Les,

Essentially Scott Brown and myself as chairman reported that we had obtained the dimensions for the hardware that would need to be installed and were presently contacting companies that could give us quotes for the materials by themselves and the materials and installation included so that we could present our findings for the lodge. Scott Brown also displayed and discussed the pot rack to be hung above the middle island in the kitchen. The rack is to contain approximately 15 hooks for various pots and pans and be chained to the ceiling at six locations.

That was essentially all of what we had to report last night. On a side note tonight when we met for the proficiencies Scott Brown and Eric Sharp both returned their proficiencies along with 5 other Circle Lodge Master Masons with excellent perfection. They were declared proficient by Circle and the officers of our lodge present which consisted of Myke Robins, Brian Coffman, Howard McKenzie, and myself. I'm not sure if we will need another motion in our open meeting to declare them proficient or not but if so let me know I will be glad to make the motion.

Also tonight I spoke with Scott Brown further about the pot rack and at work today he had a metal worker there cut out 2 Masonic square and compass emblems with the letter G in the middle to be mounted on either side of the pot rack. They are approximately 1 foot in height and will really put a special look to that piece of kitchen equipment.

If I've forgotten anything just let me know.

James Campbell

Parting Speech
of
Myke Robbins
Master of Lexington Lodge No. 1
2006

At this time I would like to thank the Craft for having been of such great assistance to me during my tour of duty here in the East. I would like to confess that I never set out to be the Master of the Lodge. I feel that I was sort of tricked into it by Brother Jim Lewis. He asked me to simply fill the chair of the Jr. Steward one night, and I thought that it was just something that was temporary. I soon found myself being pulled along through the chairs by an invisible force. I must admit that on St. John's Day last year I was not 100% confident that I would be elected to sit in the East. It was all pretty much like a dream. I was not certain just how well I would do, but I soon learned that there are a bunch of Past Masters who are more than willing to help a sitting Master if he will just let them.

I recommend going through the chairs to any Mason, because in so doing you learn more of what Masonry is all about. The words that I mouthed during initiations and later memorized in order to gain my various proficiencies only began to make sense to me as I learned the various lectures that are required as one progresses through the chairs. The journey toward the East is an experience that just might save your life or preserve your mental health. I have heard of Masons, who were prisoners of war in Viet Nam, who attributed their ability to maintain their sanity to constantly reviewing the lectures that they had learned as Masons. Medical science has now proven that people who play chess, crossword puzzles or engage in memory work create connections within the brain that allow their brains to continue functioning even when clinically they have Alzheimer's disease.

Every step of the way toward the East a Mason is provided the opportunity to take on greater responsibility and thereby prove himself not only to the Craft but to himself as well.

There are enemies of the United States who attempt to detract from the greatness of the founding fathers. But they cannot escape the fact that George Washington was the first head of state of any country who relinquished the reins of power without having to be murdered in office or whose administration had to be replaced by means of a coup or civil war. George Washington simply stepped aside and let the next man elected to the Presidency take over that office. I would suggest to you, as others have suggested to me, that the reason that George Washington was able to so easily turn loose of the reins of power was attributable to his experience as the Master of his Masonic Lodge ... where the Master steps down, without making a fuss, to make way for the newly elected Master who follows him. So, with out any further adieu, I now declare the balloting closed, and I call the Lodge at ease preparatory to conducting the installations.

Outgoing Master's Address - Addendum

As one of my final acts as Master of this lodge I now declare all select committee's, with the exception of the Kitchen Planning & Furnishing Committee, disbanded and dissolved with many thanks for all their service and support to this body during my year as Master.

Incoming Master's Address - Addendum

As far as my committee appointments I will need a little more time to finalize a list that I will present to the lodge in the very near future. In the interest of enabling the Lodge to conduct any business that may arise in the interim I will announce that according to Lodge custom SW Howard McKenzie will chair the Standing Finance & Lodge Picnic Committees, JW James Campbell will chair the Standing Juris Prudence & Past Master Dinner Committees as well as the Select Kitchen Planning & Furnishing Committee, PM Mason Campbell will continue to chair the Standing Lodge Oversight Committee and PM James Lewis will chair the Select Funeral Committee. The Lodge Trustee's will also stand reaffirmed for the ensuing year.

Proposal for hallway counter and wall cabinets submitted by James Campbell:

**Itemization**

|                                     |          |
|-------------------------------------|----------|
| Base Cabinet 36 inches              | \$198    |
| Base Cabinet 24 inches              | \$142    |
| Base Cabinet 18 inches              | \$122    |
| Base Cabinet 12 inches              | \$108    |
| Wall Cabinet 36 inches by 14 inches | \$106    |
| Counter Top 12 feet                 | \$332.63 |
| Counter Top 16 feet                 | \$546.38 |

(note the 16 feet is required for the 2 inch overhang for proposal #2.)

I am proposing two options but I have given the itemization incase the proposed lengths are not satisfactory.

**Proposal #1**

There would be 12 feet of base counter cabinets and 9 feet of hanging wall cabinets. The summary price of this would be \$1442.63 pretax and \$1529.19 with tax.

**Proposal #2**

There would be 15 feet of base counter cabinets and 12 feet of hanging wall cabinets. The summary price of this would be \$1960.38 pretax and \$2078.00 with tax.

In proposal #1 the counter will hang off with edges approximately ½ an inch. With proposal #2 the counter will hang off with edges approximately 2 inches. However in proposal #2 the counter must have a seam as well as a reinforcement apparatus at the seam underneath the counter. Also note that the wall cabinets have not been extended to the end of the counter so as to provide room for a coffee maker or a drink container that might not fit the space between countertop and wall cabinet. Also keep in mind that the quotes given are an approximation with minor changes possible due to Lowe's altering its prices.
