolution for the Revenues of the Project, as specifically permitted by the provisions of Section 7.10 of the Resolution), as adjusted in the authorized manner, was equal to more than 1.25 times the maximum Aggregate Principal, Interest and Bond Fund charges (a defined term), in any succeeding twelve month period ending May 1, on the Series A Bonds, the Series B Bonds and the Series C Bonds hereinafter authorized, and a statement to that effect will be filed with the Trustee by the Treasurer of said Board prior to the time of the issuance of the Series C Bonds, thereby complying with the conditions and restrictions set forth in Section 7.10 of the Resolution permitting the issuance of Bonds ranking on a basis of parity and equality with the Series A Bonds and the Series B Bonds as to security and source of payment, and in all other respects,

NOW, THEREFORE, THE BOARD OF TRUSTEES OF THE
UNIVERSITY OF KENTUCKY HEREBY RESOLVES AS FOLLOWS:

ARTICLE I - Definitions and Authority.

SECTION 1.01. This Resolution (hereinafter referred to as the "Series C Resolution") is adopted in accordance with Article II, Section 2.03 of the Resolution.

SECTION 1.02. All terms which are defined in Article I of the Resolution shall have the same meanings, respectively, in this Series C Resolution as such terms are given in said Article of the Resolution.

(B) In this Series C Resolution, Series C Bonds shall mean the Bonds authorized by Article II of this Series C Resolution.

SECTION 1.03. This Series C. Resolution is adopted pursuant to the provisions of Section 162.340, et seq., of the Kentucky Revised Statutes and the Resolution.

ARTICLE II - Authorization of Series C Bonds.

SECTION 2.01. Pursuant to the provisions of the Resolution there is hereby authorized to be issued by the Board of Trustees of the University of Kentucky in its corporate capacity, a series of Bonds in the aggregate principal amount of Eleven Million Six Hundred and Fifty Thousand Dollars (\$11,650,000.00). Such Bonds shall be designated as "University of Kentucky Community Colleges Educational Buildings Revenue Bonds, Series C." Said Series C Bonds are hereby declared to have been authorized under the Resolution and in conformity with the provisions of Section 7.10 of the Resolution.

SECTION 2.02. Said Series C Bonds are being issued for the purpose of paying the costs (to the extent not otherwise provided) of

reconstructing, erecting and completing one or more educational buildings with necessary appurtenances in the establishment of a Community College at or near 109 East Broadway in Louisville, Kentucky, which is known as the Jefferson Community College and is hereby added to and constituted a part of the "Community Colleges Educational Buildings Project" as permitted by the terms and provisions of the Resolution, of erecting and completing one or more educational buildings with necessary appurtenances in the establishment of a Community College in or adjacent to the City of Hazard in Perry County, Kentucky, and in the establishment of a Community College in or adjacent to the City of Maysville in Mason County, Kentucky, both of which Community Colleges will, when erected and completed, constitute parts of such Project, of erecting and completing one or more educational buildings with necessary appurtenances in the establishment of a new Community College plant on the new campus in or adjacent to the City of Ashland in Boyd County, Kentucky, which new building or buildings and new Community College plant will, when erected and completed, constitute parts of such Project, of erecting and completing one or more educational buildings and necessary appurtenances at the existing Community Colleges in or adjacent to the City of Elizabethtown in Hardin County, Kentucky, in or adjacent to Henderson, in Hender-

son County, Kentucky, in or adjacent to Prestonsburg in Floyd County, Kentucky, in or adjacent to Hopkinsville in Christian County, Kentucky, in or adjacent to Somerset in Pulaski County, Kentucky, and in or adjacent to Cumberland in Harlan County, Kentucky, in erecting and completing one or more prefabricated and movable academic buildings which may be used at any Community College and which may be moved from one Community College to any other or others, and in reimbursing for funds advanced in connection with completing the educational buildings at Hopkinsville and Somerset, Kentucky, which were financed in part by the issuance of \$1,000,000 of Series B Bonds dated May 1, 1964. With reference to the aforesaid prefabricated and movable educational buildings, it is covenanted that although such prefabricated and movable buildings are intended to be such as may be moved from Community College to Community College as needs arise, nevertheless the same, at whatsoever Community College the same may be located on a temporary basis from time to time, shall at all times continue to constitute parts of said "Community Colleges Educational Buildings Project," during the useful life thereof.

SECTION 2.03. The Series C Bonds shall be dated November 1,

1968, and bear interest payable May 1, 1969, and thereafter semiannually on November 1 and May 1 of each year at a coupon rate or coupon rates not exceeding the statutory maximum of six and one-half per cent (6 1/2%) per annum, the exact rate or rates of interest for said Series C Bonds to be fixed as a result of advertised sale and competitive bidding for said Series C Bonds, as hereinafter provided. Said Series C Bonds shall be numbered and scheduled to become due and payable in numerical order on May 1 of the respective years as follows:

SECTION 2.04. Said Series C Bonds shall be issued in coupon form, in the denomination of \$5,000.00, and shall be registerable as to principal only.

SECTION 2.05. The principal of and interest on said Series C Bonds shall be payable in any coin or currency of the United States of America, which at the time of payment therefor is legal tender for the payment of public and private debts, at the principal office of First Security National Bank & Trust Company of Lexington, in the City of Lexington, Kentucky, Trustee (or successor Trustee appointed pursuant to the provisions of the Resolution), or at the option of the holders of the respective Series C Bonds and coupons at the principal offices of

The Northern Trust Company, in the City of Chicago, Illinois, or of Chemical Bank New York Trust Company, in the City of New York, which are hereby appointed Paying Agents for the Series C Bonds.

SECTION 2.06. The Series C Bonds maturing May 1, 1979, and thereafter (being the Bonds numbered 280 and upwards) shall be subject to redemption by the Board in whole or from time to time in part in the inverse order of their maturities (less than all of a single maturity to be selected by lot), on any interest payment date on or after November 1, 1978, at the redemption prices, expressed in percentages of principal amount, with respect to each Bond as set forth below, plus in each case accrued interest to the date of redemption:

<u>If Redeemed</u>	<u>Redemption Price</u>
On and after November 1, 1978, and prior to November 1, 1983,	104%
On and after November 1, 1983, and prior to November 1, 1988	103%
On and after November 1, 1988, and prior to November 1, 1993	102%
On and after November 1, 1993, but prior to final maturity	101%

SECTION 2.07. Said Series C Bonds shall be executed on behalf of said Board with the reproduced facsimile signature of the Chairman of the Board and attested by the manual signature of the Secretary of the Board, and the facsimile of the corporate seal of said Board shall be imprinted thereon. Interest on said Series C Bonds

falling due on and prior to maturity shall be represented by appropriate interest coupons to be attached to each of said Series C Bonds, which coupons shall be executed with the facsimile of the official signatures of said Chairman and Secretary.

SECTION 2.08. For the purpose of securing the payment of both the principal of and interest on all the Bonds (Series A Bonds, Series B Bonds, Series C Bonds and any additional parity Bonds which may hereafter be issued and outstanding pursuant to the conditions and restrictions set forth in Section 7.10 of the Resolution), and to secure for the benefit of all the holders of said Bonds the faithful performance of the covenants and provisions contained in the Resolution in the manner and to the extent as permitted and provided in the Resolution and in Sections 162.340, et seq., of the Kentucky Revised Statutes, First Security National Bank & Trust Company of Lexington, in the City of Lexington, Kentucky, was designated in the Series A Resolution as Trustee under the Resolution for the holders of all of said Bonds, and such designation is now reaffirmed, with the powers and duties set forth in the Resolution and with no liability in connection with any action or omission to act under the Resolution except for its own negligence or willful breach of trust. Execution of the authentication certificate of the Trustee on the respective Series C Bonds

shall conclusively establish the acceptance as to such Series C Bonds by the Trustee of the trusts and provisions with respect thereto as set forth in the Resolution.

SECTION 2.09. The Series C Bonds and coupons and provisions for registration appertaining thereto and the certificate of the Trustee to be endorsed on said Series C Bonds shall be in substantially the following forms, to-wit:

(FORM OF BOND)

UNITED STATES OF AMERICA
COMMONWEALTH OF KENTUCKY
UNIVERSITY OF KENTUCKY
COMMUNITY COLLEGES EDUCATIONAL BUILDINGS REVENUE BOND
SERIES C

No. _____

\$5,000.00

The Board of Trustees of the University of Kentucky, a body corporate, as an educational institution and agency of the Commonwealth of Kentucky, for value received, hereby promises to pay, solely from the special fund provided therefor, as hereinafter set forth, to the bearer, or if this Bond be registered, to the registered owner hereof, as hereinafter provided, the sum of Five Thousand Dollars (\$5,000.00) on the first day of May, 19____ and to pay, solely from said special fund, interest thereon from the date hereof until payment of principal at the rate of _____ per cent (_____%) per annum, such interest being payable semiannually on the first days of May and November in each year, commencing May 1, 1969, except as the provisions hereinafter set forth with respect to prior redemption may be and become applicable hereto, such interest as may accrue on and prior to the maturity date of this Bond to be paid only upon presentation and surrender of the annexed coupons as they severally mature, both principal and interest being payable in any coin or currency of the United States of America which at the time of payment thereof is legal tender for the

payment of public and private debts, at the principal office of the Trustee, First Security National Bank & Trust Company of Lexington, in the City of Lexington, Kentucky, or at the option of the holder hereof or of the interest coupons hereunto appertaining, at the principal offices of The Northern Trust Company, in the City of Chicago, Illinois, or of Chemical Bank New York Trust Company, in the City of New York, New York.

This Bond is one of a duly authorized issue of Bonds designated as "Community Colleges Educational Buildings Revenue Bonds" (hereinafter referred to as the "Bonds") issued and to be issued under and in full compliance with the Constitution and Statutes of the Commonwealth of Kentucky, including among others, Sections 162.350 to 162.380, inclusive, of the Kentucky Revised Statutes, now in full force and effect, and under and pursuant to the Resolution adopted by the Board of Trustees on March 4, 1963, as amended in certain respects by a Resolution adopted on April 2, 1963 (hereinafter referred to collectively as the "Resolution") and the Series C Resolution adopted by the Board of Trustees on September 17, 1968.

As provided in the Resolution, the Bonds may be issued from time to time pursuant to separate resolutions in one or more series, in various principal amounts, may bear interest at different rates and may otherwise vary as in the Resolution provided. The aggregate principal amount of Bonds which may be issued under the Resolution is not limited except as provided in the Resolution, and all Bonds issued and to be issued under the Resolution are and will be equally secured by the pledges and covenants made herein, except as otherwise expressly provided or permitted in the Resolution.

This Bond is one of a series of Bonds of various maturities designated as "Community Colleges Educational Buildings Revenue Bonds, Series C," (herein called the "Series C Bonds") issued in the aggregate amount of \$11,650,000 under the Resolution for the purpose of financing the costs (to the extent not otherwise provided) of erecting and completing educational buildings and necessary appurtenances as parts of the Community Colleges Educational Buildings Project of said University (hereinafter referred to as the "Project"). Copies of the Resolution, the Series A Resolution, the Series B Resolution and the Series C Resolution are on file at the office of the Trustee. Reference is hereby made to the Resolution

pursuant to which First Security National Bank & Trust Company of Lexington, in the City of Lexington, Kentucky, has been designated as Trustee for the holders of the issue of Bonds of which this Bond is one and for the provisions, among others, with respect to the custody and application of the proceeds of the Bonds; the rights, duties and obligations of said Board of Trustees, and of the Trustee, and the rights of the holders of the Bonds; and by the acceptance of this Bond, the holder hereof assents to all of the provisions of the Resolution. Under authority of the statutes pursuant to which this Bond is issued, this Bond shall have all the qualities and incidents of a negotiable instrument, and subject to the provisions for registration endorsed hereon and contained in the Resolution, nothing contained in this Bond or in the Resolution shall affect or impair the negotiability of this Bond.

