AA. Robinson Trust Quasi-Endowment (FCR 12)

Mr. Hardymon called on Mr. Edward Carter to address FCR 12.

Mr. Carter reported that on April 7 the Board adopted a Robinson Forest income policy to manage any income the University would derive from timber and coal sales in the Robinson Forest. He explained that FCR 12 authorizes the creation of a Robinson Trust Quasi-Endowment Fund. He noted that a quasi-endowment is not controlled by an outside organization. It is created by Board action and can be abolished by Board action.

Mr. Hardymon moved approval of the creation of a Robinson Trust Quasi-Endowment Fund. His motion, seconded by Dr. Meriwether, passed. (See FCR 12 at the end of the Minutes.)

BB. Leasing of Oil and Gas Rights on the "Goff Tract" (FCR 13)

CC. Authorization to Establish Section 125 Salary Reduction Plans (FCR 14)

Mr. Hardymon stated that FCR 14 involves benefit plans and, in his opinion, these are very attractive plans. He asked Dr. Don Clapp to address FCR 14.

Dr. Clapp said that Section 125 of the Internal Revenue Code makes provision for certain benefits to be offered to employees under a salary reduction arrangement. He explained that the University initiated one program in 1984 relating to a portion of health insurance premiums paid by the employee, and the University employees have had the option of tax sheltering the portion of their insurance premiums that they pay. He noted that this proposal to extend the benefits of the 125 plan comes with the recommendation from the University's Employee Benefits Committee. He said that a national consulting firm, Hewitt and Associates, had been consulting with the University in terms of those plans that could best meet the needs. FCR 14 authorizes the University administration to develop three additional tax sheltered employee benefit plans, under Revenue Code Section 125, for health and dependent care flexible spending accounts and life insurance premiums. He said that if the Board authorizes the administration to develop such plans, they will be brought to the Board for approval prior to the initiation of the programs.

Mr. Hardymon moved that the Board authorize the University administration to develop additional tax sheltered employee benefit plans. Mr. Shoop seconded the motion, and it passed. (See FCR 14 at the end of the Minutes.)

He announced that the Finance Committee meets prior to the Board luncheon. He extended an invitation to the members to attend the meetings and hear a full discussion of the Finance Committee items. He informed the Board that all committee meetings of the Board of Trustees are open meetings, and Board members are welcome to attend any of the committee meetings.

EE. Executive Session

On motion made by Mr. Rose, seconded by Mrs. Bell and carried, the Board went into executive session at 1:43 p.m. to discuss pending litigation.

FF. Meeting Reconvened

TRANSFER OF REHABILITATION COUNSELING PROGRAM

Recommendation: that the Board of Trustees approve the transfer of the program in Rehabilitation Counseling from the Graduate School to the College of Education.

Background: The rationale for the transfer of this program from the Graduate School and establishing it in the College of Education is a result of an assessment by a Unit Review Committee which declared that the educational and research orientations of the program are more consonant with the multidisciplinary orientation of the programs in the College of Education than with the multidisciplinary orientation of the units housed under the Graduate School, as set forth in Governing Regulation VII A.1.

This program transfer has been reviewed and recommended by the University Senate Committee on Academic Organization and Structure and the University Senate Council.

THE MINING ENGINEERING FOUNDATION PROFESSORSHIP

Recommendation: that the Board of Trustees approve the appointment of Professor Joseph W. Leonard, Department of Mining Engineering, as the initial Mining Engineering Foundation Professor effective July 1, 1992.

Background: The University of Kentucky Mining Engineering Foundation was established in 1983 to manage donated funds and to generate additional funds to support the continued improvement of the instructional and research programs of the Department of Mining Engineering at the University of Kentucky. In 1987, a Mining Engineering Foundation Development Fund was established to augment income derived from the Foundation's endowment.

In April of 1992, the Board of Trustees approved the establishment of a quasi-endowment for the Mining Engineering Foundation and its Mining Engineering Foundation Development Fund.

Dr. Leonard was selected after a faculty committee, operating under College By-Laws governing the selection of candidates for titled professorships, reviewed candidates and recommended his name.

BOARD OF DIRECTORS

Recommendations: (1) that Mr. Henry L. Jackson be appointed a member of the Board of Directors of the University Hospital of the Albert B. REPORT OF INDEPENDENT ACCOUNTANTS

**To the Board of Trustees of the
University of Kentucky**

and

**the Secretary of Finance and
Administration Cabinet of the
Commonwealth of Kentucky**

We have audited the accompanying consolidated balance sheet of the University of Kentucky (an agency of the Commonwealth of Kentucky) and affiliated corporations as of June 30, 1992, and the related consolidated statements of changes in fund balances and current funds revenues, expenditures, and other changes for the year then ended. We previously audited and reported on the consolidated financial statements of the University for the year ended June 30, 1991, for which certain condensed statements are presented for comparative purposes only. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the University of Kentucky and affiliated corporations as of June 30, 1992, and the consolidated changes in fund balances and current funds revenues, expenditures, and other changes for the year then ended in conformity with generally accepted accounting principles.

UNIVERSITY OF KENTUCKY

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Scope of Statements

The consolidated financial statements of the University of Kentucky (the University) include the operations of the University and its affiliated corporations as follows: The University of Kentucky Research Foundation; The Fund for Advancement of Education and Research in the University of Kentucky Medical Center; University of Kentucky Athletic Association, Inc.; Health Care Collection Service, Inc.; University of Kentucky Mining Engineering Foundation, Inc.; University of Kentucky Business Partnership Foundation, Inc.; University of Kentucky Equine Research Foundation, Inc.; University of Kentucky Humanities Foundation, Inc.; and Center on Aging Foundation, Inc.

All significant balances and transactions among the above entities have been eliminated.

Accrual Basis

The financial statements of the University have been prepared on the accrual basis of accounting.

Fund Accounting

The University maintains its accounts and reports its financial transactions in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds that are in accordance with activities or objectives specified. Funds that have similar characteristics are combined for reporting purposes into fund groups.

Within each fund group, fund balances restricted by outside sources are so indicated and are distinguished from unrestricted funds allocated to specific purposes by action of the Board of Trustees. The Board retains full control over allocated fund balances to use in achieving its institutional purposes.

Restricted gifts, grants, appropriations, endowment income and other restricted resources are accounted for in the appropriate restricted funds. Restricted current funds are reported as revenues and expenditures when expended for current operating purposes.

True endowment funds are subject to the restrictions of gift instruments requiring in perpetuity that the principal be invested and the income only be utilized. Term endowment funds are similar to true endowment funds except that upon the passage of a stated period of time or the occurrence of a particular event, all or part of the principal may be expended as well. Quasi-endowment funds are established by the Board for the same general purposes as other endowment funds, and any portion may be expended. Substantially all income from endowment funds is restricted.

Ordinary income derived from investments, notes receivable, and the like, is accounted for in the fund owning the assets, except that income derived from investments of endowments and similar funds and the majority of current restricted funds is accounted for in the fund to which the income is designated.

All unrestricted revenue is accounted for in the unrestricted fund.

Current Funds

The statement of current funds revenues, expenditures, and other changes is a summary of financial activities of current funds related to the current reporting period.

To the extent that current funds are used to finance plant asset acquisitions the amounts are accounted for as: (1) expenditures, in the case of replacement of movable equipment and library books; (2) mandatory transfers in the case of required provisions for debt amortization and interest; and (3) a transfer of a nonmandatory nature for all other cases.

The Board allocates unrestricted current funds fund balances for specific purposes. These purposes include: (a) working capital needs of the University (including the hospital, the housing and dining system, and auxiliary enterprises); (b) certain unrestricted income from private sources; and (c) budget appropriations for future operating purposes.

Cash and cash equivalents

Cash and cash equivalents include investments with a maturity of three months or less. These funds are deposited in local bank accounts (of which \$400,973 is insured by FDIC), in U.S. Government/agency repurchase agreements (\$59,065,980), and with the State Treasurer.

Investments

Investments are stated at cost or, in the case of gifts, at market value at the date of donation. The specific identification method is used for purposes of determining the cost of securities sold.

Inventories

Inventories are stated principally at the lower of average cost or market.

Liability for Self-Insurance

The University and its agents are insured against medical malpractice by a combination of self-insurance and an excess liability fund established by the Commonwealth of Kentucky. As of June 30, 1992, the University has a malpractice liability reserve of \$15,822,261. To the extent judgements may exceed the reserve and excess liability insurance coverages, the Commonwealth of Kentucky has made provision for such excesses.

The University self-insures certain employee benefits to the extent not covered by insurance carriers. Current fund expenditures include claims paid by the University and an estimated liability for asserted claims at the end of the year.

The University has established a 501(c)(9) trust with the Commerce National Bank, Lexington, as trustee, to administer a self-funded long term disability income program. The University remits premiums to the Trust for purposes of paying claims and establishing necessary reserves.

Land, Buildings, and Equipment-Depreciation

Land, land improvements, buildings and equipment are stated at cost at date of acquisition or, in the case of gifts, at fair market value at date of gift except for the following: (1) the University has title to certain tracts of land which were either donated or purchased at a nominal price with no book value assigned to these properties; and (2) buildings acquired prior to June 30, 1958, were recorded at appraised value of \$33,000,000 at that date. In conformity with governmental accounting practices, no provision is made for depreciation of buildings and equipment.

Revenues from student housing and dining facilities, certain other auxiliary enterprises, hospital and student fees are pledged for the retirement of the bonds. All bonds, with the exception of Hospital Revenue Bonds, Series A, are collateralized by land and buildings.

5. Capital Lease Obligations

The University has utilized capital leases to acquire the following: Woodford County farm, \$11,500,000; football stadium, \$11,699,545; life safety improvements to buildings, \$16,749,104; and various items of equipment, \$35,931,139.

6. Funds Held in Trust by Others

The University is the income beneficiary of various trusts which are held and controlled by independent trustees. For the years ended June 30, 1992 and 1991, the University received income from these trusts amounting to \$942,995 and \$954,351, respectively. The University has no equity interest in the principal of the trusts which, accordingly, is recorded at a nominal value of \$1 each. The 1992 income received from these funds is recorded in the current unrestricted fund for \$355,613 and in the current restricted fund for \$587,382.

7. Pension Plans

Regular full-time employees, including faculty, are participants in the University of Kentucky Retirement Plan. The University of Kentucky Retirement Plan consists of five groups as follows:

- | | |
|-----------|---|
| Group I | Established July 1, 1964, for faculty and certain administrative officials. |
| Group II | Established July 1, 1971, for staff members in the clerical, technical and service categories. |
| Group III | Established July 1, 1972, for staff members in the managerial, professional and scientific categories. |
| Group IV | Established January 1, 1973, for staff members having U.S. Civil Service Retirement entitlement. |
| Group V | Established July 1, 1987, for staff members covered under the Federal Employees Retirement System that replaced Civil Service (those whose employment began during the period from January 1, 1984 to March 31, 1987). Staff members whose employment began |

after March 31, 1987 are under one of the above University of Kentucky Retirement Plans.

Participation in the University of Kentucky Retirement Plan in groups I, II, and III is mandatory for all faculty and staff members, age 30 and older, who have completed one year of service. Participation is voluntary to age 30 (after completion of one year of service). Participation in groups IV and V is voluntary.

The University has authorized three retirement plan carriers, effective July 1, 1988, as follows:

Teachers Insurance and Annuity Association/College
Retirement Equities Fund (TIAA/CREF)
Fidelity Institutional Services Company
Twentieth Century Investors, Inc.

Under these fully funded group retirement plans, the University and plan participants make annual contributions to provide fully vested retirement benefits to employees upon retirement. The University's share of costs for these plans was \$28,349,524 and \$24,124,363 for 1992 and 1991, respectively. The University makes retirement contributions to the U.S. Civil Service for certain Cooperative Extension Service Employees in the College of Agriculture. These contributions amounted to \$1,233,028 and \$1,236,548 for 1992 and 1991, respectively.

In addition to retirement benefits provided from the group retirement plans, the University provides supplemental retirement income benefits to certain eligible employees in each of the retirement groups (see Note 8).

8. Minimum Annual Retirement Benefits and Supplemental Retirement Income

Employees in retirement groups I, II and III who were age 40 or older prior to the date of establishment of each group plan, and who were employed by the University prior to that date, qualify for the minimum annual retirement benefit provisions of the retirement plan. Benefits for these eligible employees are based upon a percentage, determined through years of service, of the participant's annual salary in the last year of employment prior to retirement. Retirement benefits as determined are funded by each individual retiree's accumulation in the group retirement plan, with the balance, if necessary, provided by the University as supplemental retirement income.

The costs of supplemental retirement income benefits are not accrued but are recognized when payments are made to retirees. Supplemental retirement benefit payments were approximately \$4,900,000 for 1992 and \$4,339,000 for 1991. The projected estimate of annual payments for supplemental retirement benefits for each of the next five fiscal years is as follows:

(In Thousands)

1993	\$4,874
1994	4,824
1995	4,754
1996	4,662
1997	4,519

The Legislature of the Commonwealth of Kentucky has appropriated funds to the University for the payment of supplemental retirement income benefits since adoption of the group retirement plans, and is expected to continue this practice, however the Constitution of the Commonwealth of Kentucky prohibits the commitment of future revenues beyond the end of the current biennium.

Accordingly, the University does not recognize the liability for supplemental retirement income benefits during the service life of covered employees, but recognizes its costs when funds are appropriated by the Legislature and payments are made.

The University intends to continue paying supplemental retirement income benefits contingent upon the Legislature continuing to appropriate funds required to make these payments.

The latest actuarial valuation was prepared as of December 31, 1991 by TIAA. The actuarial present value of vested and non-vested accumulated supplemental retirement income benefits as determined by this valuation, utilizing an assumed rate of return of 8%, was \$37,271,000.

9. Health Insurance Benefits for Retirees

The University provides health care benefits to retirees who have a minimum of fifteen years service. The University recognizes the cost of providing those benefits by expensing the insurance premiums in the year paid. These premiums were \$1,360,314 and \$1,176,991 for the years ended June 30, 1992 and 1991, respectively.

The Financial Accounting Standards Board has issued Statement of Financial Accounting Standard (SFAS) No. 106, "Employers' Accounting for Postretirement Benefits Other than Pensions". The University will be required to adopt SFAS No. 106 for its year ended June 30, 1994, however, earlier adoption is permitted. Management has not yet determined the year of adoption nor its effect on the financial position of the University.

10. Construction Commitments

Estimated cost to complete construction under contract at June 30, 1992 is approximately \$40,412,000. Such construction is principally financed by Commonwealth of Kentucky appropriations and long-term bonds payable.

11. Contingencies

The University is defendant in several lawsuits, however University officials are of the opinion, based on advice of in-house legal counsel, that the ultimate outcome of all litigation will not have a material effect on the future operations or financial position of the University beyond the amounts already provided.

12. Pledges

Pledges totaling approximately \$19,034,000, including \$11,273,000 relating to the Commonwealth Library Campaign, are expected to be collected over the next ten years. Deferred gifts through insurance, known bequests and irrevocable trusts in which the University has a remainder interest are estimated to be at least \$22,000,000.

It is not practical to estimate the net realizable value of such pledges and deferred gifts.

13. Grants and Contracts Awarded

At June 30, 1992, grants and contracts of \$66,434,000 had been awarded to the University and the University of Kentucky Research Foundation but not expended. These amounts will be recognized in future periods as revenues and expenditures as the funds are expended.

14. Reclassifications

Certain account classifications for fiscal 1991 have been reclassified to reflect comparability with account classifications adopted for fiscal 1992 with no effect on previously reported fund balances.

CHANGE ORDER #2	1. Provide detailed pricing breakdown to provide labor, equipment and material to install a sidewalk. 2. Revise the site fencing to allow additional area outside the fence for pedestrian space around the site as well as provide site lines around the fence corners for safety of public.		04/23/92		+ 1,846.00
Reason for Change:	1. Owner request, foot traffic was having to travel through mud to access Anderson Hall. 2. West side of fence was too close to Business and Economics Building and concern for the safety of general public as they rounded corners at night.				
CHANGE ORDER #3	Provide detailed pricing breakdown to provide labor, and material for the installation of additional hardware. Review of submittal required added closures (7), 1 set of panic devices, and 2 lock cylinders.		04/30/92		+ 2,029.00
Reason for Change:	Additional door closures, panic hardware, and cylinders were not included in original contract. Document review by Architect indicated need for additional hardware requirements.				
CHANGE ORDER #4	Provide additional shoring and underpinning along the West and South faces of McVey Hall.		05/20/92		+ 40,736.00
Reason for Change:	Concealed/unknown condition. In all locations either the footings are on clay or on weather/laminated/mud filled rock, not suitable for bearing with a 20' excavation directly adjacent to the existing footings.

CHANGE ORDER #7	Added shoring at the southwest corner of Anderson Quad east wing.		05/29/92		+ 14,984.00
Reason for Change:	Soil conditions at this location requires shoring full depth because of mud seam found in this corner.				
CHANGE ORDER #8	Added excavation and shoring at the Southeast corner of Robotics.		05/29/92		+ 4,814.00
Reason for Change:	Additional shoring was added to tie the contract shoring to the Robotics wall to prevent undermining the handicap sidewalk on Robotics South side.				
CHANGE ORDER #9	Added excavation, shoring, demolition and grading for ASTeCC III Building Footprint.		05/29/92		+ 87,477.00
Reason for Change:	Federal funding of ASTeCC III allows for excavation of the Footprint of that building. Adding this work by unit price takes advantage of unit prices and economy of scale versus separate smaller contract later when other work has blocked access to the area.				
CHANGE ORDER #10	Delete excavation and shoring of the courtyard area to the north of Civil Engineering.		05/29/92		- 25,211.00

CHANGE ORDER #13	Add an additional sidewalk around the steam vault expansion.		06/15/92		+ 958.00

In the meantime, Paducah Community College has the use of the property under a dollar per year lease.

All renovation work will be carried out under the terms of an agreement between the University of Kentucky and Paducah Junior Community College, Inc. The agreement provides that plans for the renovation will be approved in advance by the University, and the work will be carried out with the oversight of the University. It is anticipated that the renovations will be completed during 1993.

3. Comments - The increase in off-campus and weekend fees supports the enrollment growth in those self-supporting programs at Elizabethtown and Somerset community colleges. The noncredit fee income will support community education at Jefferson Community College, the College of Engineering Transportation Center's TRANSP0 (Transportation Exposition) Conference, the College of Law continuing education program, a continuing education seminar in the Program on Aging in the College of Medicine and the summer advising conference coordinated by the University Registrar. A federal appropriation supports a 4-H Youth at Risk Program in the Cooperative Extension Service. The gifts and grants from the Fund will support the Medical Center's University Health Service and the College of Dentistry salary supplementations.

Programs to be supported by increased departmental sales and services income are Jefferson Community College community education, a library system setup for Georgetown College through Information Systems, the College of Engineering Transportation Center's TRANSP0 (Transportation Exposition) Conference, the College of Law continuing education program, the University Registrar's publication of the University Bulletin and the reproduction of transcripts, the College of Medicine heart pump clinic, and a personal services contract with the Veteran's Administration. Also, decreased long distance and audio-visual services revenue to Information Systems requires a reduction in the expenditure budget.

3. Comments - The budgets of the affiliated corporations are included in the University Operating Budget to provide the Board of Trustees with a consolidated operating budget consistent with submissions to the Governor, the Legislature, and the Council on Higher Education. The affiliated corporation budgets contained in the original operating budget are in most instances tentative budgets subject to the approval of the respective affiliated corporation boards. The revisions for the Business Partnership Foundation, the Humanities Foundation, and the Mining Engineering Foundation represent those respective budgets as subsequently approved by the affiliated corporation boards. Additional income to the Medical Center Fund will be transferred to the General Fund to support salary supplementation for the College of Dentistry and the University Health Service. Fund balances from the FUND will support the College of Medicine Dean's Academic Enrichment accounts and professional and staff development. The remaining Fund increase will be used for faculty support.

ROBINSON TRUST QUASI-ENDOWMENT

Recommendation: that the Board of Trustees authorize the creation of a "Robinson Trust Quasi-Endowment Fund." The income from the quasi-endowment fund will be used to support the purposes of the Mountain Fund Trust.

Background: On April 7, 1992, the Board of Trustees approved FCR 7 which established a broad policy statement, areas of emphasis and an expenditure plan to guide the administration of the funds received from the mining and logging operations in the outlying tracts of Robinson Forest.

Approved as part of the expenditure plan was the establishment of a quasi-endowment to support the purposes of the Mountain Fund Trust. The expenditure plan also included the provision that until 1994-95 there would only be expenditures from the royalty income and timber sales to support the Forest's infrastructure, operations and management. The balance of the income will flow to the quasi-endowment fund.

The "Robinson Trust Quasi-Endowment" will be funded initially using \$500,000 of the 1991-92 income from timber sales and minimum coal royalties. It is anticipated that all coal royalty and timber income received in 1992-93 will be deposited to the "Robinson Trust Quasi-Endowment."

LEASING OF OIL AND GAS RIGHTS ON THE "GOFF TRACT"

Recommendation: that the University's Administration be authorized to enter into an agreement with Equitable Resources Exploration, a division of Equitable Resources Energy Company, leasing the University's 45% interest in the oil and gas rights on the Goff Tract.

Background: The Board of Trustees approved the University acquiring a 45% interest in the 767-acre Goff Tract in June 1992 from Ark Land Co., a subsidiary of Arch Mineral Corp., as part of a coal leasing transaction on the University's Bear Branch tract. The Goff Tract is adjacent to the northwestern boundary of the 10,000 acre main block of the Robinson Forest. With the exception of the area within Clemons Fork, the Goff Tract has been mined extensively by Arch and has been reclaimed. About 2,000,000 tons of recoverable coal remain on the property in the Francis (Hazard #8) seam.

