FOREWORD

The Department of Education publishes the "Kentucky School Directory" as a service to the people of the Commonwealth and to others who are interested in the schools of Kentucky.

Appreciation is expressed to public and non-public school superintendents and other officials for the provision of data for this *Bulletin*.

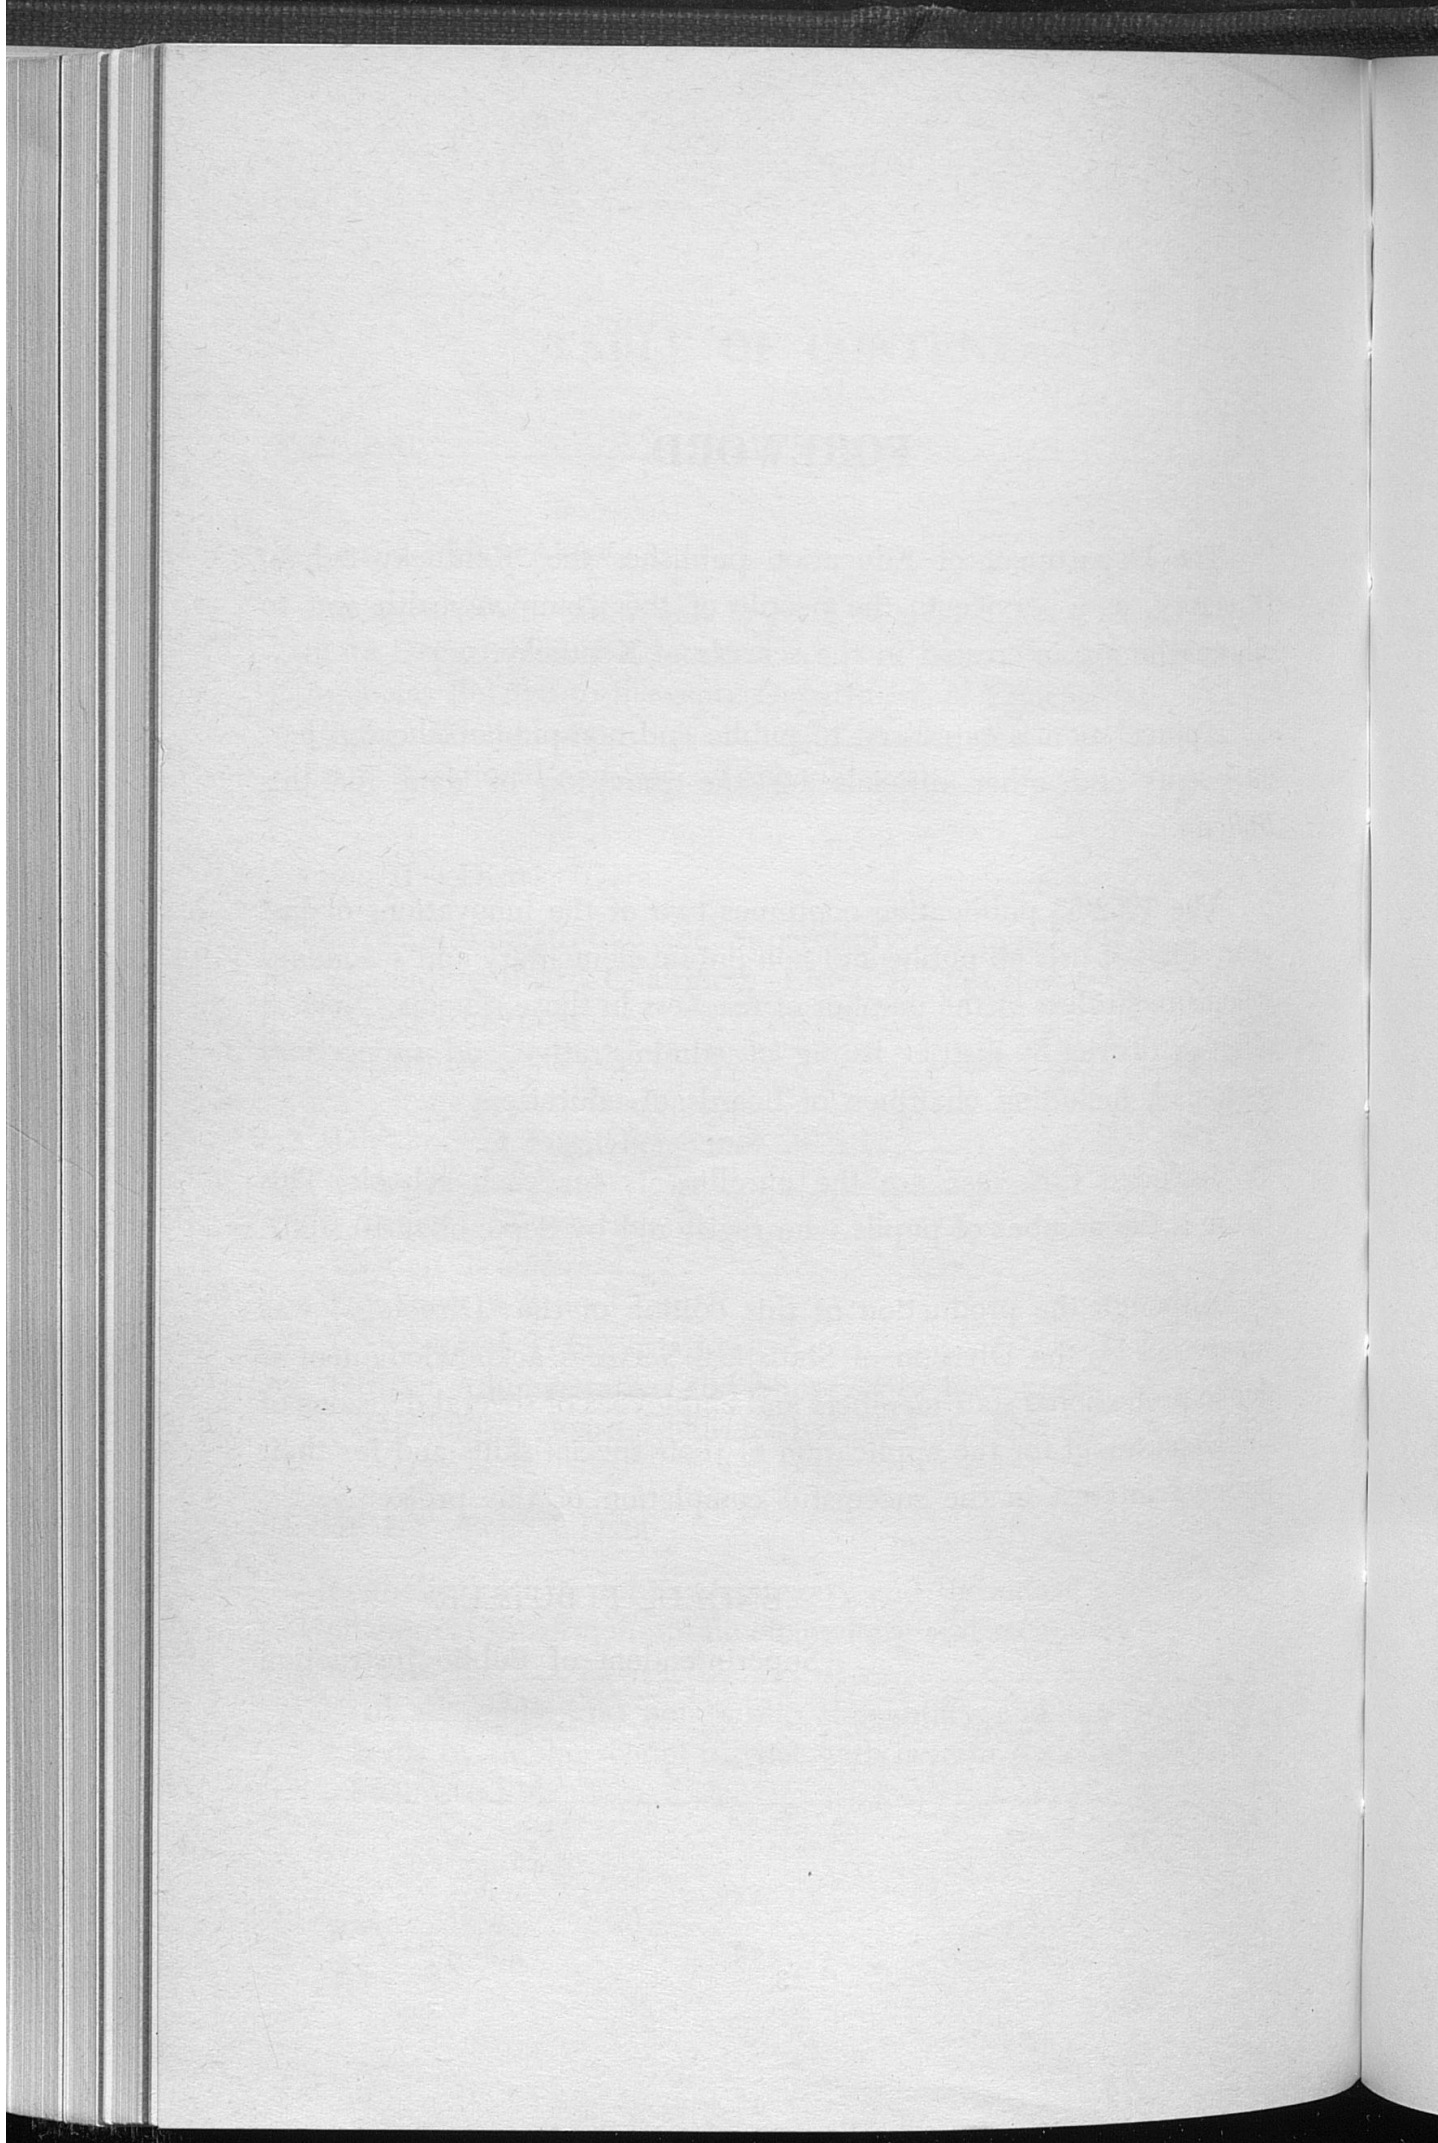

The 1962-63 publication continues two of the innovations of last year. First, it lists all public and non-public elementary and secondary schools regardless of the number of teachers in those schools. Next, it offers a district-by-district listing of administrative and supervisory personnel, including chairmen of boards of education.

Included this year are the enrollments for each school. This figure is the number of pupils who registered by September 10, 1962.

Although the production of this edition of the "Directory" was supervised by the Division of Statistical Services acknowledgment is due to professional staff members and employees of several divisions of the Department for the application of their special skills and for their personal interest in the successful completion of this project.

PUBLIC AND NON-PUBLIC SCHOOLS, BY PUBLIC SCHOOL DISTRICT

A list of all elementary and secondary schools in Kentucky.

Each school is listed under the public school district in which it is located. Each independent district is listed under the county district in which it is located.

After the name of each school is its racial status, grades, number of teachers, name of principal or head teacher, and mailing address. The person listed under "principal or head teacher" is the one to whom school mail should be sent. The address is the school mailing address. The "number of teachers" is the full-time equivalent of all part-time plus full-time teachers in each school. Full-time principals and assistant principals are not included.
