

OCT. 11. 1900

The Faculty of the Dept. of Pedagogy
of the Ky. State College met at 4 p.m.
in Prof. White's room, for the regular
monthly conference.

An inquiry as to the standing and
work of various students met with
quite satisfactory replies.

The Dean submitted the question
as to how the fitness of a student,
coming from unaccredited
schools, should be determined. Some
of the Faculty expressed the opinion
that such matters should be left
in the hands of the Deans of the
several depts. Others thought that
the decision should be left to
the Professors of the several branches
of study desired to be pursued.
On the motion the question
was referred to the General Fac-
ulty.

Adjourned.

R. M. R. oak, Dean.
