L. W. POST.

FIRST PREMIUM
AT THE
National Exposition of Railway Appliances,
CHICAGO, 1883.

Having recently completed extensive improvements and additions to our works, we have now the most complete establishment for the manufacture of **Vitrified Sewer Pipe and Culvert Pipe** in the United States. Uniting the advantages of improved machinery, skilled labor and cheap material, we guarantee to our customers excellence of quality and minimum prices, while our unequaled shipping facilities (our works being adjacent to the Union Depot Co.'s tracks) enable us to handle orders with the greatest promptness, **saving to purchasers the tedious delays and expense** of switching cars to and from the suburbs.

⚠ Sizes above 12 inch not governed by the usual discounts.

Our Pipe received *First Premium*, over all competitors, at the late Exposition of Railway Appliances in Chicago, which is well known as the most critical market in this country, and the stronghold of the "Akron" Sewer Pipe. We invite the attention of purchasers to the significance of this fact, and would say further, that our confidence in the quality of our pipe is such, that on all car load orders we will, if desired, give prices delivered on track at destination, *we assuming all risk of breakage in transit*. We think this plan will commend itself to purchasers, as it enables them to calculate, with accuracy, the actual cost of the pipe delivered at their nearest depot.

BLACKMER & POST.

OFFICE, 325 CHESTNUT STREET.
FACTORY, SUMMIT AVE & PAC. R. R.

TUTTON & SKINNER, ST. LOUIS.

Saint Louis, April 21st. 1883

James K. Patterson, Esq., President,

Agricultural College of Kentucky, Lexington, Ky.

DEAR SIR:

On the back of this sheet, we show copies of a few of the letters we have received from officials of Public Institutions, to which we have furnished Sewer Pipe, and beg to suggest, that if you contemplate improvements about your premises this season, in which Sewer Pipe is required, you may find economy in dealing with us direct, thereby saving the dealer's or middle-man's profit.

Our Sewer Pipe is vitrified and salt glazed; its reputation is national and established as of superior quality, and our prices to all responsible purchasers are uniform and always as low as is consistent with the return to us of a fair margin of profit.

We are prepared to make prices, delivered at your nearest Railroad Station (for car loads only), we assuming all risk of breakage in transit, and if favored with your orders, will endeavor to merit your continued good will.

We enclose price-list which is subject to large discounts.

Yours Respectfully,

BLACKMER & POST.

TESTIMONIALS.

FROM IOWA HOSPITAL FOR THE INSANE.

BLACKMER & POST,
St. Louis, Mo.

INDEPENDENCE, IOWA, April 3, 1886.

Gentlemen: Your favor of March 31st is at hand. In my opinion it was good economy for us to buy our Sewer Pipe directly of you, with the agreement to pay so much per foot for it, delivered in good condition at Independence. No doubt you can get better freight rates than local dealers and those who wish to use your pipe. The eight thousand feet of vitrified socket pipe, purchased of you last year, was excellent in quality and is giving us entire satisfaction. With it we extended the main sewer of this Institution to the Wapsinicon River. I consider that your dealings with us have not only been just, but even generous, therefore I will not hesitate to place in your hands another order for goods whenever we need anything in your line.

Very respectfully yours,

GERSHOM H. HILL, *Superintendent.*

FROM ILLINOIS CENTRAL HOSPITAL FOR THE INSANE.

H. F. CARRIEL, M. D., Physician and Superintendent.

BLACKMER & POST,
St. Louis, Mo.

JACKSONVILLE, April 6, 1886.

Gentlemen: Replying to yours of recent date, I will say it gives me pleasure to state, that the 5,000 feet of pipe we purchased of you in 1885, and the pipe purchased of you in former years, has given us entire and complete satisfaction. In all our dealings with your house, we have found your mode of doing business very satisfactory; I do not hesitate to recommend your firm to Public Institutions and individuals.

I think the pipe you manufacture is equal to the best in the market, and your prices to us have always been as low as the lowest.

Yours very truly,

H. F. CARRIEL, *Superintendent.*

FROM ILLINOIS SOUTHERN HOSPITAL FOR THE INSANE.

HORACE WARDNER, M. D., Superintendent.

BLACKMER & POST,
St. Louis, Mo.

ANNA, ILL., April 7, 1886.

Gents: In reply to your letter of the 31st ult., we have found your Sewer Pipe satisfactory and economical, and have always found you fair and honorable in business transactions; and I can unhesitatingly recommend your pipe as excellent, and your firm as reliable, as my experience justifies this statement.

Very truly,

H. WARDNER, *Superintendent.*

FROM KANSAS STATE AGRICULTURAL COLLEGE.

GEO. T. FAIRCHILD, President.

BLACKMER & POST,
325 Chestnut Street, St. Louis, Mo.

MANHATTAN, KAS., April 3, 1886.

Dear Sirs: Answering yours of the 30th ult., I have to say, that we were satisfied with the pipe purchased of you last fall, and of the economy from dealing directly with yourselves. Our car-load came through almost absolutely free from breakage.

The only slip was from a charge of local rates per 100 lbs. upon the fire brick sent with the pipe, of which I had not thought when ordering.

Yours truly,

GEO. T. FAIRCHILD, *President.*

THE STANDISH IMPROVED FOOT-POWER HAMMER OR OLIVER.

PATENTED JULY 10, 1883.

THE STANDISH Improved Foot-Power Hammer or Oliver.

This Hammer is the result of several years' experience in building Foot Power Hammers, and is offered to the manufacturing public as the best thing of its kind in use, and is specially designed for making light forgings in dies cut to the shape of the work desired; for welding work that is difficult to weld by hand, such as carriage dash corners and cross bars, collars on shifting rails, goose necks and ends of seat rails, toe rails, top props, brace ends, rub irons, whiffle-tree hooks, rings, chain links, points and tenons on iron fence pickets, plain swedging—in fact, anything that is not too heavy for the hammer can be made under the hammer as nice as a drop forging or as fine as the dies. For all work that does not require a helper to handle the work, a smith will do more and better work by the aid of this machine than a smith and helper will do without it; and in some respects it is superior to a Power Hammer. The blow is under as perfect control as the hand hammer; you can strike one or as many blows as you like, to a *certainly*, which is more than can be said of power hammer. The blow is regulated by the distance the hammer is raised, which is controlled by the nut under the spring support, the spring support being clamped to the screw by set screw and gib to prevent turning around.

A man can weld as fast as he can heat, and that is all can be done under any machine. The first cost and running expenses are less than any power hammer that we know of. As one of our customers, a prominent carriage manufacturer of Cincinnati, Ohio, said: "They pay the best on the investment of any machine in our factory." One pair of plain cast iron dies with keys fitted, go with each machine. Our dies are made duplicate of each other, and parties can order at any time with the assurance that they will fit perfectly in any of our hammers, either the elliptic spring or the improved spiral spring Hammer.

The face of the dies is on a line through the center of a journal, allowing the working of a deeper and straighter impression than from any other point.

Die sinking done to order.

Parties ordering dies made will please send us a perfect piece of the work they require, filed to the exact shape and size wanted, and we can make the dies to do the work, if it is in shape to be made in dies.

Price of plain cast iron dies, fitted.....\$3.00 per pair.
" " " forged steel dies, fitted..... 7.50 " "

Dies with impressions cut in usually cost from \$6 to \$20 per pair, according to what the impression is, and whether cast iron or steel is used for dies.

TESTIMONIALS.

COLUMBUS, O., October 30, 1886.

GENTLEMEN—We purchased one of the first Hammers you made, which was eleven years ago; have been using them ever since, and they give entire satisfaction, and will do all you claim for them. Yours respectfully,
COLUMBUS BUGGY CO.

WATERTOWN, N. Y., August 23, 1886.

DEAR SIR—Answering yours of the 14th inst., we have not had any experience with other foot hammers than yours; and regarding your make of Foot-Power Hammers, would say we think everything of them, and do not see how we could get along without it in our factory—or something of the same sort equally as good. We think it saves us a great deal of money. We are using quite a number of them, and believe them to be one of our greatest helps in our forging shop. Very truly yours,
THE H. H. BABCOCK BUGGY CO.

COLUMBUS, O., August 18, 1886.

DEAR SIRS—We take pleasure in stating that after a thorough trial of your Standish Improved Foot-Power Hammer we are very well pleased with it, think it exactly fills the place, and if we did not possess one would immediately go and buy one. Very respectfully, BUCKEYE BUGGY CO.

BINGHAMTON, N. Y., August 18, 1886.

GENTLEMEN—Replying to your inquiry, we would beg to state that the Foot Hammer bought from you some time since has given very satisfactory results. We find it superior to any make of hammer that we have hitherto used. Respectfully,
KINGMAN, STURTEVANT & LARRABEE.

ST. LOUIS, MO., August 17, 1886.

DEAR SIR—We are in receipt of yours of the 13th, and in reply will say we are using several of your Standish Improved Foot-Power Hammers, and we find they do excellent work; in fact, we do not see how we could do without them. We can cheerfully recommend them to any one having light iron work to make. Yours very truly,
HAYDOCK BROS.

CORTLAND, N. Y., August 17, 1886.

DEAR SIR—Your favor of the 14th inst. at hand and noted. We bought one of the Standish Improved Foot-Power Hammers about two years ago when we first commenced business, and liked it very much. As our business increased we bought more of them, and we are now using ten of them constantly. We shall this fall enlarge our smith shop, and will probably put in two more. We have this year made over 25,000 shifting rails with these hammers, and have been to no expense for repairs. Yours truly,
CORTLAND TOP AND RAIL CO.

CHICAGO, ILL., August 17, 1886.

The Hammer we bought of you has been in constant use since we bought it about four years ago, welding joints and rails, with perfect satisfaction. ABBOTT BUGGY CO.

HOMER, N. Y., August 16, 1886.

DEAR SIR—Your favor of the 13th is received. I am now using your Improved Foot Hammers in my blacksmith shop with good success. We are able to get out light forgings in much better shape and for less money than ever before. I can recommend them to do all you claim; hardly see how I could get along without them. Very truly,
W. N. BROCKWAY.

CINCINNATI, O., August 16, 1886.

DEAR SIR—We are pleased to say that the Standish Improved Foot-Power Hammer, which we have been using for the last four years, is the

47-M-44

cheapest and best tool we have in our factory, and can heartily recommend it to any purchaser. This is as little as we could say regarding the merits of your machine.

GEO. ENGER & Co.

WINONA, MINN., August 16, 1886.

DEAR SIR—We have used one of your Foot-Power Hammers about a year with perfect satisfaction. The great variety of work possible to accomplish with the Hammer is largely in excess of what we expected it to do. We believe it to be the best Foot Hammer in the market. Wishing you success, we are,

Yours very truly, GATE CITY CARRIAGE CO.

TROY, O., August 16, 1886.

GENTS—We have used the Standish Improved Foot-Power Hammer for some time, and find it a great saving of time and labor, besides doing its work admirably. Our foreman of the smith room, Mr. Conrad, says he would not be without it for three times its cost, as it will save that amount within three months. Can cheerfully recommend it to the trade.

Yours very truly, TROY BUGGY WORKS.

FORT WAYNE, IND., August 16, 1886.

DEAR SIR—I can cheerfully testify to the merits of your Improved Foot-Power Hammers. I have had two of same in use in my factory for the past four years, and consider they are the best paying investment I have ever made in tools or machinery.

Yours truly, L. B. JOHNS.

SALEM, O., August 16, 1886.

GENTLEMEN—We take pleasure in testifying to the practical utility and good construction of your Standish Improved Foot-Power Hammer which we have had in use for several years. Respectfully,

W. J. CLARK & Co.

CLEVELAND, O., August 16, 1886.

DEAR SIR—In reply to yours of the 13th inst., would say that we are perfectly willing to endorse your Foot-Power Hammers which we have at our factory. We have four of them in use now, and they give us entire satisfaction in every respect for the kind of work we do on them, which is mostly forging and welding on all carriage and sleigh work. We can certainly recommend them to any body who wants a hammer for this kind of work.

Very respectfully yours, CLEVELAND HARDWARE CO.

COLUMBUS, O., August 14, 1886.

DEAR SIR—Replying to your enquiry of the 13th inst., will say the Standish Improved Foot-Power Hammers which we have had in constant use for several years have given entire satisfaction, and we are glad to have an opportunity of testifying to their merits. We believe they have no equal.

Yours truly, W. H. FISH MANUFACTURING CO.

GALVESTON, TEX., August 25, 1886.

DEAR SIR—After a trial of several years to find some machine to rivet the bands which we have to use in the compresses, cheap and satisfactory, I ordered a Standish Foot-Power Hammer, with the instructions how to fit the same for riveting, and it was far superior to my expectations, and I ordered one more; and when New York parties came here to sell me a riveting machine the gentlemen themselves acknowledged that it was the best machine they ever saw. I herewith order one more.

H. RIESEL.

WESTVILLE, O., August 18, 1886.

DEAR SIR—I take pleasure in saying that the Improved Foot-Power Hammers which I am using of your make give excellent satisfaction. I especially like them for nicety of adjustment in setting dies.

