Notes: University System includes Lexington Campus and Medical Center.

Differences in numbers of entering freshmen in ACT, admissions, and Council on Higher Education data are due to the fact that ACTs may not be available for all entering students if they do not release Social Security information.

* The University selective admission standards became effective for the entering Fall 1984 class.

**From Summer 1974 through August 1988, the University used Enter-ACT; accepting as an application for admission any student who listed UK as first choice on the ACT score report. During 1989, a more conventional approach was adopted, requiring each student to complete an application for admission.
