The National Dairy Diploma.
For the three years I was at the
Cheshire College, Holmes Chapel, I
assisted the Principal in the
management of the farm, taking charge
of and carrying out experiments with
most of our farm crops, & drawing up Reports.
For 12 months I had complete charge
of The Irish Aerated Butter Co's (Ltd) Factory
near Dublin, Ireland, and have a good
knowledge of Butter & Cheese-making in
large quantities.

I have excellent testimonials from all, with
whom I have had any engagements, as
to character and ability.

I have a good knowledge of Book-keeping
(Double Entry), and a fair knowledge of
Land Surveying.

Could you kindly let me know whether
there are any openings on any of the
Experimental Stations or Colleges, or on a
Gentleman's farm as Manager or Assis-Manager,
and if so, my best course to pursue.

Your kind advice will be esteemed a favour.

Yours faithfully
Samuel Fraser.

Dear Sir,

My friend Mr. Mackellar, of
Cheshire, Cheshire, England, who has
known me all my life, gave me your
address, as that of one whom I might be
able to obtain advice from.

I am 24 years of age, and have had
10 years experience in farming, with horses,
cattle, sheep, pigs & dairying, being about
5 years on the same estate as Mr. Mackellar.
I spent 3 years at the Cheshire Agricultural
College, and obtained their Diploma with
First Place, also the following,
Highland & Agricultural Society of Scotland
(Fellowship & First Place).

Dear Sir,

Your kind reply of the 7th inst.
to hand. As I have not a large amount of
money with me, and wish to keep some in
hand for contingencies, would you kindly
permit me to request a letter of introduction
to the Hon. James Wilson at a future
date? In the meantime I have written
him, although I know that it is not as
good as an audience with him.

Please accept my sincere thanks for your
kindness.

After a final classification of the various institutions reported to the Census Office, on the basis of the number, character, and probable permanence of the population contained in them, it has been determined to omit your institution, among others, from the list of those for which special enumerators will be necessary, and to charge the regular enumerator for the district in which your institution is located with the responsibility of filling the schedules for the people in your jurisdiction.

Your kindly cooperation with him will materially promote the accuracy of the enumeration and will place the Census Office under many obligations.

Dear friend Patterson:-

Your favor of the 24th inst. enclosing letter from Mr. Webb is duly received and noted. I have looked the matter over carefully; think that Mr. Webb's idea is about the best thing to do under the circumstances, that is, to move the fence where it will be of some use to him. I do not think it will make any great difference in the value of the farm in case of sale as to where the fence is just so it is on the farm and can be utilized. I have written to Mr. Webb that if he thought best to move the fence where he could use it, it would be all right.

With kindest regards, I remain,

I don't know what agreement you have with Sharon, but I would like to have one of his rooms on ground floor, unfurnished and to take my meals in town.

Dear Dr. Patterson:

I have your favor regarding Miss Clarke, and have looked into her case very carefully. I find she came here first on a three months' appointment, which has been renewed two or three times on the recommendation of Dr. Wiley, Chief of the Division of Chemistry, who is now in Paris looking after the exhibit of American wines at the Paris Exposition. He was a little unfortunate in the Committee on Appropriations last session, having had some cutting down where he did not look for it, and is consequently a little short of funds at the present time. Before going away he left me his recommendations, generally, and among them was one for the displacement of Miss Clarke. I sent for the assistant chief of the Division of Chemistry, and also the chemist under whom Miss Clarke has been working, and had a conference with them, this morning. I can not very well override the Chief of a Division in a matter of this kind, without causing some friction; and in this case, if I did so, I wanted strong justification from the scientist under whom Miss Clarke has been directly working. I regret that I was not able to get it. Possibly, after Dr. Wiley returns, I may be able to do something for Miss Clarke.

President:-

Since my return home I have talked with several of my acquaintances concerning State College. I have been surprised to learn how poorly our college has been presented to the minds of Logan's people. Even some of my own town's people not knowing of State College

asked me had I been
going to Kentucky Universi-
ty. I was much grieved to
find such a state of affairs
and wrote to Prof. Anderson
giving him the names
of several young men, whom
I thought printed matter
might interest. Not intend-
ing any slur on the manage-
ment but I do think this
newspaper advertisement
which is being sent out
presenting the virtues of our
school, will do more harm
than good; It seems to me

and to those to whom I have
talked to be, (using a common
slang term) rather ^{"cheap"} ~~common~~.

They say to me that they
can not believe a school so
using such shoddy means of
advertisement can be as thorough
ly equipped as they claim,
while other schools whose
worth they know to be less
than claimed for State
College send such far superior
advertisement matter.

To-day I received six
souvenir volumes of The Kentuckian
and I have ordered

a half dozen more which I
in and distributing among
my friends.

I consider this publication
the very best magazine of its
kind I have ever seen in
artistic design it is surely
a superior to any newspaper
article that could be gotten out
and as an advertisement medium
I should think it would be
unexcelled. If these magazines
were sent to those persons I men-
tioned to Prof. Anderson and to
Sid Walker of Franklin, Ky I
should think Logan would be better
represented.

Respectfully

My dear President Patterson:--

I suppose that the resignation of Judge Holt as member of the Board of Trustees, has been tendered, and that the question of election of his successor will be for consideration by the members of the Board.

I have no suggestion to urge in opposition to your own wishes in the matter, but it has occurred to me that General Fayette Hewitt would prove a suitable successor. General Hewitt, as you know, is a ~~very~~ ^{Scholarly} gentleman, intimately acquainted with public revenues and affairs. He has the leisure for this work, and I feel sure would prove a valuable member of the Board.

Dear Sir:- I find that I will not have to spend much time in Lawrence County in order to get a good representation. The people are already interested in State College. I will attend the Institute in Rowan August 6 to 11, then the Institute in Greenup and Elliott Aug. 13 to 18, as the Institute in Elliott and Greenup is the same week I will have to divide the time and spend about two days at each place.

After the Institute in Greenup I will go to Boyd.

I have no particular place to spend the first week of August as I will get over all my territory this week except where I will attend Institutes in August.

I can spend the first week of August

in Morgan County if agreeable to
you. I think I can do some good work
for the college there. If you want me

Dear Doctor

I am deeply concerned at your accident & hope to know of your speedy recovery. I thank you and have at once written to the gentlemen whom you name, and would be grateful for your continued thought and the suggestion of any opening. I have a wide capacity for college usefulness, I think. Pray kindly remember that a letter to the Hotel Gerard - 123 - W. 44 St. New York City always reaches me. I am more than proud of your praise of Master Carpenter. He is a noble young man & very fit for a sound military career - I feel sure the Regular Army

were finally increased to 100.000 this
 credits & I hope his local friends &
 statesmen will push his name. He
 came so in as Lieut of Regulars
 up to 26 - which gives him still
 several years.

Will you accept my thanks

I was sick in bed

Am surprised at Mr.

imagine how he got
such notions in his
head about my future.

I would like very
much to have the room

him however.

I didn't know he would
be back again so far
he will teach.

Was surprised to hear
that Major Savage wanted
a position as commandant.

I don't think he needs
the position but suppose
it is his love for military
life.

