County, community and probable Federal aid.		\$15,500
Approximate amount to be raised through contributions from the general public for the year 1919-1920.		\$40,700
Amount of this that will enter permanent plant.		\$17,100
Average annual amount to be raised from General Public		\$23,600

=====

No salaries are paid except to a limited number of expert teachers for county schools(until the Clearing House for Human Material yields them)save to mountaineers who are conducting their own uplift work (many serving without salary), through their association, under the guidance of the Community Secretary, a Boston woman, who serves without salary

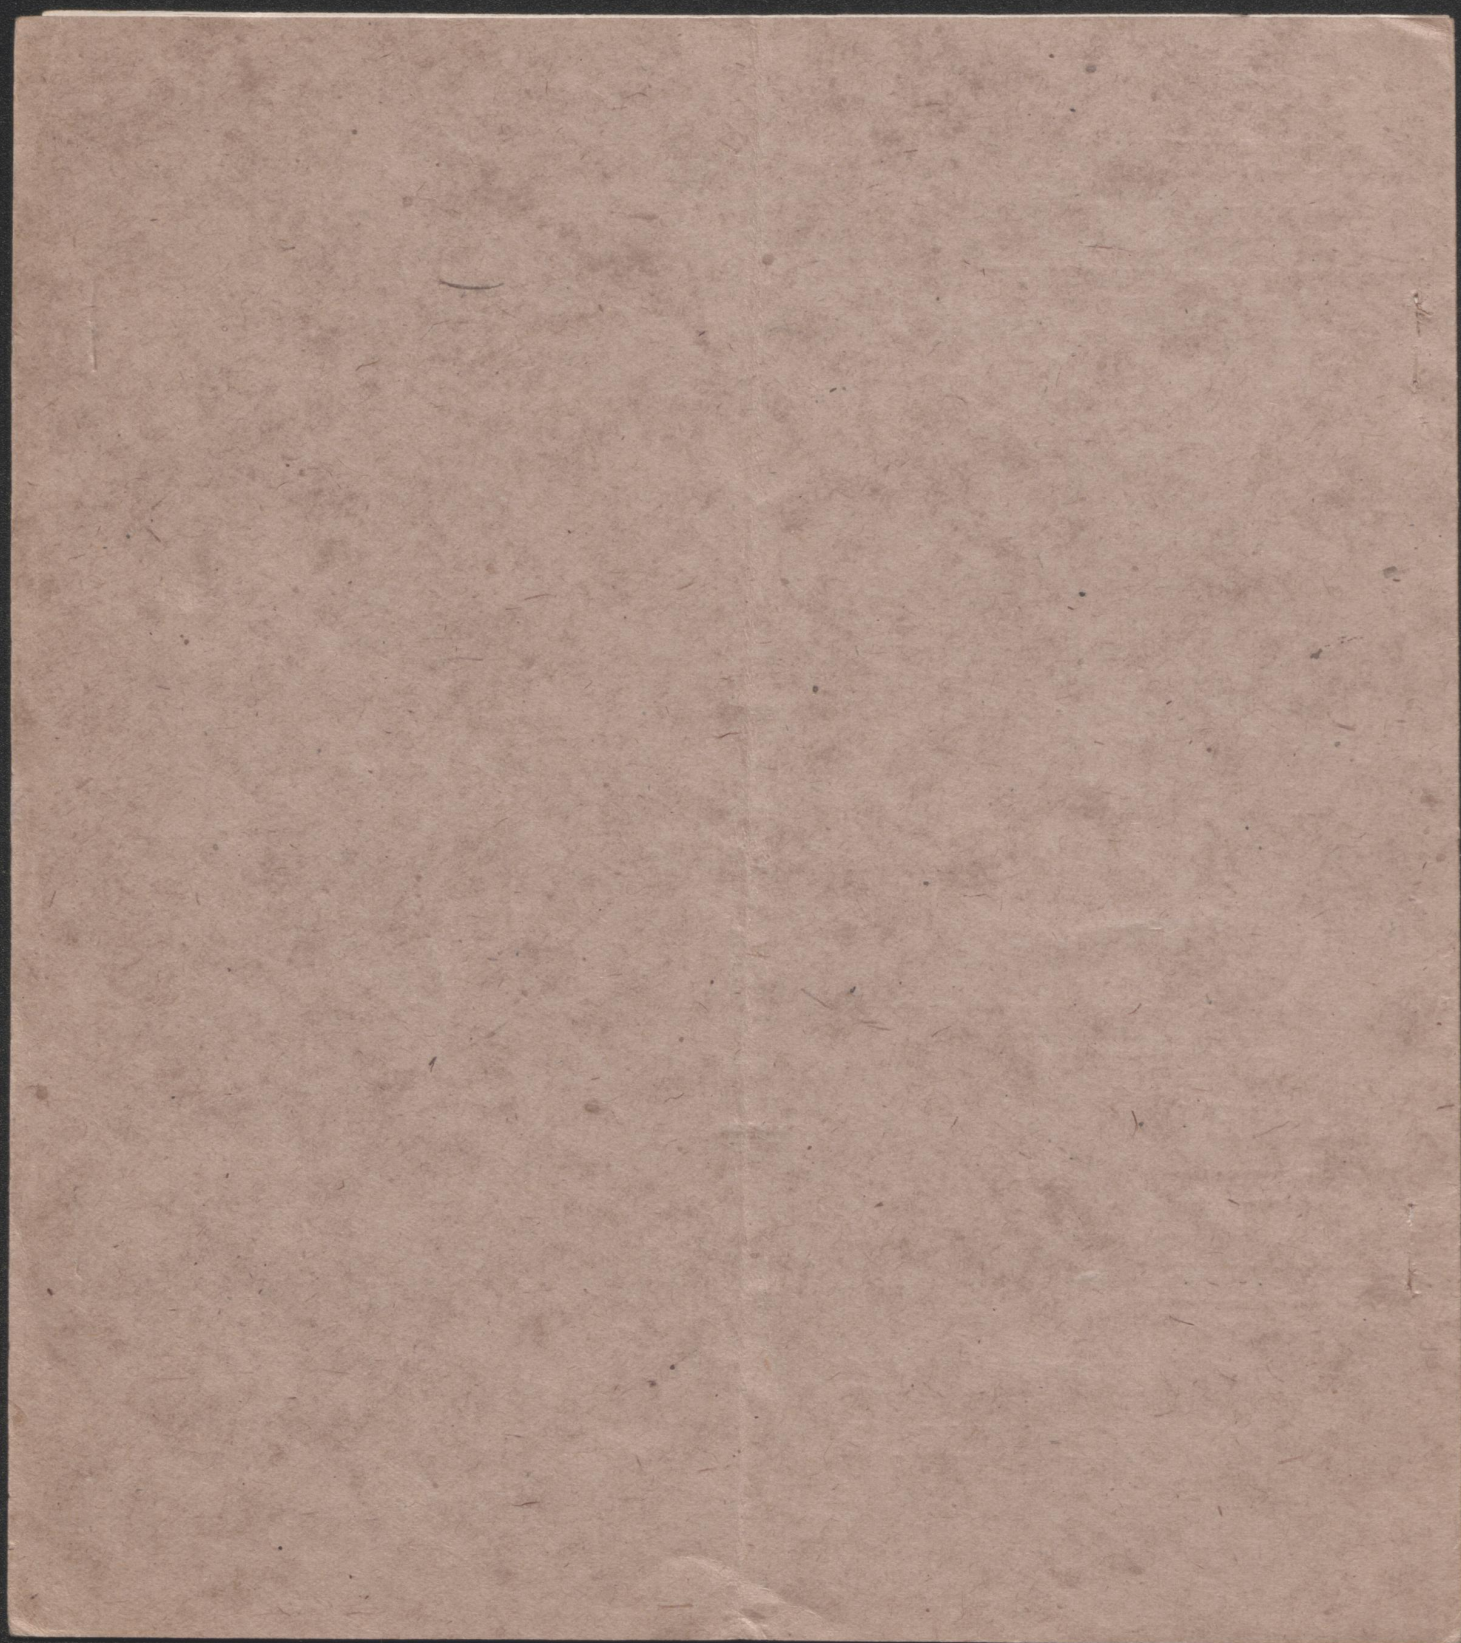

=====

This Association is the outgrowth of a private philanthropy that was placed in Knott County in 1917, called the Caney Creek Community Center. This Center has now merged into the Association under the terms of the by-laws - its school now being owned by the County and conducted by it and its Community Center owned by the Community. The founder of the C C C C, Mrs Alice Spencer Geddies Lloyd, of Boston, has been elected the Community Secretary.

Mrs Lloyd is hoping to raise the outside money that, for a few years, must be supplemented to that raised by the County and the Communities. Neglect for 200 years cannot be made up in five years, without help.

=====

Any contribution toward the annual \$23,000 excess expense will be thankfully received. Make checks to Mitchell M Johnson, Community Treasurer; or to Mrs Lloyd. Address:
