FOREWORD

The Department of Education publishes the "Kentucky School Directory" as a service to the people of the Commonwealth and to others who are interested in the schools of Kentucky.

Appreciation is expressed to public and non-public school superintendents and other officials for the provision of data for this *Bulletin*.

The 1963-64 publication lists all public and non-public elementary and secondary schools, regardless of the number of teachers in those schools. Also it offers a district-by-district listing of administrative and supervisory personnel, including chairmen of boards of education. The membership figure is the number of pupils in school at the end of the first month.

Although the production of this edition of the "Directory" was supervised by the Division of Statistical Services, acknowledgment is due to professional staff members and employees of several divisions of the Department for the application of their special skills and for their personal interest in the successful completion of this project.

FOREWORD

The Department of Education, the Kentucky State Board of Education, and the Kentucky State Board of Health have been working together for many years to improve the health of the people of Kentucky.

It is the purpose of this book to provide information for the parents of children who are attending school in Kentucky.

The book is divided into two parts. The first part contains information about the health of children and the second part contains information about the health of the community.

It is the hope of the Department of Education, the Kentucky State Board of Education, and the Kentucky State Board of Health that this book will be of help to the parents of children who are attending school in Kentucky.
