the Treasurer for extra services in issueing & receiving
the Town notes $97-

In relation to the other matters submitted to us we report the communication hereto annexed made by the Treasurer to us. Your committee would subjoin that upon adverting to the ordinance it does not appear that the charge of Commission on the ballance remaining in the hands of the Treasurer from the preceding year is admissible — but they suppose it was made through inadvertance.

Furthermore that the extra allowance of 97 Dollars should have been reported to the Board before it could be considered finally confirmed, but this perhaps was prevented by the settlement taking place so immediately before the expiration of the Trustees from office

We the undersigned committee have carefully examined the above account of the Treasurer, and

January 9. 1821.

find it correct and supported by proper vouchers. The subjects of disbursements have been, as heretofore, the payment of watchmen, repairs and improvements on the streets &c. The committee respectfully state, that the items would have been (published) printed as usual, but that owing to the circumstance of the board of trustees having conceived it much to the accommodation of the citizens, to subdivide the claims of the creditors against the town, into small sums, that the creditors might with convenience, use their orders in payment of town taxes, and pass them off to others, for that purpose, without discount.

The committee find that the orders have been so multiplied in consequence of the above arrangement, that it would be both tedious and expensive, to have them printed.

Thursday Febuary 1st 1821.

At a stated meting of the Trustees of Lexington at the Court house in said town on Thursday the first day of Febuary 1821. Present all the members. Mr Humphreys in the chair.

Mr Parker presented his protest against the appointment of Jno Norwood day watch, and the question whether the same be admitted to record being put by the Chairman passed in the negative. Whereupon Mr Davis from the majority moved a reconsideration of the vote, which was seconded by Mr Cloud, and the question being taken on admitting the protest to record passed in the affirmative, which is in the words following. Towit:

"I protest against the appointment of day watch, with a salary of $330. for the following reasons towit: 1st Because I am of opinion that his services to the town is not worth half half that money. 2. Because in all well regulated towns it is the Constables duty, with the aid of the magistrate to preserve order through the day and for the common fees obtained for the violation of its laws. 3. Because the Trustees could get an honest industrious man to superintend the cleaning of the streets, and the removal of nuisances for $75. and thereby save to the town $400. per year. 4. Because I am well convinced that not more than $6000. can be raised off the town by taxes this year, which will barely pay the town debts now due, with those lately contracted, and the current expences of the year, exclusive of the salary of the day watch. 5. Because the appointment of a day watch with a salary of $330 will, to the amount of $400. exceed the funds of the town thereby doing injustice to its creditors and in proportion injure the credit of the town.

February 1st 1821.

6. Because measures were taken to coerce the Trustees to give the day watch this high salary, to suit the man and not the town, thereby setting a bad example, prescient calculated to extort from the Trustees higher salaries than their labour is worth.

and the witness being first qualified by Wm West Esqr. a Justice of the Peace D. C. were examined and the case being heard the following resolution were passed unanimously & ordered to be published.

Resolved that in the opinion of this Board the charge of sleeping 6 or 8 Hours on the first night the accused took the oath of Office is partially sustained, but as it is proved that the accused was ill on that night the Board consider him as Excusable particularly as he has given credit to the Town for that night in his account.

Resolved that the charge of neglecting his duty at other times is the result of an arrangement made among the watch, by which they rest during the latter part of the night as much as the Bye Laws allow at hourly periods during the night. As the accused has repeatedly applied to this Board for the rules which were to govern him, and which until within a few days he has not been able to obtain, this board cannot justly hold him responsible for any ignorance of those bye Laws. Resolved that Capt. Young be acquitted.

Whereas it has been represented to the Trustees of the Town of Lexington that certain of the watchmen sometimes intoxicate themselves with ardent spirits to the manifest injury of the public interest. Therefore Resolved that upon a recurrence of this fact coming within the knowledge of the Board they will deem it their imperious duty to remove the offender from office, whatever may be their opinion of his usefulness.

