

Chandler's Ice Crusher

Wherever used is regarded as a necessity. By a few turns of the handle the ice is reduced to a mass of clean, dry crystals of similar size and shape.

Ice is an antiseptic; it arrests decay and kills the germs of disease; its free use is advised by best physicians; is a prompt and effective remedy in all fevers, throat affections and hemorrhages.

Delicious beverages, ices and creams are prepared; salads, vegetables and relishes are rendered crisp and refreshing by the use of crushed ice.

Price \$3.00, crated for shipment by Express.

SCHOOL PROPERTY.

SELLING AND RENTING School Property is one of our specialties. Our facilities for disposing of it are unsurpassed. Several years' experience in the business has made us thoroughly acquainted with the market. We keep a list of inquirers for such property. Those having it to dispose of should send a description of it, and state the PRICE or RENTAL asked.

Our TERMS for Selling are Five per cent. on \$5000 or less, and Two and one-half per cent. on the excess; for Renting, Five per cent. on one year's rental, and when a lease covers more than one year, Two and one-half per cent. on each additional year.

THOSE DESIRING TO HIRE OR PURCHASE will please describe their wants as definitely as practicable, and state how large an investment they will make. We will endeavor to offer Properties to suit them. We have a large variety on hand, and there are always some good opportunities.

**American School Bureau, R. E. AVERY, MANAGER,
2 West 14th Street, New York.**

5 Apr. 5, 1886

THE AMERICAN SCHOOL BUREAU,

During the past year, has located teachers from Maine to Oregon and from Minnesota to Texas, in all kinds of schools, public and private, from the Kindergarten to the University, for all kinds of instruction and official responsibility. Our work is *providing teachers with suitable positions*, and this occupies the full time of the manager and his assistants. Tangible proof of our success is given in the fact that we make our compensation depend entirely on *results*, while others find it necessary to get a large revenue from advance fees. We offer as many positions, of as high character and value, use as effective methods in representing our members, and afford them as good advantages in every respect, except for spending money, as any agency which charges two dollars, more or less, for registration. We do not promise positions: no honest agent does. We do not discuss the "prospects" of individuals, because what teachers will be successful is a matter of so much uncertainty that conjectures about it usually have little or no value, and we can do more for our members and ourselves by pushing our work, than by wasting time in guessing. The prospects of teachers who are *worthy and efficient* (others need not expect attention), will be as good here as in any agency. We shall continue business with enlarged plans and facilities. No Teachers' Agency in the United States will be in position to render better service, and since we can not enjoy our leisure and grow rich on registration fees, but must get our whole income from commissions earned, there will be no doubt of our activity in finding and filling vacancies.

AMERICAN SCHOOL BUREAU,

R. E. AVERY, MANAGER,

2 W. 14th st., New York.

47-M-64

THE AMERICAN SCHOOL BUREAU

AMERICAN SCHOOL BUREAU

R. E. AVERY, MANAGER

2 W. 14th St., New York.

2 Apr 5, 1886

THE AMERICAN SCHOOL BUREAU
—REPRESENTS THE—
LARGEST & MOST SELECT

**Body of Teachers to be found in any
Agency in the United States.**

This is the result of FREE REGISTRATION.

Which secures an *ample supply* of the **BEST TEACHERS**, and leaves no need or inducement to represent those who are not suitable. We have declined hundreds during the past year, many of whom are known to have found ready admission to other agencies, for a fee of two dollars, more or less. Our terms attract all, the good teachers we need, and our interests require that we should give our attention to them only, because with them we can give better satisfaction to our patrons, fill more vacancies, and earn more commissions, which are our only source of revenue. Receiving no advance fees, we are under no obligation. None have purchased the right to besiege us with importunity, or to subject us to pressure of any kind. We are perfectly at liberty to make our selections solely on the ground of fitness, and free registration has brought us the best supply in America, from which to select.

THE SUPERIORITY of this plan to serve the best interests of education is self-evident. It commands the approval of all but those who are interested in collecting registration fees, and the cause of their criticism is apparent.

AMERICAN SCHOOL BUREAU,

R. E. AVERY, Manager.

2 WEST 14th STREET,

NEW YORK.

[Apr. 5, 1886]

The American School Bureau.

R. E. AVERY, A. M., Manager,

No. 2 West 14th St., cor. Fifth Avenue, (Knickerbocker Building), New York,

**Will Supply WITHOUT CHARGE, to Private Pupils, Families,
Schools and Colleges,**

**TEACHERS of known Character and Efficiency—A
GOVERNESS, TUTOR, ASSISTANT,
PRINCIPAL, SUPERINTENDENT,
PROFESSOR, OR PRESIDENT,
For any Branch of Instruction, or any position, in any
locality.**

To do service of value to you, a *clear understanding of your wants is indispensable*. Hence in calling for a Teacher *please give the following particulars* :—

(1) Full name and full Post-office address of the person who wants the Teacher

(2) Do you want a Male or Female Teacher? Married or Unmarried?

(3) What branches must be taught?

What other branches are desirable?

(4) When must the Teacher begin?

(5) What Salary will you pay? Will you furnish board? Do you pay traveling expenses?

N. B.—Do not fail to state salary at least approximately. The better candidates often will not apply when notified of a vacancy without a statement of salary. An announcement of the salary at the outset will save much useless and unsatisfactory correspondence.

(6) Must the Teacher be a Church Member? Of what Church?
Will you consider any other?

(7) Remarks. (Too full particulars cannot be given). Send Catalogue or Circular?

(8) **One ordering a Teacher contracts to give prompt notice when the vacancy is filled, and state the name of the Teacher, wherever from.**

Those applying first time should name reference (in New York, if possible).

