Dr Sir

Yours of 26th inst received & I shall send you by Express some samples of my Whisky to let you see the quality of my make. But I have but a small quantity on hands at this time, having sold all but Eight (8) barrels Rye Whisky made on June last which I think you will find to be a very superior article for the age The other samples will be labled with the date of their make when I draw them from the barrels I send them as samples for you to sell my coming Crop by. If you can get an offer for a parcel let me hear from you at once. I shall commence as soon as the new Corn Crop will do to grind & would like to sell any whisky ahead of my runs. And if you can effect sales for me I am willing to pay you two and a half per cent (2½) as stated in your letter would be your charge.

I will say to you that my Whisky has a very high reputation in the City of New York where I have sold nearly all of my last season's run.

My last sale (328 barrels made in the months &

March, April, May & June I sold readily at one dollar (1.00) per Gallon & not a barrel has yet ever been shipped to the market. Has been sold by samples entirely. You can make sale at one dollar per Gall. Put here in my Warehouse, the Whisky to be received & then I give five hundred (500) barrels on hand and the money paid. It can remain in the House for a short time if the purchaser desires it. I expect to make 200 barrels a piece per month. Shall engage my whole if there are any parties that would like to make the trade. My Cooperage is of the first class all iron bound with Six hoops.

I will be pleased to hear from you when you receive my samples & by your market will refer you to Messrs John C Allen & Son merchants of your city late of Lexington Ky.

Very Respectfully
James M. Stone

Yrs of the 5th at hand. I now state to you for the fourth time that I do not wish to buy any Old Corn at the figures named by you (54cts) per Barrel. Therefore you will not engage any Corn for me at any price until you are advised to do so.

I wrote you on the 4th and Inclosed a Check on Norfolk & Craig at Lexington for Three Hundred Dollars ($300.00) to pay for the Rye which you say you have at the Depot only sacked. I have been looking for it since Monday, but it has not yet arrived. I understand that Rye can be bought at one dollar and twenty Cents ($1.20) and that you are offering one thirty ($1.30) Why are you doing so. You are letting other parties impose on you. I have given an Agency to the Myers Crabb at Eminence to buy Rye for me. You must not go in that Section, as you will clash with them and put up the price of Rye when there is no necessity for it. You must keep the prices down and not advance

it in this way. Send me a bill of all the Rye, bought by you, with the name of each individual, number of Bushels and price. I wish to know what you are doing Ship to me as fast as you receive it and I will remit you immediately. Send Rail Road Receipts as fast as delivered.

Answer this without delay

Yours of yesterday came to hand to night to which I now hasten to reply. In my last to you I expressed a willingness for you to purchase grain for me and supposed you had commenced buying. You will now commence so soon as you wish to do so, and buy all you can get. If it has gone up to one dollar and thirty cents you can pay the same, but whenever there is an advance you must notify me of it so I will be posted about the matter. If W.P. Myles is in your section you will please notify him that that I have given you an Agency there and that he must not buy there as you will clash with each other and put up the price when there is no necessity for so doing. I shall also write him to night to the same effect to Shelbyville but he may not get it for some days. I will pay you the usual price five Cents per Bushel for buying & Shipping

You will please keep a Strict account of

Your transactions and render me a bill for
Each lot purchased, as I am compelled by

Dr Sir Yrs. of yesterday recd Yours of Oct 3rd has never come to hand. I cannot understand your Communication at all. According to your Act rendered Mr Ray One Hundred and Fifty Dollars were paid to W. D. Harris to secure his Rye, now in your letter you say for me to remit to Henry Harris after I have deducted the $150.00 paid by you. I would like to know exactly which of the Harris you did pay the $150.00 to. Yr. Act credits Henry Harris with only $10.00 Mr Ray says also that W. D. Harris preferred, according to your statement made to him the evening he left you, to deliver his Rye rather than refund the One Hundred & Fifty Dollars, and that you would ship it the next day or the day after Now you say you turned it over to T. C. & Co's Agent. You also state that Geo. Harbison's Rye was burned by the engine. On your Act we find we have already rec'd. 149 sacks from him containing 96 bushels. Mr Ray has written you twice since he left you asking you to get Receipts for the money

you paid to the Messrs Harris, and to send them to me at once. Have you got them yet? if not, you must do so at once and send them to me. You ask me to remit Henry Harris. I do not do business that way. Whenever I receive Mr Harris' Rye I will remit him at once, but no sooner I have received Fifty One Sacks from you instead of Fifty, and have placed them to your credit. There are still One Hundred and One Sacks still due us from you. One of the Sacks you sent last has the name of an Eminence Firm on it and therefore is not mine. I will keep it until you come up which you must do as soon as you can, as I wish to have a settlement with you. Please write me more explicitly in regard to the Rye you speak of and of the money you have advanced, how much and to whom. Answer upon receipt of this

