# MANN'S

PATENT

# Parchment Copying Paper

(Date of Patent, July 11th, 1852.)

This Parchment Paper is **MUCH STRONGER,** and shows a **CLEARER COPY,** than any other ever made for the purpose. The ink is **LESS LIABLE TO SPREAD,** and can be written upon with a pen.

## DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper: then, with a soft brush, wet the leaf. Brush in the surplus water with the hand: then place the written letter on the leaf, (leaving the blotting-paper under the leaf, to take up any excess of water that may yet remain,) place it in the Press, and in ten or fifteen seconds a perfect copy will be secured.

☞ **The leaves WILL DRY AS SMOOTH AS SILK by placing the book in the Press after Copying.**

☞ Place the oil sheets between the copies just made, to prevent blending or setting off.