Date,

Before founding this Bureau in 1885, the Manager was in the American School Institute for nearly five years, during the last two of which he had chief charge of Schermerhorn's Teachers' Agency. He is a graduate of Dartmouth College, and has had twelve years' experience as Teacher and Principal in prominent schools, public and private. Employers will find in this training and experience some guarantee that Teachers will be selected for them by one who is competent.

No Registration Fee is charged to **TEACHERS**; good ones are enrolled free, and others are not taken. The business of an Agency is to **FILL VACANCIES WITH THE BEST TEACHERS OBTAINABLE**. We are entirely at liberty to pursue that single object. We are free from the temptation to represent undesirable candidates, for we should get nothing for registering them, and we can fill vacancies more successfully and satisfactorily with good ones.

Free Enrollment for **GOOD TEACHERS** enables the Bureau to gather larger lists from which to select candidates than any Agency which bars its entrance with an advance fee. We represent the **LARGEST** and **MOST SELECT** body of Teachers to be found in America. It is not made up of all who can be induced to pay a fee; we decline hundreds, and represent only those who give evidence of character and efficiency.

School Officers and Employers **CANNOT FAIL TO SEE THE SUPERIORITY OF THIS PLAN TO PROTECT AND SERVE THEIR INTERESTS.**

No Charge is made to **Employers**. They are expected to deal with us in good faith; to give reasonable consideration to the candidates, whom we are to select with care, and to notify us as soon as the vacancy is filled, stating the name of the Teacher, in order that we may cease working, and may know whether or not our candidate has been engaged.

HAVE YOU A SCHOOL PROPERTY to dispose of? If so, send us a description, and state the price or rental asked.

Our Terms for Selling are Five per Cent. on \$5000 or less, and Two and one-half per Cent. on the excess; for Renting, Five per Cent. on one year's rental, and when a lease covers more than one year, Two and one-half per Cent. on each additional year.

DO YOU WANT A SCHOOL PROPERTY? If so, please describe what you desire, as definitely as practicable, and state how large an investment you will make. We will endeavor to present a property which will suit you.

Apr. 5, 1886

American School Bureau,

To Supply Families, Schools and Colleges with Teachers, Teachers with Positions; Parents with Information of Schools; to Sell and Rent School Property.

R. E. AVERY, A. M., MANAGER.

No. 2 West 14th St., corner Fifth Avenue, (Knickerbocker Building), New York.

Dear Sir,—

Teachers, Tutors, Governesses, Professors, Superintendents, &c., of KNOWN CHARACTER and ABILITY, can be obtained through this Bureau, promptly and WITHOUT CHARGE, for any position in the educational service.

Having been several years in the American School Institute, of which I had chief charge after the failure of Mr. Schermerhorn's health in 1883, and having had twelve years experience as teacher and principal in public and private schools, I feel warranted in assuring patrons that their wants will be understood and properly met.

I give personal attention to the selection of teachers. Intelligent employers know the advantage of having such service done by one who is practically acquainted with teaching and school management.

All selections of candidates are made SOLELY ON THE GROUND OF FITNESS, and I understand that my interests require me to present for positions only those who will prove satisfactory. I base my success in business upon the substantial value of the service rendered to teachers and those who employ them.

I sell and rent SCHOOL PROPERTY and direct PUPILS to schools.

Hoping to receive your orders whenever you can use my services,

I remain,

yours truly,

R. E. Avery.

TESTIMONIALS FOR THE AMERICAN SCHOOL BUREAU.

From E. T. Tomlinson, Head Master,
RUTGERS COLLEGE GRAMMAR SCHOOL, NEW BRUNSWICK, N. J.

"I have known Mr. AVERY and his work for some time. I have great confidence in his candor integrity, and persistent faithfulness. I believe that his experience and natural qualifications enable him to work in the field in which he is engaged as few men could."—Feb. 19, 1885.

From Oren Cobb, A. M., Principal,
CORNWALL HEIGHTS SCHOOL, CORNWALL, N. Y.

"My business relations with Mr. R. E. AVERY, while Manager of the Teachers' Bureau in the AMERICAN SCHOOL INSTITUTE, were especially satisfactory. I am pleased to learn that his services are to be continued in the interest of schools."—March 21st, 1885.

From Rev. C. H. Dunton, Principal,
TROY CONFERENCE ACADEMY, POULTNEY, VT.

"I am glad to hear that the AMERICAN SCHOOL BUREAU is to be under your management. This is a guarantee that it will be conducted in an efficient and honorable manner. Your prominent connection with Mr. Schermerhorn induced us to seek again the services of his agency, and the very valuable aid you gave us entitles you to our continued patronage. We shall heartily endorse your Agency whenever an opportunity offers."—March 3, 1885.

From Chas. S. Farrar, President,
MILWAUKEE COLLEGE, MILWAUKEE, WIS.

"I carefully examined the methods of Manager R. E. AVERY, while he was at the head of Schermerhorn's Bureau, and from what I then learned and from the service he rendered us, I feel confident he will secure as good results as any such Agency can. I heartily commend Mr. AVERY to any one requiring such service."—Feb. 18, 1885.

From Rev. G. M. Steele, D. D., Principal,
WESLEYAN ACADEMY, WILBRAHAM, MASS.

"For some years past I have had business relations with Mr. R. E. AVERY in respect to Teachers and Students, and have found him intelligent, reliable and efficient. Hereafter, as heretofore, I expect to avail myself of his services. I regard him as commanding large resources of information in all matters pertaining to Education."—Feb. 20, 1885.

From Professor Francis Brown,
UNION THEOLOGICAL SEMINARY, NEW YORK CITY.