You cannot be more astonished at my statement than I am at the tenor of your letter. I have the Soft Brick and they speak for themselves. As you have not personally inspected them you therefore can not possibly be informed of the true state of the facts. Mr Hawkins says he will try and work all the Soft Brick, you have already sent me, into the upper Story of the building, but that he can not positively use any more than we already have. It will take Sixty two Thousand Brick more to finish. When can you let me have them. Answer immediately and let me know. We will run short by Thursday or Friday next. If you have them please ship them right along so that I can haul them while I have the teams

They may be the true owners and their statements may be correct, but I do not know. I do not say they are not, but not being personally acquainted with any of them and not knowing of whom, and at what price, you purchased the Rye I am at a loss how to proceed in the matter. Dear Sir

We find we have made a mistake relative to 52 Bbls Whiskey and wish to ask how to correct it. We R.S. gave on the 1st of Decr barrels and gauge 52 Bbls Whiskey which was of Oct. Tax and both he and the Store keeper reported it in December which it was in our Monthly Reports for Oct. We omitted it and entered it on day it was drawn off on 1st of Jany. It makes a discrepancy that we do not know how to correct. Please advise us by

Enclosed we give you Mr. C Lewis's note for L. Mchatter of this date to which we invite your careful attention.

By reference to your Co's books you will find that we have paid your Road no very small sum for freight and that we have at no time preferred Chgs against the Co for regular or overland rates, and we think it nothing but right that for agent Thurber refused to us the privilege of Contracting that our Claim should have a right to. Mr Lewis, agent at Peru ind, is disposed to dominate over us much too much and we feel called upon to protect ourselves. It has been our custom to pay York & all other Rly by Checks, and in Mr Lewis case the Bank is only 4 miles distant from his station; yet he refuses to deliver us Yorks until we hand him the Chgs in cash many which we do not have - not even a dollar. He says the Co. refuses to take Checks from him or Depot Bill money from him & therefore he refuses to take them from us. Please give the matter your attention & oblige

Dear Sir

When in Louisville some
time since the writer was introduced
to you by Insp. Dudley and then
mentioned that we had many much
difficulty with your Paymr Depot at
C. H. Lewis Esq. Our disbursing is about
2½ Miles from Depot & the most of from
Mr Lewis did not send in his pay
until the end of the month when they
amounted to over 1200 & we paid during
the month 800 and odd when the bills
were presented We then notified us we
must pay before he would deliver the
funds. Since which time we have been
sending home Checks on Dep Bank of
Louisville which we find out Stolen and
of course they which has been almost daily
We now send you the last bills
we have from him in which he demands
we shall pay the Money before he will allow
our funds to be handed in our Mayors
We hope in the prefered excuse that

the Lower Rome day or so in Collecting our Checks We had just to leave for the Morning as Checks out back for Morning at the Depot having the Cars Ready about 5 2/2 Miles from us

In writing to him to day we have intimated that he might Send our Checks to your office as a Convenient Way of Paying his Balance and if he May afraid they would not be paid we Could probably Satisfy you that they were good So that you Could Make him your Obligation on such Checks

In Conclusion we will say that We are the Largest Freight Dealers at this Depot and your Agent Seems inclined to put us to Much Unnecessary trouble and as far as we Know without any just Cause for so doing Can't you put us Some Relief It Seems to us you Might get an Agent that Lives Nearer than 6 or 8 Miles from Depot and one fully as well Qualified to fill the place Please Have this Matter before Your Board Next Sept. 1 Oblige

After a few days absence of the writer on his return he found your favors of 16 & 20th Inst. He was in communication to Commence work but we will try and do so but would we care but feel that you owe us 70 thousand dollars most of which that it would be good [illegible] 500 barrels whiskey must be put & sent down & off on your hand more than the 70,000 off. On the other hand we have insured in Insurance Companies and if the policies you have are made

to back & cover serial number of whisky must be bonded before date of the following August it not in case of fire theft of whisky must be sworn to Coll. and destruction of by Company who Could Collect that tax paid on whisky how covered by their Company however if they all do that he have been Collecting tax ever since 1862 & Collect [illegible] the insurance, tax have paid on against insuring by serial numbers. We respectfully Request to give us further instructions to cover advance tax on whisky bottled in bond Certain we do not hold bound for tax the Collector has on bond till it is sent for the tax and he demand by check in case for tax taken from there under the whisky is taken out of tax

friend, he only wish he could get a release on transfer of the whisky in bond but can assist us Cannot.

