FALL 1991

FACT BOOK DEFINITIONS

ACADEMIC YEAR

For enrollment, the academic year is the time period containing the academic sessions held during consecutive Fall and Spring terms and 4 and 8 week summer sessions. For degrees awarded, the academic year is the time period between July 1st and June 30th.

ACT

American College Test.

AVERAGE FULL-TIME TEACHING FACULTY SALARIES

The mean faculty salary reported here is based on a nine month contract and is taken from the annual AAUP Faculty Salary Survey. To convert a salary from a twelve month contract to a nine month contract, multiply by 9 and divide by 11. This compensates for 1 month of paid vacation.

CHE

Commonwealth of Kentucky, Council on Higher Education.

DEGREES AWARDED

The source for degrees awarded is the CHE/IPEDS degrees awarded tape and represents degrees awarded during the period beginning July 1 and ending June 30.

DISTRIBUTION OF EFFORT

Distribution of Effort figures for the colleges and departments are taken from the summary reports produced by the computing center from the Monitored Workload System. These averages represent the percentages in the data base as of 10/2/91 for the College of Agriculture and 10/1/91 for the rest of the Lexington Campus.

(Continued...)

FACULTY FTE

Information for this section of the report was taken from the four year comparison report compiled by the Office of the Assistant Chancellor using the Position Budget System (PBS) subcode summary report. The FTE represents the number of budgeted positions in the department or college, not the number of people employed (in Student/Faculty Ratio Table).

FISCAL YEAR

The 12-month period from July 1 through the following June 30.

FTE ENROLLMENTS (FALL)

FTE enrollment is calculated based on credit hours taught by courses in the department. See Student/Faculty Ratio below for formulae. The source for FTE enrollment is the Production Tabulation report.

TEACHING FACULTY VS. PERSONS WITH FACULTY RANK

Teaching faculty in this report represent those in the annual AAUP Faculty Salary Survey. Faculty included in this survey are limited to those full-time faculty whose teaching responsibilities are at least fifty percent instruction and are on an active payroll status. This does not apply to the College of Agriculture where all people with faculty rank with the exception of administrators are included. Therefore, not all persons with faculty rank such as administrators, etc., are included in these numbers. EEO faculty numbers will differ from AAUP faculty numbers because EEO numbers include faculty with administrative duties.

GENERAL AND RESTRICTED FUNDS

The University of Kentucky's original Operating Budget Summary is the source for this information.

General funds are defined as all fund group 01 (general) accounts. However, for the College of Agriculture, the following fund groups have been used: 01 (general), 02 (general designated), and 20-29 (general land grant, years 0-9). Totals for the Lexington Campus include fund groups 01 (general), 02 (general designated), and 20-29 (general land grant, years 0-9). In this report, general funds include fringe benefits, as well as income supported accounts.

Restricted funds consists of fund group 11 (restricted private) and does not include endowment income.

IPEDS

Integrated Post-Secondary Education Data System. A federal government reporting system.

(Continued...)

MAJORS (FALL)

Major enrollment includes headcount majors by level at the opening of the fall term for the appropriate year. For example, the fall 1990 academic year data is shown in the 1990-91 fiscal year. These numbers represent the same official enrollments as reported to state and federal agencies. Source of the information for this section of the report is the CHE/IPEDS enrollment tapes.

PRIVATE GIVING

College private giving information was obtained from the Lexington Campus Development Office and is compiled by calendar, not fiscal, year. Data reported for fiscal year 1990-91 is actually calendar year 1990; and for fiscal year 1989-90, the 1989 calendar year data is shown. Private giving information by department is not available.

STUDENT CREDIT HOURS

Number of credits per course multiplied by the number of students enrolled in the course.

STUDENT/FACULTY RATIO

Faculty FTE is the sum of the following formula:

number of full-time faculty (object code=1101)
\+ funds for teaching assistants (object code=1301) ÷ ave. dept. faculty salary
\+ funds for part-time instructors (object code=1110) ÷ ave. dept. faculty salary

For the College of Agriculture, the student/faculty ratio uses the number of budgeted faculty in the instructional departments only (FRS department codes beginning with 8A).

Student FTE calculation uses the following formulae:

undergraduate student credit hours ÷ 16 = 1 FTE
graduate student hours ÷ 12 = 1 FTE
students taking 769 only = 1 FTE
the College of Law FTE equals the actual headcount.

