My dear President -

When my home was burned in Kentucky, I had the misfortune to lose nearly all of my school books - among which was my copy of Sir William Hamilton's Logic. Have tried to find copy in Denver but, thus far, have failed. The books dealer here can not even tell me where it can be secured. It is not in catalogue.

I write to you for this information. If a dealer in Lexington has it for sale and he will mail me copy, you may assure him that

necessary perhaps but I
have stated the conditions
of my affairs so that you
may see now I am situated
and perhaps advise me,
it would be appreciated
for I am considerably bothered
and am advised not to
go to school. but I fear my
advice comes from those
who rank money far above
an education. I am con-
fident that I could borrow
the money necessary to
defray my expenses after
the 1st of November as
I will then be 17 years old
for reasons explained I feel
a hesitancy about doing
so, I am not decided but
if I do not start to school
before that time I shall
not go this year. Respectfully,
B. E. Lin

Mrs. J. K. Patterson

Dear Sir,

Circumstances are
such that I fear it will
be impossible for me to
attend college this year.
My guardian has informed
me that not until next
March will I be even
with him as he has ad-
vanced money toward

defraying my expenses while
at college and improving
my farm. I will have to
go in debt to furnish my
house and purchase
horses and farming imple-
ments and I fear the
additional expense of a year
at college would make
my indebtedness a little too
great for one so inexperienced,
still, I sometimes think if
I having a fair start in life,
cannot pay a debt of a few
hundred dollars, I had as
well fail just as last for
failure is sure to come.
I have a great desire to become
educated; knowing my

ignorance, I thirst for knowl-
edge and that desire for
education grows stronger as
I learn more, but situated
as I am it seems that I
must say farewell to college
life, to me it is a painful
thought for I have grown
attached to our grand old
institution, to the professors
and pupils with it connected
and even to our dormitory
for if its fare be not first-
class its conveniences make
up the loss. I shall ever
hold you in the greatest
esteem and remember your
kindness with gratitude.

Lexington, Ky.,
Dear Sir:-

You can oblige me greatly by giving me a correct idea of what a high school ought to have on its course in order to meet the requirements of your school.

I am a young Canadian, who attended State College several years ago, and am now trying to build up in this city a high school worthy of the name. I find certain people here much opposed to the State University and am doing my best to show them where they are mistaken.

If you will be so kind as to inform me in any lines useful to the laying of a good foundation for our school I shall be indeed grateful to you and will continue to do what I can to send material to old State.

With pleasant memories of the days spent in your school and with wishes for your every success, I am,

Very respectfully yours,

Dear Sir:

One of our strong young men, Mr. W. D. Greene, will probably apply for a position in your schools. Hence, I beg to say what his growth during his college career warrants the belief and expectation that he will become a leader in the near future. He is a man of marked ability and promise. Consecrated to the cause of education he has the right spirit, such as will impel him to fruitful work. Chairman of the "Visiting Committee" of our "Schoolmaster's Club" he is now directing the visits of probably 150 students to the various city schools and is doing it with signal success. He has been equally prominent in other college enterprises. You will find him vitally valuable in your schools, I believe. He is veritably a noble young man who has made the best of his opportunities and who is destined for unusual achievements. With such faith I commend him to you heartily.

Very truly,

To whom it may concern:

Prof. W. D. Greene has been closely connected with us here in the High School for several months. I have visited his recitation room very frequently and have had excellent opportunity of noting the character of his work.

I unhesitatingly affirm that Mr. Greene's work is thorough and up-to-date. He has successful experience in teaching, and he has the ability and the judgment to put into successful practice the best of the pedagogical theories learned in the Normal Schools from which he has graduated.

I have been very much pleased with Mr. Greene's work in every particular. Under his leadership and his quiet but firm discipline our high school is now doing better work and having a higher degree of prosperity than at any time since I came to the schools here nearly eight years ago.

Mr. Greene is, moreover, a gentleman of excellent habits. It has been my pleasure to meet him in a social way in my home and at his boarding place. I have always found him a thorough gentleman, a close student of his work and wide awake to the interest of their school.

I should certainly regret very much to lose his services here and I trust he may find it to his advantage to remain with us.

Respectfully,

Dear Sir:-

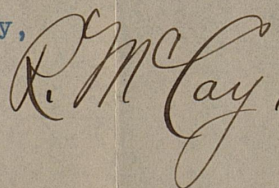

As you are aware, the most troublesome Vacancies to fill are those occurring almost at the beginning of a new year. We wish to remind you that we have excellent facilities for assisting you in securing suitable candidates for any Vacancies of that character.

Our Membership has been greatly increased, and its quality has also been improved. Because of the lateness of the season, officials are sometimes enabled to secure men with splendid qualifications and successful experience on most favorable terms.

The fact that every candidate nominated for any position is selected by the manager himself assures our patrons that conscientious effort will be made to nominate for their Vacancies first-class material only.

Thanking you for an opportunity to serve you now or at any later time, I am,

Yours truly,

Dear Prof. Patterson:

My daughter Sallyneill left Louisville this morning for State College. During the summer she completed under a recognized teacher of Louisville, whose work is endorsed by Prof. E.H. Mark, Supt. of Public Instruction, the required work in Analytical Geometry. This work was not included in the Louisville high school course, ^{taken in Ken College} and could not be because of time included in her Senior college work. Notwithstanding her deficiency in this subject she seemed to have made a very good average in Calculus last session, so I hope you will extend her the courtesy of excusing her from this work or an examination upon it, because of the great amount of work she has to do and the necessity therefore of caring for her health in every possible way.

Hoping to have the pleasure of visiting your college in the near future, I am,

Dear Sir:-

I send by this mail a copy of our catalogue which will give you our courses of study. Mr. William McCullough, who has applied for entrance to your institution has pursued our course of English, Mathematics, and Natural Science. In English he completed the full college entrance requirements, and, in Algebra, Wells' Academic text book, and five books of Geometry together with a previous preparation in the subject of Arithmetic.