I received a postal from
him yesterday but he
said nothing about it.

I took a trip of twelve
days to Niagra, Toronto and
Montreal Canada and Thousand

that the Commandant should
be quartered with the Cadets.
and then I would prefer

Again, the dormitories

relieve that condition.

I made the above statements

But I do not urge it upon

Dear Sir:-

I have the honor to submit herewith for your consideration, and President Patterson's, a proposition for the establishment of a post-graduate course in electrical engineering. This is to afford students who have taken the equivalent of our 4 years course in mechanical and electrical engineering as good an opportunity of acquiring a knowledge of electrical engineering, as they could find in any of our larger institutions of learning. I would propose that the course outlined below be established this fall, and that those successfully completing it, be given a degree of Mechanical Engineer in electrical engineering.

2 hours lectures history of the development of electrical engineering, 10 weeks.

5 hours per week as may be assigned by Professor Anderson.

Remainder of time on Thesis.

We are prepared now to offer this whole course with the exception of laboratory work and with an additional expenditure of \$500.00 this fall for electrical instruments, the laboratory course could be made quite efficient. I mention this as a minimum amount; it is of course understood that with more apparatus the course could be greatly strengthened.

I have frequently been asked by students if such a course would not soon be organized, and I believe that quite a large number would avail themselves of this opportunity if the course could be established.

I thank you for your note of the 19th inst. In your consideration of the matter of asking the government for an allowance of clothing money sufficient to provide military cadets at the authorized institutions of learning with inexpensive uniforms I will regard it as a great favor if you will ask me any questions and state any objections which may seem to you requiring answer & explanation. I made a careful study of the subject before I decided to advocate the plan and while I cannot anticipate what to others may seem serious objections I think I am prepared to defend my position.

and I ask a fair opportunity to do so. The idea that the government should give some more substantial aid to the schools where it details officers, issues arms and expects military instruction is not original with me. It is true that in the course of my work I became aware of the need and took occasion to write to the Inspector General about it. He furnished me with several copies of his annual reports & I found that my discovery of a want was one that had been made by many other officers; but that no one had hit upon a feasible remedy. It was generally conceded - taking it for granted that it was good policy for the government to foster in certain schools military instruction - that the detail of an instructor and the supply of arms did not go far enough; that uniforms even if inexpensive ought to be added. But even inexpensive uniforms would cost a large sum for such a large body of students, how was the government to be protected from loss? The young men could not be treated as so many enlisted men and if

the government gave them clothing and large proportion of them failed to render service as military students there would be constant loss. I hit upon the idea of not issuing clothing to any but instead of saying to all: "You procure the uniform at your own expense, keep it complete by the needed renewals from time to time, wear it, and faithfully serve as a military student and the government will reimburse you in small periodical payments in a sufficient sum to save you from any expense provided you serve long enough." I calculated that \$2.50 per month was the least amount which would do this decently and effectively. A careful student whose outfit does not cost him more than \$25.00 could keep it renewed & repaired and still be a little ahead in two or three years. I believe this proposition contains the possibility of excellent work and would be worth more to the government than it would cost. But the bottom of the sheet warns me that I may be annoying you.

Yours very truly,

Dear Sir:

You probably know that I am located here, and will not be surprised to hear from me.

I disliked very much to leave Ky., but, possibly it will be a good thing for me. I learned of this position here through my Uncle Judge J. W. Patterson who lives here and who is quite prominent in legal circles. He is a District Judge corresponding to our Circuit Judge.

My work, while not what I desire, is better than I was anticipating when I wrote you last summer. I have a little work in Natural Science, but it is very elementary. The greater part of my work is in Mathematics, having been out of that line of work for several years I felt somewhat apprehensive, but am glad to say that I am succeeding

with it much better than I had expected. We have seven teachers in our faculty, and all of us have to work hard. I have six recitations per day each lasting an hour, and I am usually tired when my day's work is done.

My salary is somewhat larger than I thought for, and I will be able to save something after living well, but I will not be content to remain at this work longer than one year if it can possibly be avoided. I hope I will be able to get work in my own line next year.

I trust you will not think me presumptuous in writing you concerning a matter which is of great interest to me.

I feel that I may write you with perfect propriety, and that you will understand my feelings, and feel for me to some extent.

You doubtless recall a part of our conversation the morning I bade you good-by.

I remember telling you that giving up my work at The State College made me very sad. My heart still turns to The State College and to Lexington.

I feel that The College has a great future before it; and somehow, I feel that I am destined to have a part in it. I am not going to fold my hands and wait for this, but am going to seek better preparation for my work. Beginning with next Summer I shall spend my Summers at The University of Chicago, pursuing my work in Science. My desire is to keep in touch with The State College and not to entirely forget it there.

If an opportunity to aid me should present itself, and you can conscientiously and consistently do so, I would greatly appreciate it. I am not ungrateful of your kindness in the past, and I want to thank you again for what you have done for me. I was informed not

Prof. James K. Patterson, Ph.D., LL.D., President, &c.

Lexington, Ky.

My Dear Dr. Patterson:--

I have delayed my answer to your kind and valued favor of the 20th instant, which came to hand on the 21st instant, in order that I might be able to recommend a suitable person to take my place on the Board of Trustees of the State College, who would accept the position. To-day I have seen a gentleman of this city, Mr. William T. Fowler, whom I can and do recommend without reserve. This gentleman is, in my judgment, admirably fitted for the position, and I hope the members of the Board will choose him. He is a lawyer, well educated & a married man under middle age, a Christian gentleman, being a member of the Southern Presbyterian Church in this place, and in addition to all, he is a Republican. I believe he would take a deep interest in the affairs of the College, and that the members of the Board, should they choose him, will never have cause or occasion to regret their choice. With regard to Judge Pratt, I wish to say that he is in every way worthy of the position, and there is no doubt about his qualifications, yet I believe, knowing the two gentlemen as well as I do, that Mr. Fowler would be more suitable than he.

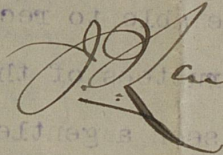

I highly appreciate and profoundly reciprocate the kind sentiments expressed in your letter regarding myself. I sever my relations to the College, and the members of the Board, and particularly yourself, with sincere regret. But I was led to offer my resignation by the fact that I regarded the position incompatible with the office of Referee in Bankruptcy to which my friend, Judge Walter Evans, did me the honor to appoint me. I assure you that I shall always look back upon my brief service as trustee, and my association with yourself especially, with the greatest pleasure. And for the College, I wish it to reach the highest

47-M-64

rank among institutions of learning, to which it is rapidly approaching under your able Presidency, and for yourself I wish the extension of the years of your career as a distinguished educator; and that in connection with the State College of Kentucky, until that institution, to which you have given so many years of your useful life, shall reach the highest rank to which it has been your ambition to carry it.

Hoping that I may hear from you again, I am, with sincerest regard,

My dear Sir:--

Though I attended the meeting of the College Association at New Haven and Middletown I didn't have the pleasure of meeting you personally but I wish to express my entire sympathy with your effort to secure for the association at large more complete control of the association business. I feel very much discouraged myself over the disposition of a few in the association to run it and apparently to use it for their own advertisement. I do not think it is a worthy motive and I think it is especially inconsistent for a body of executive gentlemen to be treated in that way.

I believe that if some of us would agree in advance to stand together on certain questions and understand to begin with that that constitution shall be radically modified in a few particulars, that we might get an improved condition of things. I happen to know some of those men very well, in fact I lived with Dr. Atherton of Pennsylvania, several years and I do not have the same regard for his judgment that some of our members do. He is quite along in life but I feel that my institution has interests that ought to be recognized, and so your

institution and others, and that if we are to spend our time and our money to attend these meetings we ought to be able to show results of a practical character. To begin with, I think the executive committee has entirely too much authority. It practically controls everything. It is very careful not to appoint these meetings when it is convenient for us to go or when we can get reduced rates when it will make it possible for a large number to attend. I wish that we might be able to bring pressure on this committee, even constituted as it is, -- and that would amount to bringing pressure on Dr. Atherton -- that would induce him to call the next meeting during the summer vacation and instead of taking it to Washington city take it to some central and accessible point. It is rather far East to go again but I would favor going to Buffalo next year rather than to Washington, or to going up into Wisconsin.

If you think favorably of it and will make some effort to bring this about I will cooperate with you as far as I can or if you indicate to me what modifications in the management of that association you would be willing to seek for I will try to bring to bear upon the people who have control of it, what influence I can. I understand Col Liggett of Minnesota was just as much disappointed as any of us the way some things were carried on. I think that quite a number were and I believe we ought to try to agree on these matters before giving up the whole proposition.

If you have vacancies not yet provided for, we shall be pleased to furnish you with full information about candidates that may meet your requirements. We aim to select our teachers carefully, intelligently, and to furnish employers with full data as to their preparation, experience, personal characteristics, and supply any other points of interest that may shed light on their peculiar adaptability and fitness for the positions to be filled.

We wish to emphasize the fact that we do not, like some engaged in the Agency business, flood you with a promiscuous lot of candidates, and take our chances on some one of the list getting the position. We endeavor to make our Agency helpful to you as an employer of teachers, to save you time and labor, to help you secure the best, and thus to render your school a valuable service. Dear Sir:-

A part of the Executive Committee met January 8th at Pittsburg, Pa., for the purpose of looking over the situation of the bill (S 3982) for establishing schools of Mines and Mining. We regret to say that serious and unexpected obstacles have presented themselves which will require united counsel and action of all interested to overcome. We find that the Committee on Rules, after consultation with some of the leading members of the House, has decided that it is inadvisable to allow the bill to pass this session. We are not at all disposed, however, to abandon the effort and in fact should not feel justified in so doing without the concurrence of the great body of those whom the Executive Committee represents. We have decided accordingly to call a conference representing a number of institutions and different sections of the country to look over the whole situation with a view either to making a concerted and vigorous move during this session or to outlining plans for work in the next Congress. The conference is to be held at the Ebbitt House, Washington, D.C., Monday, January 28th at eight P.M. and your presence at that time is earnestly requested. We hope you will come prepared to secure such action on the part of your state delegation as may be thought advisable after a comparison of views. In the meantime the Executive Committee will not abate its efforts to put in motion such auxiliary influences as may possibly change the situation before the time of the proposed conference.

For the Executive Committee,

W. A. Goodale

Chairman.

P.S. We regret to be obliged to say that the funds of the Association will be insufficient to meet this extraordinary expense and we shall be compelled to ask each institution to pay the expenses of its representative.

Dear Dr. Patterson:

I have thought of writing you for a week past. Col. Nelson spoke of my doing so. I had, or rather my father had, a letter from the Col. immediately after the meeting of the board in December, in which he assured him that matters were coming my way all right, but delayed for some reason which he did not mention. My father saw him for a moment a week or so ago, and the Col. told him I ought to write you, said to say he said so. So I will only say that my employers have asked me several times what was done in the matter. Of course as the matter stands I am at a loss to reply

satisfactorily. I do not want to ask
indiscreet questions of you, but if there
is anything you can tell me I
should be glad to hear it.

My dear Mr. President:

In reply to your favor of the 18th. inst. permit me to say that I regret extremely to find that my recent examinations of new students were unsatisfactory. I examined them orally in both Grammar and Rhetoric (as well as Composition), but I frankly admit that it was not a very rigid examination. There was no intention whatever to ignore the order of the Board, but I understood that this rule was to be rigidly enforced next session and thereafter.

I am truly sorry that my misinterpretation has annoyed you, and with your approval I shall be glad to give all the new students a uniform written examination in the three subjects prescribed in the Catalogue.

This afternoon our Caledonian brethren resolved to postpone the Burns' Festival. As the Louisville Scots will probably take similar action, the Committee did not deem it necessary to invest you with power as a Delegate.

If it would not be trespassing too much upon your valuable time I would like to ask you to answer a question for me. In reading the twenty fifth chapter of Acts I noticed that Festus speaks of Nero as Augustus. Upon investigation I find it was not one of Nero's many names - was it used as a title? or in what sense could it be applied to him? Whenever I want a satisfactory solution to a problem I feel like appealing to you. We enjoyed reading your speech so much, it was a fine tribute to Scotchmen and made one feel proud of having even a little Scotch blood.

Dear Mr. Patterson, - I am doing what I can for the State College, and I feel that seed sown here will yield some fruit.

I want to make this suggestion to you - It is that you get some good live young man to solicit pupils in each County in the State. One whose business it would be to argue the advantages of the school and to educate the people concerning the college &c - One of my appointees, Mr. Sidney Walker, did some fine work here during the last vacation, and, by the way, I think he would make you a good solicitor for Simpson, Allen & Logan Counties, since he is well known in these Counties.

This can be done at little expense by home representatives - May I hear from you on this.

My Dear Dr. Patterson:--

Your valued letter of the 22nd day of February last, which reached me in due time, has not been overlooked, but the delay in acknowledging it has been the result of the pressure of business. I appreciate very highly your kind and complimentary allusions to myself, and deeply regret that I felt constrained to sever my connection with the State College by resigning my position as a member of the Board. And you will permit me to say that my regret results chiefly from the fact that, by withdrawing from the Board, I have deprived myself of the pleasure of frequent personal association with you and your much beloved family. I am also under renewed obligations to you for your kindness and thoughtfulness in sending me a copy of your address recently made to the Scottish Society of Louisville.

The information contained in your letter that the College was prospering was and is most gratifying. I am sure it will not be otherwise under your able and efficient management and administration.

My successor, Hon. W.T. Fowler of this city, informed me lately that, up to that time, he had received no official communication announcing his appointment in my place on the Board. As the time draws near for the regular meeting of the Board, I suggest that official notice be sent to him.

My dear Professor

I felt myself greatly complemented by your letter to me some months ago, & so deep was the impression it made, that a ^{deep feeling} warmth has been created which as a rule, is only induced by long acquaintance. Because of this I take the liberty of writing you about a matter, which you may think, only justified by long acquaintance. This thought made me to digress from the main topic & speculate as to why I should feel as I do. The blood of my father & mother, both being Scotch, intermixed in my veins, makes my blood as pure Scotch, as that which courses through yours. It is said that blood is thicker than water & the adage is generally applied to kinship but I think it is just as true touching a common nationality. Be it as it may, as to others, there is no doubt, but that the Scotch ^{relate} ever warm to the Tartan on which account Scotch blood makes a brotherhood. To a young man in good health, strong & vigorous in constitution, this kind of exercise is well calculated to make hearty robust men, which I can readily conceive how disastrous it is likely to be to those of delicate constitution.