The primary reason the University acquired interest in the Goff Tract is that approximately 25 acres of the tract extend into the undisturbed Clemons Fork watershed of the 10,000 acre main block of the Robinson Forest. It is the University's intention to use its ownership to protect the 25-acre tract inside the Forest watershed from mining and gas and oil exploration.

It is the Administration's plan to approach the Goff heirs on a formal basis about developing the Goff Tract coal reserves outside the Clemons Fork watershed and about acquiring 100% ownership of the 25-acre tract in the Clemons Fork watershed.

Before the University acquired Arch's interest in the Goff Tract, each of the twenty Goff heirs had already leased their oil and gas rights to Equitable (for a total interest of 54.814354%). Equitable, one of the largest oil and gas producers in the eastern United States, now has proposed to lease the University's interest (45.18517%) on the same terms as the Goff heirs:

1. 12.5 percent production royalty;
2. \$10 per acre rental first year;
3. \$3 per acre rental per year for 2-5 years or until production; and,
4. a 5-year period allowed to begin production or the lease would terminate.

Equitable plans to drill only shallow (2000 feet deep) gas wells and does not foresee that oil production will occur on the property. It is anticipated that several test wells will be drilled in the area. Equitable is cautiously optimistic that sufficient gas will be found to warrant several production wells and a pipeline to tie to a gas transmission line.

Any lease with Equitable would assure: (1) that the development of the coal and gas rights are coordinated to produce the maximum amount of revenue and that coal reserves would not be sterilized by Equitable's gas well placement; (2) that the lease will contain provisions to assure protection to the environment; and, (3) that the property is properly reclaimed. There will be no intrusion into the Robinson Forest or its watershed by any of the activities of Equitable.

Inasmuch as the University has an obligation to cooperate with its co-tenants, the University should proceed with the development of the oil and gas on the Goff Tract in an environmentally responsible manner.

Members, Board of Trustees:

AUTHORIZATION TO ESTABLISH SECTION 125
SALARY REDUCTION PLANS

Recommendation: that the Board of Trustees authorize the University Administration to develop additional tax sheltered employee benefit plans, under Revenue Code Section 125, for health and dependent care flexible spending accounts and life insurance premiums.

Background: Developing additional plans entails preparation of a specific plan document and establishing appropriate procedures to administer the program. Based upon Board approval of this recommendation, it is the Administration's intention to prepare for future Board approval a specific plan document that will encompass all Section 125 plan programs. In addition the University will investigate and seek proposals/bids on third party administrators to manage the two programs which involve employee reimbursement.

The University, through a proposal process, hired Hewitt & Associates to evaluate the advantages of installing additional Section 125 plans. The preliminary review has been concluded, and there is a clear conclusion that substantial benefits will accrue to employees and the institution through the establishment of additional programs. In these times of severe budget restrictions, this is a program that will permit employees to get additional benefits out of their current salaries.

The Board of Trustees approved a pre-tax health premium plan authorized under IRS Code Section 125 in its October 16, 1984 meeting. This plan permits an employee's salary to be reduced by the amount of the health insurance premium that would be deducted out of salary paychecks. Employees are permitted the option to voluntarily enroll in the plan and be subject to the rules and guidelines that have been established by the Internal Revenue Service. The Kentucky Department of Revenue Code also recognizes Section 125 plans. Employees participating in these plans do not pay FICA taxes, Federal or State Income taxes and in some cases depending upon the local ordinance, local taxes. The institution also does not pay FICA taxes on employee premiums voluntarily sheltered under this program.

The University Employee Benefits Committee has recommended as a priority the assessment of these other options and has specifically recommended the implementation of the three additional programs that are proposed at this time. The three additional programs that are proposed at this time are tax sheltered plans for dependent care spending accounts, health care spending accounts and life insurance premiums.

Dependent care spending accounts will permit employees to tax shelter up to \$5,000 in a calendar year with the money to be used for care of dependents who meet certain criteria established under code guidelines. Health care spending accounts permit employees to tax shelter salary that may be used for medical expenses that will not be reimbursed to the employee by the health plan carrier. A good example of this is the deductible payment required under the University health insurance plan. The University has the authority to establish the health care spending limit and currently plans to establish that limit at \$1000. The life insurance premium tax shelter is limited to the premium cost of insurance up to a limit of \$42,500 in insurance. The code guideline is up to \$50,000 in insurance but the University already provides \$7,500 of free insurance.

The University anticipates that savings on FICA and other taxes will offset the costs of administration for these accounts.