Yours truly, JAS. H. BAKER.

St. LOUIS, MO., July 25, 1886.

DEAR SIR—I am well pleased with your Hammer in our manufacture, and must say that there cannot be a better tool manufactured than that of your Foot-Power Hammer for our use.

FRED. CASSELL.

THE STANDISH ADJUSTABLE FOOT-POWER HAMMER OR OLIVER,

Weight, 550 pounds. Price, \$75.00, F. O. B. at Columbus, O.

ALL KINDS OF SPECIAL MACHINERY AND TOOLS MADE TO ORDER.
Polished Shafting kept in stock in lengths of 20 feet.

PATENTED JULY 10, 1883

THE STANDISH ADJUSTABLE FOOT-POWER HAMMER OR OLIVER

THIS HAMMER was made to meet the wants of some of our customers who wanted to use thicker dies and to dress over their old dies. We have succeeded in making a substantial adjustment, being held together by two 1-inch bolts and adjusted by a $\frac{7}{8}$ screw, it will take in dies varying in thickness from $1\frac{1}{4}$ inches to $1\frac{3}{4}$ inches each, and is offered to the manufacturing public as the best thing of its kind in use, and is specially designed for making light forgings in dies cut to the shape of the work desired; for welding work that is difficult to weld by hand, such as carriage dash corners and cross-bars, collars on shifting rails, goose necks and ends of seat rails, toe rails, top props, brace ends, rub irons, whiffle-tree hooks, rings, chain links, points and tenons on iron fence pickets, plain swedging—in fact, anything that is not too heavy for the hammer can be made under the hammer as nice as a drop forging or as fine as the dies. For all work that does not require a helper to handle the work, a smith will do more and better work by the aid of this machine than a smith and helper will do without it; and in some respects it is superior to a Power Hammer. The blow is under as perfect control as the hand hammer; you can strike one or as many blows as you like, to a *certainty*, which is more than can be said of power hammers. The blow is regulated by the distance the hammer is raised, which is controlled by the nut under the spring support, the spring support being clamped to the screw by set screw and gib to prevent turning around.

A man can weld as fast as he can heat, and that is all can be done under any machine. The first cost and running expenses are less than any power hammer that we know of. As one of our customers, a prominent carriage manufacturer of Cincinnati, Ohio, said: "They pay the best on the investment of any machine in our factory." One pair of plain cast iron dies with keys fitted, go with each machine. Our dies are made duplicates of each other, and parties can order at any time with the assurance that they will fit perfectly in any of our hammers, either the elliptic spring, the improved spiral spring hammer or the adjustable hammer.

Die sinking done to order.

Parties ordering dies made will please send us a perfect piece of the work they require, filed to the exact shape and size wanted, and we can make the dies to do the work, if it is in shape to be made in dies.

Price of plain cast iron dies..... \$3 00 per pair.
" " forged steel dies..... 7 50 "

These are our standard dies 4 inches square x $1\frac{1}{4}$ inches thick.

Dies with impressions cut in usually cost from \$6 to \$20 per pair, according to what the impression is, and whether cast iron or steel is used for dies.

TESTIMONIALS.

To show what our customers think of our Hammers, we print the following, the original letters of which we have on file:

COLUMBUS, O., October 30, 1886.

GENTLEMEN—We purchased one of the first Hammers you made, which was eleven years ago; have been using them ever since, and they gave entire satisfaction, and will do all you claim for them. Yours respectfully,

COLUMBUS BUGGY CO.

WATERTOWN, N. Y., August 23 1885.

DEAR SIR—Answering yours of the 16th inst., we have not had any experience with other foot hammers than yours; and regarding your make of Foot-Power Hammers, would say we think everything of them, and do not see how we could get along without it in our factory—or something of the same sort equally as good. We think it saves us a great deal of money. We are using quite a number of them, and believe them to be one of our greatest helps in our forging shops. Very truly yours,

Dr. Sheffield's Tooth Crowns.
ARTIFICIAL TEETH WITHOUT
PLATES.

EXTRACTION AVOIDED.
Dr. SHEFFIELD'S perfect crowning system
obviates the necessity of extracting teeth,
does away with plates and their attending
inconveniences, prevents suffering caused by
dentures, and restores the teeth to their
original condition and usefulness.
By this method, roots of teeth are restored to
usefulness and beauty, and made solid,
so as to perform mastication like the natural
teeth. If but four firm roots or teeth still re-
main in proper position, we can attach an
entire set to them, restoring the mouth to its
original comfort and usefulness.
The following are a few of many persons
whom from personal experience endorse
this work:—

B. T. Isherwood, Chief Engineer U. S. Navy.
W. H. Chesney, South Manchester, Conn.
Gen. H. D. Wallen, United States Army.
Charles W. Haverney, 112 Wall St.

Lexington Ky

Gentlemen

Enclosed please find
statement of account, items as
follows

To 10 Bbls 86° Gasoline 504 Galls @ 19⁹⁵/₁₀₀ 95.76
Contra—

By 20 Mt Gasoline Bbls @ 71¹⁴/₁₀₀ 14.25
Balance, 81.51

Some of the bbls were damaged
by being bored too near the chimney
and thus spoiling the head. The price
for the empties was to have been 75¢ each
but the damage reduces their value

Yours Truly

W. A. Morrison Sp. Agt

In Kansas taxes become due Nov. 1st. Half may be paid by Dec. 20th, and the other half by June 20th following, without penalty. If the whole be paid by Dec. 20th a rebate of 5 per ct. is allowed on last half; if half be not paid by Dec. 20th the whole only is payable and a 5 per ct. penalty is added; another penalty of 5 per ct. is added for non payment by March 20th, and another for non payment by June 20th. Tax Sales commence the first Tuesday of Sept. following. Tax certificates bear interest at the rate of 24 per ct. per annum. Three years from date of sale a Tax Deed is issued.

Prof J. H. Patterson

The Independent,

No. 251 Broadway, New York.

In its thirty-fifth year of publication it stands easily at the head of religious and literary weekly newspapers wherever published. Being undenominational, it has the opportunity offered it to present to its readers discussions upon all religious questions, many bishops, clergymen and laymen seeking its pages for a freer and fuller discussion than any denominational paper can grant. Having thirty-two folio pages, it has space to give all of the important religious intelligence; and to aid it in doing so, it has a paid corps of correspondents scattered all over the world.

The matter of expense is not considered in its aim to give its readers the most valuable discussions and most trustworthy facts. It presented the American public with the first knowledge or translation of the "Teaching of the Apostles," which has been more extensively copied and commented upon by the entire press and public of the country than any other matter during the past quarter of a century. Its literary standard is the highest. Its reviews and criticisms of new publications are acknowledged to have no superior in this country. It has departments such as Biblical Research, Science, etc., contributed to and edited by the most learned men in the world, and the information given cannot otherwise be obtained except by waiting—in some instances for years—for its publication in book form.

Its editorials seek to lead and make public opinion, instead of following it.

It has departments as follows: Fine Arts, Music, Science, Religious Intelligence, Missions, School and College, News of the Week, Hymn Notes, the Sunday-school, Legal and Sanitary questions, Biblical Research, Farm and Garden, Insurance, Weekly Market Reports, Financial and Commercial.

It desires the support of intelligent people, and will be found to be a newspaper which will contribute largely to the education and culture of all.

It requests any person who wishes to know for himself what THE INDEPENDENT really is, to make its acquaintance either by sending a postal card, requesting a sample copy, or by subscribing for it for any length of time, as per the following

TERMS:

One month...	30
Three months.....	75
Four months	\$1.00
Six months.....	1.50
One year.....	3.00
Two years.....	5.00
Five years.....	10.00

Remittances should be made by Draft, Check, Money Order, Express, Express Money Order or Registered Letter.

No papers are sent to subscribers after the time paid for has expired.

Address,

THE INDEPENDENT,

P.-O. Box 2787,

New York.

TESTIMONIALS.

TAUNTON, MASS.

My age prevents me from paying for five years.
JAS. H. ANTHONY.

GENEVA, O.

It always is welcome to our home. It has no superior.
Yours truly, J. M. LA BACH.

DETROIT, MICH.

The paper which stands second to none in this country.
W. J. H. TRAYNOR.

ST. PAUL, DAKOTA TER.

I want THE INDEPENDENT if I am most out of the world.
W. M. NEWCOMB.

CINCINNATI, O., Jan. 1st, 1884.

Thirty years of THE INDEPENDENT compel me to renew for 1884.
REV. JAMES C. WHITE.

OTISCO VALLEY, N. Y., Jan. 5th, 1884.

I do not like to lose a single copy of the best paper in the world.
G. T. FRISBIE.

WINDSOR, CONN., Jan. 7th, 1884.

I have little time to read the papers I take, but I cannot go without this one.
REV. G. C. WILSON.

