PREFACE

The Historical Records Survey Project, as a part of a Nationwide program, was instituted in West Virginia in April 1936. Operating as a part of the Works Progress Administration under the national direction of Dr. Luther H. Evans the project remained a part of Federal Project Number 1 under Federal sponsorship until September 1, 1939, when it became a State project as a part of the Work Projects Administration. From the latter date until September 1, 1940, the West Virginia Historical Records Survey was under the sponsorship of the West Virginia Department of Education and since that time the sponsorship has been lodged with the State Department of Archives and History. On March 1, 1940, the national direction of the project was placed in the hands of Sargent B. Child, former regional director, suceeding Dr. Evans, who resigned to become Chief of the Legislative Reference Section of the Library of Congress.

Although emphasis has been placed on the survey of county, State, and church records, the West Virginia unit, believing that cemetery readings are a valuable part of our State archives, began a survey of these records in February, 1937. This work was started through the suggestion and interest of Mrs. Mary Wills Conaway, Marion County Librarian.

Through the interest of Mrs. Conaway the work was carried out in her county and through her efforts various historical organizations throughout the State have become interested in the publication of the material collected by our workers.

The readings here presented are those for Fairmont and Grant Districts in Marion County and is the second of the Marion series. The publication of this volume has been made possible by a generous contribution of the Colonel Morgan Morgan Chapter of the Daughters of the American Revolution.

The general poor condition of family cemeteries is much to be deplored and the location of many of these small cemeteries is unknown. Wherever possible we have tried to give at least the family name of persons interred in these neglected burial grounds.

No attempt has been made to group family names which vary in spelling and it is suggested that the user check all possible variations of family names. The name of Conaway, a name which appears frequently in Marion records, will also be found as Conway, and Conoway. Other names carry similar variants. Obvious errors are not always the fault of survey workers. Stone cutters frequently make errors in the lettering of stones and frequent errors are found in the compilation of ages in years, months, and days. This last mentioned reading is listed only when it appears on the stone. Stones lettered

in foreign languages have also offered a problem. In the listing of Holy Cross Cemetery (p. 45) it was necessary to omit four stone readings because translation was impossible.

The first part of the volume is devoted to the description of individual cemeteries. The name and location is given in the title line and is followed by a brief description of the cemetery. Locations indicated are based on the road maps prepared and distributed by the Road Commission of West Virginia, and by the names of the nearest postoffices. At the end of the paragraph a notation indicates the pages on which the readings are found, and on the same line, at the extreme right of the page, is the date this cemetery was surveyed. This will explain the absence from the list of stones or mortician's markers which have been placed after the reading was made. Vital statistics shown on the stones are given and any additional information which our workers have gathered from interviews or their own knowledge is indicated by being enclosed in parenthesis. Readings are arranged alphabetically by family names under the title of each cemetery which by number, is keyed to the description of the cemetery. Ages in years, months and days are given only when found on the stone. The index has been prepared to family and cemetery names only, with indication to the page on which these names appear.

The initial work of the cemetery survey was done by workers of the Marion County unit, under the contributed supervision of Mrs. Conaway. Workers have included Mrs. Ocie D. Ice, the Project's local supervisor, Mrs. Olive D. Wilson, and Everett Kennedy. Following the completion of the readings, the work was edited and arranged in the State office under the supervision of Miss Myrtle Cooke. At the same time a card was prepared on each individual stone reading. These cards are filed at the Department of Archives and History at the State Capitol by family names, thus creating a State-wide name index to cemetery readings. The final copy was returned to Marion County to be checked for possible errors.

Appreciation is expressed to Mrs. Innis C. Davis, State Archivist, and sponsor of the State project, for her valuable cooperation. Particular appreciation for cooperation in our undertaking is expressed to the officials of the Work Projects Administration: Mr. Joseph N. Alderson, State Administrator; Mrs. Irene F. Gillooly, State Director of Professional and Service Projects; and Mr. Paul B. Shanks, State Supervisor of Research and Records Subdivision, who have kindly given their assistance at all times.

A list of completed publications of the West Virginia Historical Records Survey will be found on the last page of this volume. Requests for information concerning any of these

publications should be addressed to the West Virginia Historical Records Survey, 210 Smallridge Building, Charleston, West Virginia. Any comments, criticism or additions to the contents of this volume will be appreciated and should be addressed to the State supervisor at the above mentioned address.

I. DESCRIPTION OF CEMETERIES

1. ADAMS CEMETERY, Hampton Road nr. Fairmont, U. S. 19.
Established 1820 as private burial ground; extent, 50 ft. x 50 ft.; no restrictions as to type and placing of markers; not fenced; not landscaped; condition, poor. One lot marked by 4 foot wall, others unmarked; graves marked by monuments; lots not for sale; no burial records kept; no longer in use as burial ground. Earliest stone dated 1822. One of the most unusual stones in the state is found in this cemetery as a marker to the graves of Mr. and Mrs. G. W. Adams. The stone bears a carving of what was apparently the most interesting incident in their lives and which is described by the following story. One evening at milking time an eagle swooped low over the Adams barnyard, caught a young lamb by the head and started to fly away. Mr. Adams, who was in a nearby wood with his gun, concealed himself in a tree, and shot the eagle as it flew away. The lamb fell to the ground uninjured. The scene on the stone shows Mrs. Adams milking, the eagle flying away with the lamb in its talons, and Mr. Adams partially concealed in the tree with his gun. Marked graves, 6; unmarked graves, unknown.