I have known Parley since his earliest infancy. He is a boy of beautiful disposition and lovely character, the apple of his father's & his mother's eye. It is his misfortune to be very delicate constitutionally, highly nervous temperament & subject to violent attacks of prostration, from which, it looks sometimes as though he could not recover. Professionals may give diagnoses of his ailment - What I write you is of my own observation of results, just as it might be, were the case, that ^{of} on my own soul, I can didly believe that his very life is at hazard, if he should be subjected to violent exercise. I hope I may not be asking too much, in requesting you to look into his case, I am sure you will observe the truth of my statement & have the officer in charge, excuse him from all duty resulting in fatigue & exhaustion -

My dear Sir:

By reason of the death of Gen. E.H. Hobson there is a vacancy in the Board of Trustees for your institution. I understand that one trustee is appointed from each Congressional district and in the event of the death or resignation of either of them the others appoint for the full term.

My brother, John McChord, whose son has heretofore attended your college, desires to be appointed trustee in place of Gen. Hobson, deceased. I am extremely anxious that he shall receive this position and write to ask that you favor his appointment, and I am quite sure if you will intercede in his behalf that he will have no trouble in securing this position. I will be very glad if you will let me hear from you in regard to the matter.

When I can serve you please command me.

My dear Professor:-

As a member of the Elk's lodge, and intimately associated with its members, though by no means constant in attendance upon its formal meetings, I felt that I was in position to know any serious action taken by them as an organization. I was, therefore, greatly surprised when you stated last evening that Mr. Miller, a member, had told you that the lodge had taken cognizance of the rumors relating to Mr. Blanton, and had appointed a committee to investigate them. I felt it my duty as a member of the Executive Committee to verify this; and have just returned from the Secretary's office. He says that there is not one word of truth in it, and to quote his vigorous language, characterizes it as a "malicious lie". I know nothing of Mr. Miller's relations to Mr. Blanton, and am at a loss to account for his zeal. I am as anxious as any man to maintain the high standing and purity of the officers of this institution; but I shrink involuntarily from an attack upon a man's "good name" which must leave him "poor indeed".

My dear Dr Patterson.

The unexpected always happens; our President most unfortunately, was stricken with paralysis, I had to take charge of things and all my plans were upset. I do not like the office of Acting President one little bit, I have not the requisite amount of tact, patience and all the other qualities that go to make a smooth and politic man, I want things done at once, don't want any humbug or delay, don't care to hold long heart to heart talks, do want a man to state his business concisely and get out, all of which will do first rate in a business man but will not do in some Colleges. I have moved all the chairs out of the office save one so that callers will get out without delay, you would be amused to see me I am sure; well I hope it is only pro tem, I don't yearn for this kind of work, much as it surprises the politicians. We have a very fair attendance considering the extreme drouth 554 students to date. How many have you? Our work is going along quite smoothly and nothing exciting has happened yet. We have a very good football team this year and wish you was not so far away as we would like to give them a turn. Do you have any trouble with Athletics? We have a coach at \$150 a month but alas the boys don't take as much interest as they should. How is your health? I hope you and Mr Walter and Mrs Patterson are all well. My young brother in law age 27 has been ill for nearly two years, we feel much distressed about it, but think he is a little better now, he has nervous rheumatism from malaria. My Dear Sir! I stopped over at Frankfort after leaving Lexington, and incidentally had a talk with Auditor Hager about the \$2000 due the Girls Dormitory. I explained to him the condition he had placed the Dormitory by his action in refusing to pay the amt. He said he would ask the opinion of the Attorney Genl. right away. But he said he had the right to pay the amt. he would do so. He said that you did not urge the payment. & he thought he must let this matter go over until the settlement of the other case. I argued with him. He said that if it would prove to pay the appropriation to build the Dormitory, it is certainly proper that the \$2000. appropriated to support it should be paid. This seemed to strike him. I emphasized the fact that he must get the money!

My Dear Sir:-

I was amazed when on reading the record of the proceedings of the Board submitted to me by the Secretary, I discovered that Miss Offutt had been appointed Physical Directress at a salary of \$800 per annum.

When Miss Offutt called on me in August last, I explained to her that the female dormitory in which I understood she sought a place had not been built and that ample provision had been made for the instruction of male and female matriculates of the College in the gymnasium.

I desire respectfully to place a few facts governing my opinion, and which would have impelled me to vote contrary to the action taken had I been present. If a service can be adequately performed by one person it is bad economy to employ two. Supernumeraries whether in the way of domestic servants, office clerks, factory employes, professors and assistants are always avoided by a well regulated and economic management.

Now as a matter of fact the service which Miss Offutt was appointed to do, by the Board, had already been amply provided for. The resolution of the Board in June provided for the selection of a Physical Director who should instruct all the students both male and female. This has been done. A director was elected at a salary of \$1000 per annum.

A committee of which he was a member distributed the males and females into sections and allotted separate hours for their instruction.

In this schedule the hours of recitation in the forenoon, ~~in the after-~~

Lexington, Ky.,

been laboratory instruction in the afternoon, military drill were all taken into account and the residue of time left until 5 P.M. was set apart for Physical Culture. All of the available left from these imperative duties is disposed of and employed in physical culture. This being so what necessity is there for employing a duplicate service?

Even if the employment of a directress were necessary there should be some reasonable proportion between service rendered and compensation. Now in the schedule referred to above the girls are divided into two classes, each of which is to be instructed two hours per week. This is all the time available. This will involve a service of four hours each week. A salary of \$800 means \$80 per month - \$20 per week. Four hours service per week means \$5.00 per hour for the time employed. It may be said that all of her time is at our disposal. Of what use is all of her time to us if we can utilize only one fourth or one eighth of it?

Let me exhibit a few comparative statistics based on this scale of compensation and on the relative value of service rendered as measured by the ratio of salaries.

Prof. White's salary is say \$2,000. Miss Offutt's \$800. The relative value of service as between these two is in the ratio of 8 to 20 or as 2 to 5. Miss Offutt's time given is 4 hours per week. Prof. White's 20. On this scale then Prof. White's salary should be \$10,000 per annum.

On this scale ten professors would receive \$10,000 per annum about fifteen more professors and assistants would receive salaries varying from \$4,000 to \$9,500, and I, who am employed at the College and in my library at home on College work not less than 30 hours per week would receive the comfortable sum of \$12,000.

Lexington, Ky.

-3-

How does this look for economy in the administration of a trust?
Could we go before the Legislature or the public with a statement of
this kind and justify our existence?

Now I think I know that had these facts been before the Board they would
have declined to take the action taken. And the facts might have been
had, but on a sudden impulse the thing was done. To do it was a mistake.
If allowed to continue with the facts before us it would be worse than
a mistake. We must make an effort to rectify it. These are facts which
if allowed to remain cannot, in my opinion, face the light of day. We can-
not afford sinecure offices.

will be as good men as you could get
in your Committee. They are both friends
of mine and are fair men.