"I take the greatest pleasure in expressing my appreciation of Mr. AVERY's high, moral and Christian character, and the singular judgment and practical intelligence which I have observed in him during an acquaintance of eighteen years. I congratulate Teachers and Employers who may have dealings with him, because I know that he will have as conscientious a regard for their interest as for his own. Applications, involving personal confidence and accurate estimates of men and positions, could not be placed in better hands."—March 2, 1885.

From W. H. Bannister, A. M., Principal,
ROCKLAND COLLEGE, NYACK, N. Y.

"It has been my pleasure to consult Mr. R. E. AVERY in reference to the selection of Teachers, and I have learned to rely largely upon his suggestions. His former connections with schools of this class have given him an experience very valuable to Principals in securing Teachers."—Feb. 21, 1885.

From Geo. C. Smith, President,
DREW LADIES' SEMINARY, CARMEL, N. Y.

"I have known Prof. R. E. AVERY, Manager of the AMERICAN SCHOOL BUREAU, many years, and have the highest appreciation of his integrity, ability and good judgment. Long experience as an Educator and familiarity with the needs of schools, fit him eminently for his position. School Officers, Teachers, and Parents will find him an efficient agent and wise counselor."—Feb. 11, 1885.

From Prof. Joel Wilson, Principal,
NEWTON COLLEGIATE INSTITUTE, NEWTON, N. J.

"I have had business relations with Mr. R. E. AVERY for several years. It is a pleasure to say that in personal intercourse and business correspondence, he has always shown himself faithful to those he serves, and honorable and square-dealing in all things. His judgment and advice, whether in the selection of Teachers or upon other school matters, has always proved sound and reliable."—Feb. 24, 1885.

From W. A. Deering, A. M., Secretary,
FACULTY OF THE UNIVERSITY OF VERMONT, BURLINGTON, VT.

"Of Mr. AVERY's business character and special qualifications for the management of a School Agency there can be no question. He is a graduate of Dartmouth, a practical school man, and has for several years been engaged in this work under the best possible conditions for becoming familiar with all its requirements. Those who deal with him will find that their interests are entrusted to one who will bring to his work fidelity, experience, energy, and conscience."—Feb. 16, 1885.

THE[®] Cyclostyle

Is the latest and best Duplicating Apparatus, and is
Rapidly Superseding

The Hektograph, Electric Pen, Papyrograph,

And all other Copying Processes.

WE can refer to over 3,000 firms and corporations who have discontinued using one of the above mentioned processes, and who now use nothing but the Cyclostyle. The Cyclostyle has been established for over three years in England, and has driven all rivals out of the market.

The violet or purple color of the Hektograph and Papyrograph is now so well-known, that everyone receiving a circular copied by these processes, immediately recognizes it as a circular—whereas a circular copied by the Cyclostyle is in black ink, and has all the appearance of a letter written with a stylographic pen.

SELECTED TESTIMONIALS.

War Department, Adjt.-General's Office, Washington, July 9, 1885.
I take pleasure in stating that the Cyclostyle purchased of you some time ago is being successfully used in this office for circulars, letters, orders, etc., *entirely superseding* the Hektograph, heretofore used for that purpose.

New Pension Building, Washington, D. C.
Have received the Cyclostyle and put it into use, and am much pleased with it. The prints from the stencil are strong and legible, and being printed in good printer's ink, will not fade like the aniline ink prints of the Hektograph and Papyrograph. It is the best office device for printing circulars and specifications I have yet seen.
M. C. MEIGS, Quartermaster-General, U. S. A. Architect and Engineer.

House of Representatives, Washington, D. C.
J. FLOYD KING.
The Cyclostyle gives thorough satisfaction.

Custom House, N. Y.
Having tried the Cyclostyle, I am prepared to say it gives every satisfaction, and to my mind it is the best article of its kind in use.
A. D. WHITEHOUSE, 4th Division.

Department of Public Works, N. Y.
The Cyclostyle purchased from you last year has worked to our entire satisfaction, being fully equal in performance to your representations. (Signed) R. H. CLIFFORD, Chief Clerk.

Produce Exchange, N. Y.
The Cyclostyle which I have purchased from you last month has proven very satisfactory, and performs all that you claim for it.
WILLIAM E. FLETCHER.

(Continued on Page 4.)

SELECTED TESTIMONIALS.—CONTINUED.

New York Clearing House.
After using your Cyclostyle for several weeks, I take pleasure in recommending it as better adapted for copying purposes than anything that has ever come under my notice.
WILLIAM A. CAMP, Manager.

Royal Insurance Office, 50 Wall St., New York, July 1, 1885.
We have had one of your larger Cyclostyles in almost constant use in this office during the past three months, and have found it to be superior, both in simplicity and character of work done, to any other methods of copying that we have ever tried.
WM. M. HENSHAW, Asst. Manager Royal Insurance Co.

We have used your Cyclostyle considerably during the past two months, and find it gives every satisfaction. It is more easily managed, and gives better results than any other process we have used.
W. R. GRACE & CO. (Mayor of New York.)

We have used the Cyclostyle for three months for purposes of manifolding our financial letters, etc., etc. It answers our purpose exactly. After a fair trial of various other machines made for like purposes, we consider the Cyclostyle the best.

LAWSON, DOUGLAS & CO.,
Bankers and Brokers, 4 Exchange Place, Boston.

We have tried many of the different patents for copying circulars, price-lists, etc., but after a thorough trial of your machine we have found it in every way as you represented it.
E. & R. MEAD, JR. & CO., Coenties Slip, N. Y.

The Cyclostyle we bought from you was a success from the moment we got it.
MACNAUGHTON & ORR, 20 Cedar St., N. Y.

