while a wise may say
to morrow is too late to day

Let no fond love of
earth exact a sigh
no doubt divert our
steady steps aside
no let us long to live
or dread to die Heaven
is our hope and providence
our guide.

And he planted it with the

Remember Will and love is
Mind that a true lover is hard
to find

the world
the world is told the sea is
deep will though this a secret
keep
When you and I my love shal
part it will leav a sting
around my heart and if I never
gain your hand fair from my
native land in hopes I'll fly and
in some lonley region and die

I have known thee in the whirlwind
I have known thee on the hill
I have loved thee in the voice of birds
Or the music of the rill
I dreamed thee in the shadow
I saw thee in the light
I heard thee in the thunder peal
And worshipped in the night
All beauty while it spoke of thee
Still made my soul rejoice
And my spirit bowed within itself
To hear thy still small voice
I have not felt myself a thing
Far from thy presence driven
By flaming sword or waving wing
Shut out from thee and heaven