The holder of this Bond shall have no right to enforce the provisions of the Resolution or to institute action to enforce the covenants therein, or to take any action with respect to any default under the Resolution, or to institute, appear in or defend any suit or other proceedings with respect thereto, except as provided in the Resolution. The Resolution provides for fixing, charging and collecting fees for the services of said Project, which fees will be sufficient to pay the principal of and the interest on said Bonds as the same become due and to provide reserves for such purposes and also to pay the costs of operation and maintenance of the Project to the extent the same are not otherwise provided. The Resolution provides for the creation of a special account designated "Community Colleges Educational Buildings Project Bond and Interest Sinking Fund" (herein called the "Bond Fund") and for the deposit to the credit of said Bond Fund of a fixed amount of the gross Revenues of said Project to pay interest on the Bonds as the same become due and to pay or retire the principal of the Bonds at or prior to the maturity thereof, and to provide a reserve for such purpose, which Bond Fund is pledged to and charged with the payment of said principal and interest.

The issue of Series C Bonds of which this Bond is one and all other Bonds as may be outstanding from time to time under the Resolution, are payable only from a fixed amount of the gross Revenues derived from the operation of said Project which will be set aside in said Bond Fund, and this Bond does not constitute an indebtedness of the University of Kentucky or of its Board of Trustees or of the Commonwealth of Kentucky within the meaning of any provisions or limitations of the Constitution of the Commonwealth of Kentucky.

The Series C Bonds maturing May 1, 1979, and thereafter (being the Bonds numbered 280 and upwards) shall be subject to redemption at the option of the Board of Trustees in whole or from time to time in part in the inverse order of their maturities (less than all of a single maturity to be selected by lot), on any interest payment date on or after November 1, 1978, at the redemption prices, expressed in percentages of principal amount, with respect to each Bond as set forth below, plus in each case accrued interest to the date of redemption:

<u>If Redeemed</u>	<u>Redemption Price</u>
On and after November 1, 1978, and prior to November 1, 1983-----	104%
On and after November 1, 1983, and prior to November 1, 1988-----	103%
On and after November 1, 1988, and prior to November 1, 1993-----	102%
On and after November 1, 1993, but prior to final maturity-----	101%

In the event the Board of Trustees shall exercise its option to redeem any of the Series C Bonds of which this Bond is a part, notice of such redemption identifying the Bonds to be redeemed will be given to the Trustee at least forty-five (45) days prior to the specified redemption date and such notice shall be published at least once not less than thirty (30) days prior to the specified redemption date in a newspaper or financial journal of general circulation published in each of the Cities of Louisville, Kentucky, and New York, New York. Any Bonds called for redemption and for the payment of which funds are deposited with said Trustee on the specified redemption date shall cease to bear interest on said redemption date.

This Bond shall pass by delivery unless registered as to principal on the books of said Board of Trustees at the office of the Trustee under the Resolution, and such registration noted hereon, after which no valid transfer hereof shall be effective unless made on said books and similarly endorsed hereon at the written request of the registered holder or his duly authorized representative, but this Bond may be discharged from registration by being in like manner registered to bearer whereupon full negotiability and transferability by delivery shall be

restored but may again from time to time be registered as aforesaid. Such registration, however, shall not affect the negotiability of the interest coupons which shall always remain payable to bearer and transferable by delivery merely. The Board of Trustees, the Trustee, and the Paying Agents may treat the bearer of this Bond, if not registered as to principal, and the bearer of any coupon hereto appertaining, whether or not this Bond be so registered, or if this Bond be registered as herein authorized, the person in whose name the same is registered, as the absolute owner for the purpose of making payment and for all other purposes.

A statutory mortgage lien (except upon educational buildings and appurtenances which may be leased rather than owned by the University), which is hereby recognized as valid and binding on said Project is created and granted to and in favor of the holder or holders of this Bond and the issue of Bonds of which it is one, and in favor of the holder or holders of the coupons attached thereto, and said Project shall remain subject to such statutory mortgage lien until the payment in full of the principal of and interest on this Bond and the issue of Bonds of which it is one.

This Bond shall not be valid or become obligatory for any purpose, or be entitled to any security or benefit under the Resolution, until it shall have been authenticated by the execution by the Trustee of the certificate hereon endorsed.

It is hereby certified, recited and declared that all acts, conditions and things required to exist, to happen, and to be performed, precedent to and in the issuance of this Bond do exist, have happened, and have been performed in due time, form and manner as required by law, and the amount of this Bond, together with all other obligations of said Board of Trustees and of said University of Kentucky, does not violate any provision or exceed any limit prescribed by the Constitution or Statutes of Kentucky; that said Project will be continuously operated, and that sufficient portion of the gross Revenues therefrom has been pledged to and will be set aside into said Bond Fund for the payment of the principal of and interest on this Bond and the issue of which it is one, and all other bonds which by their terms and the terms of the Resolution are payable from said Bond Fund, as and when the same will respectively become due.

IN TESTIMONY WHEREOF, the Board of Trustees of the University of Kentucky has caused this Bond to be executed on its behalf by the reproduced facsimile signature of its Chairman, and the facsimile of its corporate seal to be imprinted hereon, attested by the manual signature of its Secretary, and the coupons hereto attached to be executed with the facsimile signatures of said Chairman and Secretary, all being done as of the first day of November, 1968.

SECTION 2.10. The Secretary of the Board is hereby authorized and directed to cause an appropriate form or forms of a notice of sale of the Series C Bonds to be published in The Courier-Journal, a legal newspaper published in the City of Louisville, Kentucky, which will afford statewide notice of the sale and in The Daily Bond Buyer, a financial journal published in the City of New York, New York, which is a publication having general circulation among bond buyers, and said newspaper and financial journal are hereby declared to be qualified to publish such notice for the Board of Trustees within the meaning and provisions of KRS Chapter 424. Such notices shall be published in said newspaper and financial journal at least once and shall appear not less than seven days nor more than twenty-one days prior to the scheduled date of sale of said Series C Bonds. Such notice shall be in the customary form and shall specify that sealed competitive proposals for the purchase of such Series C Bonds shall be received at a designated place and until some day and hour when the Board, or its Executive Committee (which is hereby expressly authorized to act in receiving, opening, considering and accepting or rejecting purchase bids, if such bids are received on or before November 1, 1968), will be in session. A minimum bid of 98% of par plus accrued interest shall be required. The right to reject any

or all bids shall be expressly reserved. On the occasion set forth in such notice, the Board, or its Executive Committee, as the case may be, shall consider all proposals made pursuant to such notice, award the Series C Bonds in the manner and for the purposes herein provided, establish the interest coupon rate or rates which the Series C Bonds shall bear, and take all other necessary and proper steps in the sale and issuance of the said Series C Bonds.

An "Official Bid Form" and a "Notice of Sale of Bonds" having been prepared by Bond Counsel and said documents having been examined by the Board, the same are hereby approved, and the Secretary is directed to complete the said "Notice" and to publish it as provided herein upon receipt of advice from the Fiscal Agents of the most appropriate dates for advertisement, sale, and delivery.

The Secretary may cause to be prepared multiple copies of a statement giving a more complete and particular description of the Series C Bonds, provisions for the security and payment thereof, disposition of bond proceeds and other information that is not possible to give within the limits of the published notices, and furnish copies of such statement to all interested bidders upon request. Such statement may contain a particular description of the terms and conditions upon which the Series C Bonds are offered for sale, in order to bring about

uniformity in the proposals which may be submitted for the purchase of said Series C Bonds.

If it should be determined by the President of the University of Kentucky and the Chairman of its Board of Trustees prior to the publication of such notice of sale of such Series C Bonds that for any reason it is necessary or desirable that any changes be made in the resolution authorizing such bonds, the Secretary of the Board of Trustees is hereby authorized, only upon the direction of such President and such Chairman, with the assistance of the Fiscal Agents for the University in connection with the issuance of such bonds, and the Bond Counsel to prepare the necessary amendatory resolution or a resolution which may be substituted for this Resolution, and distribute the form of same to prospective bidders for such bonds and to publish a notice of sale of such Bonds and to distribute information to such bidders as to such Bonds, all consistent with the form of such amendatory resolution or such resolution which may be substituted for this Resolution, and such amendatory resolution or resolution to be adopted in substitution for this Resolution may be presented to the Board of Trustees or its Executive Committee for consideration and adoption at any time prior to the stated hour advertised for the opening of bids for such Bonds, without the necessity of such resolution being adopted prior to the publication of such notice

of sale or the distribution of such information to such prospective bidders.

SECTION 2.11. There is hereby established in the State Treasury of the Commonwealth a Construction Account to be designated "University of Kentucky Community Colleges Educational Buildings Project-Bond Proceeds Series C Construction Account." Immediately upon the issuance, sale and delivery of the Series C Bonds all sums received as accrued interest together with a sufficient portion of proceeds from the sale of the Series C Bonds equal in the aggregate to all interest to accrue on said Series C Bonds to and including May 1, 1970, shall be deposited by the Treasurer in the Bond Fund and which amount is hereby determined by the Board as necessary to pay the interest on the Series C Bonds during the erection, reconstruction and completion of the educational buildings for account of which said Series C Bonds are herein authorized. The balance of the bond proceeds shall be transmitted by the Treasurer to the Treasurer of the Commonwealth with advice that the same is tendered for deposit in said Construction Account and shall be disbursed by the Treasurer of the Commonwealth according to such inspection, audit and disbursement procedure as may from time to time be provided by law for the purpose of paying the costs (to the extent not otherwise provided) of erecting, reconstructing and completing the educational buildings and

necessary appurtenances as identified in Section 2.02 of this Series C Resolution in accordance with the approved plans and specifications therefor and for reimbursing for funds advanced in connection with completing the educational buildings at Hopkinsville and Somerset, Kentucky, and only upon certification of the Architect or Engineer having supervision of construction, as to each disbursement, that the amount thereof has been duly earned by and is payable to the designated party or parties for materials, services and/or labor furnished pursuant to proper contract duly awarded therefor. Any balance remaining in said Construction Account after the erection, reconstruction and completion of said educational buildings and the payment of all costs in connection therewith shall be deposited in the Bond Fund; provided, however, that if proceedings are then pending or immediately contemplated for the construction, reconstruction, completion (or, to the extent permitted by law, the discharge of encumbrance) of one or more additional educational buildings, which are or will be financed by issuance of additional Series Bonds pursuant to the Resolution, and which building or buildings constitute or will constitute a part of the Community Colleges Educational Buildings Project, any such unexpended balance may be taken into account in determining the amount of Bonds to be authorized therefor, or may

otherwise be applied to the proper costs thereof, in which event such unexpected balance may, upon authority of the Board be transferred to the Series Construction Account thereof.

Certain funds have been advanced and in the future may be advanced to the "Series C Construction Account", herein established, from other sources, not including the United States Government or any of its agencies, and to the extent that such funds have been or in future may be so advanced for the completion of the Project herein authorized, the right is reserved to re-pay any such advances from the proceeds of this or any future series of "Community Colleges Educational Buildings Revenue Bonds" which may hereafter be issued in accordance with the formula prescribed in the Resolution of the Board of Trustees of the University of Kentucky which was passed on March 4, 1963 (as amended by the Resolution of April 2, 1963) and which created and established the Community Colleges Educational Buildings Project of the University of Kentucky.