He also studied the subjects of Physics and Chemistry. If there is any further information that you would like to have in order that he may get his proper standing in your institution I shall be glad to give it.

Gentlemen:-

As attorneys for several of the persons who are entitled to free tuition in the Agricultural & Mechanical College of Kentucky, as is provided in Section 28 of the Kentucky Statutes, being a part of Chapter 3 of said statutes, we are advised that you have refused to allow said students to matriculate and use any of the laboratories of the college, unless each student pays a certain laboratory fee, and as we are informed the payment of this laboratory fee is required before such county appointee is permitted to use the laboratory for which said fee is demanded.

By the provisions of Sec. 28 of the Kentucky Statutes, it is provided that in consideration of the incomes accruing to the college, under the Act of April 29th, 1880, that "each Legislative district shall be entitled to select and send to the college each year one properly prepared student free from all tuition, matriculation fees, room rent, fuel and light, and to have all the advantages and privileges of the college and dormitories free, except board." By reason of said provision of the statutes we believe, and have so advised our clients, that the requirement that these laboratory fees be paid is illegal and is contrary to that section of the Statutes, and on behalf of our clients, we hereby request that you permit them to

Gentlemen:-

In reply to your letter and verbal communication of yesterday I beg to say that in collectiong Laboratory fees from all students appointed under the law and others I am acting under the instructions of the Board of Trustees of the A. & M. College of Kentucky.

It seems to me that the best advice you could give to the persons for whom you are attorneys in this matter would be that they comply with the order of the Board and enter upon the prosecution of their studies without the loss of time trusting to the Board at its December meeting to rectify any action taken by them under an alleged erroneous interpretation of the law. From what you know of the legal learning, uprightness and strong sense of justice of the members of the Board they may be safely trusted to right any wrong which they may unintentionally have been a party. Should the Board reverse its action the fees collected would be refunded. If they stand by the resolution directing the collection of Laboratory fees the remedy at law remains in your hands. From your strong and earnest protestations of interest in the College I venture to hope that you will admit the propriety of the views here presented. You must certainly know that legal proceedings against the College would embarrass the College and annoy the Board of Trustees.

Yours sincerely,

My dear Mr. Carpenter:

There is a matter that I want to bring to the careful consideration of Pres. Patterson, of the State College. I have only a very slight acquaintance with Pres. Patterson, and I do not think my word with him would have as much weight as if it should come to him backed by the endorsement of a man like you, who is in Mr. Patterson's confidence, and who is also acquainted with me.

A young friend of mine, Mr. MacIver Woody, son of Dr. Samuel E. Woody of this city, has applied for the Cecil Rhodes scholarship at Oxford. I am anxious that Pres. Patterson should know from one who has been acquainted with the boy for years, just what kind of a young fellow he is. I know him well and have no hesitation in saying that he is a very fine, manly, energetic and ambitious young man. I understand that he has stood the preliminary examination successfully, and I know he is such a man as would make a creditable representative of the State at the great university, and that the equipment he would receive would be devoted to the best service of the community afterwards. He is in all

respects a high class young fellow. I only want Pres. Patterson to know these things about him so that his claims may have consideration. I shall personally feel under obligations to you and to him for any encouragement that may be given Mr. Woody. I believe you know me well enough to believe that I would not write this unless I was both sure of my facts as to the young man, and earnestly desire^d to see him succeed, though I have no personal connection whatever with him or his family.

Feb 18, 1905;

President Jas. K. Patterson
Lexington, Ky,

My dear Sir: Mr. J. W.

Nire is a young man of good
character and desires to enter
State College,

He wants to work his way
through. Do the best you
can for him, ^{this spring} until he can
see his Supt and obtain
an appointment,

With best wishes for
you and K.S.C. I am
respectfully

J. E. Hestand,

W. F. Hall
ATTORNEY AT LAW,
HARLAN, KY.

June 15, 1905.

James K. Patterson, A. B., LL.D.,
Lexington, Ky.

My dear Sir:

Before I left Lexington I took all my examinations except one, and, having been called away by the gentleman, Judge W. F. Hall, for whom I am working during this vacation, at that time, I did not get to take the examination in Geometry, which I much regret. However, I intend to keep fresh on this study that I may pass the examination, without difficulty, when I return.

Now, with reference to my getting an appointment from this county, I suppose it will not be necessary for the Superintendent of this county to give me an examination. It seems to me that a statement from you or the secretary to the Superintendent of this county that my work there during the last term has been satisfactory, if you have found it so, would be sufficient. I desire a four years' scholarship.

With reference to what you conferred with me about a week before I left Lexington, I will say that I have spoken to the superintendent, and he says that he has received circulars from a certain source, discussing the subject of establishing other Normal Schools in the state, but does not remember exactly what they proposed to do. I asked him to write to you about it which I suppose he has done or will do soon. .

Thanking you in advance for any favor you may render me, and will watch my chances for doing the same for you.

Yours very truly,

Wm F. Cox....

Dear Prof. Patterson:-

You have of course learned through the public press that we have won the case of the A . & M. College vs. S. W. Hager. Both the College and the State are to be congratulated upon this favorable decision.

My wife has a niece here from Greenville, Miss. who has a position in the Public Schools there as instructor of Physical Culture. She is desirous of taking a course this summer in Physical Culture at the summer school in which it is taught. She has heard of the summer school at the State College and thinks possibly she can take the course there. I shall appreciate it if you will write me whether Physical Culture is taught in your summer course, what are the tuition fees and other expenses.

Awaiting your reply and with kindest regards, I am

Prof. James K. Patterson,

Dear Sir:- As

I am thinking of attending State College this fall, I thought I would write to you in regard to the course which I wish to take. I can remain in school only two years, and for this reason must attend some college from which I can be graduated in two years.