MOUNT PLEASANT, PA., Jan. 30th, 1884.

I can say that THE INDEPENDENT is an excellent paper. I am delighted in reading it.
ANNA M. BAKER.

CAMP POINT, ILL., Dec. 18th, 1883.

It is my Sunday paper, and I cannot do without it very well. It is the best religious paper extant.
G. O. POND, M. D.

SWANSEA, MASS., Dec. 31st, 1883.

I think THE INDEPENDENT is the best paper in the country, and is doing more good than any other.
Yours, WM. MILLER.

DENVER, COL., Dec. 23d, 1883.

Permit me to say that I think you publish an excellent paper, and one which myself and family enjoy.
Yours, etc., M. BENEDICT.

QUINCY, ILL., April 14th, 1884.

Through my neglect to notice expiration of my subscription, the paper has been stopped, and I hav'n't had a square newspaper meal since.
WM. H. COLLINS.

EDGAR, ONTARIO, Dec. 25th, 1883.

I feel THE INDEPENDENT becoming more and more a necessity to the enjoyment of my life.
Very truly, etc., JAS. C. WRIGHT,

Pastor Congregational Church.

PADUCAH, KY., Dec. 17th, 1883.

I wish I could send one hundred subscribers from this city, "without hope of fee or reward." I should have done whereof I should be glad.

Yours obliged,

D. C. CULLEY, Sup't Pub. Schools.

INDIANAPOLIS, IND., July 14th, 1883.

I have taken THE INDEPENDENT for a long time, and it has come to be one of the "Indispensables" in my study. I recommend it to my people.

Yours truly, REV. ROSS C. HOUGHTON.

MARSHALL, MICH., Dec. 27th, 1883.

THE INDEPENDENT I must have. It seems better than ever before. I value it as the most important and the best paper published in this country.

Yours, very truly, E. P. JOHNSON.

SALT LAKE CITY, UTAH, Jan. 3d, 1884.

I want THE INDEPENDENT next year. Must have it, can't do without it, a *vade mecum*, *sine qua non*, etc. It is a paper slightly less than magnificent—count it indispensable.

Yours truly, REV. D. L. LEONARD.

DEWITTVILLE, N. Y., Dec. 27th, 1883.

Of course I take my own denominational paper, and am glad to have THE INDEPENDENT also. It is ABLE, and the *Editor's* "head is LEVEL" on all moral and religious questions.

REV. O. T. WYMAN.

PITTSBURGH, PA., Dec. 21st, 1883.

The conclusion of this whole matter is that THE INDEPENDENT is infinitely beyond any paper assuming to be a religious and family journal in this or any other country.

Respectfully,

FROM A PROMINENT PRESBYTERIAN PASTOR.

NORRIDGEWOCK, ME., July 19th, 1883.

I think THE INDEPENDENT a very instructive paper, exciting my wonder often for the amount, variety, and interesting character of its contents. I do not quite agree with all its opinions and judgments; but I am "for proving all things, and holding fast that which is good." I find it by all odds the most valuable paper I take—*i. e.*, for myself, with my wants and tastes. I should be glad if it were taken and read by more persons in our community.

REV. B. TAPPAN.

[No. 7, JANUARY, 1883-'84.]

SUMMARY STATEMENT OF THE IMPORTS AND EXPORTS OF THE UNITED STATES

For the MONTH ended JANUARY 31, 1884, and for the SEVEN MONTHS ended the same, compared with the corresponding periods of 1883.

[NOTE.—In consequence of the revision and extension of the schedules of imports and exports, which went into effect July 1, 1883, comparison of the imports and exports of the current fiscal year with those of prior periods is rendered difficult with respect to some of the groups and classes of articles.]

IMPORTS OF MERCHANDISE.

SHEPHERD KINKADEE

No. 11 North Broadway

[No. 8, FEBRUARY, 1883-'84.]

SUMMARY STATEMENT OF THE IMPORTS AND EXPORTS OF THE UNITED STATES

For the MONTH ended FEBRUARY 29, 1884, and for the EIGHT MONTHS ended the same, compared with the corresponding periods of 1883.

[NOTE.—In consequence of the revision and extension of the schedules of imports and exports, which went into effect July 1, 1883, comparison of the imports and exports of the current fiscal year with those of prior periods is rendered difficult with respect to some of the groups and classes of articles.]

IMPORTS OF MERCHANDISE.

[Abbreviation: n. e. s., not elsewhere specified.]
