Classification of Schools

Comprehensive

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, and that provides an enriched program of studies and other features beyond those required for a Standard classification may be considered for Comprehensive rating. In the Comprehensive school, major emphasis should be placed on meeting the special needs and interests of students through broad academic, exploratory, and co-curricular experiences.

Standard

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, and that substantially meets all of the criteria included in these standards may be considered for a Standard rating. All criteria not otherwise specifically designated shall apply to this classification.

Basic

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but fails to meet the minimum requirements for a Standard rating may be considered for a Basic rating.

Provisional

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but fails to meet the minimum requirements for a Basic rating may be considered for a Provisional rating.

Special School Accreditation

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but offers special programs or partial programs resulting from phasing in or phasing out of grades, alternative programs and certain other programs designed to meet individual needs of students may be considered for Special School Accreditation rating.

Educational Arrangements

Local Boards of Education may make arrangements for certain types of educational opportunities not otherwise available through regular school operations and designate where school records will be kept and credit given.

Emergency

Schools that do not fit the scheme of classification of Comprehensive, Standard, Basic or Provisional.

Public and State or Federally Related Schools for School Year 1978-79

There were 983 elementary schools accredited by the State Board for Elementary and Secondary Education during the school year 1978-79. Of this number 826 were under the control of the county school districts and 139 were under the control of the independent school districts. Eighteen (18) were state or federally related schools.

Table I shows the number of accredited elementary schools classified according to the type of control for five years from 1974-75 to 1978-79

**Table I Number of Accredited Elementary Schools