I have studied your catalogue carefully, and have worked in accordance with it this past year.

After telling you how much of the course I have had, you will, without doubt, easily be able to tell me if you think it possible for me to complete the A. B. course in two more years. In English, I have had Pattee's American Literature, and Halleck's English Literature with readings from English authors. In Mathematics, Higher Algebra, and Plane and Solid Geometry. In Latin I have had all of the Junior year, Pliny's Letters excepted. I have also studied Steele's Physics but wish to take it again this fall.

I have selected English for my major study.

As you may see, it would be rather difficult for me to complete the course in two years, but do you not think that by dint of hard work, and some "doubling" on certain subjects that I might be able to accomplish my aim?

I see in the catalogue that four languages are laid down in this course, but surely only two are required, the other two are elective, are they not? Also, if a student should skip Cicero, Terence and Plautus, and proceed

from Virgil to Horace, would he be required to make up all the Latin omitted before he would be permitted to be graduated?

Concerning mathematics, I have very little mathematical ability, and have always desired to devote the greater portion of my time to studies for which I have more ability, and to take as little mathematics as possible. Therefore I wish to know if I may omit the Analytical Geometry from my course? I am sure you would be quite willing for me to do this as in some of

our large Universities, for instance Yale, the students are not required to go farther than Trigonometry, if they do not wish to do so. Besides, it would increase my chances of completing the course, which is with me a great object, for as much as I desire to attend State College, I fear it will be impossible for me to do so, unless I can complete the course in two years.

For several years I have been studying under private teachers, and good ones, too; my last teacher, an university graduate, is especially

fine, and if I can obtain from him a letter, certifying that I have completed my studies creditably, and am prepared to continue the course, will you not allow me to enter my classes without examination. It would greatly accomodate me, if you would do so.

In regard to boarding, I would rather room in one of the dormitories, but the two on the campus are for the exclusive use of the county appointees, are they not? Or may the appointees board at Patterson Hall, or

just any where they choose.?

Which is the more expensive, board at Patterson Hall, or in a private family?

Will you let me hear from you at once, and please give me your candid opinion as to whether I can complete the course in two years, for if I am not able to do so, I shall most likely be obliged to enter some college, where I can.

Yours respectfully,
Rose Hampton.

Dear Sir:

Your letter of August 25th is at hand.

We have at the University of Illinois a household science department. See the catalog which I send you by same mail with this also the enclosed circular for scholarships offered in this department of the University.

The head of the department is a woman who is a full professor, receiving a salary of \$2100.00 a year.

As the head of the department she is also a member of the University senate.

Very respectfully yours,

W. H. Pillsbury

Registrar.

Dear Sir:

Sometime ago I wrote you concerning Mr. H. P. Barrows, the Webster County appointee to the State College, asking if he could secure work to pay a part of his expenses while in school. In your answer you stated that you would refer the matter to the Director of the Experiment Station and write me at a later date. In as much as I have heard nothing from you, I take the liberty of calling your attention to the matter again.

Please let me ^{know} what, if any thing, can be done for the young man.

He wants to be with you at the proper time, and your answer will enable him to make proper arrangements before leaving here.

My dear President Patterson.

I did not get to college today till after you had left and as I know you wish to know my decision as to the Dean's offer at once, I write you.

Looking at it from every standpoint I concluded it to be my duty to accept.

The future there seems to be particularly bright and there are many possibilities for one who is satisfactory.

I have written to four agencies today and expect to have the names of many candidates to lay before you soon.

I cannot tell you how I regret leaving here and particularly want to thank you for your many acts of kindness and signs of appreciation. Perhaps a change at this time may prove of benefit to the department and if so none will regret more than I.

Yours respectfully
John P. Brooks.

Dear Sir:-

I am in receipt of your catalogue, for which please accept my heartiest thanks. After having looked over it thouroughly, I have come to the conclusion that it would be best for me to take at least the 2nd., and 3rd., year in the Academy, for I readily see that my education is exceedingly limited, compared with what it should be, and I hereby ask if I could take the last two years in the Academy and then take up the Mechanical and Electrical Engineering under an appointment. By means of hard work I might be able to complete both in the required four years, but should I not be able to do so would the appointment hold good for another year or not? I know that I would have to put in every spare moment, but I am not averse to hard work, for I have been at it all of my life, and am in good physical condition and able to do considerably more.

Thanking you for all interest, I am,

Yours very truly,

regard to it.

Are they paid in advance? and
are they paid monthly, or quarterly or
by the term? I see the board is \$3.00
a week, I would rather not send it
weekly. This young lady wishes to be
taught as long as she can - Latin,
French & German, and she wishes to
take a course in Pedagogy. Can
she devote her time to these studies
exclusively? If not, can you arrange
for her to take as few others as possi-
ble? How long will it require for her
to perfect herself in these special
studies? or does it depend upon her
for advanced she is. She is considered
unusually bright, and a fine student
here, but I don't know whether she would
appear as far above the average, when
compared with as many others, but
at any rate, she wants to work

Pres. Patterson:

Dear Sir;

The changes which I desire to make in my course of study, can not be made without some corresponding changes in other department. The committee appointed several months ago to adjust the courses of study to your present needs, and whose continuance was granted at our last faculty meeting, will have to discharge its duties before I can make the desired changes in my course. The publishing of our catalogue can not perhaps be delayed for these changes.

I therefore return these proof sheets without change except in the striking out of "practical chemistry" where it was interchangeable

with one of my classes.

Was action taken by our board
in regard to an assistant treas-
urer?

Prof. J. M. Patterson Ph.D.

Sir: Your letter of Dec
20th 1895, is before me.

You say my son was reported
the other day for profanity
in the dining room of the College
House."