SECTION 2.12. The revenues which are pledged for the payment of the Series C Bonds herein authorized are the revenues as provided in the Resolution; Registration Fees for students registered at the Community Colleges which are a part of the Project, are pledged for the payment of such bonds without deduction for Student Union Fees, Student Activity Fees

or otherwise, pursuant to action of the Board of Trustees which action was duly submitted to and approved by the Council on Public Higher Education in Kentucky at meetings held on January 3, 1967, April 1, 1968, and July 1, 1968.

SECTION 2.13. A certified copy of the Resolution and a certified copy of this Series C Resolution shall be filed with the Trustee and this Series C Resolution shall take effect immediately upon its adoption and the filing of the certified copy thereof with the Trustee.

NOTICE OF SALE OF BONDS

\$11,650,000

UNIVERSITY OF KENTUCKY

COMMUNITY COLLEGES EDUCATIONAL BUILDINGS REVENUE BONDS
SERIES C

The Board of Trustees of the University, in its corporate capacity, and as an educational agency and instrumentality of the Commonwealth of Kentucky hereby gives public notice that until the _____ day of October, 1968, at the hour of _____ M., Eastern Daylight Saving Time, it will receive at the office of the President, University of Kentucky, Lexington, Kentucky, sealed competitive bids for the purchase of its \$11,650,000 "Community Colleges Educational Buildings Revenue Bonds, Series C," dated November 1, 1968, being negotiable, coupon revenue bonds in the denomination of \$5,000 each, registrable as to principal only, and maturing as to principal serially in various amounts on May 1 in each of the years 1970 to 2003, inclusive, provided, however, that the bonds maturing May 1, 1979, and thereafter will be subject to prior redemption at the option of the Board of Trustees on any interest payment date (November 1 and May 1) on or after November 1, 1978. The maturity schedule and terms of redemption are set forth in the "Official Statement" to which reference is hereinafter made. Principal and interest will be payable at the office of the Trustee, First Security National Bank and Trust Company of Lexington, Kentucky, or, at the option of the holders, at The Northern Trust Company, Chicago, Illinois, or at the principal office of the Chemical Bank New York Trust Company, New York, New York.

The Board of Trustees has, by resolution, created its "Community Colleges Educational Buildings Project" comprising all educational buildings now existing and hereafter erected in connection with the Community Colleges of the University which by action of the Board of Trustees are made parts of the Community Colleges Educational Buildings Project and are elsewhere than in Fayette County, Kentucky, with the exception of housing buildings and facilities and all buildings exclusively for athletics, as distinguished from those which are, or may be, wholly or principally for physical education; and has pledged the revenues thereof consisting of student registration fees without deduction for Student Union Fees, Student Activity Fees or otherwise imposed upon and collected from all students attending the Community Colleges of the University which have been or from time to time may be made parts of the University's Community Colleges Educational Buildings Project, for the services furnished thereby. The bonds have been authorized and will be issued pursuant to authority of Sections 162.340, et seq., of the Kentucky Revised Statutes and a Series Resolution duly adopted by the Board of Trustees; and will be additionally secured by a statutory mortgage lien upon all buildings comprising the said Project, except in the case of buildings which are leased rather than owned by the University.

All bids shall be for the purchase of not less than the total \$11,650,000 issue of bonds at a price of not less than \$11,417,000 (98% of face amount) and accrued interest to delivery, such interest to be at the rate or rates specified in the successful bid in multiples of 1/8 or 1/10 of 1%, none to exceed 6 1/2% per annum, not more than one coupon rate

per maturity, not more than a total of five different coupon rates, although the same rate may be repeated, such that the interest cost to the University, computed upon the price offered, shall not exceed 6 1/2% per annum, no greater than 1% differential between the highest and lowest coupon rate specified in any bid, and such interest being payable May 1, 1969, and semiannually thereafter on the first days of November and May of each year. Bids are required to be submitted on the Official Bid Form furnished by the Board, and each bid must be accompanied by an unconditional certified or cashier's check on a state or national bank for \$233,000 payable to the order of the Treasurer of the University of Kentucky, and each bid must be enclosed in a sealed envelope marked "Proposal for Bonds." The Board will not entertain any bid which proposes that interest becoming due at any semiannual interest payment date be represented by more than one coupon. The bonds will be awarded to the bidder whose bid produces the lowest net interest cost to the University, subject to the reserved right to reject any or all bids.

Award or rejection of bids will be made on the date above stated for the receipt of bids and checks of the unsuccessful bidders will be returned immediately. The check of the successful bidder will be held uncashed as security for the performance of the bid as accepted, but in the event the successful bidder shall fail to comply with the terms of said bid the check may then be cashed and the proceeds thereof retained as and for agreed liquidated damages. If it shall be found impossible by the Board to issue and deliver the bonds the check will be returned.

The Board of Trustees will provide at delivery, without expense to the purchaser, the prepared and executed bonds, the customary closing documents, including the non-litigation certificate, and the unqualified approving legal opinion of Skaggs and Hays, Louisville, Kentucky. Delivery of the bonds will be made in New York, New York, Chicago, Illinois, Cincinnati, Ohio, or Louisville, Kentucky at the expense of the Board. It is anticipated that delivery will be made within 45 days from the date of sale. The offering is made upon the basis that at the time of delivery the receipt of interest on other similar bonds is exempt from Federal and Kentucky income taxation; and that at such time the bonds are exempt from all ad valorem taxation in Kentucky. The right to reject bids is expressly reserved.

Copies of the Official Statement and of the Official Bid Form may be obtained by addressing the President of the University at Lexington, Kentucky; W. E. Hutton & Co., 267 West Short Street, Lexington, Kentucky; or Security & Bond Company, Incorporated, N. E. Corner of Short & Mill Streets, Lexington, Kentucky.

Dr. ~~Denham~~ moved, seconded by Mr. Hillenmeyer, and passed that the resolution as presented be adopted and approved.

M. Summary of Audit Report for the University of Kentucky
for 1967-68 Accepted (FCR 3)

Mr. Ruschell, representing Mr. Kerley, called attention to typographical error on the balance sheet in the Accountants' Report. Under Fund Balances the amount for encumbrances should be \$148,715 and inventories should be \$183,902. The two figures were reversed.

On the recommendation of the Finance Committee that the Summary Audit

Report be accepted with the above noted corrections, it was so moved, seconded, and carried. (See FCR 3 at the end of the Minutes. The Audit Report is not included in the Minutes but a copy is on file.)

N. Depository Account Established for Madisonville Community College (FCR 4)

Without discussion the motion was made, seconded, and carried, that the recommendations contained in FCR 4 be approved. (See FCR 4 at the end of the Minutes.)

O. Approval of Contract with Wachovia Services, Inc. (FCR 5)

The Finance Committee recommending, on motion duly made, seconded, and carried, the contractual arrangement with Wachovia Services, Inc. was approved. (See FCR 5 at the end of the Minutes.)

P. Transfer of Funds - Capital Construction (FCR 6)

On motion by Mr. Ezelle, seconded, and passed, the transfer of \$142,745 from the Parking and Traffic Control account to the Capital Construction account-- Parking Structure #1--was approved. (See FCR 6 at the end of the Minutes.)

Q. Appropriation for Bus Service (FCR 7)

On motion by Dr. Denham, seconded by Mr. Ezelle, and passed without dissent, the establishment of campus bus service was approved and \$46,000 was appropriated from the Parking and Traffic Control account to finance the service. (See FCR 7 at the end of the Minutes.)

R. Room Rates for Professional Students (FCR 8)

On motion made, seconded, and carried, room rates for professional students were established at \$470 per year for double occupancy or \$590 per year for single occupancy. (See FCR 8 at the end of the Minutes.)

S. Approval given to Student Teacher Agreements with Public School Systems (FCR 9)

On motion, and second, approval was given to the student teacher agreements between the College of Education and certain public school systems for the 1968-69 academic year. (See FCR 9 at the end of the Minutes.)

T. President Authorized to Obtain Necessary Access Rights to Jefferson Community College Property.

Dr. Denham asked Mr. John Darsie, the University's Legal Counsel, to present one additional item which did not appear on the agenda. Mr. Darsie read the following recommendation and background statement:

Recommendation: that the President be authorized to take the necessary actions to insure that an unobstructed passageway suitable for use by motor vehicles is maintained from Brook Street to the rear of the Seminary Building at the Jefferson Community College over and upon the alleyway presently known as "Pin Alley".

Background: The alley known as "Pin Alley" is presently being closed as a part of the site preparation for the next phase of construction at the Jefferson Community College. Upon completion of the closing of the alley, ownership reverts to the adjoining property owners. This action is to enable the President to obtain the necessary access rights from the service entrance at the Seminary Building to Brook Street, either by way of purchase or through exercise of the power of eminent domain.

Dr. Denham moved approval of the above recommendation. His motion was seconded by Mr. Ezelle, and passed.

U. Meeting Adjourned

Governor Nunn, having first determined there was no further business to come before the meeting, called for a motion for adjournment. The motion was made, seconded, and carried, and the meeting adjourned at 3:00 p. m.

Respectfully submitted,

Sam Ezelle
Secretary, Board of Trustees

(PRs 2, 4A, 4B, 5, 6, 7 and 8 and FCRs 1, 3, 4, 5, 6, 7, 8 and 9 which follow are official parts of the Minutes of the meeting of the Board of Trustees on Tuesday, September 17, 1968.)

PR 1

PRESIDENT'S REPORT TO THE TRUSTEES

September 17, 1968

1. FALL STUDENT ENROLLMENT IS 26,450

A total of 26,450 students have enrolled for the University's fall semester, Dean of Admissions Elbert W. Ockerman announces. The figure represents 15,445 on the Lexington campus; 9,570 in the 14 community colleges, and 1,435 in the evening class program. Still to be included in the final figure are Kentuckians who will enroll in extension classes throughout the state, predicted to reach 2,300 this year. Enrollment on the Lexington campus, Dr. Ockerman said, is up 5 per cent over last fall's registration figure of 14,737. A breakdown by colleges and schools shows: Graduate School, 1,846; Law, 439; Arts and Sciences, 8,191; Agriculture, 276; Engineering, 527; Education, 1,601; Business and Economics, 635; Pharmacy, 169; Nursing, 89; Architecture, 135; Allied Health, 90; Home Economics, 144; Lexington Technical Institute, 195; Medicine, 303, and Dentistry, 185. (620 late registrants are not yet classified). Dean Ellis Hartford reports enrollment in the community colleges is nearly double last year's 5,662 students. Part of the increase is due to the opening of five new campuses. The 14 campuses show: Ashland, 989; Elizabethtown, 585; Fort Knox, 367; Hazard, 160; Henderson, 663; Hopkinsville, 401; Jefferson, 2,167; Madisonville, 200; Maysville, 243; Northern at Covington, 1,364; Paducah, 1,055; Prestonsburg, 418; Somerset, 493; Southeast at Cumberland, 456.

2. \$50,000 FROM GOVERNOR'S FUND AIDS STUDENT LOAN PROGRAM

Gov. Louie Nunn has made available \$50,000 in state funds to the Kentucky Higher Education Assistance Authority, which will be deposited with United Student Aid Funds, Indianapolis, to guarantee student loans to Kentucky residents who plan to attend college. The deposit will enable the students to borrow up to \$500,000 through home-town lending agencies. Jim Ingle, administrator of Student Financial Aid, said a large number of applications had been received for such loans through the last week of August, and that 75 to 100 students were aided and have received their checks. He says the money "will assist several UK students who otherwise could not have afforded to attend college." The emergency problem in Kentucky was created by a delay in pending legislation before the Congress.

