

Feb. 17, '98

On above date the regular meeting of the Faculty of Pedagogy occurred, in the President's room.

On motion of Dr. Shackelford - seconded by Dr. Pryor, it was resolved to direct the Dean of the Dept. to embody in his annual report a recommendation to the effect that a beginning class be organized in Plane Geometry and one in Latin Grammar, at the opening of the second term each year. Such classes are greatly needed to meet the demands of advanced pupils who teach the first half year and return to pursue their studies during the second half.

Names of pupils were then canvassed, to determine their general standing in the several classes. In the main progress was reported as satisfactory.

Prof. Winford White was appointed Sec'y. of this Faculty.

Adjourned

R. M. Roark, Dean.