My son denies that he used
profanity, and in all his life
I have never had reason to
doubt his veracity. He says
that on the occasion referred
to some of the college boys

were making disturbance on the floor with their feet; that he was not so doing; that the Steward accused him of it and said that if he did it again he would report him; that he replied, "Report and be darned." This is not elegant language but it is not profanity. It could easily be mistaken for other language commonly called profanity.

My son states that the young man Roach reported him, and alleged that he had been profane; that Cassiter told you that he had not used the language alleged; and that so far as he knows

their testimony and his own,
 is all that you have had before
 you. He tells me also that
 besides Cassiter there were
 others ^{who could}, and some
 others ^{who} ~~were~~ ^{were} ready to,
 testify that he had not used
 the language alleged; among
 them Farley, Carnahan & Hicks.

I submit that under the
 circumstances the allegation
 is not only unproved, but
 disproved; that the language
 actually used by my son is
 not sufficient cause for
 his expulsion from the college
 boarding house; that such
 expulsion would be a grave
 injustice to my son and to

me, and would stigmatize
him unjustly and unfortunately.

Will you be so good as
to inform me whether your
decision is final and irrev-
ocable, and do so at your
earliest convenience, that I
may know whether it will be
necessary for me to take
any further action in the
matter? And will you also
tell me whether you have any
other testimony against my
son than that of the person
who reported him?

Respectfully
yours

Mark Hallam

written to Henry
urging him in future
not to let his pleasure

I also wrote him
what favorable reports
I am having from
his younger brother
Lee Hamilton who
is now at Princeton
College. New Jersey -

Lee graduated from Louisville High School last June and as a reward of high standing was chosen one of the orators at Commencement. On determining to go to Princeton he found as the High School only requires graduates to be proficient in two languages, and as he had studied Latin ^{and} German he had only two months to make up a four years course of Greek - so he spent his entire vacation poring over his Greek - The Professor writes me that his entrance examination was remarkable, and out of six divisions Lee would be placed in second - You, Henry is the favorite in the family, and they all say he is ever brighter than Lee. I know I have always found him more capable to attend to my business - We must give Henry interest, by praising & encouraging him, as censure renders him incapable.

President James K. Patterson,
Lexington, Kentucky,
Dear Sir:—

Your letter of February 6th addressed to Mr. Canfield, President of our University, was handed me today for answering. In reply to your inquiry in regard to the young man named Henry in his veterinary work, I would say that we can receive him into our veterinary course. What veterinary studies he has already completed, under Dr. Bennett, I would give him credit for, if the length of time devoted to each branch with you is about the same as with us. We make no charge for tuition, though an incidental fee of five dollars per term is imposed upon each student. Laboratory fees are very low—simply intended to cover cost of material used. Board can be had at the O.S.U. Dormitory—boarding club at \$3.00 per week including room, fire, light, etc. By boarding themselves—common with many of our students—students save out some their living expenses much below this figure. Rooms can

47-11-64

he had near the college for \$8. per month - four dollars for each roomant - and table-board at about three dollars. This is a somewhat more expensive way of living however.

Our college-year ends June 17th 1896, and the next year begins early in September 1896. I will say that just at present the veterinary-course of the O. S. U. is under-going a thorough over-hauling. The new course will go into effect next September. We are constantly adding to our facilities and one more veterinarian has been added to our teaching-staff, making three in all - Clinical advantages are good, and if the bill, now before the state legislature, to increase our state-endowment to double its present amount, passes, which seems very probable, our veterinary school will be materially de-veloped.

Any further information you may desire I will gladly furnish you should you address

Yours most cordially,
David Stuart White

Dear Sir, -

Since coming here I have been studying pretty hard on my Latin and Astronomy etc. I feel I have made a good deal of progress in both studies.

I have also written to Dean Wright of Yale College in regard to entering the Freshman class at that place this fall.

This A. M. I received a very kind note from him offering me a scholarship in the University & promising a position whereby I could pay my way through college.

He also promised me admission without examinations if I could secure a certificate from you stating I had completed the Junior course at the State College and recommending my character.

You will feel with me that this is an opportunity I should embrace - if possible, - and I trust you will kindly give me the best representation you can.

Thanking you for your past kindness and hoping my future work will show my appreciation of the same, I am very respectfully yours

Dear Sir -

Some several days ago I wrote you in regard to obtaining a certificate of the work I had completed at the State College. As I wrote you, Dean Wright of Yale has offered me a scholarship at Yale & admittance to the Freshman Class, on condition that I obtain a certificate from you that I have completed the Junior Year at the State College.

There is now only a short time remaining to make my arrangements for going East, so I should regard it as a special favor for you to let me have that at your earliest convenience.

Thanking you in advance I am,

PROF. J. F. DRAUGHON,
Nashville, Tenn.

Dear Professor:

Possibly you would like to receive a letter from one of your old time students. As you know, I entered your school May 17, 1897, taking out a four months' scholarship in Shorthand. I was, through you, offered a position with W. R. King, of Lawrenceburg, Tenn., as stenographer, which I accepted, and which I was in possession of Sept. 17, 1897, just four months to a day after taking out scholarship.

I worked with Mr. King until Christmas, when I took a vacation to my home in Russellville, Arkansas. While at Russellville, I was appointed Court Stenographer of the 17th District of Arkansas, which position I filled with satisfaction to all parties concerned. While holding this position I was offered a place with the above attorney and immediately accepted the same.

My work is pleasant and my salary is good. You see it has not yet been a year since the completion of my course and I have been in three good positions.

I will say in this connection that I was never treated fairer or better anywhere than when I was with you. I had an especial object in attending your school. When in Little Rock (this state) I was accosted by a prominent educational man who was a friend of mine and who wanted to take an interest in my welfare. He told me that I was doing the wrong thing when I attended your school; that one would not see the results of his efforts; that the school was run on the "bunco" plan, and many other accusations, which he thought (having had it told to him) were true. I replied to him that I would give the school a fair test. Several other persons tried to keep me from going, but I was determined, and on May 17, 1897, I took the course as above stated. I studied hard, and in less than three months, I was in your business office taking private dictation. While in your office I found that everything was conducted in a business-like way. You, yourself, were very kind to me, and assisted me greatly.