Student/faculty ratios are taken from the annual report generated by the office of the Assistant Chancellor for Lexington Campus.

(Continued...)

TEACHING ASSISTANTS

Authorized teaching assistants, not necessarily the actual number of teaching assistants are reported here. The source for this information is the report of the Assistant Chancellor for the Lexington Campus.

UNIVERSITY OF KENTUCKY

The use of "University of Kentucky" alone, in a title for a table indicates that the information being reported includes the Lexington Campus, Medical Center and Community College System.

UNIVERSITY OF KENTUCKY - LEXINGTON CAMPUS

The use of "University of Kentucky - Lexington Campus" in a title for a table indicates that the information being reported includes the Lexington Campus only. The Medical Center and Community Colleges are excluded.

UNIVERSITY OF KENTUCKY UNIVERSITY SYSTEM

The use of "University of Kentucky University System" in a title for a table indicates that the information being reported includes the Lexington Campus and the Medical Center. The Community College System is excluded.

(a) Source: Production Tabulation Report from final statistical tape including 769 hours. For Fall 87 and 88 all off-campus hours are excluded. For Fall 89, 90, and 91 off-campus hours are included, except in Library Science and Social Work.

(b) FTE calculations are made using these formulas: undergraduate SCH (by student level)/16=1 FTE; graduate SCH/12=1; students taking 769 only=1 FTE; each headcount in Law = 1 FTE.

(c) For Faculty FTE = [1101 Object Code for faculty FTE in July 1 budget] + [1301 Object Code for Teaching Assistant dollars + 1110 Object Code for part-time dollars]/Average Budgeted Department Faculty Salary.

(d) Chairman FTE distributed to departments.

(f) Headcount is used for Student FTE.

(b) FTE calculations are made using these formulas: undergraduate SCH (by student level)/16=1 FTE; graduate SCH/12=1; students taking 769 only=1 FTE; each headcount in Law = 1 FTE.
(c) For Faculty FTE = [1101 Object Code for faculty FTE in July 1 budget] + [1301 Object Code for Teaching Assistant dollars + 1110 Object Code for part-time dollars]/Average Budgeted Department Faculty Salary.
(d) Chairman FTE distributed to departments.
(e) Does not include FTE Faculty and TA FTE for English as a Second Language.
(f) Headcount is used for Student FTE.
(g) Linguistics FTE moved from French to English for fall 1991.

* The University selective admission standards became effective for the entering Fall 1984 class.

** From Summer 1974 through August 1988, the University used Enter-ACT; accepting as an application for admission any student who listed UK as first choice on the ACT score report. During 1989, a more conventional approach was adopted, requiring each student to complete an application for admission.

Notes: University System includes Lexington Campus, Medical Center, and Research & Graduate Studies.

Differences in numbers of entering freshmen in ACT, admissions, and Council on Higher Education data are due to the following factors:

(1) ACT may not be available for all entering students due to their not releasing Social Security information; the ACT numbers represent numbers of test takers, not numbers of different students;

(2) Council on Higher Education figures are based on last day to add a class figures and are official university data.

Notes: Figures in box are projected not actual numbers and are calculated as shown below;

(1)Projected number of Kentucky public high school graduates based on 95.5% survival to graduation from senior year

(2)Projected number attending college is based on a weighted average of Kentucky high school graduates using (1st Year*3 + 2nd Year*2 + 3rd Year)/6

(3)Projected number attending in-state colleges based on 88% of all Kentucky public high school graduates attending colleges

Excludes government documents.

** Sizable reductions reflect change in Association of Research Libraries reporting practice that excluded government publications from these categories.

*** Purchases and gifts.

**** As of 1990-91, the Association of Research Libraries stipulated that cataloged government publications be included in collections statistics. This accounts for significant increases in Current Serial Subscriptions, Total Microforms, and Net Volumes Added categories.

* Based on an index developed by the Association of Research Libraries to measure the relative size of university libraries. The index takes into account the number of volumes held, number of volumes added during the previous fiscal year, number of current serials, total expenditures, and size of staff. It does not measure a library's services, the quality of its collections, or its success in meeting the needs of users.

** Percent of institution's education and general fund expenditures.

Notes: Institutions are asked to report figures for their main campuses only, unless a branch campus is indicated.
