

OCT 28 1898

The regular meeting of the Faculty of the Dept. of Pedagogy occurred on the above date in the President's office.

There was no business except the canvassing of names of students in this Dept., as to their standing in the various classes. With but a few exceptions the reports of the several Professors were favorable to all the matriculates in the Dept. of Ped. It is very encouraging to note the fact that the quality of the students matriculating in this Dept. improves from year to year. Some of those in the Dept. this year are among the leaders of their classes.

Adjourned.

R. M. Roark, Dean
and Acting Sec'y.