I regret that you are displeased with the
election of Miss Offutt as physical director for
the girls - She was pushed by your best friends
in the Board and she has an influence behind
her which will be valuable to the school. I am
of opinion that she will be a great success. She
knows her profession and that is a great deal
more than can be said for Mr Cypher who I
believe is only a foot ball Coach with no
scientific knowledge of gymnastics whatever.

This young lady is a relative of Mr Halderman

the influence of that paper with the Legislature

And that influence can not be overrated.

Please tell me how I can arrange for the regular appointment of Mr. Chas. Dawson, who is now with you, without having him come home to take an examination? By special courtesy, it seems, he is now enjoying all the benefits of a regular appointment save traveling expense. He should have a regular appointment for 3 years after this one.

Will it be necessary under the circumstances for him to pass another regular examination for appointment, and if so can it be arranged for him to take his examination in Lexington? Mr. Dawson can explain to you the circumstances in the case.

The Committee on Promotions in the Cadet-Corps met this day at 12³⁰ in Prof Roark's room. There were present Profs. Mathews (chairman), Roark, Pence, W. K. Patterson, Wernicke (secretary for the meeting).

The chairman read two letters in which Mr. Clarke Tandy asks for redress of what he claims to have been a mistake in the latest list of promotions.

Prof. White appeared to substantiate Mr. Tandy's claim that the facts in the case and his rank were set forth in a letter intended for the Committee which published the list referred to. Through an oversight Prof. White failed to present this letter at the time, thereby leaving the Committee in ignorance of Mr. Tandy's rank.

Major Moke's statement was quoted to the effect that Mr. Tandy might be given duty as a sergeant for the present and ~~it~~ would probably be promoted to a lieutenancy in the event of the formation of a new company.

On Prof Roark's motion it was resolved

"that it be the sense of this Committee that an injustice had been done unwittingly to Mr. Clarke Tandy, that the facts be laid before the president with the request, if possible, to correct this injustice."

THE NATIONAL EXCHANGE BANK

LEXINGTON, KY. Feb. 27th, 1902.

Prof. J. K. Patterson,

Dear Sir:-

In reply to yours must say that The National Exchange Bank will, I trust, decline to pay dividends for the present; because, we labor under great disadvantages when compared with other banks. We often fail to secure most excellent accounts; because, business firms question if our bank is strong, and we are frequently unable to supply our best customers with such amounts as they need and should have. I think that poor people "small holders" should be helped to save money rather than encouraged to spend it. If you knew our stockholders, you would not fear that an injustice would be done them; for so many of them are modest, pure and simple, not easy to "frame out" and that never do business here, and are of no help whatever to the bank. I can appreciate nothing but justice in a stockholders meeting in Kentucky. I shall be glad to have you drop in and talk the matter over with me. Very truly, W. J. Smith.

My Dear Sir:-

Acknowledging the receipt of your favor of this date:-

I beg to say that I do not recall that I was to make any written communication to the Executive Committee with reference to the Pepper property. I had expressed to them on one or two prior occasions, as well as in a ^{the} conference at the Phoenix Hotel, that a good title could at any time be made, and had repeatedly laid before different members of the Committee my reasons for so believing.

I take pleasure, however, in embodying the substance of these various statements in written form, in order that the Committee may have the facts as I conceive them fully before it.

Under the will of Mrs. Nannie E. Pepper the property in question was devised to the Security Trust and safety Vault Company, as Trustee, to hold for the use and benefit of her two daughters, Miss Mary Belle Pepper and Miss Dixie Pepper; it being provided that upon the death of either intestate and without issue, her interest should go to the survivor, and upon the death of both under those conditions, that the property should pass to their sister, Mrs. Railey, if living, or, if dead, to her children. The Trustee was given express power to sell with the consent of the two Misses Pepper. I hardly think that there can be any difference

Upon the foregoing state of fact I have never had any hesitancy in expressing the opinion that a deed by the Trustee, consented to by the two beneficiaries, would pass an absolute title to the property. And it may be well to add in this connection that Mrs. Robinson died about a year ago intestate and without issue, and that even if she had any right to, or claim upon, the property it did not pass to her husband.

J. K. P. #3.

Owing to the existence of the above objection, however, I have made an arrangement for Miss Pepper with Mr. Robinson, by which the alleged contract of sale is to be surrendered; and in order to remove ^{the cloud caused by any claim} the cloud as to the right of any heir of Mrs. Robinson I have instituted a suit in equity, to which all of her heirs are made parties, asking that the cloud upon the title be removed; and a decree effecting this will be entered in due course of time.

The Trustee is, therefore, in a position to make title. There is a tenant now occupying the property, however, and under the terms of her lease she is entitled to sixty days' notice in the event of a sale.

I shall be glad to furnish you any further information which may be desired.

Yours truly,

Dear Sir:-

I am just in receipt of your favor of this date. The will of Mrs. Pepper which was probated is the one prior in point of date, and it is this probated will which decides the property under the terms indicated in my letter of yesterday, and which constitutes the Trust Company Trustee, with power to sell.

There is a writing of later date than that probated, purporting to be a will of Mrs. Pepper. And it is a fact that from the order probating the first will, under which the Trust Company is acting, an appeal was prosecuted and is pending in the Circuit Court. If this proceeding should be pressed by the Misses Pepper it would, I feel quite sure, result in substituting for the earlier will the later one, which devises the property absolutely to her two daughters; but even if this result should be reached, it would not at all affect the validity of the deed made by the Trust Company and united in by the two daughters; because as the daughters are the sole beneficiaries under the later will, their act in conveying the property jointly with the Trust Company would, of course, operate to pass not only any title held by them under the first will, but also any that might be subsequently acquired in any other mode whatever; in other words, the pendency of the proceeding referred to, or its result either way, could not have the slightest effect upon a conveyance made by the Trust Company and united in by the Misses Pepper.

Bishop Duady - of this city.
March - 22nd - 1982.

Fayetteville, Ark., Mar 23 1902

My dear Dr. Patterson.

I am one of those inconvenient people who reply to letters very promptly, & am always ready and eager for more. Fate was against me last summer & I could not keep myself, I am going East again this summer & fully expect to stop in Lexington en route, I hope to hear you will be there, if not then I shall not go near, but will try to meet you somewhere else - You may remember I told you my brother-in-law was quite sick last year, he has never recovered & is still an invalid, hard lines for a young man under 30 with a wife & child. Our Institution does not grow we average about 600 students, Dr. Buchanan our President has resigned & as you can guess there is any amount of belly rolling & small politics going on, thank Heaven I don't aspire to an executive position, here the President is the target for every disgruntled parent, & peasant politician in the State, all the old politicians think they can be President & so it goes. Our engineering

kept does good work & the boys easily get employment. We
 have some good men in the institution, our Prof of Economics
 has just gone to the head of the same kept at Island
 Stamford, our only trouble is a constant feeling of unrest
 over the seeming insecurity of tenure, although I have
 been here 15 years, think of it!! I guess it is a sign
 of approaching age for I think more & more of the past,
 it always makes me happy when I get a letter from
 you, & I am always so pleased & proud when you say
 kind things for I know you are sincere & true. We I
 have never heard about Flora Ford, I understood her sister
 was divorced from Herndon & that old Mr Ford was no
 more. It was a blessing for me things turned out as
 they did. I have a dear good wife, & am most happily
 married. Mr Walter I presume has never married,
 please give him my kindest remembrances. I am glad
 to know that you & dear Mrs Patterson continue in
 good health & hope you may long continue so. Mrs
 Menck joins in love to you both.