3. BUS SERVICE EXPECTED TO ALLEVIATE CONGESTION

The University has begun a campus bus service to help meet the problem of an increasingly critical shortage of campus parking space. The campus-wide service, planned by F. G. Dempsey, chief of safety and security; Robert F. Kerley, vice president-business affairs, and George J. Ruschell, business manager, will be in operation throughout the school year. It began operation Monday, August 26. Two buses, painted in the University colors of blue and white, take passengers from a remote parking lot off Cooper Drive to points within easy walking distance of all campus buildings. The round trip covers a little over 4 miles in 20 minutes and is in operation from 7:30 a.m. to 5:30 p.m. One bus meets the same schedule, until 10:30 p.m. The 980-car lot--situated on the south side of Cooper Drive near University Drive--will be utilized more extensively and its use encouraged for those who work on campus. Without the service, the parking situation would remain tight despite the construction of two new parking facilities, Dempsey said. One of the garages, at University and Cooper Drives, is under construction and the site is being prepared for a second at Rose and Clifton Streets. A third is planned at Euclid and Harrison, and is to open in 1970. The loss of parking space to new construction and normal substantial traffic growth, however, still will leave inadequate parking areas.

Currently, the University has 7,371 parking permits outstanding for 5,629 parking spaces, exclusive of 422 spaces reserved for visitors, service vehicles and miscellaneous uses. Aside from the bus service, Dempsey is taking other steps to maximize available campus parking for legitimate users. Through data processing, for example, Safety and Security last year recovered \$36,000 which otherwise would have been lost through non-payment of parking permit fees. Safety and Security also would like to rid itself of the "distasteful" job of impounding illegally parked cars and Dempsey believes this could be accomplished in large measure by the use of gates to campus parking areas. Under consideration is a procedure by which holders of valid parking permits could use ID cards to open the gate to a parking area; others would pay a fee. Authorized curb parking would not be affected. At present, campus officers maintain a list of flagrant parking violators--those who have ignored citations for illegal parking--and their cars are impounded when found on campus. The University joins several other large institutions in the U.S. which have adopted bus service as a means of reducing motor on main campuses. Maps with tentative routes are being distributed.

4. UNIVERSITY HAS 72,000 EMERGENCY SHELTER SPACES

In cooperation with Civil Defense authorities, the University has developed plans to provide shelter spaces for 72,000 persons and offer other major assistance in any natural or man-made disaster. Twenty-two of 40 University shelters providing two-thirds of the total spaces already have been provisioned with food and medicine and anti-looting and medical care procedures have been established. There are no reserved shelter spaces. Should disaster occur, the closest space an individual can find is his. In the event of disaster, the Safety and Security staff headed by F. G. Dempsey would flash word to Robert F. Kerley, vice president for business affairs, or to George J. Ruschell, business manager. If it were decided that "take over" action was necessary, an emergency Operations Center, now established on a stand-by basis, would become fully operational and would alert all college deans and administrative heads. Their offices would spread the warning, using the University telephone system as emergency alert circuits. The Medical Center, together with other hospitals in the Lexington area, would cooperate in an Emergency Medical Service. This would provide for mass medical care of patients injured or ill in a disaster.

5. SURVEY REVEALS WHY STUDENTS CHOSE THE UNIVERSITY

Why do students choose to attend the University? A recent survey reveals most do so for the courses offered and the recognized academic prestige of the institution. This was the conclusion of a study by the admissions office, which sought to determine factors influencing students to choose a particular college or university--specifically UK--for the purpose of revising University public relations materials. "The number one reason a student in the upper part of his high school graduating class (a grade average of at least 3.0 or B) makes a particular college choice is to enroll in his desired curriculum," Ray Fore, research assistant, reports. Second on the list is financial reasons. Third in importance to students choosing a college is the prestige of the school. "The results indicate that the image of UK as projected to the prospective student is an academic one," Fore writes.

The entering freshmen indicated they had a "long time desire" to attend the University. Among those who most influenced their choice in schools were, first, parents. Then came University publications and close friends. Lesser influences were teachers and counselors. The survey found, Fore said, that materials which stress the reputation of the athletic teams will not attract the better student. "It is evident the University has an obligation to prospective students to not only emphasize academic excellence, but to project a more lucid image of academic offerings and requirements." Fore's study was based on answers from 400 students accepted by UK for the fall 1967 semester.

6. DEVELOPMENT SERVICES AID TO BUSINESS EXPANDING

A major reason for Kentucky business failures or marginal success is "lack of experienced management," says Dr. H. K. Charlesworth, director of the Office of Development Services, in an article prepared for a forthcoming issue of the Alumni Association quarterly magazine, "The Kentucky Alumnus." In the year since the University office was established under the sponsorship of the U.S. Economic Development Administration, the Kentucky Department of Commerce, and the College of Business and Economics, Dr. Charlesworth and his staff of management consultants have been in contact with many Kentucky small businesses. The consultants often find that the owner-manager is a man of considerable ability. His energies are necessarily devoted to production, however, and, as his business expands, he finds himself increasingly involved with problems of marketing, accounting and finance for which his previous experience has not prepared him. Unlike his larger competitors, he cannot afford a trained managerial staff and is unable to hire a professional counseling firm. The office's Technical Assistance to Business Program, established to fill this need by providing free management advice to small and medium-size Kentucky firms, is seeking to stimulate Kentucky's economic growth and development.

Dr. Charlesworth's office has held a variety of conferences, has conducted an input-output study and has begun a publications program. A pilot technical assistance program was initiated in May in five Big Sandy area counties -- Floyd, Johnson, Magoffin, Martin and Pike -- and four counties in the East Lake Cumberland area -- Clinton, Wayne, McCreary and Pulaski. The program will be expanded during this year to include Boyd, Carter, Elliott, Greenup and Lawrence Counties in Northeast Kentucky and Adair, Casey, Cumberland, Russell and Taylor Counties in the West Lake Cumberland area. By 1970, the program will serve 60 counties designated by the Economic Development Administration and by 1971, will operate in all counties of the Commonwealth. Any business firm in the counties served is eligible to request technical assistance under the program. Preference is given, however, to small firms that do not have the resources to finance the services of private professional consultants.

7. DENTAL SCHOOL ALUMNI NAME FIRST OFFICERS

The College of Dentistry Alumni Association has named its first slate of officers: Dr. John Frick (1967), Laurel Bay, South Carolina, is president; Dr. Pete Armstrong (1968), Lexington, vice president; Dr. Bill Wayman (1966), Warner Robbins, Georgia, secretary, and Dr. Lal Rankin (1966), Florence, is treasurer. Dr. Oakie Newsome (1966), Lexington, is the dental alumni's representative to the University Alumni Association. All five are native Kentuckians and will hold office for a year.

8. \$300,000 GRANT GETS POLLUTION STUDY PROGRAM STARTED

The College of Engineering is initiating a program which -- it is hoped -- will go a long way in keeping Kentucky's atmosphere clean. Beginning this fall, a master's degree program in air pollution control, financed by a \$300,000 grant from the U.S. Public Health Service and the National Center for Air Pollution Control (NCAP), is being offered by the Departments of Chemical, Mechanical and Civil Engineering. The twelve-month program, under the direction of Dr. Robert B. Grieves, chairman of the chemical engineering department, Prof. O. W. Stewart of mechanical engineering, and Dean Robert M. Drake Jr., is open to undergraduate majors in chemical, mechanical or civil engineering as well as those studying chemistry and mathematics.

"We now have three full-time students and several part-time students in the program," Dr. Grieves said. "Plans are under consideration for a similar program leading to a doctorate in chemical engineering, beginning in 1970." Kentuckians receiving traineeships include John W. Sullivan, Frankfort, and Robert E. Hall, Lexington. Dr. Robert W. J. Brett, formerly with the Illinois Institute of Technology, Chicago, and recently appointed assistant professor in the department, will specialize in air pollution. Dr. Grieves explained that the purpose of the program is to train engineers to solve air pollution problems in the Commonwealth. "Such problems are beginning to appear in such industrial areas as Louisville, Ashland, and Calvert City," he said. Courses in the new field include studies of atmospheric chemistry, meteorology, the interaction of water and air, air sampling analysis, air cleaning, and the legal and administrative aspects of controls. Dr. Grieves said the demand for air pollution specialists "is great -- especially in industry. Graduates in our program may choose to work for municipal, state or federal control agencies, but most important, we hope they will stay in Kentucky."

9. THAI AMBASSADOR VISITS CAMPUS

Thailand's ambassador to the United States, Bunchanna Atthakor, attended a dinner on August 21 in honor of 11 Thai students studying English and receiving general orientation at the University. During the dinner at Spindletop Hall the Thais received certificates of achievement for their summer work. Guests included Executive Vice President and Mrs. A. D. Albright. The Center for Developmental Change is in charge of the Thai program. The Thais have been taught this summer by Edith Mongan and Larry Perkins, both graduate students in English. Nine of the students will remain here for graduate work during the coming year; one will study forestry at the University of North Carolina, and another will study management of fisheries at Alabama Polytechnic Institute. Eleven other Thai students who have been studying here during the past academic year will remain another year to complete their studies. The ambassador, accompanied by his secretary, Danai Tulalamba, returned to Washington the next day.

10. CORRESPONDENCE PROGRAM CHANGES NAME, APPROACH

Dr. Denver Sloan, reporting on the Independent Study Program (ISP) -- the new name for the Correspondence Study Unit, says an individual may earn up to 25 per cent of the credit hours required for a baccalaureate degree through ISP. For high school dropouts, he says, the program offers courses permitting students to supplement or accelerate their high school education or to make up deficiencies which prevented them from receiving a diploma. The fee for college courses is \$14 per semester hour plus a \$2 service charge; the fee for high school courses of one-half credit is \$22, plus the \$2 service charge. For Kentucky ISP degree candidates, final examinations are given at 36 examination centers over the state. High school students take final exams under the supervision of the high school principal who is to accept the credit.

Discussing reasons for changing the name of the study program from "correspondence" to "independent," Dr. Sloan, ISP director, said they were threefold: the new title should provide opportunities for program growth and development not possible under the former designation; the new name is a more precise description of the activity, since a student is not confined to correspondence but is studying independently from a prepared study guide and doing supplementary reading from textbooks and other reference sources; the new name may open channels for multi media in study course development.

Examples of media other than correspondence are the electrowriter and educational television. The electrowriter permits two-way telephone conversation between a professor on the Lexington campus and students at a designated distant point, perhaps in one of the community colleges. Coincidentally, the professor may outline problems, draw diagrams or illustrate points on a blackboard which can be seen on a screen at the point of reception. Dr. Sloan hopes some courses may be adapted for Kentucky's new ETV network and that these can be included in the study guides sent ISP students. Also, veterans and those in the Armed Forces are eligible for independent study with the U.S. Armed Forces Institute, with the Veterans Administration paying part of the cost. ISP enrollment for July showed several veterans and the following breakdown of other enrollees: college students, 1,900; high school students, 500, and Armed Forces participants, 900. Besides the courses given for credit, Independent Study offers a number of non-credit courses for persons who wish to increase their knowledge in specific fields.

11. TESTING SERVICE GIVES 40,000 TESTS ANNUALLY

Approximately 40,000 tests are administered annually by the Counseling and Testing Service, although not all the tests are given to UK students, Thomas C. Greenland, assistant administrator, reports. He said tests often are given to college students for other institutions, as well as to non-college students at local beauty schools, for the Fayette County Patrol, the Bell Telephone Company, and other agencies that require admissions tests. "We frequently assist companies that need psychological tests given to individual employees before they can be considered for promotion," Greenland said. The company will contact a psychological testing center, which in turn will ask the Testing Service to administer the individual tests.

Greenland said more people are trying to enter professional and graduate schools which require admissions tests.

Tests given by the center can be classified in several categories:

-- special tests -- given free of charge -- for UK students who come to the Counseling Center for help. "Students primarily use the Center for one or more of three reasons: academic, vocational, and/or personal." If a student is undecided about a career, special vocational tests are available that can suggest areas for which he is suited.

-- institutional group testing. The service administers three research tests to all new students used to evaluate attitudes, habits and academic ability. Data gathered from such tests, Greenland says, are vital in upgrading the educational standards of the school, "by discovering the major needs and expectations of the new students, and formulating policies to meet these needs." Other tests in this category include the Graduate Record Examination, required of all graduating seniors and all entering graduate students; the undergraduate foreign language placement examination for students who have had a foreign language in high school and who now wish to take the same language in college, and the graduate foreign language proficiency examination, required by most colleges for advanced degrees.

-- to non-UK students. Greenland said most universities and colleges require for admission either the American College Test or the College Board Exams. The UK service works with other institutions to give these tests on determined dates to anyone in the area -- standardized tests given all over the world on specified dates.

-- a reciprocal service with other institutions, the General Educational Development tests, and a sort of miscellaneous grouping of tests.

12. FACULTY GROUP LAYS GROUND WORK FOR ECUADOR COOPERATION

Four faculty members were in Quito, Ecuador, the first week in August for a series of intensive planning sessions with officials of the Central University of Ecuador, the Ecuadorian Ministry of Education, and other educational institutions. The purpose was to make formal negotiations possible between UK and Central University regarding cooperative programs between the two institutions, so that proposals can be drawn up regarding financial aid from outside agencies. The four faculty members were Prof. David K. Blythe, chairman of the Department of Civil Engineering; Dr. Stanley Wall, associate dean, Community College System; Dr. James P. Noffsinger, professor of architecture, and Dr. Ralph W. Eichenberger, chairman of the Department of Community Medicine, according to Dr. Willis H. Griffin, director of the UK Office for International Education programs.

Dr. Griffin and several faculty members have been active in the Kentucky Progress Committee of the Partners of the Alliance for Progress -- Aid for International Development. The director explained that he and Dr. Henry F. Dobyns, chairman of the Department of Anthropology, visited officials in Ecuador in April regarding preliminary plans for the program. Upon their return, they discussed the matter with various deans and departmental chairmen, and learned that the College of Engineering desired a close association with a Latin American engineering faculty. Central University expressed a similar desire. In May, Raul Cardenas, assistant to the dean of the faculty of engineering at Central University visited here for 10 days. He talked to College of Engineering faculty members and others in specialized fields. "We are interested in the program as a means of providing an international prospective for students, such as training in development work in under-developed countries and as a means of improving Spanish teaching," Dr. Griffin said.

Ecuador educators are interested in association "for purposes of improving programs in their universities and technical schools, and in providing opportunity for students to come to the Lexington campus for the study of English and to take advanced training in their specific academic fields," he said. Costs of the trip for the UK group were shared by the National Association of Partners of the Alliance for Progress, established with the idea of taking the program over from the U.S. government and instituting it "on a people-to-people basis." Dr. Griffin, recently appointed chairman of the education committee of the Kentucky Partners of the Alliance, also is working with a committee representing all colleges and universities in Kentucky on a scholarship and exchange program between the state institutions and Ecuador. The committee already has arranged for one Ecuador student to study at Eastern Kentucky University and another at the University of Louisville.

13. INGLE REPORTS ON STUDENT FINANCIAL AID

James Ingle, administrator of the Student Financial Aid office, reporting on the activities of his office, says the office will distribute about \$2 million in grants and loans this year, and students will have a chance to earn about \$500,000 in various types of University employment. UK puts up about \$100,000 in matching funds for such use. "While aid to students has more than tripled nationally, it has quintupled here. The federal programs are applicable to community college students, and each community college develops and administers its own scholarship program. The work-study program is the most used, especially in the two Appalachia-area colleges -- Prestonsburg and Cumberland."

This year, Ingle continued, 950 entering freshmen applied for aid, 200 more than last year. Approximately 1,500 to 1,600 applications were received from returning or transfer students, and about 300 asked for aid under the Health Professions program. "We receive many requests for applications after the deadline, but because of our commitments are not able to honor them. We hope to receive applications from new students November 1-15 for the Spring semester. We believe funds will be available. We do not keep a waiting list." Ingle said his office was able to honor 85 per cent of the requests for aid this year. About one-fourth of the enrollment, or 3,500 students, are in the undergraduate aid program. Ingle looks for "an increasing demand for financial aid as more students show a need for help." He said federal programs for student aid will be continued, but as the demand by students increases, the need is increasing for friends, alumni, business and industry and other agencies to provide funds. He said no one source "can singularly meet the needs."

Ingle said he feels certain there are potential students who are not going to college because they haven't been able to get help. "During the six years I have been with this program, we have been able to meet the needs of students who sought substantial help, but we have been less successful in helping those who need less than substantial help." Ingle pointed to guaranteed loans made by lending institutions in students' home towns "as a great help," and he said his office assists students in preparing application forms, but that they must deal directly with the institutions. Guarantees on such loans are made through the combined efforts of state and federal governments.

14. ENGINEERING STUDENTS WIN SCHOLARSHIPS

Prof. W. W. Walton, assistant dean of the College of Engineering, said a sizeable number of scholarships, grants and awards are offered annually by industrial firms desiring to help University students complete their engineering studies.

Stephen Walker of Shaker Heights, Ohio, has been awarded the McDowell-Wellman scholarship for 1968-69. Walker is a chemical engineering senior. The McDowell-Wellman Engineering Company, Cleveland, Ohio, makes the annual award of \$250 "to aid a promising engineering student in completing his university education."

Ronald L. Brown, Raceland, a student of electrical engineering, has received the Phillip A. Ritchie Memorial Honor Scholarship for 1968-69, awarded annually by Donald E. Sims of the IBM Corporation, Lexington.

Scholarships awarded by the Cincinnati Milling Machine Company will aid three students: David Herrmann, Covington, a freshman who will receive \$500; Daniel Hennekes, Newport, who has received previous Cincinnati Milling Company awards, and will graduate in December; Vernon Goetz, Highland Heights, will continue to receive scholarship aid for the full year.

The R. R. Dawson Bridge Company, Bloomfield, awards two scholarships of \$600 each to beginning engineering students. Recipients for 1968-69 are James A. Dixon Jr., Pikeville, and Richard Lee, Greenville.

Raymond B. Shuman, Paris, will receive the Hinkle Contracting Corporation (Paris) Award of \$200 each year for the next three years.

Clifford A. Reed, Crittenden, a freshman planning to study metallurgical engineering, will receive the International Nickel Company of New York scholarship worth \$300 and tuition.

Enos Stanley Burkhart, Junction City, will receive the Kentucky Utilities Company scholarship award to a freshman planning to study electrical engineering. The award is worth \$500.

An upper-class student of electrical engineering, Carmel Wallace Jr., Elkhorn City, will receive a \$500 scholarship from the National Electrical Contractors Association, South Charleston, W. Virginia.

Gordon S. Glenn, Princeton, mechanical engineering student, will receive the Union Carbide Company annual scholarship of \$500. Also receiving a Union Carbide scholarship is Ronald L. Harness, Ashland, a student of chemical engineering.

15. FRESHMEN RANK WELL IN COMPARISONS

Entering freshmen at the University's Lexington campus have been called intellectually and academically equal to freshmen at such large Mid-Western Universities as Ohio, Illinois, Wisconsin and Indiana. Keller Dunn, assistant dean of admissions, vases this statement on studies carried out by the American College Testing Program -- whose ACT test is required of all students applying for admission to the University. The ACT test is divided into four sections -- English, mathematics, social studies, and natural sciences, plus a composite score, he said. Standard scoring for the test is based on a 1 to 36 scale. The participating schools are then divided into four groups, based on the mean scores of their freshman class -- Group 1, 18.2; Group 2, 19.3; Group 3, 19.6, and Group 4, 22.1. "The mean average for 1968 entering freshmen on the Lexington campus is 22.3," Dunn said, "and their high school grade point average is 2.7, based on a 4.0 grading scale." This places UK freshmen in the highest category of those schools requiring ACT tests for admission.

16. COMPUTER PROVIDES FASTER BLOOD TEST RESULTS

A computer linked to automated testing instruments is providing doctors at the Medical Center with blood test results faster and more accurately than ever before possible. Dr. William B. Stewart, professor and chairman of the Department of Pathology, said the new system is one of the first of its kind and has enabled technologists to increase the number of tests performed each month from 30,000 to 45,000. The research-oriented Medical Center, operated in conjunction with the College of Medicine, is a referral hospital. It takes care of those who need specialized care due to the nature of their illness. For example, physicians regularly perform such operations as kidney transplants, which require accurate and speedy blood analysis. Basic to the new automated blood testing unit is the computer, an IBM 1800 data acquisition and control system, which is linked to autoanalyzers and other laboratory instruments to probe blood and other chemical specimens automatically.

Electronic impulses generated by the automated laboratory instruments are transmitted directly to the computer, which decodes and processes this information into final test results and produces a printout over a high-speed IBM printer in a matter of seconds. Previously a technologist with a graph chart manually correlated the instrument output to determine the test results. On request, physicians can get a complete computer report on tests conducted on a patient during his hospital confinement. The report details test results on a day-to-day basis and enables the doctor to quickly spot any changes in the patient's condition. Dr. Stewart said future plans call for using the 1800 computer to monitor the condition of patients requiring extensive care.

17. DR GUY POTTS GIVEN SPECIAL EDUCATION AWARD

Dr. Guy S. Potts, superintendent of Fayette County Schools, was presented the Crusade for Children award at the annual Special Education Scholarship Dinner August 6 at the University. The award was for his leadership "in developing one of the best programs in special education in the state." The Fayette educator also was cited for his cooperation in providing learning opportunities for special education student teachers. The award was presented by Dean George Denmark of the College of Education. The University Award of Recognition for assisting in University programs was given to Victor A. Sholis, president of WHAS, Louisville, by Dr. Glenwood Creech, vice president-University relations, on behalf of President John W. Oswald. WHAS conducts the annual Crusade fund-raising telethon. Gifts from the fund have been made to the University program. Sholis was the principal speaker for the event. Mr. and Mrs. J. Ruh Beard and their son, Warren, 20, Lexington, received a Crusade award for Warren's contributions "in providing teacher education learning experiences." The award was presented by Judge Bert T. Combs of the U.S. District Court of Appeals, Cincinnati. A special WHAS recognition award went to R. F. Booker, Frankfort. Mr. Booker served for many years at the Frankfort State Hospital and School. The award presentation was made by Dr. Lyman V. Ginger, associate dean for undergraduate education of the College of Education. Awards also were presented to Dr. John P. Stewart, director of the Stewart Home School, Frankfort, for assisting with the education of teachers, and to Ken Hale, a Jeffersonville, Ind., high school teacher, for creating the Crusade awards and posters. Dr. Ginger served as master of ceremonies.

18. ROTC CADETS GET OUTSTANDING RATINGS AT CAMP

Sixty-one ROTC cadets attending the Advanced ROTC Summer Camp at Indiantown Gap Military Reservation, Pa., achieved noteworthy ratings, according to Col. Howard C. Parker, professor of military science. "Training with, and competing against, approximately 7000 other cadets from 95 colleges in New England, the Middle Atlantic States, Ohio, and Kentucky at the U.S. Army's largest ROTC camp, 21 per cent of the UK cadets were rated in the top 10 per cent based on an extensive evaluation of leadership ability, job performance in command assignments, and military proficiency which included scores attained in a written comprehensive test, a field problems test, map reading, rifle marksmanship, and physical training," Col. Parker said. Eighteen University cadets - or approximately 30 per cent - were recommended as Distinguished Military Students by their officer evaluators while 72 per cent of the UK cadets were rated in the upper half of their military companies.

19. WALLACE FIRST OF CANDIDATES TO ACCEPT SPEAKING BID

Invitations to speak at the University were extended last week to the three major candidates for President -- Hubert H. Humphrey, Richard M. Nixon and George C. Wallace. A quick acceptance came from Wallace, former Alabama governor and candidate of the American Independent Party. He spoke Saturday at Memorial Coliseum, in an appearance open to the public. Dr. Stuart Forth, acting vice president-student affairs, said he is awaiting replies to the Humphrey and Nixon invitations. The quick reply from the Wallace camp was attributed to the fact that the Alabamian had scheduled a Lexington appearance that day. Dr. Forth said action by the University Senate cleared the way for issuance of the three invitations. The Senate, governing body of the University faculty, approved a proposal that an on-campus appearance by any of the major candidates be designated an all-University convocation for which classes are dismissed. The invitations to Democrat Humphrey and Republican Nixon, as well as to Wallace, were extended immediately by Interim President A. D. Kirwan. The Wallace invitation was extended in behalf of the University, the campus Students for Wallace organization, and the Associated Women Students. The campus Young Republicans and Young Democrats joined the University and A.W.S. in extending invitations to Nixon and Humphrey, respectively. The move originated in requests from student supporters of the three candidates, Dr. Forth said.

20. LEE TODD IS HONORED AGAIN FOR SCHOLARSHIP

Lee Trover Todd, Earlington, an August graduate, was among honorees at a luncheon in Los Angeles recently as recipient of an honorable mention award in the Outstanding Electrical Engineering Student competition conducted throughout the U.S. Todd's name was submitted to a national committee of the Eta Kappa Nu Association, national electrical engineering honor society. Todd last April received an \$18,000 Hertz Fellowship for four years of graduate study in electrical engineering at Massachusetts Institute of Technology.

21. 33 PH.D'S, 7 ED.D'S, EARNED BY END OF AUGUST

Thirty-three graduate students completed requirements for the degree of doctor of philosophy in August. Seven others have earned the degree of doctor of education. The figure is up nearly a third over last August's 20 Ph.D. degree recipients. (There also were seven Ed.D. candidates a year ago). The Ph.D. recipients represent 16 disciplines -- mathematics reporting the highest number, with five degrees earned. Departments with three doctors each included chemistry, economics, and sociology. Others were microbiology, Spanish, mechanical engineering, physics, English, animal sciences, history, political science, biochemistry, education, biological science, and psychology.

22. MONTHLY FACULTY-STAFF PAPER MAKES ITS DEBUT

A new campus publication, yet to be named, designed for the faculty and staff of the University, made its debut at the opening of the fall semester. Published by the Department of Public Relations, the four-page tabloid will be issued monthly, and will keep the University family on the Lexington campus as well as throughout the state informed on the happenings, developments, achievements and progress being made at the University. News items of a personal nature will be carried by the tabloid in efforts to better acquaint the family with its other members. Readers have been solicited to help name the paper. Suggested to date: The Tab, The News, The Diary, The Observer, and The Lieutenant Kernel.

23. UNIVERSITY HOSTS 300 AT PLANNERS' CONFERENCE

A nationwide conference on university and college planning held at the University in mid-August found planners agreeing that architects and contractors should work together and students should be included in planning ideas. Four panel moderators, including John L. Cameron, director of the division of facilities development, U.S. Office of Education, noted that there are no characteristics which separate academic, fiscal and physical planning. Cameron suggested that the community is of utmost importance in college and university planning and that such planning must include students, faculty and staff. He said there should be greater co-ordination and co-operation between contractors and architects, particularly in determining economic savings. Also addressing the more than 300 planners at the third annual conference of the Society for College and University Planning, was William J. Griffith, director of the division of campus planning, Ohio State University. He said "students are saying something and maybe we ought to listen." New officers of the Society include Lawrence Coleman, board member for the Southeast. Mr. Coleman, director, University Campus Planning and Design office, said the program included 16 of the country's leading academic planners.

24. ORGANIZATION SEEKS COOPERATION AMONG LOUISVILLE COLLEGES

Eight Louisville-area colleges have formed an organization to strive for better cooperation among themselves. The schools involved are the University of Louisville, Bellarmine-Ursuline College, Catherine Spalding College, University of Kentucky Jefferson Community College, Kentucky Southern College, Southern Baptist Theological Seminary, Louisville Presbyterian Theological Seminary, and Indiana University-Southeast at Jeffersonville. U. of L.'s Urban Studies Center will serve as the clearing house for the organization, the center's director, Dr. Joseph F. Maloney, said.

25. DEMPSEY CITES COOPERATION IN FEWER ACCIDENTS

"Splendid cooperation" by University faculty and staff is credited by F. G. Dempsey, director of safety and security, for making possible the University's recent outstanding record in his areas of responsibility. In the last half of 1966--after a campus-wide safety program was inaugurated--workmen's compensation payments for employee accidents were reduced 63 per cent, with a saving of \$8,000 compared with 1965, and the University won the National Safety Council's Award of Merit--its second highest award. Last year, with another sharp drop in accidental injuries, the University received the NSC Award of Honor--the highest granted and received by only two other higher education institutions. There were 529 accidents involving employee injury in 1967, compared with 997 in 1966; accidents which disabled employees for one day or more declined from 626 in 1966 to 165 last year. This record--which resulted in estimated savings of \$25,000--was achieved despite an increase from 5,746 employees in 1966 to 6,117 last year. Other safety precautions brought additional savings. Installation of two fire hydrants at Somerset Community College at a cost of \$600 brought a \$700 reduction in insurance costs and a \$9,000 sprinkler system at the Quicksand Wood Research Center brought an insurance cost reduction of \$4,000 a year. Employees 20 to 30 years old with less than a year of service had almost 300 of the 539 injury accidents last year. Sharp-pointed and sharp-edged objects were the "primary agent cause" of most of the 1967 accidents and the high in accident injuries occurred in food service. Dempsey and his staff are concentrating on better safety training and supervision in high accident areas. Male students suffered 71 per cent of the 404 student accidents reported last year and 33 per cent of the total occurred off campus. By age groups, 18- and 19-year olds had the most accidents, with 236. Dempsey says that the community colleges are cooperating fully in the safety program and have set up safety committees.

26. EYE BANK AND CORNEA SERVICE SET

An eye bank and a corneal transplant service will be established at the Medical Center upon the arrival of Dr. James E. McEntyre, ophthalmologist. Dr. McEntyre, of the University of Florida School of Medicine will be an assistant professor of surgery. A native of Calhoun, Ga., Dr. McEntyre received his M.D. degree from the Medical College of Georgia in 1959. He was an instructor of surgery at the University of Missouri Medical Center and was medical director of the Lions Club Eye Tissue Bank there. At Florida, Dr. McEntyre served as a member of the board of directors of the North Florida Eye Bank Association.

27. RESEARCH AWARDS SINCE JULY 1 AMOUNTS TO NEARLY \$3 MILLION

During the period July 1-August 30, a total of 101 agreement awards were received, amounting to \$2,760,776.18. Three other awards were received, amounting to \$123.55.

COLLEGE OF AGRICULTURE

Department of Agriculture Engineering--C. T. Haan, Plant Soil Moisture Environment and its Effect on Water Movement Into Plant Roots, Office of Water Resources Research, Department of the Interior, \$5,200.

Department of Agronomy--R. E. Phillips, Capillary-Diffusion and Self-Diffusion of Liquid Water in Unsaturated Soil, Office of Water Resources Research, Department of the Interior, \$4,900. G. Collins and P. D. Legg, Studies on the Inheritance of Alkaloids in *Nicotiana Tabacum* (T3429), R. J. Reynolds Tobacco Company, \$4,000. A. J. 28. SIGNIFICANT ACTIVITIES OF FACULTY AND STAFF

Two members of the Department of Political Science presented research papers during the annual meeting of the American Political Science Association in Washington, D.C. early this month. Dr. Malcolm Jewell's study "Effects of Redistricting on Metropolitan Legislative Behavior" and Dr. Fred Fleron's "The Soviet Political Elite: Aspects of Political and Economic Development in the USSR," were presented to the delegates, and Dr. Gene Mason and Bruce Bowen, a Ph.D. candidate, served as panel discussants. Dr. S. Sidney Ulmer, department chairman, served as chairman of the Public Law and Judicial Processes section, and was responsible for six panel meetings. Profs. Michael Baer, George Gadbois, William Lyons, Fred Vetter and Michael White also attended the meeting.

Judge T. Calton, assistant administrator of the University Hospital, was advanced to membership status in the American College of Hospital Administrators at a convocation ceremony September 15 in Atlantic City.

Dr. Harry Barnard, chairman, Department of Curriculum and Instruction, College of Education, was one of 10 social studies educators from throughout the U.S. invited to participate in a colloquium August 19-24, in Exeter, New Hampshire, held to "provide an understanding of world order and the role of the student of international law."

Three electrical engineering faculty members presented two papers on Crime Countermeasures during the Western Electronic Show and Convention August 20-23 in Los Angeles: Dr. Robert L. Cosgriff, chairman of the electrical engineering department, and John S. Jackson, associate professor, presented their paper, "Some Qualitative Aspects of Electronic Crime Countermeasures." Russell E. Puckett, research director, College of Engineering, is co-author with Paul Flaughter, systems analyst for the City of Cincinnati and R. P. Dalton, Edcom Productions, Mansfield, Ohio, of the second paper, "Automatic Data Systems for Law Enforcement."

Dr. Hans Conrad, chairman of the Department of Metallurgy, will be the guest of the Accademia Nazionale Dei Lincei at Trezzano, Italy, September 8-20. Internationally known for his research on titanium, Dr. Conrad was invited to deliver three lectures at the Italian institution on the "Mechanical Behavior of Brittle Materials."

Two University vice presidents had roles in a national workshop in mid-July in Miami, Fla., for college and university administrators. Dr. Glenwood L. Creech, vice president-University relations, was chairman of a panel that explored growing legislative concern at the internal operation of public universities. Robert F. Kerley, vice president-business affairs, was a member of the panel. Dr. Creech was a member of the workshop planning committee, held in conjunction with the joint annual meeting of the American Alumni Council and the American College Public Relations Association.

Colonel Howard C. Parker, professor of military science, served this summer as Commandant of Cadets at the Indiantown Gap Military Reservation, Pa., where approximately 7000 Army ROTC cadets from more than 95 colleges engaged in six weeks training at the U.S. Army's largest ROTC camp.

The August, 1968, issue of the American Journal of Clinical Pathology contains a paper by Drs. J. T. McClellan and Ernst Jokl, professor of physical education, entitled "Congenital Anomalies of Coronary Arteries as Cause of Sudden Death associated with Physical Exertion."

