Preface

When the American Imprints Inventory was started in the Spring of 1937 two final results were anticipated. The first was to be a file or union catalog of title slips which would represent the holdings of American libraries to the limiting dates for each state in the fields of books, pamphlets, and broadsides printed in the United States. The second was to consist of published check lists drawn from this material, covering the publications of the various states and certain cities, within certain periods.

The master file of title slips has been built up until it now contains more than 14,000,000 typed slips, representing possibly 1,000,000 separate titles printed in the period of American printing to 1877 in all states but Arizona, Utah, Nevada, Idaho, Wyoming, Montana and the Dakotas. In these states the limiting date is 1891, because of the later start that printing had in them. Work is continuing in several states in making additions to this file, has been completed in some states, and has been discontinued in others.

Under the direction of Mr. Douglas C. McMurtrie, Consultant from the beginning of the Inventory until July 15, 1941, the second phase, that of publication of check lists, was chiefly confined to the editing and issuance of them in the more complex Style A form in the central filing office in Chicago where the editorial staff is located. The style A lists, requiring title page line endings and printers' devices and bibliographical notes, require an almost endless amount of research, both in the libraries where the books are located and in the huge file which complements them in the central office.

It had become apparent, on the basis of possible publication of Style A lists by either the central office or the various states, that if the more than a million titles so far harvested from American libraries were to be made available to the public some swifter method of issuing the check lists must be found. Two solutions seemed possible: that of abandoning the complex Style A lists and issuing simple Style B lists which would provide the user with all pertinent information on the title of the book and its location, author and printer and date of publication, or the return of the title slips to the states themselves for issuance of Style A lists of their own titles. The former solution would have speeded up publication to a considerable extent in the central editing office. The latter would have provided twenty or thirty Style A lists at the end of a year, some of which might have been of questionable quality because of the limitations involved in personnel and sources for necessary research.

A study of the problem has convinced the central office of the Historical Records Survey Projects in Washington that the answer may lie in combining the two solutions, that is, the issuance by the various states of their own titles in simplified Style B. check lists which can at a later time be refined by them or by interested scholars. To this end, a

manual of editing has been written and furnished the various states. In more than twenty states the staffs have given assurance that such simplified editing is possible and have requested that their material be sent from the central files.

In March, 1942, title to the American Imprints Inventory central files located in Chicago was transferred to the Library of Congress, and the materials moved to the Wisconsin State Historical Society for the duration.

This book, A Check List of Arkansas Imprints, 1821-1876, is the first imprints publication prepared in Arkansas and the thirty-ninth in the country. Material for a second volume, a check list of imprints printed prior to 1877 and relating to Arkansas but printed beyond the borders of the State, has been collected and it is hoped that the volume will be issued soon.

This volume lists 600 titles found in some 45 states. Among them are a number held by private collectors. Each entry is a full description of the title page of an Arkansas imprint. Books for which no title pages were found are so designated by brief notations. Other pertinent information on certain titles also is included, following the pagination and measurements of the books. After every title paragraph a symbol for the collection in which a copy may be found is entered. A general subject index and an index to printers follow the listing; references in both are to entry number only.

The field work which resulted in the preparation of this book and preparation of the draft of this volume was under the supervision of C. E. Ott, imprints editor of the Arkansas Survey, assisted by Fern Griffith and Birdie C. Rembert. The draft was prepared in accordance with instructions of the Washington Office of the Historical Records Survey Program. It was reviewed by the editors in the Washington and Chicago offices, headed by Winifred Schlösser, chief editor of the American Imprints Inventory central editing office in Chicago.

Stencil cutting for this volume was done by Maybelle Neighbors. Frances Kennedy directed the mimeographing, assisted by Flossie Blasingame. The checking and preparation of the listing of symbols was done by Mary L. Vinson.

Grateful acknowledgement is made to all librarians and custodians of institutions whose holdings are represented in this book. Chief among this group are the staffs of the University of Arkansas Library and the Little Rock Public Library. Also invaluable has been the indirect assistance afforded by the work of various persons who have prepared bibliographies of material relating to Arkansas.

Acknowledged also are the efforts of the Historical Records Survey staffs in other states in making available many of the locations and titles in this volume.

Since it is possible that, at some future date, the Survey or some other agency may issue either a supplement to the present list or a revised edition of the list, we shall appreciate notes of any new titles,

corrections, or additional locations addressed to the undersigned or to the sponsor.

[56]

The first 29 of the Arkansas Supreme Court reports were published prior to Jan. 1, 1877. Volumes 1-27 were published in Little Rock. Volumes 28 and 29 were published in Chicago in 1876 by Callaghan and Company. Most of the early reports have been reprinted at one time or another. They may be identified as reprints due to the fact that "Published by the State of Arkansas" or some similar phrase appears on the title page. In the listing of symbols which follows no effort has been made to identify reprints due to the fact that most libraries reported their holdings in the form of a series card. ABCC.