Will say that if a young man will go to your school and show that he is in earnest and wants to do what is right, he will receive what he expects.

I shall always look with pride to your school and take a deep interest in its growing influence.

Let me hear from you at your earliest convenience.

Very truly your former student,

DEAR PROF. DRAUGHON—Inclosed I hand you a letter from a friend of mine in which he makes inquiries about your school. It is useless for me to endeavor to relate to you what I said in my reply to his letter. As you well know, it is always a great pleasure to me to be able to have an opportunity to say encouraging words in behalf of your school. * * * Mr. U. S. Hart, also one of your former students, has been with this firm since last October. I still keep books, and Mr. Hart is chief clerk and general manager. We are getting along nicely; have splendid employers to work for.

We often hear from our old school-mates—especially Bolton, Garison, Hopson, Rutherford and Scales. They all have good positions. We would love to visit your school and see you and all our old friends, and we will do so if an opportunity ever offers itself.

If you ever find time, I would be pleased to hear from you, if only a few words. Wishing you continued success, I remain,

Prof. J. F. Draughon, Nashville, Tenn.:

DEAR PROFESSOR—As Mr. Kimbrough is writing you to-day, and supposing that you would be glad to hear from me, I take the privilege of writing you also.

I resigned my position as bookkeeper and stenographer for J. P. Pearce & Sons, Carbon Hill, Ala., last season to accept a position with the above firm in the capacity of general manager and chief clerk. It was through the kindness of Mr. Kimbrough that I secured this position. As you will remember, he and I attended your institution at the same time, and by that association we became very much attached to each other and have always had a desire to be employed by the same firm. We get nice salaries for our services, and are pleasantly located in every respect.

With the condensing which is so thoroughly inculcated in your pupils, we have been able to so condense the business here that Mr. K. and I do the work that four men used to do.

I have had repeated opportunities to recommend your institution since my last letter, and have not, I assure you, in a single instance failed to praise your school to the utmost. I shall always be glad to "praise the bridge that carried me over," for it is your school on which I base my success. Trusting that your attendance is all that you could expect, I remain,

Your former pupil,

U. S. HART.

(We have been informed by others who are in a position to know that Messrs. Kimbrough and Hart are receiving a salary of about one thousand dollars each per year.)

HOW TO SECURE FREE TUITION.

As explained in our advertising matter, which we mail on application, a person can secure a scholarship in either of our colleges free by securing enough subscribers to the Youth's Advocate, published at Nashville, Tenn., to equal the cash price of a scholarship. For instance, a person wishes to take a \$40 scholarship. It would require only 40 yearly subscribers at \$1 each, that being the yearly subscription price of the Youth's Advocate, or enough six months' subscribers at 50 cents each to amount to \$40. Or suppose you only secure ten or twenty subscribers, and you take out scholarship at our regular catalogue rates. You would receive credit 100 per cent. for every subscriber secured. You would simply have to pay balance on scholarship with your own money. Many persons would subscribe to the Youth's Advocate in order to help a worthy person secure a business education, and especially when they know that they would get value received themselves.

In order to let you know something of the character of the paper, we below print a copy of an "ad." that is being run in some of the newspapers by the Youth's Advocate Publishing Co.:

The Youth's Advocate is a semi-monthly journal of 16 pages, printed on a high grade of paper, elevating in character, and read with interest and profit by people of all ages. Stories and other interesting matter well illustrated. Non-demonstrational. Established 1890. It is endorsed by prominent State officials and teachers. Almost every mail brings letters from subscribers offering words of praise for the Youth's Advocate, and newspapers containing complimentary press notices. It is the only paper of its kind published in the South. While it is a high-tone literary paper in every respect, it is in one sense of the word a practical educator. It should go into every household. Agents wanted. Large cash commission paid. Sample copy sent free. Address the Youth's Advocate Publishing Company, Nashville, Tenn."

Mr. Chamberlyne was the instructor in Latin in the Academy during session 1900-1. He did not seem to be able to do very successful work with young boys and therefore should say, that he is better qualified to teach in a College than in a High School or Academy. I am of opinion that he thought this way himself, judging from talk he had with him.

TERMS TO TEACHERS: \$3.00 for registration in one Agency, and \$1.00 for each additional Agency. Registration fees must accompany the return of application forms. Five per cent of one year's salary is due upon engagement from each candidate who secures a position through the Agency, and should be paid within thirty days after engagement.

Information of vacancies must be considered confidential, and be used only for the benefit of the candidate to whom it is sent. Any transgression of this rule will render the candidate liable for the commission.

The commission is charged irrespective of length of engagement, except when a teacher is employed as substitute, in which case seven per cent will be charged for the actual time of substituting: i.e., the amount of commission is the same whether the candidate is employed at the beginning of the school year, or at any time during the year, and whether the teacher is hired by the week, by the month, or by the year, unless the position is that of a substitute. If the position leads to a permanency, the amount on which commission has been paid as substitute will be deducted from one year's salary, and five per cent will be charged on the remainder.

When board is given as part of salary, it is estimated at from \$200 to \$500, according to value.

If a candidate who has secured a position through us obtains an advance in salary before the close of the first year of service, he is under obligation for the commission on the advance the same as on the original salary.

If a teacher is elected to a position, having given assurance that he will accept it, any change of plan will not affect his obligation to us. In justice to employers and to ourselves, we wish to prevent candidates making contracts which they are not prepared to keep.

If a candidate applies through the Agency for a position, or is recommended for a position by the Agency, and is elected by the same officials to that or another position, then or later, directly or indirectly, as a result of these negotiations, commission is due the Agency.