Yours fondly

Albert Menck.

Dear sir:

I presume you have an Entomologist connected with your institution, and I beg leave to ask him through you if he knows the origin of the worms that appear in Indian-meal. Maybe they are identical with millers worms but whether so or not I would like to know their origin if he can help me find it. Also whether he can tell me the difference between water-ground and steam-ground indian-meal.

I enclose stamp for reply.

Dear Sir:-

I am just in receipt of your note, and am sorry that I missed you yesterday; but I was engaged the whole forenoon with Mr. Frazee in an examination of the books and accounts of the Station. I am equally sorry that it will be impossible for me to make and certainly fill any distinct engagement for this week. It happens that I have a number of cases set for trial on this day's docket. They are liable to be called at any time, and I must be present when they are called. I would suggest that you call me over the telephone when it suits your convenience, and if the condition of the docket will admit, the interview you suggest can be arranged. Should I be absent, and at the Court House, Mr. Miller will convey your message to me.

Pres. J. K. Patterson,

Dear Sir:-

The Executive Committee spent most of last week in Washington trying to further the interests of H. B. 8735. On Wednesday we were given a hearing before the Committee on Rules to show cause why our Bill should be allowed to come up in the House for action. There were present the Speaker, General Grosvenor and Mr. Dalzell. President Atherton made the plea. As yet we have had no reply. But we feel encouraged to hope for a favorable response, for we were advised by one of the Committee to come to an "understanding with the irrigation people". Thursday was spent in a vain endeavor to come to any agreement with them. Their bill sets aside the proceeds of sales of public lands in thirteen states and three Territories as a Reclamation Fund to be used for irrigation purposes alone. It has already passed the Senate.

As soon as word is received from the Committee on Rules you will be notified by telegram or letter.

Dear Sir :-

Your letter of the 25th was received by me upon my return from the Allen Court, and I write you now, as this is my first opportunity

I note what you say about the postponement of the location of the girls dormitory until the June meeting, and I suppose this is very well.

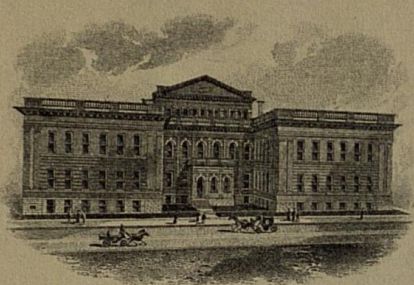

I shall be very glad for you to visit Bowling Green and the Normal School and would take very great pleasure in introducing you to the school, and if I cant possibly be at home when it suits your convenience to come to Bowling Green, I shall be glad to have you, but I shall be away for the next two weeks almost all the time? After that I shall be at home most all the time for a month .

If you can write me when it would suit you better to come and if it is at a time when I can be at home I will arrange with Hon. C. U. McElroy, who I know would take pleasure in going with you to the school and introduce you . My time is almost taken up and will be for several days, but I would be very glad if you can arrange to come .

Dear Sir:-

Pursuant to appointment duly published in the daily and weekly newspapers of this city and county Messrs. W. F. Coleman and W. H. Latty Examiners for Warren County, and myself met Thursday morning July 17th 1902 at the Public School building in this city to conduct examination of applicants for cadetship to the State College. Five applicants, all bright young men anxious to attend the State College entered the contest.

Two of them read the Arithmetic questions and withdrew from the examination; two more quit when we reached Grammar and the fifth and last one quit when we reached History.

You know your own business, and it is not my purpose to dictate to you, but it is my humble and candid opinion that

There is not a boy in the Common Schools of Warren County who could pass the examination you prescribe.

Pres. Jos. K. Patterson,

Dear Sir:-

Your letter came to me yesterday. You may expect me the first of September. I have already reviewed somewhat carefully my mathematics & will now take up French & German. My future has always depended on my own effort & I shall exert myself to the utmost to teach well the classes you give me. This summer I have been offered more than one good position - to State College I owe everything. Our people are all inquiring about the school. Not many boys are prepared to enter now, but we have new schools started & in a year or two Clay will have more students in State College than any other East Kentucky County. Our Institute (Teachers) comes next week - I'll try to bring several to the winter & spring terms if not this fall. Two or three boys I think will come in Sept. I am

very much interested in these mountain boys & girls & I want them to be satisfied with nothing less than a complete course in the State College. As soon as their home is built girls from all these counties will come in numbers. I appreciate your letter & offer more than I can tell, & you may feel sure that I'll be on hand & prepared for my classes. Give my best wishes to Mrs. Patterson, & to Professor

The Military Council composed of all the commissioned officers of the corps of cadets of A. & M. College of Kentucky in council assembled Saturday Jan, 17, 1903 take under advisement these facts:

Whereas - T. A. Campbell, a cadet private of said corps, in former years, having violated all the rules and regulations of the Military Department, to wit; - He has repeatedly violated the rules of arrest; created violent disturbances in the dormitories and menaced the lives of the inmates; broken the criminal law of the Commonwealth within the walls of the college and,

Whereas - For all these grievous offenses he received the minimum of punishment, namely: temporary suspension - reentering later with all the rights and privileges of a student of unquestionable moral character.

Whereas - In the present collegiate year he has repeatedly absented himself from chapel and

affair and that such steps be taken as will redound to the credit and welfare of the college. Be it further

Resolved - That we respectfully request the public announcement before the battalion of the disposition made of cadet R. A. Campbell, and be it further.

Resolved - That a copy of these resolutions be laid before President James H. Patterson and a copy spread upon the minutes of the Military Council.

Lexington, Ky.,

Dear friend:

I hear that Judge Day has resigned as ^{U.S.} Circuit court
Judge.

I have always desired that place. Kentucky has no United
States Circuit Judge. If you see proper to aid me in my ambition
I shall be greatly obliged. I write without knowing the situation.
In anything you do or write, please act as if upon your own suggestion,
~~and in this way~~ It would likely have influence if you support what
you do by additional letters from Col. Breckinridge and Hon. Sam
Roberts. You know much of my past history and therefore are in po-
sition to act in the matter.

I am quite well and hope you are.

Lexington, Ky.,
Dear Mr. President:-

I wrote you by the last steamer a few lines of a personal character. I am now ignorant of the situation. The matter may be settled before you get this. I do not know what my friends are doing. If, when you get this, the matter is not settled, ** if you think proper* I suggest that you write a personal letter to Secretary Wilson, of the Agricultural Bureau at Washington in my interest, saying what you think proper. Please write it as if upon your own suggestion. I have some delicacy in writing to any one upon the subject and have only done so to a few intimate friends. I presume you received my former letter, but in the event you did not I would say that the matter I refer to is the vacancy in the United States Circuit Judgeship created by the resignation of Judge ^{W.R.} Day, and which I would like. Kentucky has never had a United States Circuit Judgeship so far as I now recollect.