Mill Owner's Mutual Fire Insurance Co., Boston.
Having used your apparatus for several months, I am happy to say that it has proved very satisfactory, giving a larger number of impressions and more legible than any other method we have tried. It is very easy to use.
F. S. CABOT, Secretary.

Union Mutual Life Insurance Co., Portland, Me.
We have had a Cyclostyle in constant use in our office for several weeks, and find that it gives entire satisfaction, having more than paid for itself in saving cost of printing circulars, etc.
ARTHUR L. BATES, Secretary pro tem.

I have used many duplicating processes, but yours is the most perfect, practical, rapid, simple, easy process I ever saw. You ought to sell one to every insurance agent in the land to use in making policy forms, etc. (Signed)
W. P. LUCAS, Insurance Agency, Oil City, Penn.

We have used two of your Cyclostyles for some weeks, and find they work to our entire satisfaction. (Signed)
HOWARD W. SPURR & CO.,
Wholesale Grocers, Commercial Street, Boston.

Your Cyclostyle has worked to our entire satisfaction.
POPE MFG CO., 597 Washington St., Boston.

New York and Charleston Steamship Co.
I have used the Cyclostyle for the past month in getting out division sheets, both freight and passenger, and find it far superior to anything of the kind I have heretofore used. The impressions being perfectly clear and no trouble to get any number required. (Signed)
E. S. TOBY, General Freight and Passenger Agent.

Fall River Line, New York, June 5, 1885.
We have used your Cyclostyle for the past four months, and gladly testify to its merits. We have had experience with several processes for duplicating, and beg to say, that for economy, convenience and good results, the Cyclostyle leads them all.
GEO. HOMER, General Passenger Agent.

South Florida Railroad Co., Sanford, Fla., June 8, 1885.
The Cyclostyle purchased from you some time ago has been in constant use in this office, and has worked to our entire satisfaction. For neat and rapid work, it is, I believe, superior to any other process we have used.
M. H. BOWLER, Train Dispatcher S. F. R. R.

Hundreds of others furnished on application.

THE Cyclostyle Duplicating Apparatus

(GESTETNER'S PATENT.)

2,000 FACSIMILE COPIES IN INDELIBLE BLACK INK OF ANY CIRCULAR, WRITING, DRAWING OR MUSIC.
NO WASHING—NO DAMPENING—NO ELECTRICITY—NO CHEMICALS—NO ANILINE.
SIMPLE—RAPID—CLEANLY—DURABLE and more ECONOMICAL in use
THAN ANY OTHER PROCESS.

Figure 1.

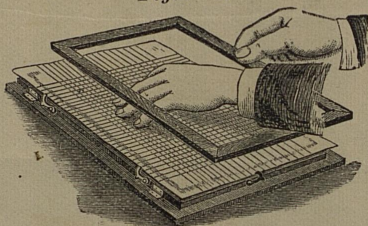

Figure 2.

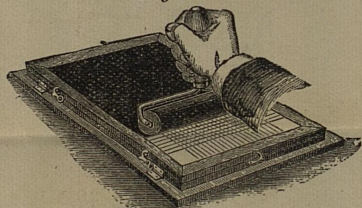

Figure 3.

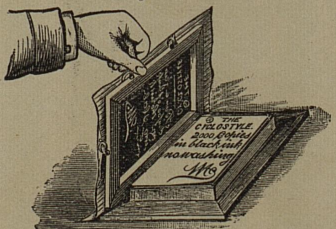

Figure 4.

These few words are a facsimile of work produced by this process.

The advantages claimed for the CYCLOSTYLE over other processes are as follows:

1st. Superiority of Work.—The copies being in black ink and the characteristics of the handwriting preserved, a circular printed by this process has all the appearance of a written letter.

2nd. Number and Uniformity of Copies.—Equally suitable where ten copies or two thousand are required. The 1,000th copy cannot be distinguished from the first.

3rd. Extreme Simplicity and Durability.—Anyone who can write with an ordinary pencil, can write with the CYCLOSTYLE PEN. Any boy can take the copies. No complicated mechanism to get out of order.

4th. Economy in Use.—The CYCLOSTYLE costs less to maintain than any other process (about half the price of Gelatine process). Sufficient supply goes with an outfit to last for six months (using, say once a week) and afterwards, a further six months supply only costs \$1.30 for Cap Size, and 90c. for Note Size.

5th. Rapidity.—The original may be written as fast as one can write with any pencil (no thick ink to struggle with) and immediately after the writing is finished the duplicating may be commenced. One roll with inked roller gives a clear dark impression. Copies can be taken at the rate of 600 per hour easily. A note circular may be written and 200 copies taken in half an hour.

6th. Additional Copies.—Original may be left for any length of time and further copies taken when required.

7th. Any error may be rectified by simply rubbing words to be erased with the thumb nail, and then writing any other word or words in substitution.

HAS NONE OF THE DISADVANTAGES OF OTHER PROCESSES, Such as

Washing—melting—refilling—copies curling—feeling sticky—gradually getting indistinct.

Batteries to keep in order—laborious writing—complicated mechanism.

Soaking—copying press—chemicals—finger staining—fading—blurring.

THE PROCESS is simply as follows: A sheet of the prepared CYCLOSTYLE Paper is fixed in printing frame, as shown in figure 1. The circular is then written on this sheet of paper with the CYCLOSTYLE Pen, which consists of a wooden holder at the end of which is fixed on a pivot, a minute iridium wheel which revolves in the direction of the writing and perforates the CYCLOSTYLE Paper, making a perfect stencil composed of minute dots so close together as to appear a continuous line. In writing, you write freely and naturally, and the Pen is as easy to write with as an ordinary pencil. The printing frame with stencil is now lifted, a sheet of ordinary paper placed under stencil, an inked roller passed over and a perfect copy obtained, as shown in figures 3 and 4.