The Committee that was appointed to devise a plan for cleaning and repairing the Streets, have had the subject under Consideration, and beg leave to Report. presuming that economy was the leading object in view. the Comtt have mainly directed their attention to that object, and from the various Calculations, they have made, they are led to believe, that to employ one or more Carts and Teams for a period of Several Months at a given Sum of Money per day, with as many hands as may be necessary, will be most likely to give the greatest amount of work, for the least Sum of Money and save to the town some twenty five or thirty per Cent in the expenditure on this head. The Comtt would urge upon the Consideration of the board the necessity of Sumpsetting (on the M.Adam plan) some one of the Streets to the Mill Stone in each year, until all the principal Streets are made good — The experiment made last year on the lower end of Main Stt is found to answer a valuable purpose and the Heal was made late in the fall by hands totally unacquainted with that kind of work made in a great hurry before the dirt had time to settle, and yet it is found to stand very well.

For the purpose of testing the plan, here first proposed, the Comt would respectfully offer for the Consideration of the board, the following Resolution: Resd. 1st That a Cart, Team & driver with another hand to assist in loading &c. be employed for a period of Eight Months, at the Sum of per day — The Cart &c to be under the immediate care and direction of the day watchman, and in removing dirt from the Stts — the Cart shall work an equal length of time on each Ward, or as nearly, as the nature of the work will allow

2nd. That the day Watchman be required to look after and

duct the Cart &c: and when he may set the Cart to work on a ward he shall notify the Comte of the ward thereof of his intention and be governed by the advice of the Comte in the direction of the work, and he shall see that the Cart is kept employed and make a Report, as far as practical, of what work has been done, at each stated Meeting of the Board

Resolved that Messrs: Hunt, Boswell and Logan be appointed a Committee, to advertise and receive proposals for the hire of a Cart, two Horses and two hands, to work upon the Streets, agreeably to the foregoing Resolutions, and Report the same to the next Meeting of this board.

Yeas. Messrs Stanton, Higgins & Brown. 3.
Nays Messrs Chipley, Brand, Hunt, Nelson, Reed & Ashton. 6.

Mr Stanton filed the following protest viz:

The Subscriber protests against the rejection by this board of the resolution offered. for the following reasons. 1st Because by the advice of the then Law committee and upon full advisement, the board of Trustees on the 5th of April 1827. Resolved to insure said building as expressed in the following extracts from the proceedings of the board 6 P. 321. Resolved that Messrs McCalla & Hunt be a committee to enter into an arrangement with such Insurance offices as are willing to undertake the risk for the purpose of insuring the main building of Transylvania University in the sum of $30000 provided the Insurance can be effected for not exceeding 60 cts in the $100 and provided the Insurance can be effected in such manner as to secure the control of the proceeds to this board in case the building should be destroyed." P 331. The committee appointed to insure Transylvania University reported that they had insured the sum of $10.000 at 80 cents The same committee were requested to procure from the Trustees such transfer as would secure the insurance to the town in case of loss, 1828. P 337 Messrs Logan & McCalla were appointed a committee to obtain from Transylvania University such Transfer of the policy of Insurance as may enable the town to to obtain the benefit thereof in case of the loss of the building. 2nd Because the Trustees of Transylvania gave their full assent to the measure on the part of said resolution

and consenting that their name or names might be used for the benefit as expressed that the funds should be under the controul of this board in case the building should be destroyed

3rd Believing the Committee of this board which effects the Insurance avowed their authority and purpose to the agents of those offices who undertook the risk: therefore it would seem nothing improper can be imputable to said board respecting the insurance

4th Not knowing this board has either directly or indirectly relinquished their right to this fund: therefore in pursuance of the original agreement Considering it a matter of right to hold the same subject to the Controul of this or a succeeding board a regular appropriation should take place & if made for rebuilding requiring some specific time for the erection of the same