Dr. R. H. Dutt, professor of animal science, addressed the Second World Conference on Animal Production, held at the University of Maryland, July 14-20. Scientists and technologists from several nations discussed the role of animal production in meeting world food needs. Dr. Dutt currently is serving as president of the American Society of Animal Science and represented that body at the conference.

Dr. Ottfried J. Hahn, assistant professor of mechanical engineering, was one of more than 50 government and university leaders participating in a conference, "Fast Reactors and the University," at Rensselaer Polytechnic Institute, Troy, New York, August 28-30.

Dr. T. R. Freeman, professor of animal science (Dairy Technology), was elected International Historian of Gamma Sigma Delta, honor society of agriculture, at the Biennial Conclave of the Society at the University of Arizona, Tucson, June 24.

Dean Charles F. Haywood of the College of Business and Economics has been named by Gov. Louie Nunn to membership on the Economic Development Commission.

Dr. Albert Balows' laboratory at the Medical Center has been named by the U. S. Department of Health, Education, and Welfare as a referee laboratory under the Clinical Laboratories Act of 1967. Dr. Balows is an associate professor of medicine in the College of Medicine.

Named to a newly formed advisory council for the Kentucky Innovative Development Center at Frankfort were Dr. Sam Sears of the College of Education, and Dr. Fred Edmonds of the Bureau of School Services.

Members, Board of Trustees:

RECOMMENDATIONS OF THE PRESIDENT

I. Appointments to Lincoln School Board of Directors

Recommendation: that Dr. Stuart Forth be appointed to the Board of Directors of Lincoln School to complete the term of Mr. Robert L. Johnson which expires December 31, 1969; and that Dr. George Denemark be reappointed for a three-year term ending December 31, 1970.

Background: The University of Kentucky has three members on the seven-member Board of Directors of Lincoln School appointed by the Board of Trustees. Three members are appointed by Kentucky State College and one member by the Superintendent of Public Instruction. The resignation of Mr. Johnson has created a vacancy in the University's membership on the Board and Dean Denemark's term expired December 31, 1967. It is recommended that Dr. Forth replace Mr. Johnson and that Dean Denemark be reappointed.

II. Fee Scholarship for Henderson Community College

Recommendation: that a fee scholarship for 1968-69 at the Henderson Community College be granted to Miguel Angel Cuadra, Managua, Nicaragua.

Background: The Henderson Rotary Club has sponsored an International Student Program for several years. The club underwrites all expenses of an international student chosen by its Scholarship Committee and approved for admission to the Henderson Community College except tuition fees. The University of Kentucky has cooperated in the past with the Rotary Club by providing a fee scholarship for this student. With the concurrence of Dean Hartford, it is recommended that the practice be continued this year and that a fee scholarship be granted to Mr. Cuadra for the 1968-69 academic year with the understanding that the scholarship for the second semester be contingent upon satisfactory completion of the first semester.

III. Graduate Faculty Appointments

Recommendation: that approval be given to the following persons for membership in the Graduate Faculty.

Background: The persons whose names appear below have been approved by the Board of Trustees and are now eligible for membership in the Graduate Faculty.

James A. Knoblett - Associate Professor of Accounting
Ruby Day Niebauer - Associate Professor of Home Economics
Kurt Niedenzu - Associate Professor of Chemistry
Bruce H. Westley - Professor of Journalism

IV. Appointments and/or Other Staff Changes

Recommendation: that approval be given to the appointments and/or other changes which require Board action and that the report relative to appointments and/or changes already approved by the administration be accepted.

Background: Approval of the Board of Trustees is required for all appointments to the positions with the rank of Associate Professor and above, for promotions, for the granting of tenure, and for salary changes above \$12,000 for non-academic personnel and \$15,000 for academic personnel. All other appointments and/or changes may be made by the President and reported to the Board.

V. Patent Assignment

Recommendation: that authorization be given to the proper officials of the University of Kentucky Board of Trustees to execute an assignment on behalf of the Board of Trustees to the University of Kentucky Research Foundation of the following application for Letters Patent of the United States and the inventions represented thereby: William T. Parker and Thomas M. Cooper, Serial No. 741,956, filed July 2, 1968.

Background: William T. Parker and Thomas M. Cooper have invented a method of producing full arch impressions and section tray for use therein at selective quadrants. They have assigned their right to the invention to the Board of Trustees. The Patent Committee of the University of Kentucky has reviewed the assignment and agreement made between the University and the Patentees and recommends that such assignment be transferred to the University of Kentucky Research Foundation for administration.

Members, Board of Trustees:

ESTABLISHMENT OF THE DEPARTMENT OF ORAL BIOLOGY
IN THE COLLEGE OF DENTISTRY

Recommendation: that a Department of Oral Biology be established in the College of Dentistry, effective September 1, 1968; that Dr. Donald E. Knapp, presently Associate Professor in the Department of Pharmacology and Oral Surgery, be appointed Chairman of the Department.

Background: Over the past months there have been numerous discussions concerning the desirability of establishing a Department of Oral Biology in the College of Dentistry. These discussions have involved the basic science chairman and administrative officers of the College of Medicine.

Originally, the basic science departments in the Medical Center were organized as joint departments in both the Colleges of Medicine and Dentistry. While this arrangement has been essentially satisfactory in some areas, its operation in other areas has prompted reconsideration. It has become apparent that the teaching and research program of the College of Dentistry would benefit most by having a small cadre of individuals in certain basic science areas who are primarily identified with the aims and objectives of that College. The organizational change recommended will provide for this cadre and will make it possible for the dean and faculty of the College of Dentistry to more directly influence the basic science teaching program.

It is anticipated that the Department of Oral Biology will assume the primary responsibility for organizing the basic science teaching in the College of Dentistry in the fields of biochemistry, physiology and biophysics, pharmacology, and microbiology. (This proposal does not encompass any changes relating to anatomy, behavioral science, and pathology.) The proposed department of Oral Biology, as now visualized, will not be sufficiently large or diverse to provide an adequate faculty for teaching in all of the subject fields mentioned. Therefore, the chairman of this Department, in cooperation with the chairmen of the existing basic science departments and, hopefully, as may be appropriate in cooperation with other biological scientists on the campus, will plan the courses for dental students and arrange for the necessary instruction. He and his faculty will be concerned with course content, methods of teaching, and other relevant matters to ensure that the instructional program is appropriately oriented to the needs of the dental students and the dental program.

Members, Board of Trustees:

ESTABLISHMENT OF THE DEPARTMENT OF CLINICAL PASTORAL
COUNSELING IN THE SCHOOL OF ALLIED HEALTH PROFESSIONS

Recommendation: that a Department of Clinical Pastoral Counseling be established in the School of Allied Health Professions.

Background: For the purposes of administration it is recommended that a Department of Clinical Pastoral Counseling be established in the School of Allied Health Professions. Dr. Ralph S. Carpenter, Hospital Chaplain, has been conducting a training program which provides clinical experience for students in the Lexington Theological Seminary and the Episcopal Theological Seminary, and it is felt that this program is deserving of formal recognition within the academic structure of the University. The budgetary support for this department was approved earlier by the Board of Trustees when the 1968-69 budget was authorized. Funds for this department come from the University Hospital and the School of Allied Health Professions. At the present time additional budgetary support from the University or additional space is not required.

FURTHER ACTIVATION OF ORGANIZATION PLAN,
COLLEGE OF BUSINESS AND ECONOMICS

Recommendation: that the plan of organization for the College of Business and Economics be further activated by changing the present position of Assistant Dean to that of Associate Dean for Administration and the present position of Director, Office of Development Services and Business Research, to Associate Dean for Extension; that effective immediately, Dr. Clyde Irwin, now Assistant Dean, be appointed Associate Dean for Administration and Dr. H. K. Charlesworth, currently Director of Development Services and Business Research, be named Associate Dean for Extension.

Background: When the plans for the development of the College of Business and Economics were initially sketched under the leadership of Dean Charles F. Haywood, one essential objective was a viable organizational structure and administrative group.

One of the first steps was the arrangement of the College into a small number of working departments, each with a chairman. Then, for the College generally, a position of Associate Dean for Graduate Studies and Research was established to foster one of the three major functions of the college program. The two positions recommended above simply round out the organization plan for the College.

APPROVAL OF DEGREE CANDIDATES

Recommendation: that the President be authorized to confer upon each individual whose name appears on the list presented herewith the degree to which he is entitled at the commencement exercises on May 12, 1969. These candidates completed the requirements for the degree in August 1968.

Background: Certification has been made by the Dean of Admissions and Registrar that the individuals whose names appear on the attached list have satisfactorily completed the requirements for the degree for which he has applied in August 1968. The University Senate at its meeting on September 9, 1968 gave approval to the list.

Members, Board of Trustees:

ADMINISTRATIVE APPOINTMENT

Recommendation: that Harold Earle Swim, Ph. D. be appointed Professor of Microbiology and Chairman of the Department of Microbiology. The appointment as Professor carries tenure and the appointment as Department Chairman is for a six (6) year term subject to renewal; that the present departments of Microbiology and of Cell Biology be consolidated into a Department of Microbiology.

Background: One of the original objectives sought by the University in establishing the Thomas Hunt Morgan School of Biological Sciences was to provide a base to unify and coordinate teaching, research, and graduate education in the biological sciences in the University. A most important area to benefit from this unification and coordination is that one encompassed by the terms "microbiology" and "cell biology," two closely related, overlapping, and, in many minds, indistinguishable components. Thus, with able leadership, it is now feasible to consolidate the two terms and organizational units reflecting separate entities.

After a long and serious search for outstanding leadership the University was fortunate in persuading Dr. H. Earle Swim to accept the chairmanship of the Department of Microbiology, which will serve as the program base for the teaching of microbiology in the College of Medicine, College of Dentistry, and College of Arts and Sciences including graduate instruction in this field. It will also provide the base for service teaching of microbiology for other units within the University.

Dr. Swim is an outstanding scientist, teacher and investigator. He received the Ph. D. degree from Western Reserve University where he has spent virtually all of his professional career, being promoted from Instructor to his current position as Professor in the Department of Microbiology, Case Western Reserve University. He holds a United States Public Health Service Career Research Award and has rendered distinguished national service on the Microbiology Advisory Panel, Office of Naval Research, as Chairman of the Virology Division of the American Society of Microbiology, and in many other capacities.

This recommendation carries the enthusiastic support of faculty and administration in both the Medical Center and the College of Arts and Sciences. This appointment offers great promise of advancing this important area within the Medical Center and within the Thomas Hunt Morgan School of Biological Sciences.

AUTHORIZATION FOR CREMATION OF PAID BONDS AND COUPONS

Recommendation: that the Board of Trustees authorize Mr. Clay Maupin, Assistant Treasurer, and Mr. George R. Kavanaugh, Director of Real Property, to check the attached list of paid and cancelled bonds and coupons returned from Paying Agents from January 1 through June 30, 1968, to destroy these documents by burning in the incinerator of the Medical Center and to certify as to the correctness of the list and as to its incineration.

Background: the attached schedule lists University of Kentucky Revenue Bonds and Coupons returned from Paying Agents from January 1 through June 30, 1968. Since these have been paid and cancelled, they should be destroyed and the certificate of incineration placed on file.

ACCEPTANCE OF SUMMARY AUDIT REPORT FOR THE UNIVERSITY
OF KENTUCKY FOR 1967-68

Recommendation: that the Board of Trustees accept the summary audit report of the financial records of the University of Kentucky for the fiscal year 1967-68, consisting of the Accountant's Reports from Peat, Marwick, Mitchell and Company, a Balance Sheet, Statement of Current Funds Revenues, Expenditures and Transfers, and a Statement of Changes in Fund Balances.