PRICE LIST

Outfit Complete in Polished Black Walnut Case. Containing Black Walnut Printing Frame, 24 Sheets Cyclostyle Paper, Cyclostyle Roller, Ink and Pen, and full Instructions for use. Paper to replace used supply.

No. 1. Note Size, to print	8½ x 6—	\$10.50		\$.60 per quire.
No. 2. Legal Cap Size, “	14 x 9—	12.00		1.00 “
No. 3. Folio Size, “	16 x 11—	16.00		1.40 “
No. 4. Dbl. Cap Size, “	17½ x 14—	18.00		1.75 “

Larger and special sizes to order.

The above paper is for writing the original on. Any ordinary paper may be used for the copies.

THE No. 2 Legal cap, is a very convenient size. It will print anything from a postal card to a sheet of full Legal cap. The part of paper not used may be used at any future time. A small roller at \$1 is a useful addition where many small circulars are required.

INK. Black Ink, 60c. per bottle, \$2 per lb. COLORED INKS. Red, Blue, Violet or Copyable Inks, \$1 per small bottle.

75 Maiden Lane, New York City.

May 1st, 1886.

Does your Gas Machine give perfect satisfaction? If not, in what respect does it fail? We have the greatest interest in the perfect operation of all our Machines, and shall respond promptly to all inquiries for information or advice. We employ an ample force of mechanics, and will make repairs promptly, and at **actual** cost. We believe you will find it to your own advantage to keep in constant communication with us by ordering our brand "PURE SPIRITS" Gasolene, and so secure the most uniform and economical results. We are glad to be able to advise you of an **IMPORTANT REDUCTION** in price, and quote:

86°, 14c. per gallon.

88°, 16c. "

90°, 19c. "

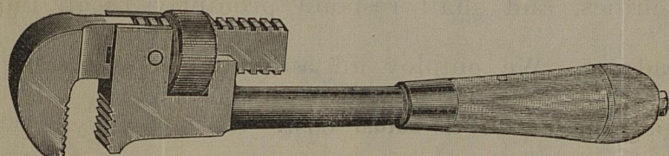

including barrels F. O. B. this city. One cent per gallon discount in ten bbl. lots. Try our "Library Oil" for lamps, pure water white, 150° fire test.

An Adjustable Pipe Wrench.

Price, \$2.00.

A useful tool for the general purposes to which the monkey wrench is commonly applied, is adjustable to all ordinary sizes of nuts and bolts of carriages, wagons, &c. Useful about your Gas machine, and will turn all sizes of gas pipe, from the smallest up to 1 1/4 pipe inclusive.

GILBERT & BARKER MFG. CO.

OFFICE OF
JOHN S. LEVIS,
EASTERN AGENT FOR
THE COMBINATION GAS MACHINE,
NO. 163 MAIDEN LANE,

New York, May 1st, 1886.

Dear Sir:

Please take notice that I have removed from No. 12 Platt Street, to the more commodious store **No. 163 Maiden Lane.** I shall here exhibit the **Combination Gas Machine, in operation**, and the various kinds of burners adapted to the most perfect and economical consumption of carbureted air gas, for illuminating and heating. I shall keep a full line of gas machine supplies, "**Combination Laboratory Burners**,"—the only burners that will produce a **perfect non-luminous flame** with carbureted air gas; Tinner's fire pots for heating soldering coppers, &c., &c., also

FLETCHER'S VENTILATED GAS OVENS.

These are fully equal to the requirements of the most delicate and artistic cookery, and a most important economy to those who wish to consider their daily expenses. These may be depended on as the most improved and faultless gas-cooking apparatus known, for every variety of work. Heating up in less than one minute they entail no waste of gas or loss of time. Fish can be cooked underneath meats or fowls, or pastry, simultaneously, without the slightest loss of the most delicate flavors. Illustrated circulars and prices on application.

"PURE GASOLENE."

I constantly keep on hand a full supply of 86°, 88° and 90° "**Pure Gasolene**," which I am satisfied, by long experience, is the **best refined**; all orders intrusted to me will be promptly filled on receipt. Prices will be the lowest current rates and deliveries will be made at any wharf or R. R. depot in New York, without charge for cartage or barrels. Empty barrels returned in good order will be credited at full market value.

Summer hotels will be supplied on the most favorable terms.

All kinds of **lubricating oils** furnished at reasonable prices. Also pure water white 150° fire test, and State test oils, of superior quality.

Orders solicited and satisfaction guaranteed.

Very respectfully,

JOHN S. LEVIS,

No. 163 Maiden Lane.

Dear Sir:-

We beg to ask your examination of the enclosed circular, announcing the completion and publication of "Farrow's Military Encyclopædia," the largest and most important work of the kind ever printed.

It is indispensable to all Libraries which aim to keep abreast with the march of modern discovery and invention. The work is sold by subscription, and through the sole agency of the undersigned through the South. We shall be happy to send you, free of charge, for your examination, either specimen sheets, or copies of the book.

Hoping to hear from you, we beg to remain

Very truly yours

J. M. Stoddart & Co.

To

Pres. James W. Patterson P. D.

THE
Naval History
 OF THE
CIVIL WAR,
 BY
Admiral David D. Porter,
 U. S. N.

DEAR SIR;

We beg to enclose a descriptive circular of Admiral DAVID D. PORTER'S New Book, "NAVAL HISTORY OF THE CIVIL WAR," which will be published within a short time.

It is the only complete and authentic account of the achievements of the Navy, covering the most important years of the country's history, and will contain an accurate description of every squadron and each individual ship in the Union service.

