

October 28, 1898.

The Scientific faculty met in Pres. Patterson's room, Professors White, Miller, Shackelford, Kastle and Mathews being present.

J. H. Bullock.

Prof. Miller presented the name of J. H. Bullock as a possible candidate for graduation, but on account of the absence of Prof. Wernicke in whose department an important part of Mr. Bullock's work is being taken it was agreed to defer action until Prof. Wernicke can be heard.

The work and standing of individual students was then discussed.