If a candidate obtains an increase of salary in his present position as an obvious result of an application for another position at our suggestion, or of information received from the Agency, commission will be charged on the position to which we have called attention the same as if it were accepted.

Registration secures membership for two years, unless the candidate secures a position before the end of that time. If, as sometimes happens, a candidate is represented by us after the period of his registration has expired, he is expected to meet the terms of the Agency the same as if the service had been rendered before the end of this period.

If a candidate secures a position through one of our Agencies after the expiration of his period of membership, he agrees to pay to the Agency the usual registration fee in addition to the usual commission.

A candidate, having secured a position, is held responsible to us for commission, if either he or the employer has recognized us as an intermediary in bringing about an engagement; that is, if the candidate has acted upon our information of the vacancy, or has been recommended by the Agency to the employer in response to a call. If previous information concerning a vacancy *would seem* to invalidate our claim for commission, any objection to such claim must be made immediately upon receipt of notice of the vacancy from us.

Your signature and filling out the blank on the other side of this sheet is a promise to comply with the above terms.

When a candidate desires to register in more than one Agency, he may send with the proper fees the requisite number of registration forms, properly filled out, to the particular Agency with which he expects to have most correspondence, and they will be distributed. This will save the candidate explanatory letters to the several Agencies.

Candidates are advised to register in Boston, New York, Washington, Chicago, Toronto, Minneapolis, Denver, San Francisco or Los Angeles, according as the location of the Agency is most convenient to them for correspondence or personal interviews, though none of the Agencies have territorial limitations, each negotiating with candidates and school officers in any part of the country. We endeavor in conducting these Agencies to combine the advantages of independent and co-operative Agencies. Each Agency is, in general, conducted independently, and is not embarrassed by the candidates or the responsibilities of the other Agencies. On the other hand each is perfectly free, in case of emergency, to call on any of the other Agencies to nominate a candidate for a position, or to suggest a position for a candidate. In case of registration in several Agencies, the Agency first addressed corresponds with the references given, and sends copies of testimonials to the additional Agencies. Only one commission is charged a candidate in case a position is secured by the co-operation of two of our Agencies, while a candidate enrolled in two Agencies under separate managements sometimes becomes liable for two commissions, because of service received from two firms. It is inexpedient for us to allow transfers of candidates from one Agency to another, or to allow transfers of membership from one person to another.

We do not insure any teacher a position. Teachers should expect representation for only such places as their record proves them qualified to fill. We *do* promise by correspondence, and as far as practicable by personal investigation, to acquaint ourselves with the merits of each candidate; but beyond this we promise nothing. Teachers should not depend solely on our advocacy of their interests, but should make the same personal efforts to secure positions as though not registered with us.

We cannot concentrate our sympathy upon each individual candidate, but shall do the best we can for our entire list. Each should focalize as much light as possible on his merits, and not depend on importunity for preferment.

It is an indispensable prerequisite to our efficiently interesting ourselves in applicants that they be heartily and intelligently interested for themselves.

Our conditions of membership are intended to discourage inferior teachers from applying; but it should also be understood that excellent teachers whom we are glad to represent, and who are entirely worthy of the positions they seek, sometimes fail to secure aid through our efforts. Competition, the uncertainty of opportunities and other conditions entirely foreign to the merits of the candidate or the Agency, so enter into the case that we cannot closely estimate the chances of any individual candidate. Therefore, while we are sure that our methods and their results are satisfactory to the mass of our patrons, we wish no teacher to register with such confidence as to feel wronged should he fail to receive assistance.

When there is a call for a teacher to do a particular kind of work, applicants qualified to do that work are passed in review, and several teachers are nominated, such as best fulfil the conditions as to experience, age, education, location, salary, etc.

We sometimes receive offers of two or three times our regular commission for special service, or requests for an abatement because of apparently little trouble incurred. We are well aware that our requirements do not bear with equal weight upon all our candidates; but it is fair to suppose that a candidate who makes an engagement through the Agency receives somewhat more advantage from the engagement than the amount called for by the Agency; otherwise he would not make the engagement. Both as a business policy and in fairness to our candidates taken as a whole, we expect all applicants to comply with our printed conditions, and in no case will it be helpful to a teacher to offer special inducements. Intelligent teachers will understand that it is vital to our success and reputation to serve our candidates strictly in accordance with their merits, and that we cannot properly be controlled by our sympathies or friendships.

Candidates are requested to send a photograph at the same time with registration form. A personal interview is advised, unless it necessitates considerable expense. It is important that candidates keep us informed of their address, and we are glad to have them write us occasionally.

Whenever immediate payment of commission has been especially inconvenient, we have generally, as a matter of accommodation, accepted a note to be paid from the first instalment of salary. The commission is *due* upon engagement, and it is pleasanter for both parties that it be paid as soon as possible.

Before registering, read carefully the contract printed on the other side of this sheet.

Dear Sir:-

Your letter of 14th just received & contents noted with deep regret. Have not heard from Robert yet. Will you please let me know if there is any thing I can do to get him out of this trouble & if the charges are serious enough to hurt his standing in college? If you think it necessary I can consult Judge W. S. Barker. I believe he is one of your trustees. He resides quite close to us. I am ashamed to ask your interference in his behalf, you have done so much for him already. Excuse my troubling you.

Dear Sir:-

Yours of 19th inst. to hand. Sorry Marion is in trouble. The only reason I can offer for her misconduct was her anxiety for her mother. I know she (Marion) was very much worried about her. Marion done very wrong refusing Mr. Blackburn to attend Chapel. And I am sure no one feels more sorry than herself now when she recognizes the wrong she has made.

Mr. Dealey has not any right or guardianship over Marion. I simply asked him (as he was the only one I knew through what) to see that no harm befall Marion to & from school, as Robert no longer attended. He seemed very gentlemanly & I thought there was no wrong as there was another girl along with them. There is no one understands better than Marion that you & Mr. Blackburn has absolute control of the female students in the grounds. & what made her forget herself is beyond me. Unless it was as I have said her anxiety for her mother. We are very thankful to you in letting us know.

Very respectfully Yours

This will introduce to you Mr. W. R. Stone, who has moved to your city for the sole purpose of placing his daughter in your school. She is a young lady of wonderful ability, having completed the common school course at the age of twelve, and obtained a first class certificate at the age of ^{thirteen} ~~sixteen~~, except her age did not permit her to hold it.

She has had three years in Latin, one year in Greek, and one year in geometry. Any favor you may show Mr. Stone or his daughter will be gratefully appreciated by your old pupil,

Dear Sir:

It has just come to my knowledge that you have received an anonymous letter from Davies County reflecting upon Young Wellman, who is a student in your College. I wish you this to place the young man in his true standing before you.

That the boy was guilty of an indiscretion last fall in returning from Church with a young lady we do not deny, but that he was guilty of a great crime we do most emphatically deny. Charges were preferred against the young man, but upon investigation they were found not so grave as at first reported, and the matter was amicably settled without going to the Court-house. All parties concerned were satisfied and the matter dropped.

It seems, however, there is one, and that one, to his a coward to sign his or her name to the paper it is hoped will crush the boy in his efforts ~~for~~ advancement. It is not necessary to recall to your mind the fact that there are ~~all~~ ^{always} those in every community, who delight in destroying, rather than in building up human character.

I presided at the birth of the young man and he has been under my observation ever since, and can say that he was never in trouble before last fall. I have written the above to set before you the facts in the case, and believe if the young man is not discriminated against he will reflect credit upon himself, and bring no disgrace upon the College or anyone connected therewith.

Dear President:

I have accepted a position in a military school for next year, and I am anxious to come up and take some instruction this spring, especially at the time Battalion drill will be held.

I want some instruction in inspection, guard mount, drill in extended order, etc.

Of course I can only be there a few days at a time, on account of official duties.

I feel that this would be of great assistance to me just now. You know I am Captain in Second Ky. Infantry. Now would there be any expense attached to this?

Dear Sir:

Last summer, I made a mistake in the dates between which examinations for appointments to State College had to be made. We were entitled to two appointments.

In order to rectify the matter, I had the examination held just as it would have been held at the proper time. We had two applicants. Both made passing grades. I wrote to you in regard to the matter, stating that I was willing to bear their expenses.

(railroad fare and tuition).
You agreed to this, and I
sent you a check for \$30.00,
tuition for the two. You wrote
me that the other expenses,
(railroad fare) would be as-
certained at the close of the
school year. For some reason,
one of the young men did not
attend last year. The other did
attend. The names of the boys
are H. L. Prather & Henry Kelly.
Harry Prather attended school,
Henry Kelly did not go at all.

The reason I am going over
all this is because I know you
have a great many things to
think of, and may have for-
gotten it. Now, as one boy did not
attend, cannot the \$25.00 paid
for his tuition be credited on the
other boy's railroad fare, letting
me pay the difference, if

there is any? If the railroad fare is less than \$25.00 I am sure you will return the difference to me. In fact, I am sure you will do what is right, and will not ask me to pay \$25.00 tuition for a boy who did not go to school a single day. I think I asked you not to mention this awkward affair to the boys. I shall appreciate it if you will "keep the secret." Hoping to have the pleasure of meeting you sometime in the near future, I am

Yours with respect,
Dora M. Smith
Supt. Fulton Co.

My dear Sir:

In reply to your note of May 26th I would say that Mr. Moore showed himself in his examination not to be adequately acquainted with the fundamental principles of Economic Science. His views were hazy rather than precise. On the outlying fields of economic history and of general social progress he was quite satisfactory, but he had evidently not reflected sufficiently on the basic principles of modern business enterprise. I had warned Mr. Moore about this some months ago, telling him that his stay with us had been so short and his discussion in the seminar so fragmentary that we had been unable to come to any conclusion as to whether he was sufficiently well grounded in economic principle. We asked him whether he was perfectly sure of this and told him of several men who had slipped up in the same way during the past few years. But he expressed himself as completely confident. We endeavored to give him an entirely fair examination and in the unanimous judgment of every one present, he failed.

I have told Mr. Moore that if he applies himself diligently to his study of fundamental principles there is no reason why he should not pass successfully later on. Personally I have a high regard for Mr. Moore and am extremely sorry that it happened. I do believe, however, that he has perhaps had a little too much confidence in himself, and that he has not always been willing to get down to bed rock in his thinking.

Yours sincerely

Dear President Patterson:-I have not as yet received Roberts ~~grade~~ for the last term, but presume that it will be about like the others have been. I am just a little discouraged about his prospects. He does not seem to make the grade marks that I think he ought to make. Owing to the fact that he has been in school so long. What do you think of his chance of getting thro next year?.

He has had all of his time and good health, and I can not understand why that he should not have been fairly ahead of his class or at least stood well in class record. Do you know what the cause is?.

Of course if he can not get thro next year he should drop out for a few years and go out and do something for the time and then go back and finish. Of quit intirely. Some time I am a notion to take him out and let him quit for good.

I would like to trouble you a little for an opinion about the matter.

Wishing you success ,I am yours truly.

James K. Patterson, LL.D.,

Dear Sir:-

I have a Nephew, W. F. Cox, who attended your college during the last session. He was much pleased with the school, and has a great desire to permanently enter the school and continue each year until he finishes up the course prescribed for a graduate. Some two or three months ago, to my personal knowledge, he applied to the county Superintendent of this county to be examined for the appointment to a scholarship provided for under the law for the different counties in the state. The place he sought was vacant - there was no rivalry or contention about the place- but the county Superintendent was in a race before the Republican Primary Election, and on that account, refused to take time or give him any examination for the appointment until after the time ran out prescribed by law for taking this examination. After this he held the examination and awarded my nephew the certificate, and, as I understand, sent to the Business Agent.