It will also include a record of the voyages and captures of each of the Confederate cruisers, Alabama, Sumter, Florida &c., and a general account of the operations of the Confederate navy.

The book is intended to be a companion to Gen. Grant's Memoirs and is absolutely essential to every person who desires to understand thoroughly the Military and Naval operations carried on during the War.

The advance sheets and plan of the work have been carefully examined and approved by the most distinguished officers of the Naval service, among whom may be mentioned the following:

Vice Admiral S. C. Rowan,
 Rear Admiral C. R. P. Rogers,
 Rear Admiral J. J. Almy,
 Rear Admiral J. H. Upshur,
 Rear Admiral R. N. Stembel,
 Rear Admiral T. O. Selfridge,
 Rear Admiral W. R. Taylor,
 Rear Admiral C. H. Wells,
 Rear Admiral J. C. Howell,
 Rear Admiral W. Radford,

Rear Admiral A. C. Rhind,
 Rear Admiral E. R. Colhoun,
 Rear Admiral Henry Walke,
 Commodore J. W. Easby,
 Commodore Wm. Greer,
 Capt. A. W. Weaver, U. S. N.,
 Capt. R. W. Meade, "
 Capt. W. A. Kirkland, "
 Capt. Henry Erben, "
 Lieut. Loyall Farragut, "

besides a great number of military men of all ranks.

The subscriptions have also been received of a large number of the leading men of the country, officers of the Government, Senators, Representatives, as well as Ambassadors and Ministers of Foreign Governments.

The book will be in quarto form, one volume, over 850 pages, containing upwards of 400 engravings, with 150 portraits of the most distinguished Naval officers of the Civil War both Union and Confederate. The illustrations are specially executed for the work.

We shall be glad to submit the advance sheets of the book for your inspection at any time and place desired, or will send the work when ready, to any address on receipt of order designating style of binding required. It is sold only by subscription.

This work will be delivered to subscribers in the various styles of elegant binding at the prices named.

<i>In fine Cloth binding, gold stamp, beveled boards, red edge,</i>	\$5.50
<i>In full Sheep binding, Library style, sprinkled edge,</i>	7.00
<i>In fine half Turkey Morocco binding, gold stamp, marble edge,</i>	8.00
<i>In Seal Russia binding, beveled boards, gold stamp, gilt edge,</i>	10.00
<i>In full Turkey Morocco, beveled boards, full gold back, gold stamp, gilt edge,</i>	12.00

Hoping to have the favor of your order we are,

Yours, very respectfully,

J. M. STODDART & COMPANY,

622 F Street, N. W.,

[From the *Army and Navy Register*.]

"Farrow's Military Encyclopedia" is the most ambitious and extensive undertaking of the kind of which we have any knowledge. Our examination of it leads us to believe that it is a Work of great merit. That a young officer of our army should set out of his own volition to prepare and publish such a great Work is truly astonishing. Both the National Guards of America, and the Armies of the World, to whom the Work is specially dedicated, will highly appreciate so elaborate and thorough a compilation of military information as is given them in this handsome Work. The profuse illustrations which the book contains greatly add to its value. The colored maps of different countries are also a valuable feature. The plates giving the coats of arms and the flags of all nations are extremely beautiful. The fabrication of fire-arms and the construction of special weapons are fully explained. It is needless to say that in its fullness and the variety of topics treated, this Encyclopedia leaves all others far behind. It is the *great* Military Encyclopedia, and will stand permanently at the head of military publications.

[From the *Baltimore American*.]

It is very seldom nowadays that a new book fills a long felt want, for the simple reason that there are few long felt wants. An exception, however, must be made for Lieutenant Farrow's admirable Work. It is the first and only Military Encyclopedia ever published, and is the largest publication of its kind in the world. Subjects that pertain directly or remotely to military affairs are treated with a freshness and interest that are seldom found in books of an encyclopedic character. The author has wisely refrained from making his book merely technical. While it combines all the exactness and precision requisite in the treatment of scientific subjects, it is written in such a manner as to be perfectly intelligible to the general reader. This merit makes the Work not only a *rade mecum* to military men, but a necessity to every well-stocked library. The whole Work is handsomely and elaborately illustrated. The maps are the best and most recent published.

[From the *Army and Navy Journal*.]

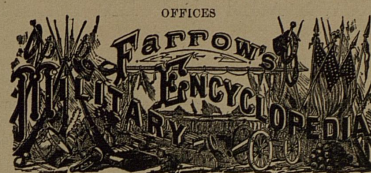

"Farrow's Military Encyclopedia," is a monument to the zeal, enterprise and industry of its author and publisher, as well as to the courage which could determine him to enter upon such an enterprise alone. It is certainly the most elaborate Work of the kind that has yet appeared here, and in mechanical execution it is unusually creditable to all concerned in its preparation. The subjects are treated in a popular manner, and the Work is dedicated to the National Guards of America and the Armies of the World. It is exceptionally well printed. Some of the cuts are printed in several colors, *e. g.*, those showing the coats of arms of the different States and Countries and the flags of the different Countries.

For official endorsement of this Work you are respectfully referred to the United States War Department, or to the Representatives in this Country of the following Foreign Governments, viz.: Italy, Great Britain, China, Austro-Hungary, Mexico, Russia, France, Guatemala, Salvador and Nicaragua, Turkey, Spain, Germany, U. S. of Colombia, Japan, Brazil, and Venezuela.

FARROW'S MILITARY ENCYCLOPEDIA.

This Work is designed to be a LIBRARY OF MILITARY KNOWLEDGE FOR THE PEOPLE—a Work to be readily consulted as a DICTIONARY on every military subject on which people generally require some distinct information, no article being longer than is absolutely necessary. At the same time every effort is made that the statements, so far as they go, shall be precise and scientifically accurate. Although 35,000 subjects have been compiled from the various publications and records of the War Department, Foreign War Offices, and Military Works of reference, more than 5,000 original articles have been prepared by specialists in America and abroad.

While the Tactics, Ordnances, Gun-Machinery, Implements, and the Equipments of all ages and of all Military Powers have been fully described and illustrated under appropriate headings, a complete system of cross-references enables the military student to quickly locate several hundred articles pertaining to the general subject under investigation. Thus, under the article MAGAZINE-GUN will be found the following references: *Boch, Buffington, Bullard, Burgess, Burton, Chaffee-Reece, Clemmons, Colt, Dean, Elliott, Franklin, Hunt, Lee, Lewis-Rice, Miller, Remington, Russell, Spencer-Lee, Springfield-Jones, Tiesing, Trubue, Whitney, and Winchester Magazine-Guns*. Under each of these articles will be found references to articles describing and illustrating all other arms of the respective classes. The descriptions and illustrations of more than 500 varieties of Gun-Machinery, Steam-Hammers, Cranes, etc., constitute a novel feature of the Work, to be appreciated by Staff Officers.

The original plan has been quite strictly adhered to throughout, but after some experience, it became easier to find the person specially qualified to write a particular kind of article, and thus the circle of contributors became widened, and the distribution of the work more specialized. It was also seen to be desirable, in regard to certain classes of subjects, to admit a rather ampler selection of heads. This has been effected without increasing the scale of the Work, not so much by less full treatment of the subjects, as by increased care in condensing the statements and omitting everything superfluous. A great quantity of matter pertaining to Foreign Armies has been introduced in this Work, so as to enable the military student to compare the organization, arms, etc., of all armies with those of his own service. The Encyclopedia contains also descriptions of ancient armor, and of arms, lately in use, which have become obsolete, as it may be of some interest to follow the changes which have taken place in the mode and means of fighting from the earliest period down to the present time. The insertion of veterinary terms and of remedies for the common complaints of horses will be found useful under conditions where a Veterinary Surgeon is not available. A description of all tools and machines found commonly in workshops may prove acceptable to Departmental Officers on their first joining Government Manufacturing Establishments.

Of the Sciences, the least adapted to encyclopedic treatment is Mathematics. All terms of common occurrence in Gunnery, etc., however, have been introduced, and a brief exposition of the subjects given, as far as could be done in an elementary way. Natural Philosophy has received ample attention, and all the leading doctrines and facts of general interest will be found under their appropriate heads,

treated in a popular way, and divested as far as possible of the technicalities of Mathematics. Chemistry, some knowledge of which is becoming daily more indispensable in all departments of military life, receives a comparatively large space. During the progress of the Work many changes in the nomenclature and notation of the Science have come into general use; these have been frequently noted under the appropriate headings. The new and far reaching doctrines of the Correlation of Forces and the Conservation of Energy have produced vast changes in the nomenclature and classification of the various sections of Military Physics; while the more complete investigations into the phenomena and laws of light, heat, motion, and electricity have created virtually new sections, which must find a place in any adequate survey of scientific progress. Mechanical invention has, indeed, so kept pace with the progress of Military Science and the Art of War, that in almost every department of Physics improved machines and processes have to be described, as well as new discoveries, and altered points of view. The manufacture of gunpowder and high explosives is a signal instance of the extent to which, in our day, scientific discovery is indebted to appropriate machinery and instruments of observation and analysis. These extensive changes in Physics involve corresponding changes in the method of their exposition. The scientific department of the work is consequently treated in all its branches in the most effulgent manner, and over 1,000 very fine engravings are used for the purpose of illustration.

GARDNER MACHINE-GUN.

SAMPLE PAGE.

GARDNER MACHINE-GUN.

is a simple plate having two parallel T-grooves, extending from end to end, their centers equidistant with the centers of the barrels. The upper end of the guide has a trumpet-shaped mouth to facilitate the entrance of the cartridge-heads. The lower end is provided with a cartridge stop, which lifts all cartridges contained in the guide when it is taken out from the swinging cover by which it is supported. The guide is held fast in firing position by a spring catch. It can be quickly released by drawing back

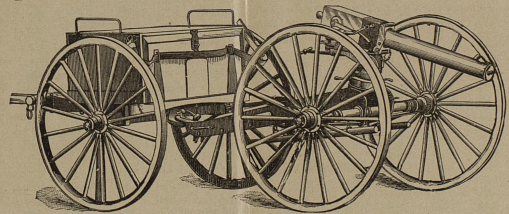

The carriage of the gun is of new design and construction, and is made entirely of steel and bronze. The frame for the carriage, including the side walls, bed-plate, and axle-support, is made in one casting. The lunette body and ring, the handspike ring and socket, and ground-recoil stop-support are also in one casting. The top and side trail-plates are supported at their upper corners by angle-irons, to which they are riveted. These angle-irons extend from the frame to the body and are riveted to them. Lost motion is pre-

Gardner Machine-gun mounted on Tripod.

the spring catch by pressure on its exposed arm. In placing the guide in position, the spring catch becomes self-acting. These operations require but one hand, leaving the other free to place the safety-stop arm in position. The safety-stop is an oblong block having an angular face against which the arm of the sector in the lock may engage when the locks are moved forward by the crank. It is held in position by two links which are moved by an arm that is pinned fast to a shaft passing through the rear case, in the outer end of which is pinned the stop-arm. This arm is constructed in the form of a hand crank, having a stop-spindle placed in its handle, behind the shoulder

vented in the wheels on the arms of the axles by conical sleeves sliding into the boxes of the wheels (their ends being cupped to receive the same) against conical washers supported by a toggle-joint actuated by a hand-lever (underneath the trail), and can be locked either in or out. Ample compensation is made for wear of surfaces by right- and left-hand screws locked by jam-nuts. The circular bed-plate of the carriage, that supports the swivel-plate of the mount, is provided with a taper socket to receive the spindle of the swivel-plate, which has a circular groove into which is inserted, by means of a lever, a sliding-bolt for holding down the

Gardner Gun-carriage and Limber.

of which is placed a spiral spring that forces the spindle out from the arm into the stop holes, two in number, in the rear case. When the stop-spindle is in the upper hole, the arm is in line with barrels, the safety-stop is thrown within reach of the sector-arm by which the mainsprings are compressed, and the gun is in firing position. When the spindle is in the lower hole the stop is carried forward out of the way of the sector-arm, and in no case can the springs be compressed while the safety-stop arm is down.

swivel-plate which passes over and around the bed-plate, and may be secured to it in any desired position by the grip ring, which is fastened in such a manner that it has no movement up or down, while it has ample room to move outward, after being released by the grip-ring screw-handle, and the mount then has full range of the horizon. The base of the mount slips over and around the swivel-plate, and is held from uprising by the nut and the lock-pin on a round bolt that passes through the spindle of the swivel-plate. On

ROOMS 26 AND 27.

Boston, May 15-1886

Pres. Jas. K. Patterson,
Lexington, Ky. Dear Sir:-

I forward
you by today's mail a copy of the
Prospectus in regard to my Company.
After looking matters over here last
fall I concluded that by making the
interest 8% I could dispose of the Bonds
without parting with any of the stock
of the Company and have arranged
my proposition accordingly. and as
you will see will offer \$40,000 to the Public.
The \$60,000 I will hold myself and can
use them as collateral if I should
want to borrow any money personally.
If you have any friends who would like
to make a safe 8% investment I will be
pleased to receive their order for such
sum as they may want. I am allowing 2 1/2 %
Com. for placing them and will allow you
this on any orders you may send.

Yours respectfully J. S. Daugherty

June 14 - 86 - J K Patterson
My Dear Sir
In reply to yours of 13th
Would say, when "buhno" was bred last
before sale, "Catalogue" in print hence it
could not be in it. But my son Robt
who was showing the cattle, ~~parties~~
~~among~~ remembers distinctly of stating
to your Brother & the Ladies that
were with him that we were not
sure she was in calf as she had not
cast over.

Respectly

R McMichael

MB as to her future we can only judge
by the past - she has had a calf every year
I know no reason why she should not
continue to breed - Respectly

R McMichael

Dear Sir

I have the pleasure to enclose invoice
£1. 5. 9, for Byrons 'Poems' & 'Life' which
I have procured in compliance with your
order of Feb 23 and am sending by mail.

I have also ordered a copy of Macklin's
Old & new Testament which I hope to send
you shortly.

Trusting the books will reach you
safely, & awaiting your further favours.

Yours faithfully

B. F. Stevens *BFS*

—OFFICE—

Southern Publisher and Printer.

ROOM 8, LAW TEMPLE.

Louisville, Ky., July 12, '86

I have the publishing of the proceedings of the Kentucky State Teachers' Association, which has just closed its sessions in this city. Twenty-five hundred copies will be issued and circulated among Principals and Trustees of Schools and Colleges, Teachers and the friends of education. It will be a valuable advertising medium. Advertisements will be received at the following rates:

One Page, \$20.00

One-half Page, 11.00

One-fourth Page, 6.00

Page regular octavo size (6x9 inches).

Please state at very earliest convenience if you desire to advertise in it, and how much space you will take. Send copy for advertisement at same time.

Respectfully,

James Davidson.

ANNUAL CONVENTION
OF THE
American Bankers' Association.

TIME OF THE CONVENTION AND MEMBERSHIP QUALIFICATION.

The Annual Convention of this Association will be held at Boston, Mass., on the 11th and 12th of August, 1886. Every banking firm, State Bank, National Bank, Trust Company and Savings Bank in the United States is entitled to send one delegate to each session, and these banks can obtain copies of the Official Report of the Proceedings when printed. The meetings will be held at Horticultural Hall at 10 A. M. Members of the Association have one vote each at all sessions of the Convention.

ADDRESSES, PAPERS AND SPEECHES.

Members who are preparing papers, and other Bankers and Bank officers desiring to suggest the names of speakers to address the Convention should report such names, with the proposed topics, before July 21st, to the Secretary of the Association, 128 Broadway, New York, and they will be brought to the notice of the Executive Council.

REGISTRATION OF DELEGATES.

The books of Registry will be kept open from Tuesday, August 10th, to Thursday, August 12th. During the meetings of the Convention the Deputy Registrar will sit at the doors of the Convention Room to record names and to issue tickets. The Headquarters of the Executive Council will be at the Brunswick Hotel, Boston. On Wednesday evening, August 11th, from 7 to 9 P. M., the usual Reception is to be held, all the delegates being invited to be presented to the President, Vice-Presidents, and Executive Council.

EARLY APPLICATION FOR ROOMS.

Probably many of the delegates will prefer the hotels at which they usually stay in Boston, but ample hotel accommodation will be available, and the Local Committee will give information to all delegates who may desire to make inquiries. Such delegates will apply *as early as possible* to Mr. EDWARD TYLER, Cashier of the Suffolk National Bank, Boston; or to Mr. JAMES H. BOUVE, President of the Boston National Bank, who has been appointed Registrar of the Convention.

GEORGE MARSLAND,

SECRETARY.