Hoping you are well, I am,

UNIVERSITY OF MISSOURI
GRADUATE DEPARTMENT

Columbia, Mo., February 16, 1903.

Dear Sir:

The University of Missouri will offer for the next Academic year a number of fellowships yielding stipends of \$200. This sum will nearly pay a student's necessary expenses in Columbia.

These fellowships will be assigned to the applicants who are of highest promise in scholarship irrespective of the lines of work they may desire to pursue.

It is expected that fellows will be prepared for graduate work and that they will devote themselves mainly to work in one department. They will do no teaching, but may be called upon to render a limited amount of service to the University in other ways.

Will you kindly bring this matter to the attention of such students in your institution as you consider qualified for these fellowships.

Applications should be on file here not later than April 1. Application blanks and catalogues of the University may be had on application to the undersigned.

Yours very truly,

President Jas. K. Patterson,
State College

Dear Sir:- I am in receipt of your favor of the 2d inst calling my attention to the resolution of the executive Committee directing that the annual catalogue of the College be printed by the lowest bidder. I would certainly have opposed such a resolution if I had been a member of The Committee at that time. If we should adopt the policy of takeing nothing but cheap things, we should apply it to the question of employing Professors, the construction of buildings &c. The annual catalogue is a very important "Document". An attractive catalogue brings to The College many students. We do not conduct a low grade College, and we must not distribute to the patrons of the College, and the representative people of The State any thing but an up to date catalogue. We should take no chances. We should know exactly what we are to get before it is printed. I most heartily concur with you, and Prof Neville in the views expressed in his letter endorsed by you.

Yours truly,

If it is possible to get what we want
in Lexington I think it would be good policy

My dear Sir.

Yours has been recd.

It seems to me the only way to have any ^{legitimate} action
on the resolution that you send me, is for the
same authority that passed it, to repeal it. In
other words it seems to me that a meeting of
the executive Committee is necessary.

We ^{you & I} are on a Committee to examine the accounts

My dear Prof. Patterson:—

Some weeks ago I received a letter from you, enclosing a copy of a letter you had written Prof. J. W. Newman, of Versailles. I have not previously answered your letter, because the day I received it, I went on a trip to Florida and remained about ten days. Immediately after my return my Circuit Court convened, which so occupied my time that I neglected my correspondents somewhat.

I want to assure you however, that I appreciated the letter that you wrote Prof. Newman, and have myself had from Prof. Newman a letter, which indicates that he feels very kindly towards me, and I hope and believe that when the time comes he will lend me his support.

I think your suggestion about having Capt. Jenkins to enlist the interests of his fellow students in my behalf, a good one, and had a long talk with Capt. Jenkins on the subject. He concurs and seems pleased at the prospect of rendering me that service.

Thanking you for your interest heretofore shown, and regretting that I have not had an opportunity to answer your letter sooner, and with kindest regards for yourself, I am

At a meeting of the Committee in Lexington last Saturday to select judges for the Inter Collegiate Oratorical Contest, it happened that Dr. Weber, Dr. Jefferson and I were present. After attending to the matter in hand, we of the Rhodes Scholarship Committee had some talk in reference to the matter, and it was agreed that a meeting of the Committee soon would be desirable, and they requested me to request you and Dr. Palmer of Danville, to come to the Pheonix Hotel Friday April the 10th. *at 10 a.m.* I did not know the matter was in the papers, as I had said nothing to any one myself in regard to it. I hope your plans can be arranged for the prospective meeting.

LAFAYETTE, IND.

PRESIDENT'S OFFICE.

President J.K. Patterson,
Kentucky State College,
Lexington, Kentucky;

Dear Sir;

I have assumed the responsibility of preparing and issuing the enclosed circular to the heads of all land grant colleges, for the purpose of pushing matters along and getting some preliminary information for the benefit of the general committee.

I have tried to confine the statements in the circular to matters which were definitely decided at our committee meeting

I shall be glad to receive ~~from you~~ suggestions from the Kentucky State College as soon as possible.

April 20, 1903.

Cordially,

W.E. Stout

President

BUTLER T. SOUTHGATE,
ATTORNEY AT LAW,
LEXINGTON, KY.

Lexington, Ky., April 20, 1903.

Pres. Jas. K. Patterson,

Kentucky State College,

My dear Sir:-

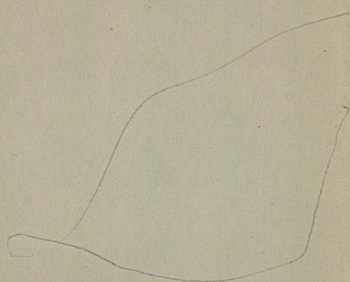

You asked me to advise you as to the result of the case of Blanton against Balnton, and I beg to say that this morning Judge Parker rendered an opinion, holding that the salary of a professor of the State College, is not exempt from garnishment.

No further order was made in the case, and you will probably be advised in the course of the next ten days, as to what disposition to make of the fund attached, and in the meantime, it will be proper for you simply to hold the fund pending a final determination of the case. I am,

Very truly yours,

Butler Southgate

Dictated.

H. V. MCCHESENEY,
SUPERINTENDENT
BEN WATT,
CHIEF CLERK.

STATE OF KENTUCKY,
OFFICE SUPT. OF PUBLIC INSTRUCTION,
FRANKFORT.

STATE BOARD OF EXAMINERS:
H. V. MCCHESENEY,
CHAIRMAN.
JOHN MORRIS,
COVINGTON, KY.
A. C. BURTON,
MORGANFIELD, KY.

April 24, 1903.

To Institute Instructors and County Superintendents:

Section 139 School Law authorizes the Superintendent of Public Instruction to call, annually, a Convention of Institute workers. No such meeting has ever been held, one reason doubtless being that the date set by the section, "during the month of May," is inconvenient, the majority of Instructors being engaged in teaching at that time. The propriety of calling such a Convention was discussed at the K.E.A. at Lexington last year, and a resolution favoring the meeting passed. In accordance with the desire of the K.E.A., expressed in the resolution mentioned, and because I believe that such a meeting will be of great benefit to the cause of public education in the State, I have decided to call a Convention this year.

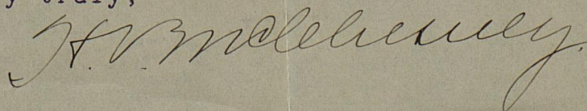

It not being practicable to hold it in May, for the reason mentioned above, it will be held Thursday, Friday and Saturday, June 25-27. As it seems necessary to depart from the "letter of the law" as to the time, we have made another liberal construction of the statute as to place, and will meet at the State College, Lexington. There are two reasons for selecting Lexington, the first being that the Summer School, at the State College, will be in session, attended by a great number of teachers from all parts of the State; the other, that the K.E.A. closes a three days' session at Lexington on the same day Convention opens. Thus we will have three great educational gatherings in one. The students of the Summer School will be present at both meetings; those coming especially for the K.E.A. will be requested to remain for Convention, while those coming especially for the Convention will, of course, get in two days ahead in order to attend the K.E.A.

The last day of the K.E.A., Thursday, this being the first day of the Convention, will be devoted especially to a Conference of County Superintendents. The possibilities for good growing out of a "heart to heart talk" by the Superintendents are great. This Conference, together with the Convention, ought to be, and we expect it to be, the beginning of better times for the public schools of the Commonwealth.

Every Institute instructor in the State, and every person expecting to do Institute work the coming season, is expected to attend. Every County Superintendent in the State is requested to attend. The other two members of the County Board of Examiners can conduct the Colored Examination which falls on the 26-27, at least for the first day.

A program for the Conference and the Convention will be announced a little later. In the meantime let every Superintendent, Institute Instructor, teacher and friend of education in the State begin making preparations to attend not only the Conference and Convention, but the K.E.A., making it a "Red-Letter-Week."

Very truly,

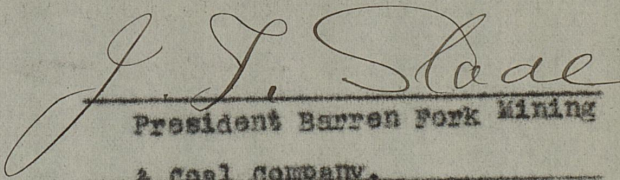

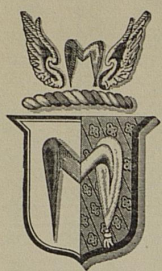

Lexington, Ky., April 25th, 1903.

A special meeting of the stockholders of the Barren Fork Mining & coal company is called.

Said meeting shall be held at room No. 7 second floor Southern Mutual Investment company Block, corner Short and Market streets, Lexington, Mayette county, Kentucky at ten o'clock A. M. on the 4th day of May, 1903.

The object of said meeting is to take steps looking to the final dissolution of the Barren Fork Mining & coal company, and the business to be considered at said meeting and acted upon is the taking of proper action to pass title to certain small portions of land in Pulaski county, Kentucky from the Barren Fork Mining & coal company to the Eagle coal company, and to direct a conveyance of said lands from said Barren Fork Mining & coal company to the Eagle coal company.

President Barren Fork Mining

Office of the President

The State University of Iowa

May 5, 1903.

Dear Sir:

Dr. E. A. Birge of the University of Wisconsin, secretary of the National Association of State Universities, refers to me your inquiry of April 28th.

I find your institution listed among the 41 institutions eligible to membership and indeed, there is a record that you were represented at some one of the annual sessions of the association. The following extract from the constitution of the association will probably answer your question explicitly:

"MEMBERSHIP-- The membership of this Association may include:

(1) All colleges or universities in the states or territories of the United States which are founded wholly or in part upon those grants of land made by congress to the states upon their admission into the Union, which grants are commonly known as Seminary or University grants.

(2) Any college or university in any state which may be designated and recognized by the state as the State University."

Personally, I trust that your institution is eligible, and that you will be among the active members as we enter upon a new era of activity. If I am not mistaken, I enjoy the personal acquaintance of your good president, Dr. Patterson, whom I used to meet at the meetings of the Agricultural Colleges and Experiment Stations.

If you are eligible, as I infer you are, you will enter upon active membership by sending \$10, the dues covering last year and this, to Dr. Birge, who will give you a receipt and enroll your institution.

Truly yours,

Professor F. Paul Anderson,
Kentucky State College,
Lexington, Ky.

Presl: Jas. K. Patterson:
Lexington Kentucky:

My dear Mr. Presl:

Yours of the 8th. inst. with reference
to filling the vacancy caused by the
death of J. B. Mearns is just received.
I will take pleasure in conferring with
you on the subject before expressing
a preference, or endorsing the claim
of any one. I have been very much
indisposed for the past three months

and was shocked and distressed
at the sad taking off of Mr.
Marcum. A few days notice now
will enable me to meet with the
Committee where it is desirable
Trusting that you, and yours, are
well I am very truly yours

Prof., James K. Patterson,
Lexington, Kentucky

My Dear Sir:-

I thank you very cordially for your kind expressions of satisfaction at the result of the recent primary. I shall endeavor to so conduct the office of Auditor that my friends will never regret having supported me. I had not thought of it but indeed the State College will be well represented in the next administration. It is to be supposed that it will not be to the disadvantage of that institution to have three men at the head of different State Departments who received their training there.

With kind regards and best wishes, I am *Cordially* S.W. Hager

James K. Patterson, President,
Lexington, Ky.

My dear President Patterson:--

I am making every reasonable effort to keep an open date for the annual meeting of Trustees. I agree with you that in the death of Mr. Marcum the State College has lost an ardent and efficient friend and supporter. I note your suggestion concerning his successor. I think most favorably of Judge Beckner, and would like, in view of his past service to the cause of education generally, and to the State College in particular, to see him a member of the Board. He is by his own act and preference, to be classed as a Republican. Just how far and what bearing this will have upon the question of his electibility, I am not now prepared to say.

I think well of D.D. Sublett, but am not at present prepared to commit myself to his support.

I hope to be able to talk the matter over with you before the day of the meeting.

Very truly yours,

John F. Hager

Jas R Patterson
 President of W College
 Lexington Ky,

My Dear Sir-

I herewith hand you my resignation
as a member of the Board of Trustees, W College - and request that you present it
to the Board. I regret very much the necessity
of taking this step, but I cannot, owing to business
engagements attend the meetings and therefore
think I should resign. I have enjoyed the
association with the members, and shall
be proud of the friendly relations, and
courtesies shown me by all the members of
the Board and the Faculty, as long as I
shall live. I am proud of the College
and its management, and in retiring
from its Board of Trustees, I can truthfully
say, that the State owes much to you, and
your co-workers in the interest of this

Institution, and I shall be glad to aid you in any way possible in forwarding its interest, I hope that in the selection of my successor you may select a good man. who is interested in seeing the College made what you and others have worked so hard to make it, and whilst I do not desire to dictate my successor, yet I desire to suggest ~~to~~ a man that I know is a good man for the place - and located where he can be of interest to the School, that is Ex Senator Tibbis Carpenter of Allen Co. I know he is your friend and feels a great interest in the College - and if he is elected and you will put him on the Legislative Committee he can and will aid the College materially, he is a liberal man, and believes in the State taking care of this College - and making such appropriations as will keep it at the front, Trusting that you may live long and be happy - and with kindest regards to the Board and the Faculty, I am very truly yours B W Bradburn

CHAS. R. BROCK
LAWYER
808 ERNEST & CRANMER BUILDING
DENVER, COLO.

Cordially for giving me his name
as well as for the trouble you have
taken in the matter of the book which I
wanted.

I think probably I shall be in Kentucky the
latter part of May or first of June and, if so, hope
to see you.

Mrs. Brock has improved most wonderfully as has
Dr. Rawsey's wife. Getting started is no easy
matter, but, on the whole, we are much pleased.
I trust Ray Brown, my wife's brother, is doing
faithful work in the State College.

With kindest regards, I am,

Sincerely
Chas R Brock.