My Nephew had some correspondence with you about the matter, and your advice to him is that the certificate will be of no benefit to him. Now, under this state of case, is it not possible for you to recognize or cause to be recognized this certificate, and receive the young man in school? If you can and will take the matter up with the persons having supervision of it, and admit him to your school with the benefits of the certificate, I will recognize it as a personal favor to me; and I hope to have

Dear Sir;

My brother D. R. V.
Purpuson will enter his daughter
in the A. & M. College she being
a County appointee from Todd
Co. I have been thinking of
sending my daughter and write
to inquire whether or not she
is far enough advanced the
 tuition I would be required
to pay & the cost of board in a
nice private family she attended
the High School in Paducah
last year & was in the 9th grade
studied higher algebra science
History of U. S. & Rhetoric, I am
very anxious to have her with
my brother & his daughter
both of whom will be there

Dear Sir:

Some few days ago I wrote you from Indianapolis in regard to being appointed to the State University from this (Grayson) County.

I have passed the examination and shall enter school at the beginning of the next school year.

My work for the first year or two will be preparatory.

I should like to know
the terms of board in the
dormitory and also, in
your opinion the cost
of board in private homes.

What are the rules
and regulations by which
the dormitories are
governed?

I have been told
by some that treatment
in the dormitories is harsh
and, at times, almost brutal.

I take it as a fact.
Yet, on the strength of
such reports, I feel
a little unwilling to go.

Please give me
the actual state

of things.

Thanking you in
advance for the in-
formation desired

Dear Mr. White:-

I have just received your valued favor of July 29th and am very glad indeed to know that you are still at the old College. I would not care to send Hugh to Lexington unless he could board in the Dormitory as I do not care for him to board in any of the boarding houses in the City. Could you not possibly arrange, provided all Dormitory space has not already been taken, for him to have a room in the Dormitory. He would be absolutely alone in Lexington, and as stated above I would not like to have him board in town. I especially want him in the Dormitory so that he will be at all times under military restrictions. He is a very quiet boy, and I think with proper care, will do good work.

I will greatly appreciate hearing from you relative to this matter, and beg to remain with kindest regards and best wishes,

My dear Mrs. M.

I have your letter of July 31

Possibly I did not make clear ^{in my letter} some changes in our dorm system since you were here. Our ~~two~~ ^{new} County appointees have the few all of rooms in our two dorms - all other students are charged as indicated in our cat which I am sending you. We have many more co. appts. now than formerly so that ^{very} nearly ^{all} of our rooms are full of ^{them}. Day ~~and~~ ^{club and boarding} meals ~~are~~ ^{are} ~~not~~ ^{have} not been served in the dormitory for several years. There are several houses near the Univ. grounds where students get their meals. This arrangement is ^{very} ~~much~~ ^{more} satisfactory to all concerned than. ~~And~~ ^{As} ~~wrote~~ ^{in my former letter} ~~see~~ ^{see} Judge H. P. Ho. a fine dean of our Law College, a fine Christian gentleman and interested in every thing pertaining to the welfare of young men has active charge of our dormitories. I read him your last letter and asked what reply I should make. He asked me to say that he will place your son in one of our dormitories under good influences ~~at~~ and he and I will be glad to look after his welfare and keep you informed as to how he is getting along. Jud. ~~has~~ ^{has} ~~idea~~ ^{idea} is to get ~~that~~ ^{that} if all of our rooms are filled by appts. he will get some appts. to go to lodge in the city and give his place to your son. The dormitory discipline of our dormitories is not so thoroughly military as they were when you were here. The facts regarding the dorm. ^{you will find on pages 37-38 and 190-1.} ~~the~~ ^{the} ~~fact~~ ^{fact} expect to have a lady to look after our dormitories next session. The buildings are being thoroughly renovated, the summer and with the changes in management ~~believe~~ ^{believe} the dormitories will be desirable lodging for our boys. We have a beautiful ^{board} ~~dormitory~~ ^{dormitory} named Patterson Hall in honor of Pres. P. where our young women board. It is the old ~~old~~ ^{old} ~~old~~ ^{old} place in & since about 5 min. walk from the Univ. grounds toward the center of the city. I have failed to give you any information desired. Prof. James S. White,
Lexington, Ky.,

Dear Prof. White,

You will find enclosed an appointment that was made to Mr. George Smith of Central City on the 19th of this month. Mr. Smith is deserving and is very anxious to attend the University, he has been trying to prepare himself with that in view all of the time. He has done quite a lot of work with the International Correspondence School in the Mining Eng. Course, but by some misunderstanding he thought that he could take the examination at any-time, and get his appointment, before the 1st of Sept. So I had him to take the examination anyway, with the hope that possibly you all might be able to pass him in any-way. Mr. Smith is a coal miner and has a steady job, which he will have to resign if he comes to school. So he would appreciate it very much if you would let him know at once whether or not his appointment will be honored or not. I enclose to you a testimonial from Mr. Young and I know Mr. Smith can obtain a testimonial from every one that knows him. Will add further that it will be absolutely impossible for Mr. Smith to come without the privileges of the appointments.

TO WHOM IT MAY CONCERN:-

This is to certify that I have known George Smith from his early childhood and know him to be a young man of sterling worth of character and well worthy the full confidence and esteem of the public. He was a student in my school for some five or six years, during which time he was quiet, studious, obedient, and made satisfactory progress in his work. He comes of a most excellent family, is ambitious, and I commend him unreservedly as a young man that will take full advantage of any opportunity that may be afforded him to acquire an education, and as a student who will reflect credit upon any institution which he may attend.

Very respectfully,