We have not the slightest doubt of your Honorable Court for $10,000 & we Trust shall hold the $5000 additional as will hold them until the Writs Comes down next week.

We have no intimation to visit the Contract for Rye Flour to see you dissatisfied with the insurance We do not believe the U.S. Court would make us pay Tax in Case of loss by fire but have the Opinion of the Atty Gen'l Opinion in a few days - when we will know what to depend on Yours &c Forest Shoemaker

On carefully summing up our Coal Accts from Nov to 1st July during which time we rec'd Notice that we had shipped by you we find we rec'd 9535 Bu and 95 Davenport & Taylor for 10400 "
showing a deficit of 865 "
all of which we do not think we ought to loose, when the last settlement was made the books were behind and our Clerk made the settlement in the absence of the Winter, If I had been at the office the claims would have been made in the settlement but as it was not we can only depend on your appreciation of justice and trust you will come to our relief.

Mr Joseph Nicholson

Dear Sir

Your letter of 26 Feb at hand, on my return coming on from Mr. Richardson & Sons Boston. I wrote Price the 22 Barrels Whiskey at 18c Gallon & charged 1 1/2 Gallon Gauge, & explain the matter to them. If they would change the Whisky Thermometer & Point the Whisky would come out all right. But I do not by Letter like to Risk in the good graces of their Inspector now on the Lookout by St. Louis Sharks Certainly make a difference in the matter, & therefore will endeavor to give it their close attention on arrival at Boston.

The other Letter in reference to the money I have to collect there, & respecting your Note from Brown you get Limit time at Interest & the Insurance must be Renewed on your Note & Certainly Renew in a way as best as you think best, all. We must keep our Signature all right. I must have some Money as Note falls due that Leaves. I will go to Boston & Square up My accounts & do not like the way the Books now Stand. When will you go to St Louis.

Respectfully.

Dear Sir.

I delivered the last of the 205 Barrels which at the request in yesterdays which I suppose will go off this morning. (82 BBls). (123) Shippers last week. I wish to know on what day you expect to take out the balance so as to be ready if I can get the barrels.

I learned on yesterday that the Department had granted the Privilege to Bedford & Buckner to Store them which in one of the rooms of their new house & I do not see why we cannot have the same Privilege granted us. If we cannot secure it as part of that to come out, you had better make another effort to get this Privilege Extended us. I am Expecting every day a notice to go to New Orleans & I wish you to come down as soon as you can & get the Books up to date I leave

Yours of 24 at hand I do not know what to say about the Clay Pecans as I have no experience in that way. But if the White can be sold @ 2.50 & 3.00 per gallon, It seems to me that we could do well to put it through, (but is not 6 to 8 dollars per Barrel too high for the Pecans,) I know nothing about the matter. Therefore am not qualified to give a direct answer. Mr Higgins has said nothing more about his money. I suppose he thinks the information given to him & me to you direct enough, & does not think it worth while to say any thing more to. Perhaps a part or all of it might be run a short time say Thirty days longer if there was any prospect of doing us any particular good. but I cannot say certain.

I have been thinking for some time of arranging my terms so as to run either whisky or Highwines as the market would suit. Would there have to be any thing different from the whisky arrangement. To run the Corn, If so what is it. If I employed you to run the Corn how much Highwines can you insure me to the bushel, & how much small grain would you use. (Say Wheat.) (as I suppose you would not use any other) as you do in whisky) But (consider) wait for the Yeast. By this arrangement I could run my Worm regularly on, & not have to stop. I have arranged with Wines as my terms & would have to make them. What would you run my Corn at by the Bushel per gallon as low as you can as you know the Prices are both either whisky or Wines.

Gentlemen

I am still in the distilling business & would like to place all or a large portion of my crop of whisky that I can make this season before starting. Will you please give me the state of the market & your best judgement whether it can be done & if so at what price. & whether you would be willing to place it for me & what the charges would be on all sales when the money was paid over to me. I am to have your Broker-age out of each payment as fast as paid. I suppose you are aware that there will be but little whisky made this season in this Northern portion of Kentucky. Please write fully by return mail & state what you will run me in a very small scale. Your attention will be kindly received.

Hope to hear from Wolfe & Co

Dear Sir

Yours of the 11th at hand. You desire to know what whisky I want in quantity & must express it. If I should start my home say the 1st Jany I make 15 to 20 Barrels I want do you think you could sell it so as to keep me in funds if I could sell 200 to 300 Barrels in market before wanting any money. I will be into this vicinity the last of Dec. you may at any time. If you think the market would justify my starting I will start up & make 200 Barrels & if I could sell I might make three trips. But if it would not suit I might make but two trips. But if it would suit I can do it. What do you think my new whisky would sell at. Please write me at the information you can & oblige