Background: The Finance Committee of the University of Kentucky has reviewed the audit report submitted by the firm of Peat, Marwick, Mitchell and Company in conjunction with the administration of the University of Kentucky. A comprehensive annual financial report, together with the management letter will be submitted at a later date.

(A copy of the audit report is in the files of the meeting but is not included as a part of the Minutes.)

APPROVAL OF CONTRACT WITH WACHOVIA SERVICES, INC.

Recommendation: that the Board of Trustees authorize the Vice President - Business Affairs and Treasurer to enter into a contractual arrangement with Wachovia Services, Inc., Winston-Salem, North Carolina, whereby Wachovia Services, Inc., agrees to assume responsibility for collection and accounting of the National Defense Education Act Loans administered by the University of Kentucky.

Background: The National Defense Loan Program at the University of Kentucky has grown in size to the extent that the collection and accounting program is beyond our capacity to handle with existing staff. According to the annual fiscal report to the United States Department of Health, Education and Welfare, the aggregate outstanding loan balance as of June 30, 1968, was \$2,596,078.66. The total number of loans as of June 30, 1968, was 4,023, with approximately 10,000 individual transactions yearly.

In an endeavor to review outside sources which might be obtained for assistance, the University reviewed proposals from two known firms who have specialized in this work, Wachovia Services, Inc., Winston-Salem, North Carolina, and the American National Bank in Chicago. Representatives of both Agencies visited the campus and presented proposals to the University staff.

The problem of whether this service should be handled by the University becomes especially acute because of the geographical distribution of our students and the problems associated with the administering of the collection program for the number of individuals involved. The teacher forgiveness, the delinquent problem and the sheer number dictate an extremely large program which is expanding each year.

A review of the program indicates that the cost of contracting with Wachovia Services, Inc., would be less than if handled by the University staff at the present time and the savings will increase as the number of accounts increase. At the present time, the expenses of administering this program are approximately \$20,000.00 annually, not including costs related to office equipment, supplies and space. Under the proposed contract with Wachovia Services, Inc., the University's cost would be \$18,000.00 annually.

The University is currently recovering \$18,700.00 annually from the National Defense Student Loan Fund for administrative expenses. There is an effort underway to increase the allowance for administrative expenses to 3%. If this effort succeeds, the University would recover all its expenses.

TRANSFER OF FUNDS - CAPITAL CONSTRUCTION

Recommendation: that the Board of Trustees approve the transfer of \$142,745.00 from the Parking and Traffic Control account to the Capital Construction account, Parking Structure #1, for the purpose of constructing a 960 vehicle surface parking lot south of Cooper Drive.

Background: Construction projects recently initiated in several areas of the campus resulted in the loss of 750 parking spaces. The loss of these spaces has had a very adverse affect on the already critical parking situation. As a result of these losses, the ratio of authorized vehicles to spaces is approximately 1.8 vehicles per space. This is considerably higher than the acceptable ratio of 1.2 vehicles per space.

In order to relieve this shortage of parking spaces, the President's Advisory Committee on Parking and Traffic Control, consisting of 7 faculty members, 2 students and 2 staff members, has recommended the construction of a large parking lot off the main campus, serviced by an intra-campus bus system. It is considered as further construction develops, with attendant loss of surface parking spaces, that this area may be expanded to approximately twice the present capacity.

APPROPRIATION FOR BUS SERVICE

Recommendation: that the Board of Trustees approve the establishment of campus bus service to provide for expedition intra-campus movement of faculty, staff and students and to appropriate \$46,000 from the Parking and Traffic Control account to finance this service.

Background: For several years the increase in automobile traffic and requirements for parking spaces has exceeded the development of additional spaces. The continued growth of the University of Kentucky has placed an added strain on the parking situation as new buildings and construction sites have eliminated many parking spaces.

In order to alleviate the serious shortage of parking spaces and to reduce the heavy traffic within the campus, a new intra-campus bus service has been developed. Rapid movement of faculty, students and staff throughout the campus will be facilitated by the provision of a 960 vehicle parking area on the periphery of the campus with bus service provided to major campus areas. This intra-campus bus service has been recommended to the President by the President's Advisory Committee on Parking and Traffic Control. The provision of additional off-campus parking and the ability to move from one area to another by bus will reduce considerably the traffic congestion and add to the safety of pedestrian traffic with the campus.

ROOM RATES FOR PROFESSIONAL STUDENTS

Recommendation: that the room rates for professional students be established at \$470 per year for double occupancy or \$590 per year for single occupancy.

Background: For several years, numerous inquiries have been received from professional schools regarding the availability of a residence hall to house their students. This need exists because of the difference in school calendars. The school year for students in the professional schools is, in general, a longer period, some up to 12 months. Based upon a review of this need, one residence hall has been reserved for these students. Because their schedules are irregular and do not coincide with the normal meal serving hours, it does not appear feasible to require a Board contract. If a Board contract is desired, the price will be the same amount charged undergraduate students (\$440 per year for 3 meals or \$330 per year for 2 meals). The rate for single occupancy is 125% of the rate for double occupancy, a ratio which also exists for like facilities for summer school students. This rate is slightly lower than the graduate rates for apartments because of the difference in facilities and slightly higher than the rate for undergraduates because of the longer contract period.

APPROVAL OF STUDENT TEACHER AGREEMENTS
WITH PUBLIC SCHOOL SYSTEMS

Recommendation: that the Board of Trustees approve student teacher agreements between the College of Education and certain public school systems for the 1968-1969 school year.

Background: For more than fifteen years the College of Education has used the public school facilities and staff for observation and student teaching. The public school teachers, principals, supervisors, and other administrative staff members have been paid by the University for these special services, and on several occasions, the rate of pay has been increased or amended after consultation with the public school personnel involved.

During the past year, a series of conferences have been held with a committee representing some of the schools and revised agreements have been drafted for the fiscal year July 1, 1968, through June 30, 1969, the same to continue until amended. Copies of the agreements are attached hereto and made a part hereof. Costs under the revised agreements will be up slightly due to increased student enrollment and also a slight increase in pay for each teacher.

STUDENT TEACHER AGREEMENT

1968 - 69 SCHOOL YEAR

The University of Kentucky and the Fayette County Public Schools accept the joint responsibility to train qualified teachers.

The Fayette County Public Schools accepts the responsibility for placement of students in the teacher training program. Subject to its limitations, it will perform this supervisory function and related services as required.

It is agreed that all programs of visitation and teacher training for all departments of the University of Kentucky, shall follow the procedures as indicated in this agreement.

- A. Student Teaching, Guidance Practicum, Vocational Agriculture and Home Economics Teacher Training shall be arranged with the Director of Student Teaching of Fayette County Public Schools.
- B. Visitation and class observation shall be arranged through the office of the Administrative Assistant to the Superintendent of Fayette County Public Schools.

- C. The above applies to both the graduate and undergraduate levels.

The compensation of individuals responsible for the visitation and training of student teachers shall be made directly to the representative of the Fayette County Public Schools as outlined in the following conditions:

- A. For direct supervision of the student teacher (s), the supervising teacher (s) will be paid \$10.00 for each semester hour of student teaching for which the student teacher (s) is registered for a semester or summer session at the University of Kentucky. If a teacher is assigned to more than one supervising teacher in a semester or summer session, the amount paid each teacher shall be prorated on the basis of the number of weeks the student spends in each assignment.
- B. For general supervision of the student teacher (s), the principal (s) of the cooperating school (s) will be paid as follows:
- 1 to 3 student teachers - \$25.00 each for nine or more semester hours of credit in a semester or summer session.
 - 4 to 10 student teachers - \$100.00 total for group.
 - 11 to 20 student teachers - \$200.00 total for group.
 - 21 or more student teachers - \$300.00 total for group.
- (1) The principal receiving the compensation may direct that all or a part of this compensation be paid to an assistant principal. This arrangement must be in writing and submitted to the responsible University Representative.
- (2) If a student teacher is assigned to more than one school in a semester or summer session, the principal will be paid a proportionate amount depending upon the number of weeks of the student's assignment in the school.

- C. Payment for supervision of itinerant teachers that are not assigned to the individual school or principal, shall be made as follows:
- (1) Itinerant teachers of elementary art shall be assigned to the Assistant Superintendent for Elementary Education and this individual shall be paid at the rate established for a principal.
 - (2) Itinerant teachers of speech and hearing are to be assigned to the Director of Special Education, and this individual shall be paid at the same rate established for a principal.
- D. The general administration of the Visitation and Student Teaching shall be as follows:
- (1) For the administration of the Student Teaching program the amount of \$1,000.00 annually shall be paid to the Director of Student Teaching, Fayette County Schools.
 - (2) For the administration of the programs of school visitation the amount of \$500.00 annually shall be paid to the Administrative Assistant to the Superintendent, Fayette County Public Schools.
 - (3) The Director of Student Teaching and the Administrative Assistant to the Superintendent shall be paid quarterly on September 1, December 1, March 1, and June 1, of each year.

STUDENT TEACHER AGREEMENT

1968 - 69 SCHOOL YEAR

The University of Kentucky and the _____ accept the joint responsibility to train qualified teachers.

The _____ accepts the responsibility for placement of students in the teacher training program. Subject to its limitations, it will perform this supervisory function and related services as required.

It is agreed that all programs of visitation and teacher training for all departments of the University of Kentucky, shall follow the procedure as indicated in this agreement.

A. Student Teaching, Guidance Practicum, Vocational Agriculture

and Home Economics Teacher Training, Visitation and Class Observation shall be arranged with the _____.

B. The above applies to both the graduate and undergraduate levels.

The compensation of individuals responsible for the visitation and training of student teachers shall be made directly to the representative of the _____ as outlined in the following conditions:

A. For direct supervision of the student teacher (s), the supervising teacher (s) will be paid \$10.00 for each semester hour of student teaching for which the student teacher (s) is registered for a semester or summer session at the University of Kentucky. If a

teacher is assigned to more than one supervising teacher in a semester or summer session, the amount paid each teacher shall be prorated on the basis of the number of weeks the student spends in each assignment.

- B. For general supervision of the student teacher (s), the principal (s) of the cooperating school (s) will be paid as follows:

1 to 3 student teachers ~ \$25.00 each for nine or more semester hours of credit in a semester or summer session.

4 to 10 student teachers ~ \$100.00 total for group.

11 to 20 student teachers~ \$200.00 total for group.

21 or more student teachers ~ \$300.00 total for group.

- (1) The principal receiving the compensation may direct that all or a part of this compensation be paid to an assistant principal. This arrangement must be in writing and submitted to the responsible University Representative.
- (2) If a student teacher is assigned to more than one school in a semester or summer session, the principal will be paid a proportionate amount depending upon the number of weeks of the student's assignment in the school.
- C. Payment for supervision of itinerant teachers that are not assigned to the individual school or principal, shall be made as follows:
- (1) Itinerant teachers of elementary art shall be assigned to the _____ and this individual shall be paid at the rate established for a principal.

(2) Itinerant teachers of speech and hearing are to be assigned to the _____ and this individual shall be paid at the same rate established for a principal.

In compliance with the agreement stated above between the _____ and the College of Education, University of Kentucky, the University shall pay to the individual teachers, principals, and others the amount agreed upon in accordance with the terms of this agreement. Payment shall be made not later than the end of the month following the month in which the service is completed.

The period covered by the agreement shall be:
