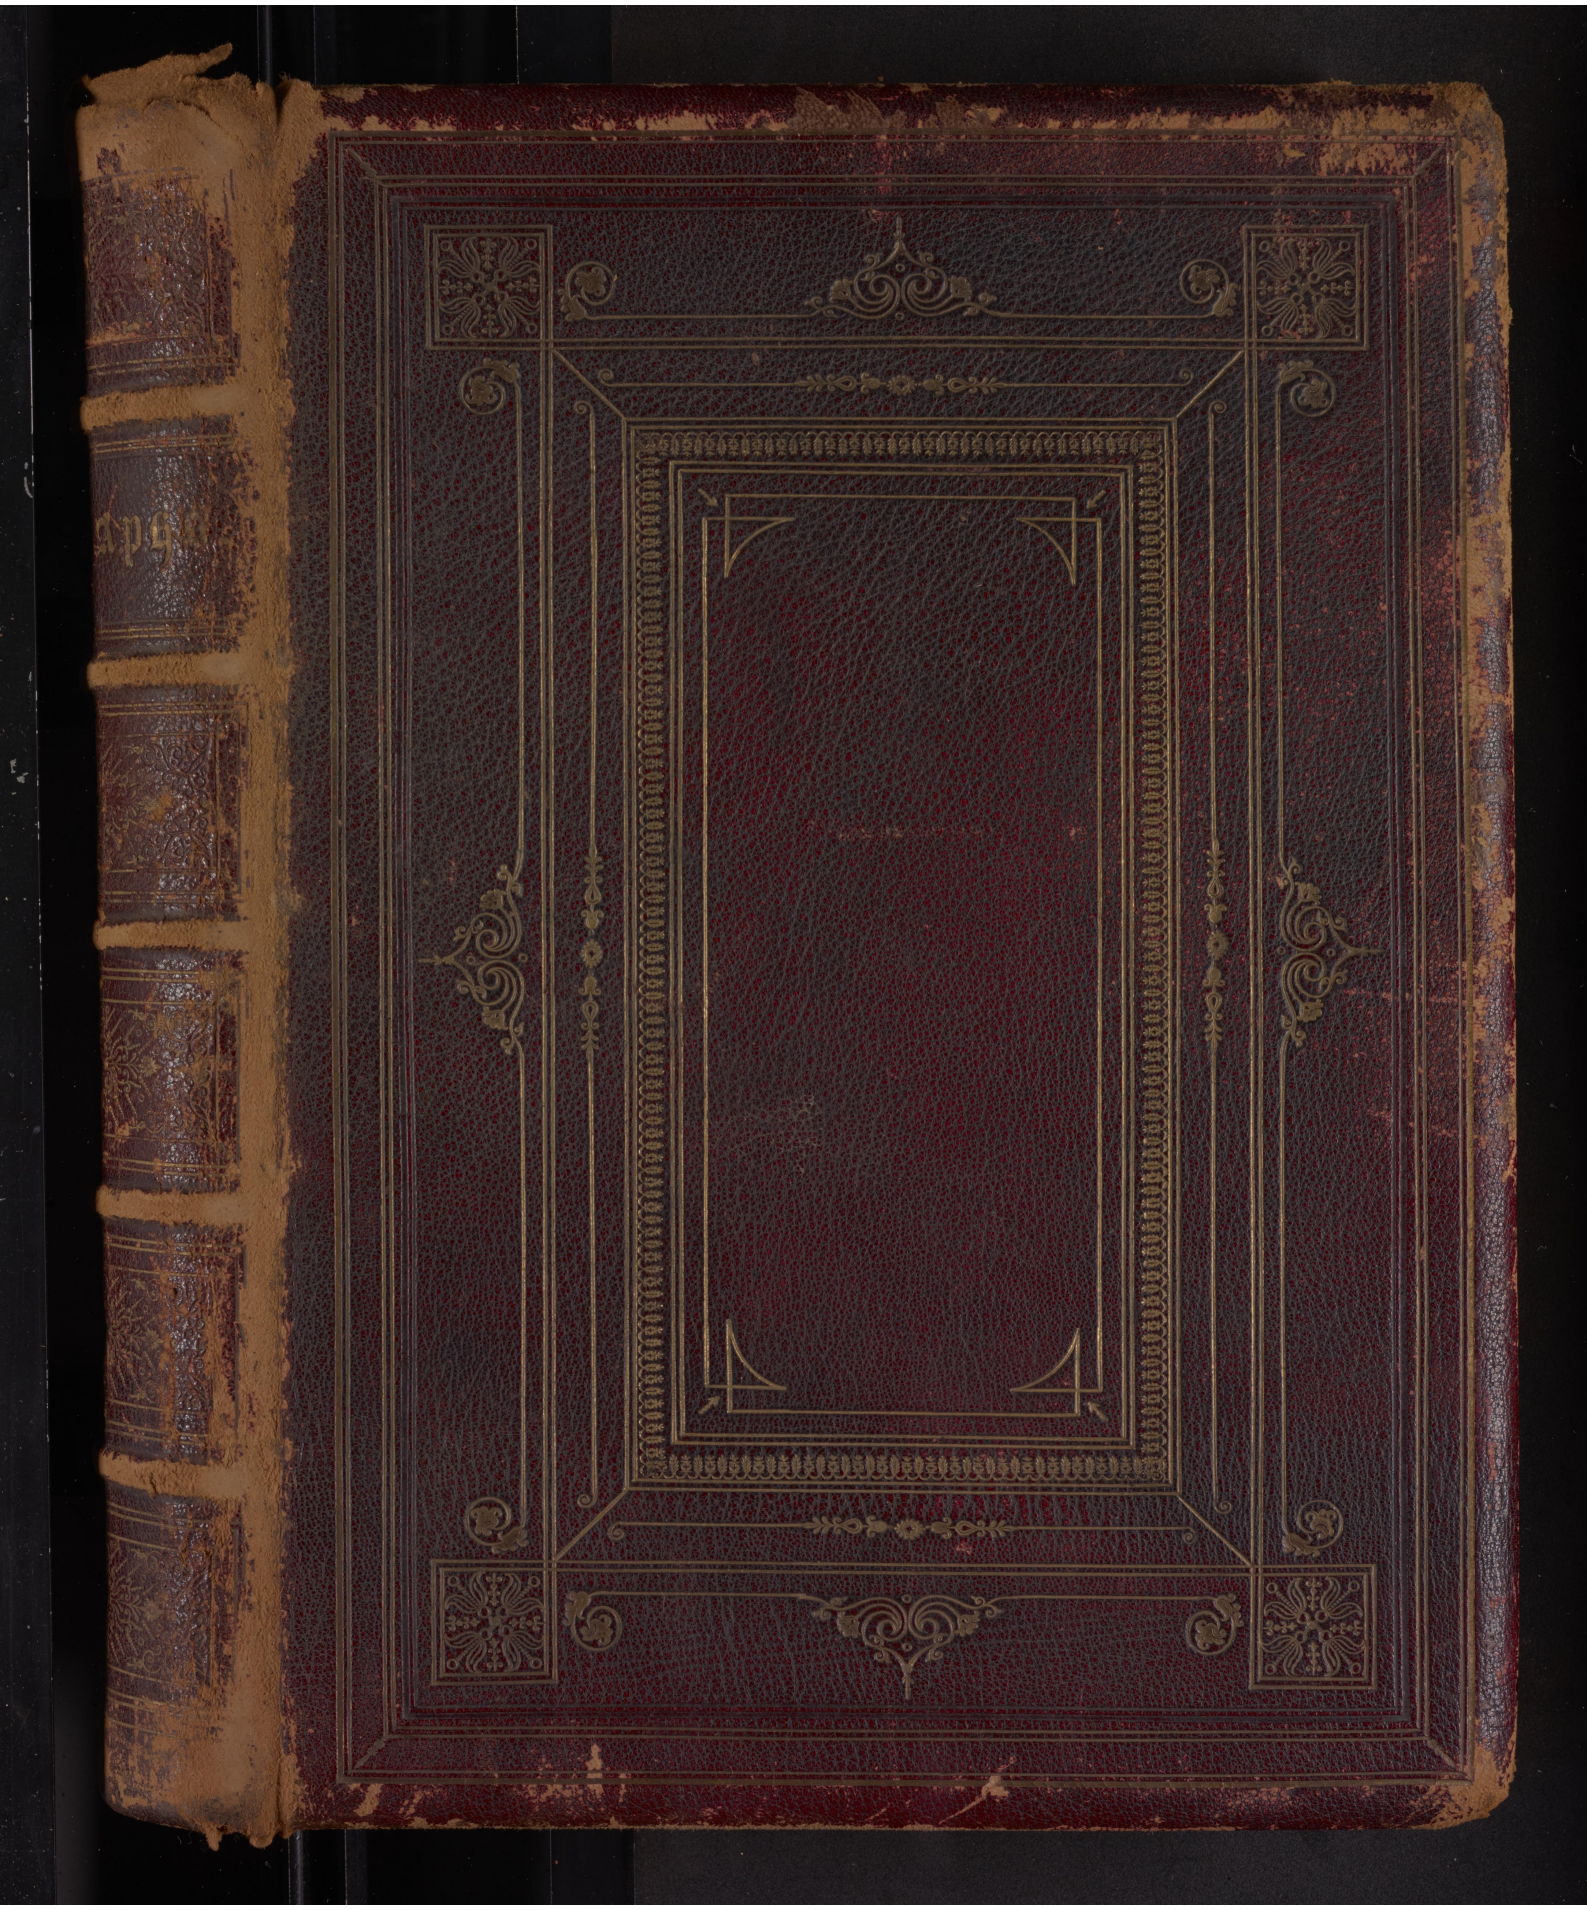
THIS SCRAPBOOK CONTAINS LOOSE ITEMS, BLANK PAGES, MISSING PAGES AND CUT PAGES



Other Properties

800 RUSKIN (JOHN) INTIMATE SERIES OF 42 A.L.s.s., c. 73 pp., *8vo*, 1861-76 *and undated*, to his cousin George Richardson, discussing in detail the management of the writer's financial affairs, with interesting references to his mother, his personal needs and picture-buying, the progress of his literary and artistic work and the publication of his books, etc., *with 33 original envelopes: together with* A.L.s.s. to Ruskin from S. C. Hall and Charles E. Norton (the latter containing eulogies of Emerson and Lowell)

*** Ruskin appointed George Richardson to the sole management of his financial affairs in 1869, after he discovered that his former agent had been swindling him.

801 GILBERT (*Sir* W. S.) Collection of pen sketches by him, mainly studies of human heads (with a few full-length figures) and including one sketch of a bridge and trees, *on 6 foolscap sheets and 28 fragments or scraps of paper (mostly several studies on each sheet or fragment)*

*** These lively and characteristic drawings were apparently done by Gilbert when sitting on the bench as magistrate at the Middlesex sessions. Several of the leaves contain notes in his hand on the cases brought before him.

802 DARWIN (CHARLES) A.L.s., *Down*, 1 p., *8vo*, 2 *Jan.*, 1881 [*for* 1882], to Mr. Kowalevsky, ". . . As for myself I am fairly well, but feel very old with fainting strength," *with original envelope*

*** Written only three and a half months before the writer's death. The postmark on the envelope gives the correct date, and shows that in dating the letter "Jan 2d. 1881" Darwin was making the common mistake of forgetting to change the year-number at the beginning of a new year.

803 ALBUM containing A.L.s.s. of Alfred Tennyson, Mrs. Hemans, Thomas Campbell (to Lady Blessington), Sir David Wilkie, Thomas Moore, Thomas Hood the elder, James Montgomery, W. H. Ainsworth, T. B. Macaulay, Samuel Rogers, Mrs. Gaskell, Martin Tupper, Sir Edwin Landseer, William IV, Baron Cuvier (A.L.s. and L.s.), George Cruikshank (an amusing letter about his financial difficulties), Dr. Thomas Arnold, Sir M. J. Brunel, Thomas Telford, Alexandre Humboldt (3), Louis Agassiz, A. L. de Jussieu, Duke of Wellington, L.s.s. of Marshal Davout and Marshal Soult, docs.s. by Thomas Howard, Earl of Suffolk (1617), Thomas Osborne, Earl of Danby (1674), George III and George IV (as Prince Regent), and many others, *mounted (and some loosely inserted), old morocco gilt, folio*

Dear Madam

I am sorry that I am unable to give you any information regarding your brother Bertie Graham. I gave in a writ with regard to the case of his two brothers who were

Dundee 12th July 1867

My dear Sir

I will be very happy indeed to join your christening party at Gourock Castle & Guinness are my terms. The Wigwam may be left open and be available for a while

And happy to be with you all night to testify of your kind consideration

Please write when you

1 Winton Road
Leeson Park
Dublin May 3 /86

My dear Daisy,

You ought to have applied to me sooner. I would have given you gladly a pound or two to help in repairing the fabric of your church. But I am not free to contribute towards the "painting and doing up" of the interior. I could not do that in every case. It is an expense properly borne by the congregation.

You must devise some artful method of getting something from me without requiring me to break my rules.

Your affectionate Bishop

London, Oct 23 1846

Mr Joseph Christy

My Dear Sir:

Understanding that you sympathise with the movements that aim at the promotion of peace and goodwill among men, I am constrained to solicit your co-operation in forming the nucleus of an organization which may be expanded, to compass all the social exigencies of humanity, upon the basis described in the enclosed Pledge or Constitution of the "League of Universal Brotherhood." Being unable to visit all the towns in the Kingdom, to explain the objects of this association personally, I avail myself of this medium of communication to ask you to sign this Pledge, if it would be consistent with your convictions of duty, and also to present it to your friends for their signatures; thus forming a little local "League", which shall be auxiliary to a society already embracing thousands of the good and true on both sides of the Atlantic. If you should be disposed to do this, I should be grateful to receive the names thus subscribed, that they may be duly entered in the register of the League in Birmingham.

I also send you a number of the "Bond of Brotherhood" a little monthly publication which I am trying to get into simultaneous circulation in this country and in America. I should be grateful if you, and those who may sign the Pledge with you, should be disposed to distribute a few copies of each number in your immediate community.

Yours for humanity

Elihu Burritt

Sonnets.

To G. Holland M.D.

Holland! thou loves the little songful lyre
And which well pleased thy boldest kiss to buy,
For the first time, now attempt to play,
Trusting with skilful touch, the sonnet's fire:
Alas! the strings of this small harp, prepare
To bring forth half the worth a master's hand!
Yet as I wander through a lovely land,
And stop, at times, its marvels to admire,
May I not sing them, too? Yea, while the breeze,
Sighing o'er moated grange, or castle bold,
Awakes the music of their ancient trees,
The lyre, below, shall place before my knees,
That sweetest type I'll place before my knees,
And make my theme its two rivers to hold.

Sonnet 2.

Powers of the Sonnet,

Why should the tiny harp be chained to themes
Of fourteen lines with regular rule bound?
The sonnet's might is mightier than it seems;
Witness the bards of olden days renowned;
Why gave this lute a clarion's battle sound:
And lo, another Milton calmly lyres
His eyes within, on light that ever burns, *
Waiting till Wordsworth's second peer be found.
Meantime, Petrarca's mournful music turns
That the scorned sonnet's charm may yet endear
Some lovely deep strain, or lay of well-told woes,
Such as in Byron's couplet brings a tear
To manly cheeks, or o'er his stanza throws
Rapture and grief, solemnity and fear.

* The Sonnets by William Wordsworth.

UNIVERSITY OF LONDON,
BURLINGTON GARDENS, W.

June 20 1888.

My dear Lizzie,

I had a wondrous time in Italy. My first days in Florence were spent in a state of ecstasy. I never saw a place like it, I think, in the world. I rose at 3.30, & retired at 12 P.M. & did nothing 3 times over. Such wondrous buildings, & pictures, & works of the great Tuscan artists to see like this seemed heaven. I saw something of the Uffizi, & was very glad to visit them again. At Bologna, I was

resided in the Palazzo Albergati by the Marchesa Albergati, & another Marchesa (Torrani), & had built the finest existing 16th century Italian palace. The carnival at Bologna was on the grandest scale. The King of Naples & Prince were there all those 3 days, & were quite fascinating. I then went to Venice, Milan, Turin, &c. & came here, (to Lord Clanwilliam's) on Saturday. Now I am deep in Indian Civil Service Examⁿ. work.

I had such a fine letter from Browning. I had gone out at Florence May 4 while he was at Mrs. Browning's grave, & stayed on Cleopatra's Needle & Savage Landor's, & went to him about Florence; & he visited Siddons & Kemble with me.

I wish I could see you this Summer. But they don't give one leave, & I go with the Woodalls to Rowston, to examine Mss. on Friday, & then home: & we also to Penrhyn in August & Sept.ʳ. I shall be back

I value most highly the Churchman's Union & recommend to all who can, to aid in making good the temporary deficiency of funds. Though greatly pressed at present I will be good for five pounds myself & needle I am most truly yours

Fulham
7 Nov. 1831

Gentlemen,

I have to acknowledge the receipt of your letter dated 25 October last.

I cannot help remarking that as Mr Price, the Curate of Thundridge has never received any part of his Stipend, the proceeds of the Tithes, remaining after the deduction of necessary expenses, ought in fairness to have been divided, in due proportions, between him and the Rector, instead of being paid entirely to the latter.

Gentlemen.

Unless an immediate payment, in part at least, be made to Mr Price, I shall feel it to be

my duty to acquaint the
Living. I shall therefore
be glad to know on what
day you will be prepared to
make a payment to Mrs
Price, & to what amount

I remain,

Bp Ely
Prettyman

A list of errata in them, & additions, is given at the end. The Letters &c. are also all marked in my reprint, and I believe, accurately: though, from the changes of the text owing to the discovery of the Codex Sinaiticus, they have required a good deal of correction, and errors have unfortunately

have occurred. I know of no other blunders unless they are indications: & it would be no small labour to compile a list from either of those sources.

I am dear Sir
Yours truly
Henry Alford

Archbishop of New York.

Ford's Hotel London May 28/57

Rev^d dear Sir

I am ashamed to say that I rec^d your letter in Rome, but at a time when I was much engaged in preaching. I will not attempt now to make apologies, but throw myself on your indulgence for pardon.

I was then as I am now much pleased with your idea. But at the same time I consider that it would be quite strange, if not improper, for me to say one word in public approval of a work which falls under the special notice of the ordinary of the Diocese & the other Bishops of the country in which it is published. I am but a pilgrim passing through, and I fear it would appear strange if I

were to issue any official approval of a work that is being published on the way. If it be published also in New York, I shall be free, and I think willing, on enquiry into the details of the contemplated improvements, to recommend it by an official approval.

I hope you will not understand me as wishing in the least to discourage you in your good work, but only as meaning to say that it would be looked upon, justly I think, as out of order for me in my actual circumstances to give the approbation which

† The Archbishop forgets that I had told him this Bible was actually publishing simultaneously at New York and London

and that of the American Bishops will, no doubt, be easily obtained if the work should be published in the United States.

Wishing you success in your undertaking and to be remembered in your prayers, I remain your faithful Servt in Christ

+ John Archbishop of N. York

Very Revd Dr Hasenbalg.

were to issue any [illegible] work that should be published in the way. If it be published also in New York, I shall be free, and I think willing, on enquiry into the details of the contemplated improvements, to recommend it by an official approval.

I hope you will not understand me as wishing in the least to discourage you in your good work, but only in meaning to say that it would be looked upon, justly I think, as out of order for me in my actual circumstances to give the approbation which you desire.

The approval of the English & Scotch Bishops will be a high recommendation in America, and that of the American Bishops will, no doubt, be easily obtained if the work should be published in the United States.

Wishing you success in your undertaking and to be remembered in your prayers, I remain your faithful brother in Christ

+ John Archbishop of N. York

Very Rev. Dr Hawkins.

Canonical Memoranda.

Amen Corner, St. Paul's
Nov. 5. 1840.

Some years ago writing in the month of May - out of Essex - to a friend, from whom I expected to hear but not immediately — I desired him to mind the proper direction.

For now full soon
Comes the month of June,
When my own St. Paul's
To residence calls:
and twice more in the year, | October, & February.
after three months clear,
Like little Jack Horner
I am found "in the Corner."

To another friend, writing from Edmonton.

The Vicar of Edmonton, pray you, remember,
Goes up to St. Paul's at the close of September,
To reside for the month betwixt that & November.

Monkish rhymes from the same pen.

Parvum pro salute naulum,
Mane bis i circa Paulum.

Naulum properly is the payment for being ferried over a river or arm of the sea; and is easily thence transferred to denote what is paid for any service.

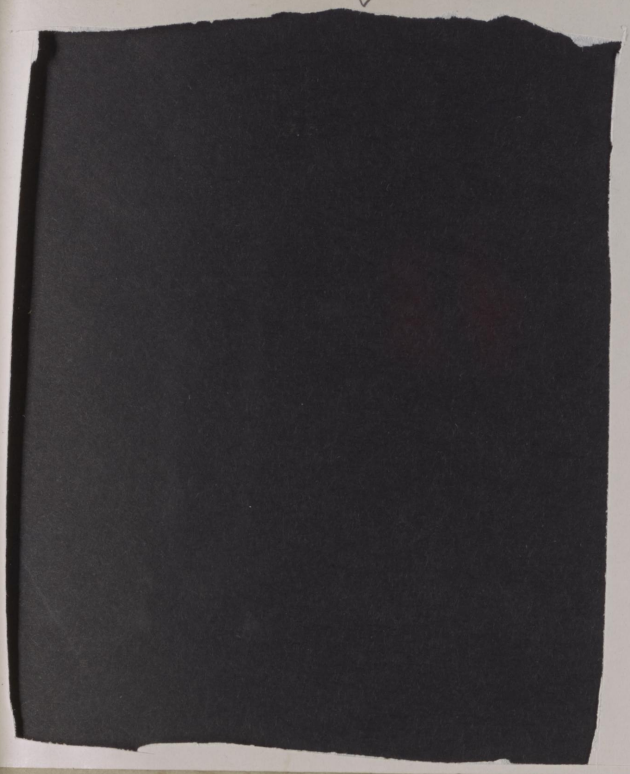
Thus canonically Englished.

At a small cost your love of health to shew,
Twice round St. Paul's, before you breakfast, go.

What is far more important than all this idle rhyme is the fact, that in the discipline recommended by the celebrated Dr. Jephson at Leamington walking regularly before breakfast occupies a very high place.

J.s Tate.

James Tate vicar of Edmonton
Head Master of Richmond School York
Canon of St Paul died at Clapton 1863
(Chas. Wycliffe Goodwin Portrait) pub



6 Sion Hill, Clifton
May 30. 1859

Dear Sir

I am much obliged to you for your kind letter. Are you prudent to make it, before you have seen the sermon? I believe I may say that they attracted more than usual attention when preached. But reading & preaching are two things.

However, if you adhere to your purpose, when you have seen the MS.

My dear Parker,

Many and true thanks for your kind letter. I am now jogging on very fairly indeed: the left ancle is decidedly stiff, and may long remain so, but I can hobble my 7 or even 8 miles a day, and am in good health and spirits.

We are now staying in the country house of the Master of Pembroke, and move to some neighbouring sea-port for the remainder of our holidays. I am most anxious to get out the Hulsean Matters on or before October 1, & I think shall be able to do it.

May you heartily enjoy your holiday which no one in London better deserves.

Ever yours
C J Ellicott

Hall garth
near Lancaster
July 30.

I shall gladly accept it.

I should, of course, be glad to encourage the University Press. But, on the terms which you propose, I do not think that I can dictate as to the printer. If therefore you can make a satisfactory bargain with Mr Clay, I shall be happy to contribute my mite to advance the interests of the University, which the Press ought to be a source of revenue; but I do not urge you to do what may not suit you.

I hope to send you a portion of MS. today. Believe me. Dear Sir,

Very truly yours

Harold Browne

W. Parker Esq Jun.

Bp. of Winchester

25 June 1848

My Dear Mr Kaye

My native
friend, Baboo
Gour Chunder Dutt
son of Purpoorey
Dutt the bonnetman
or in the local
language a Merchant
Prince of Calcutta
in the administration
of criminal Justice
in Bengal in our
Service — has been

working Poetry of which he has published a few specimens.

Copies of these specimens he wishes to forward to Paris in England, & has requested me for this note to say, as he hopes you will be able kindly to distribute them agreeably his wishes.

I of your willingness to oblige the Baboo, as far as in your power, I do not doubt.

I may mention that, at my request he has long been employed in elaborating to prepare an article for the Review on "Bhoja-tunya", a celebrated founder of one of the short un-

manners of the
Hindu sects in
Bengal. The subject is extremely curious, & all but entirely new to Europeans.

What the Babu may make of it remains to be seen; but he has excellent abilities & good materials in his possession.

Yours very truly
Alexander Duff

Edinburgh 22d Jan 7. 1840.

Dear Sir,

It is the sound though homely advice of one of our old Scottish Divines to a person in your state of mind that he should "cry as he can!" My confident recommendation to you is — Ask till you receive. Seek till you find. Knock till the door be opened to you. If it be real desire of your heart to be as you ought and to do as you ought God will not refuse His Spirit in reply to your persevering importunities. Even believe me

Dear Sir Yours affectionately

George W. Esqr Thomas Chalmers.

If God be graciously pleased to enable me, I have [illegible] than no objection to visit Biloton in his service on the 2nd Sunday in December — the 9th, I think, according to your request.

You and your friends, I hope, will not only pray for, but labour fervently in prayer, as the Scripture hath it, that I may come unto you with joy by the will of God, and may, with you, be refreshed, and that the Lord

Berwick
March 13. 1865

My Dear

You are probably aware that some time ago my congregation agreed to employ the Town Missionary in occasional preaching for me, and in some visitation of the sick. This did not amount to an assistant ship. Curate for want of a better name, I was called so. The number of times he may be asked to preach will not be more than 10 or 12, when I am from home, and the visitation of the sick will be very moderate.

It so happens that at present

may by my ministry among you
add unto the Church souls that shall
be saved.

How certain it is that if we want
good things, we shall find words
in the scriptures wherewith to name
them.

As to the collation, the chief
want is grace that the saints may
give aright, acceptably to God. Let
us also pray for this.

Believe me
Dear Sir
Yours faithfully
Tegnaum

P. S. I will let you know in due time,
when & where to expect me.

Berwick
March 13. 1865

My Dear Sir

You are probably aware that some time ago my congregation agreed to employ the Town Missionary in occasional preaching for me, and in some visitation of the sick. This did not amount to an assistant. Chap. though for want of a better name, I was called so. The number of times he may be asked to preach will not be more than 10 or 12, when I am from home; and the visitation of the sick will be very moderate.

I do not suppose that at present

we are in want of a Missionary, our excellent one Mr A. Scott, being about to leave; and as we need a preacher, I have thought it possible that you might know of some one. The Town Mission work is the visitation of a neglected district, with the superintendence some matters of a Ragged School, besides preaching in the district every Lord's day evening. The work of co-operating with the minister I have already described. For the whole we offer at least £100 per annum.

We would not object to a preacher who had run his course provided that he were a fair preacher: and we are, I suppose, not to likely to get a beginner.

I hope you will excuse this application. Your own name was mentioned some in connexion with the vacancy; but I know your circumstances & present usefulness too well, to make any such offer. However my knowledge of your reliance on your judgment emboldens me to request your help in finding one.

With best remembrances to your relatives

I am

My dear Sir

Kennington July 11th 1832

Dear Sir

I regretted much that from preparations for my journey I was prevented seeing you upon leaving town but I am happy in assuring you from that there will be on our part no hesitation in agreeing to what you may consider your just claims in regard to the terms of those prints that have delivered to you. Indeed on reflecting upon the matter after leaving town it appeared to me that even if there had been no express agreement we could not do less upon raising the price than put it in the power of those with whom we deal to fulfil their engagements to customers, and as any delay in delivering your prints would irretrievably disappoint your friends in the country I wrote to Mr Brainbach to request that he would if it should be in the same way ~~(illegible)~~ supply you with the numbers you wanted and leave the adjustment of the terms to our future consideration.

This Mr Brainbach in his answer which forwarded your letters to me and to him said he had agreed to do; and as this was so far satisfactory and would set the matter to rest in your mind I delayed writing to you till my return to town

and upon considering your letter of the 24th ult.mo I have only to remark, that although there might be no express agreement as to the number you were to have of Prints Indeed, as you state, that you did mention at different times your subscribers as numerous, and that ~~any~~ was probably not paid upon my attention from any request formally upon this our number of subscribers for Prints being (at that time undetermined in raising the price) a matter of indifference to us and I must also acknowledge that your claims in that letter are so fairly and clearly stated that I can have no doubt of their perfect accuracy, and as it must be to our interest as well as I hope it may be for yours to have a cordial and perfect understanding ~~between us~~. I am happy to reflect that there can had now to no difference between us, which no one could have regretted more than Dear Sir

Your very faithful and obedient

MASON COLLEGE, BIRMINGHAM

17th March 1893

My dear Dr Frazer

First let me thank you for your most kindly and most useful present of Gilbert & Churchill's Dolomites, which I shall carry with me to the Alps, if I go there this summer, and test its accuracy upon the spot. I have read and re-read a good deal of your copy which I now return to you with very many thanks. It has been most useful. Two years since I read it, and in reading it again, it has all its old charm.

Stokesay
Craven Arms

My dear Sir

I am obliged to you for reminding me of the promise I made even to send a specimen of Pentamerus. I cannot say that I had at all forgotten it, but I hoped to be able to procure a larger example than that I now forward, which is, indeed, the only perfect one that I possess, & it may add a little interest to it to tell you that I got it, many years ago, in company with poor Salter, from a collector. There is no lack in this neighbourhood of mutilated specimens, but complete ones are very rare.

I have often thought of our meeting so strongly in Birmingham, & hope that it may not have been for the last time. Should you be in this neighbourhood I hope you will favour me with a call

Yrs very truly

H. B. La Touche

you will be so good. I shall be glad to be remembered in the same way by yourself, when you have some extra photographs of your own "lying around" as the Yankees have it.

I have been fretting & chafing at hiring work for speculators, during the fine weather, hankering for a little field work. I shall get off for a week or a fortnight down to Falmouth, or the Lands End, at Easter, and have a real rest, as what is the same, a look at entirely new ground.

Please give my respects & very kindest regards to Mrs Frazer & the young ladies your daughters.

And shall kindest regards & thanks & hoping to see you on Saturday next when I call at the College

Believe me
Ever yours sincerely
Charles Isaac Elworthy

while the wider geological
knowledge of the region that
has gradually come to one in the
interval, simply deepens one's
pleasure in the work.

I shall keep your map
of the Dolomite country a week
or two longer, until my own copy
arrives. I have bought Mos-
quoes Geology of the country,
and also the atlas, so that I
hope to be well filled up with
material, if I go to the Dolomites
themselves.

I have seen some photo
graphs of some of the Dolomites
quite recently, and they are quite
as mysterious, and quite as fasci
nating when drawn by the sun
himself, as the photographic plates
as they are in Gilbert & Churchill's
colored sketches.

I enclose you a photo
of myself which I shall be
glad if you will accept, if

United States
8th January 1846.

Dear Sir,

Your kind letter of the 18th Dec.r from Norwich came to me only today, having been Posted for America at Pollockshaws on the 20th Ult.o My remoteness from my Scottish home must plead excuse for the unavoidable tardiness of this reply.

In reference to your considerate question as to what dates I prefer selecting for my two Lectures here in April at Norwich, I beg to say, that, so far as I can foresee,

College, 19th Nov.r 1845.

Sir

I beg leave to acknowledge the receipt of your letter of the 16th inst. informing me that the University Medical and Surgical Society have reelected me to the Office of President. I have to request that you will convey to the Society my best thanks for the honour conferred upon me, together with my assurance that I shall have great pleasure in assisting to promote the interests of the Society.

I am Sir
Your obed.t Serv.t
Allen Thomson

To John Fraser Esq.r
Secr.y of the Med.l & Surg.l Society.

173

I shall be able to fulfil my other engagements best if you will kindly appoint two days in the same week for these Lectures. I propose Wednesday the 25th and Friday the 27th as those most likely to suit me.

Allow me to say that there is a possibility that I may be compelled to modify this proposal so far as respects the latter of the dates the 27th inasmuch as it may be necessary for me to be present at College in Glasgow all day on Saturday the 28th to grant my signature to the Diplomas of numerous University Students then Graduating. and attend to other matters incident to the winding up of our Winter Session.

In all probability I shall be in Glasgow on or before the 15th of April and if such business should arise, I shall lose not a day in giving you notice and begging you to Antedate my Second Lecture by one or two days. But so far as I can foresee I do not ~~apprehend~~ think my College work will interfere with my wish to delineate my 2nd Norwich Lecture on the 27th.

I am happy to state that keeping in mind my promise to give you something fresh on Coal and Petroleum, I have since my coming to the N.S. last summer, gathered up and put in shape what I esteem an interesting mass

College, 19th Novr. 1849.

Norwich Oct 4
1865

Dear Sir

When or where I first saw your letter of Oct. 5th is more than I can tell - At that time I was away from Norwich - & on my way there Norwich, on my return to Cambridge, I was so beset by my bills & small matters of business, that I had time to call upon no one. Perhaps I may have seen your letter (also with a pamphlet upon the subject) on my arrival at my College rooms about the 12th or 13th of last month - My apology

The Close. Oct. 10th
1866

My dear Sir

I have written to Bishop Phillpotts on the subject of your note of the 7th inst., and I fully intended yesterday to call upon You; but was deputed by sundry interruptions. It was my purpose to write (in behalf of the Norwich Invitation) to the permanent London Committee of the Association: but, with my wonted stupidity, I had mislaid & forgotten their address - after many serious endeavours

for the apparently enormous
delay is - that for the last
three weeks I had to go on with
my daily course of lectures -
& the academic duties that
Law professors have upon us
do shorten - leave a very
appreciable extra less per-
mit us spil to send letters
replies to a correspondent

If any thing could be done
in the way you mention I
would most willingly join in
it. But I have ceased
to attend the British Association
for some years, & I can
count upon no personal

influence with the Council -

With sorrow & regret
I found your kind letter
this Evening on my unopened
file - Pray forgive this
delay in my reply - I hope I
will have much duty the
next three months
& then vacation
I wish much duty to call
upon you & talk the sub-
ject over. Yours
Dear - very truly yours
A Sedgwick

I hope to call upon you:
but I may again be interrup
-ted. Yours
very faithfully yours
A Sedgwick

MUSÉUM D'HISTOIRE NATURELLE

MUSEUM NATIONAL D'HIST. NAT.

NATIONAL

au Ministre de l'intérieur

Le Directeur du Muséum d'histoire naturelle

Citoyen ministre

D'après une demande que je vous ai faite il y a quelque temps au nom de notre administration, vous avez mis à notre disposition une somme de cent mille livres pour achat de verres propres à vitrer nos serres et les châssis de nos divers batimens: dans le même temps le C.en Leger, qui aime notre établissement malgré l'embarras où nous l'avons mis en prenant sa maison sans la payer, nous a proposé de nous faire venir d'une verrerie voisine de Condé ou nord libre une voiture de verres en même temps qu'il en feroit venir pour lui même. Nous avons accepté son offre, sous la charge qu'il reprendroit ce que nous ne pourrions pas payer avec les fonds mis à notre disposition.

en conséquence il nous est arrivé dans une voiture vingt paniers ~~de verre~~ contenant chacun 120 verres de 19 pouces ~~carrés~~ sur 22, ce qui forme un total de 2400 verres. cette quantité nous sera utile, mais elle ne nous est pas strictement nécessaire, et nous pourrions à la rigueur nous contenter de la moitié. je me suis informé du prix, il est de 33.s en numéraire pour chaque pièce, ce qui fait pour le total une somme de 3960.t ~~en assignats~~ aussi en numéraire.

l'intention du C. Leger n'est point de gagner sur cette fourniture ; il nous laisse ces verres au prix ou il les paye lui même. il faut desors qu'ils lui soient payés en numeraire ou au moins en assignats au cours. il ne pourroit se contenter de mandats dont la valeur sur la place n'est pas encore determinée.

dans cet envoi il y a certainement des verres cassés et c'est une déduction qui devra etre faite vis-a-vis du vendeur manufacturier. pour cela il est necessaire de faire la verification et consequemment de deballer tous les verres, mais si nous ne gardons pas tout il faudra faire un nouveau transport d'une partie chez le C. Leger et desors j'ai cru pour éviter des frais nouveaux devoir faire suspendre ce deballage jusqu'a ce que vous ayez décidé la quantité que nous devons conserver, ce qui fixera au montant de la somme que vous pourrez mettre a notre disposition pour cet objet.

Comme le C. Leger est pressé d'avoir une décision pour savoir s'il prendra pour son compte une portion de l'envoi ou s'il ~~pourra~~ en ~~fera~~ livrera une autre portion de la même verrerie, je vous prie de vouloir bien porter sur ce point une prompte décision et me la notifier. je lui ai promis réponse sous deux jours.

Salut et respect

Jullien

P.S. je dois vous observer que ces verres ont une teinte verdâtre et qu'en general ils ne sont pas assez droits ; ce qui fait qu'ils ne pourront etre employés avec avantage que partagés en quatre ; ce qui pourra etre tres bon pour les serres chaudes, mais non pour les chassis d'appartemens.

Ever most affectionately yours
Dawson Turner —

207

2 Victoria Terrace,
Dowanhill, Glasgow. 20 Feby 1866

Dear Sir

The only book on British mosses which is of any use to a student of the sub-ject is Wilson's Bryologia Britannica. Published in 1855 - This contains 61 plates with figures - of all the species except some of the larger ones (as Hypnums) where in most cases only portions (magnified) illustrate the peculiarities of each are given.

I myself prefer for simplicity the former edition under the name of Hooker and Taylor Muscologia Britannica, as the genera are not so much broken up, and the species not nearly so much split - But if one wishes to get a knowledge of the names now current among the students of mosses, he ought to get Wilson.

As for myself I have long since given up that branch of botany. I could not bring

2 Victoria Terrace,
Dowanhill, Glasgow. 30 June 1866

My dear Sir,

I received your letter on my return from an excursion to Arran with my students attending my class - but too fatigued to examine the specimen sent - I have now done so.

If you attend to my remarks in the British Flora, you will see that S. ciliata of Fries is in my opinion a mere splinter off S. apiculata - and depending on too few points of distinction. Such as this bad species is. I consider that

S. apiculata has the sepals of the mature fruit spreading - (much longer than the petals which is misprinted calyx in several editions), sometimes, in part usually obtuse, although sometimes the two outer even slightly mucronate.

S. ciliata has the sepals of the mature fruit appressed - (no fibrils yet known). the two outer

myself to adopt the new names, and I felt conscientiously
unable of myself to stem the current of innovation.

Yours truly
G. Warner Arnott

Dr. J. Fraser
Wolverhampton

Sepals always either acuminate or mucronate
In your specimen I cannot discern whether
there are short petals or none - The sepals
are all obtuse, at least I cannot detect any
mucro or awn - - you say the sepals are closely
pressed to the fruit, whereas in the ripe fruits
you send the sepals appear all spreading
whether they were so when recent I can
not tell - I have then only one character
to guide me - viz the entire absence of a
mucro or awn to the entire sepals - which
is a character of second any importance
as said in the flora. The sepals of S. officinalis
erect the ultimate state spreading (in the
form of a cross according to Babington)
and if you really found them erect. that must
weigh more than the apparent shortness
of the sepals which cannot be well seen
in the dry state - So that on the whole
I must leave the matter in your own
hands, premising that in the state in which
you have sent the specimen, it is impossible
(unless I saw a considerable number of them)
for any one to deny it to be either the
one species - or the other -

Mr. Bentham, one of the first authorities
for genuine species, unites S. ciliata and
S. apetala to S. procumbens - and although
I am not prepared to do so, on account
of the perennial root of the last, I believe
he is nearer the truth, than those who
make these species of them - as a general
rule difficult or critical species are
usually splinters off one variable species,
and are therefore book-species not existing
or at least permanent in nature.

Such a specimen as you send affords a
strong confirmation of the supposition that
S. ciliata naturally is not distinct from S. apetala -

If the same ingenuity in splitting species
were to be applied to extra European plants,
as has been shown by Fries, Godron, Lloyd,

and a host of hair-splitting German writers, the estimate
list of species in the world ~~would~~ (say about
100,000) would be increased to a million at
least, whereas my idea is that there are
not 30,000 truly natural species (by which
I mean created distinct species) in the whole
world, even including cryptogamic plants
In many cases what is at present called a
genus, or at most a subgenus, is entitled
to but one or more natural species - and consequently
~~the~~ botanical writers are doing much
more injury to the science by splitting
up into needless distinct names, than
by using them to assist in combining our
vastly too many ~~form~~ already named forms

Yours truly

28 June 1865

My dear Sir,

I have had to make a few slight alterations in your account of Rubus Lecii for Eng. Bot. Suppl. so as to place it in conformity with the other descriptions in that work. I feel sure that you will not object to this editorial action on my part.

I see that you found the same bramble near Bonchurch and should esteem it a

Cambridge
11. Aug. 1865

Dear Sir,

I am obliged to you for sending the very fine specimen of Rubus hirsutus, for such is doubtless its name. I think that the tubercles are quite sufficiently marked. They vary very much in that respect on this species.

suppose it is like what is called the Indian Summer in the U. States. Bees are flowering free in what seems to be a third bloom.

I am
My dear Sir
Faithfully Yours
W. H. Grenville

very great favour if you could send or bestow a bit of it from there. A bit of the barren stem bearing a single ternate leaf would be sufficient. I want to make note of its peculiarities in My Monograph and the range of the plant is so enormously extended by this locality that I want absolute certainty about it.

Yours very truly
Charles C. Babington.

Cambridge
11. Aug. 1865

Dear Sir,

I am obliged to you for sending the very fine specimen of Ranunculus hirsutus, for such is doubtless its name. I think that the tubercles are quite sufficiently marked. They vary very much in that respect on this species.

In answer to your
other question I may
say that my Publisher
does not lead me to
expect to be asked for
a new edition of the
Manual for some con-
siderable time. How
long I cannot say for
I have not lately heard
from him how the sale
has proceeded.

Yours very truly
Charles C. Babington.

I shall always be glad
to help you in any
botanical difficulty
if you think fit to
apply to me.

J S Henslow

Paddington, nr. Warrington -
Oct. 12th. 1866.

Dear Sir -

The letter which I had written I somehow forgot to put into the post-office being much occupied at the time with other matters -

I got your first remittance yesterday, but thought it best to wait until you could answer my Tuesday's letter - Pray accept my thanks for both remittances - I enclose a receipt -

I hope soon to procure fertile specimens of Lycopodium gracile, if my health is at all adequate to the effort; and I must go somewhere forthwith for open air exercise, having overworked myself indoors of late; - It is a moss which peculiarly interests me, because Dr Schimper, whose insight into generic affinities is usually very penetrating, did not admit it to be a Lycopodium at all; - but I have now incontestible evidence of its being such - When I obtain a spare duplicate I will send you one, to add to the collection - I hope to get it in some plenty, & it will now be in a good state, if obtained at all -

Heavy rain prevented Mr Rowell from getting more than a few specimens, and it may occur in other places than where he gathered it - And he seem more, he would have brought it away in spite of bad weather & drenching -

Dolgelley is a good neighbourhood for Mosses - Neckera pumila, Hypnum heteropterum, both in a fertile state, were there in 1840 - Pray send me such as you cannot determine, only give me time to examine them; for I do not like to name mosses from mere inspection with the naked eye, though of course I can do so, in general - I send you a dispection of your Sph. squarrosum (S. contortum of Bryol. Brit. but S. subsecundum of Bryol. Europ. that being, as it seems, the older name for the species) - The section of the stem, & the texture of the leaf essentially differ from those of S. carnipilum, its nearest ally -

Dr. Arnott was on a visit to a mutual friend in Warrington, very recently - There, as both enthusiastically engaged upon Diatoms just now - He accuses himself of having set the example of innovating on the old system of classification & "sorely repents" -

Believe me, Dear Sir, Most truly yours,

W. Wilson

Dr Mason Bath.

P.S. One of the subjects, which I compared notes with Dr Arnott, was the bone structure of a Pepo - He is right, as I am hoping to find - De Candolle & Wright were both wrong, & Lindley in his Veg. Kingd. seems evidently misty in his language, as if he but partially understood the subject & indeed it was so; for the placentation is only parietal in position: it might, for anything he knew of the matter, have been [illegible] - The compellary confutes a "circumbendibus"

P.S.: 99 -

a dense Sphagnum stigmosum of Sphagnus, as viridula (i.e. in Leaves) about Bromsgrove & other places.

Dr of young ones of Hypnum Arnottianum

Shrewsbury
Augs. 19.

Dear Dr. Fraser

Immediately on receipt I forwarded P.O.O. to Edinb. with instructions to send Trans. direct to you.

I have got through the S. American dickens – and they go off on Monday to W. Spruce. They are certainly a magnificent Collection.

If the weather be fine I shall certainly go with the Club to Haughmond Hill – The whole walk will give many good plants besides those mentioned. You had better come over – and join us. I shall be happy

Forfar
Atherstone
April 30. 66.

My dear Sir

I was from home all last week & consequently was unable to answer till now your letter of April 24. & also to thank you for the specimens of dried plants which have arrived uninjured & are very acceptable to me. I am trying to arrange if I can get to Abbots Bromley next week, but I must ascertain first that my Relative there is at home, & if so, probably tuesday or wednesday would suit you – & the Vicar of Cradley would be a pleasant addition to our party – how should you propose coming? by rail to Rugely & then by a Fly from thence? I was botanizing with one of the Masters of Rugby last week in that neighbourhood & found the Lettice hygrastis collinsiana & Teesdalia nudicaulis both of which I send you. I also found two or three of the smaller mosses which I have not yet examined, having much to occupy me to days. Since writing the above I have examined some of the mosses & send you them. Weissia microstoma B.S. I have not met with before.

Yours faithfully
Andrew Bloxam

Yours truly

John Lindley

C. Darwin John Lindley.

Botanic Garden
Cambridge
12 Dr. 12 Mo. 1864

Sir

I feel much troubled for not writing to you long ere this date, but having had a great many things to attend to before I left Glencaple and all my things been as yet unpacked here, I have scarcely had time to think about my kindest benefactors. I hope however that it is not yet too late for me to return my sincere thanks to you for your kind testimonial and assistance in procuring me this situation. I now thank you most sincerely for your kindness.

I cannot as yet enter into botanical matters nor reply to your last letter but I hope to do so before long. As I expect to get my wife and

children up in about three weeks from this date, and then I shall be able to resume my studies under much more favourable circumstances.

This county is apparently a good one for Cryptogams and I fear I shall not find many new lichens, but look forward to the time, when I shall be able to visit the New Forest and other places of note, with great expectations. Before leaving Cleveland I collected a sufficient number of Cladonia for the purpose of my book on that genus and hope to have it out by March or April.

Since I came up here I have laid my hands upon Rabenhorst Cladonia Europaea and believe it will be of great service to me. — There appears however, to be some confusion in the names of the species amongst the Germans'. What Rabenhorst sends out as C. coralloides, I have from Massalongo as C. carnosa f. macrophilla, and another specimen from Flotow under named C. coralloides which is identical with what I have always regarded as a decorticated state of C. squamosa. I suppose you would advise me to go by Rabenhorst rather than Massalongo? Flotow seems to be well acquainted with the genus. He has sent me 170 forms.

I have just had a letter from Professor Lenzi, Como, but it is so curiously written that I am unable to decypher it, so as to make it into sense — there is a letter for you inside — I now enclose it in this. — In my letter there is a sentence to you — I cannot make it out correctly, therefore I enclose it too — If you can make out the writing would you favour me with a translation of my letter?

Here is a box of specimens just

come in as I write. I have opened the box and find a copy of the Gladiolus tristis I suppose it will be for you; consequently I will forward it in the morning by Rail.

The box contains Angi. Lit. Longstos. Various. If you have not got them. I will give you a specimen of each, as in nearly every instance I see here are duplicates. The specimens are not fit up into books, but have with a printed label and number. I could write the name & number if you feel disposed to have a specimen of each. If you have not got them already I may say here are many new species.

I like my new situation very much and hope to profit largely by having more time for study, &c. — When at Agra I was often very much pressed for time to carry on my studies as I wished to have done. Again thanking you

Rev. W. A. Lichtenstein. I am Sir Yours faithfully

Tarbaeng 28 Septbr 1866

Sir,

In answer of your letter addressed to Mr Boehringer and expressing your Wish to become a Subscriber of the Mais Generais cryptogamiae I have the honour to inform You that we have no Special programme the organisation of ours appearing being very simple.

The annual contributions of each member amounts to 15 frcs or Sh. 12 s. 6. After the returning of the traveller the Distribution

Villa Ste Léonie à
Plaisance, Paris, 9 juin 1866.

Cher Monsieur,

Je vous écris de suite pour vous remercier de votre obligeance de m'envoyer les échantillons que contenait votre lettre arrivée ce matin. Le lichen que vous m'avez envoyé est tout de ce que j'ai ainsi appelé dans mon Synopsis. Votre Parmelia de la Nlle Zélande me paraît être une modification du saxatilis. Mais vous n'avez pas du tout compris ma proposition de me tenir en relation des pustules de lichens à vous comm pour vous aider ainsi que je pouvais à l'aide d'un nouveau moyen même reconnaître sans microscope des espèces difficiles et les distinguer les unes des autres, malgré leur apparente ressemblance ou affinité. Je vous envoie quelques capsules avec de tels

après Mardi, mais je ne l'ai pas vu).
Veuillez faire mettre à la poste la lettre ci-jointe.
Votre dévoué
W. Nylander.

of the collections made by them
takes place as soon as possible
and each member receives his
quota part.

This year our traveller has
investigated Sardinia and some
surrounding islets. I do not know
now the result of that expedition.
If the number of subscribers
for the next year will be consider-
able enough I think we will
send a botanist to the northern
regions Norway and Lapland.

I have the honour, Sir, to be
very truly yours

Dr. W. Thompson Esqr.

frustules vous ôterez les enveloppes don-
nant les noms et vous mettrez sur les
frustules que vous me renverrez les nu-
méros ou lettres que vous voudrez
en mettant les mêmes signes sur les
enveloppes à nous que vous garde-
rez. Ainsi vous pourrez voir par
mes reponses, selon les signes que
vous aurez apposés, jusqu'à quel point
mes déterminations peuvent se faire
avec exactitude même sur de tels
frustules.

Votre merveille trouvée par
Dr Traquair n'est rien d'extraordinaire
au contraire une chose bien ancien-
nement connue. C'est le Ribea-
-ded cobweb mushroom Petiv. Gaz.
St. I. T. 7 – mentionné aussi dans Linné
Fl. Suec. ed. 2, pl. 305. Cela n'est
rien autre chose que des jeunes pous-
-ses germinantes du Juncus bufonius

poussant devant elles à leur tour
-met les péricarpes vides, qu'on
voit ainsi surmontant les jeunes
tiges comme une sorte de urnes
ou capsules de mousse.

Occupé à terminer un manu-
-scrit que je dois livrer à l'impri-
-meur je n'aurai le temps que la
semaine prochaine d'écrire la
note sur les nouveaux critères.
Je vous remercie d'avance de
vouloir la traduire et en faire
ainsi part au public botanique
en votre pays.

Je n'ai pas le Vol de Zw. Exs. 613
"Simosa" ni Aon. Exs. 137. Les avez
vous et pourriez vous m'en communiquer
des frustules? Je n'ai pas non plus
Schr. d. H. 612.

Votre bien dévoué
W. Nylander.

Veuillez faire jeter à la poste la
lettre ci-jointe.

Londres 26. 2. 47.

-Schimper (W. P.) muscologist, A.L.s. 1847—

Mon cher Maximus,

J. vais passer ce jour à Kew, et dimanche je partirai pour Harrington où je resterai 3 jours, après mon retour de là je retournerai immédiatement en France - Il vous serait peut-être possible de me donner demain une réponse relativement aux plantes d'Arabie et d'Abyssinie. J. serais aussi content si je pourais toucher l'argent pour l'exemplaire des Stirpes normales que vous avez vendu et pour les 18 fascicules de Bryologia europaea que j'ai apportés - S'il vous convient je vous abandonnerai le 2e exempl. des Stirpes pour 60 francs et les 18 fascicules de la Bryologie pour 70 frs. de sorte que j'aurais à toucher en tout 250 frs ou 10 livres Sterling. Veuillez me donner votre heure pour demain.

Tout à vous W. Schimper

34, Castle Street, Leicester Square.

Bruyères-en-Vosges, le 22 août 1849

Mongeot (Dr.) eminent French botanist, A.L.s. 3 pp.

à Monsieur W. Pamplin Libraire
n° 65 Frith Street, Soho Square, à Londres

Monsieur

Notre obligeant ami Mr Doridant est venu passer quelques jours dans sa famille à Se rend de Recheſ en Angleterre. Il veut bien se charger de ces lignes à s'informer, si vous avez déjà publié quelques livraisons du 2e volume du Species Filicum by Sir W. J. Hooker. Je désire ardemment qu'il en soit ainsi et je vous prie de les adresser à votre Agent à Paris Mr Victor Masson, qui me les transmettrait ensuite.

Par votre Lettre du 17 Juillet 1849 vous me créditez d'une somme de 234 francs, à moi je vous dois pour un exemplaire du 1er volume du Species Filicum dont je viens de parler et pour l'ouvrage complet intitulé Genera Filicum par Bauer et Hooker ensemble 6£ 17.6, ce qui fait de la monnaie de France 171fr 85cts. — J'aurais donc encore

un Obligeat de 60 fr. 15 Cent, que vous imputerez
sur les livraisons que vous pourriez me
fournir maintenant de ce 2d vol. du Species
filicum; et dans le cas ou cette Somme
ne suffirait pas pour solder ces livrais-
ons, mrs Victor Masson pourrait faire
traite sur moi du surplus.

On nous a dit que mr le Dr George Gardner
votre ami, était décédé; que sont devenues
ses collections de Fougères recueillies à Ceylan
dont vous nous avez parlé?

Je reste toujours à votre disposition
pour vous fournir les fascicules des
Hooker Cryptogamae vogeto-Rhenanae
que vous aurez occasion de me demander.
Je compte pouvoir enfin publier l'hyver
prochain la 10e centurie; alors s'il
vous en faut un certain nombre
d'exemplaires, il me sera possible
de m'arranger avec vous au sujet
des Icones Plantarum par le célèbre Hooker,
dans le cas ou vous auriez pu en
trouver un exemplaire de rencontre.

Veuillez agréer Monsieur, la
nouvelle assurance de la haute estime

de votre tout devoué serviteur

D. Mougeot

P. S.

au moment du Depart pour Londres de notre ami mr Dordand
Je reçois votre chere Lettre du 21 Juillet dernier, qui m'a fait
parvenir depuis Bern, mr Shuttleworth. Je vais m'occuper
de suite de la preparation complette des 8 premieres
centuries de nos Hooker Cryptog. vogeto-Rhenanae, selon
votre desir, que je m'empresserai ensuite d'envoyer à mr
Shuttleworth en Suisse.

Aussitot que j'aurai pu en finir avec la 10 centurie
Je vous en previendrai afin que vous m'indiquiez
par quelle voie j'aurai à vous les faire parvenir.

J'accepte avec grand plaisir en Echange des
volumes des Hooker Cryptogamae, les Echantillons de
Fougères desechées que vous m'offrez. mr Doé dans
pourra me les transmettre, ou bien vous les adresserez
à mr Vict. Masson à Paris.

Mais si vous avez pu publier quelques livraisons
du 2d volume du Species filicum vous m'obligerez
beaucoup de me les envoyer. Ce livre me sera d'autant
plus utile, que j'ai lieu d'espérer pouvoir trouver

parmi les ouvrages dont vous avez la bienveillance de me donner
des exemplaires qui seront déposés et figurés dans l'une
de nos bibliothèques publiques, je vous prie de vouloir bien
accepter mes bien sincères remerciements.

Paris, le 1er Juillet 1835.

Mr. Saunders Wm. Esq. forwards to
and requests him to give me particulars of his last
again in letter to Harvey Aug. 18th
Nov. that I may send this correctly

-Schwaegrichen (Professor) author on botany,
etc. A.L.s.-

Honoured Sir!

I feel very much obliged to You for Your letter from 1 January 1840., by which You gave me notice of my letters and account directed to Miss C. Hunneman, whom I beg to present my respects.

In the same or the foregoing month I had directed to Mr. Werbik a letter and little parcel of books for W. Kirby with order to send them to You. If these things have reached You, I am very anxious to know, because the letter addressed to You contained some comissions of books, which if not yet accomplished, I should like to retain. Sir, write me in every case, which of the letters, books, or comissions have been delivered to You. I desire very much to continue a correspondence with You, as I had with late Mr. Hunneman, but the conveyance aught to be sure and speedy.

Yours

Dear Sir,

Many thanks for the specimens and list of Southend rarities. I am sorry you had so short a stay there, but hope if you go there again that I may have a list of the more common species from you. My gratitude, you see, is a keen sense of favours

S.T. Hamburg den 10te December
Herrn W. Coupplin junior 1840.

W.

Ihre freundliche Zuschrift und Ihr Verzeichniß Ihrer Sammlungen habe ich mit vielem Vergnügen erhalten und Ihnen für Ihre Bemühungen meinen besten Dank dafür abzustatten. Ich bedaure sehr, daß Sie Ihre Sammlungen nicht vollständiger machen konnten, da Sie nur 2 Tage, 7 Tage und 13 Tage auf jeder Station zubringen konnten. Ich bitte Sie, wenn Sie wieder eine Reise machen, doch ja Ihre Sammlungen vollständiger zu machen, und wenn Sie Ihre Sammlungen nach London schicken, so bitte ich Sie, dieselben nicht zu verpacken, damit ich sie selbst durchsehen kann. Ich habe Ihnen meine Preisliste beigelegt, und bitte Sie, mir dieselbe zurückzuschicken, damit ich sehen kann, was Sie mir dafür schicken können. Ich habe noch einige Pflanzen von Swan River, Australien, die ich Ihnen gerne dafür geben will, wenn Sie mir dieselben verschaffen können. Ich habe noch einige Pflanzen von Swan River, Australien, die ich Ihnen gerne dafür geben will, wenn Sie mir dieselben verschaffen können. Ich habe noch einige Pflanzen von Swan River, Australien, die ich Ihnen gerne dafür geben will, wenn Sie mir dieselben verschaffen können.

—Lehmann
(Dr.) professor of botany at Hamburg, and well known author, long A.L.s. 4

Das neueste Heft von Lindley's Sertum Orchid., die November und December Hefte von Hooker's botanical Magazine und Lindley's bot. Register so wie Ihre freundlichen Sendungen habe ich richtig erhalten und danke Ihnen verbindlichst für die Besorgung und Avisirung, womit Sie mir neue Beweise von Gefälligkeit gegeben haben. Gerne hätte ich mich über letztere sogleich ausgesprochen, doch thun drückt Jahres auf die Kasse für die Bibliothek, haben mögen, da ich diese aber noch nicht erhalten so bitte ich Sie mir dieselben recht bald zu schicken, und so einzurichten, daß ich Ihnen Betrag Ihrer hiesigen Commissionais auszahlen kann.

Herr von Nunnemann Lindleyens Andenken, pflanzte ich allerhand einige Palmarien aber unreife und unvollkommene in England vorgenommene Befruchtungen zu verfolgen. Vielleicht Sie haben mir das Samen nicht lassen zu können, so würde mir auch dieses sehr willkommen sein.

Aus Ostindien kömt eine Frucht (Nuß) rar und theuer wie Elfenbein in den Handel, und wird von den Drechslern verarbeitet. Man nennt sie Corocier-Nüsse. Können Sie vielleicht von Lindley oder Benthom oder Brown erfahren, von welcher Pflanze diese Früchte kommen, und mir den Namen melden?

Rob. Brown hat mir die von Royle (Illustrations of the Himalaya mountains) beschriebenen Potentillen versprochen und verlangt daß ich ihn daran hätte erinnern lassen. Wollten Sie wohl diesen Auftrag ausrichten und mir die Potentillen schicken.

Mit der vollkommensten Hochachtung empfiehlt sich Ihnen

Ihr
ergebenster
Lehmann

Phytolacca - Peru

180 Upper N
Islington
London
Nov. 14. 1884.

Dear Sir.

Round the margins of two little lochs 3-4 miles from Shiaachan towards L. Cornisk in Skye (I saw on or two other places in the adjoining boglands) Drosera obovata was plentiful.

Hieracium melanocephalum fairly plentiful in Corrie Uchadan 16 miles from Braemar - I have not seen it I think elsewhere -

Nov. 14. 1884.

My dear Sir,

I am greatly obliged to you for the valuable parcel of plants you have sent which reached me this morning. I am very glad to have good specimens and hope I shall be able to return you as good.

I suppose I may take your Salix decipiens as correct - It is I think precisely the same as one I found near St Neots in Hunts in 1883, which on acct of its staminate character & shaggy

also a plant or two of
H. calendulaeflorum in
the same Corrie.
H. Acaule & tetrallum
you may come across
anywhere in a good
glen in the Aberdeen &
Forfar districts - and
H. holosericeum not
so very scarce.
H. hirsutum plentiful
in a little side 'cwm' hardly
at left of Glen Phea near
Clova.

I hope you will have
good success in the
Braemar district if
you go there next year.
Excuse my hurried
remarks & believe me
Ever yours truly
W.R. Linton.
I here an good Hieracia
growing by side of R. Clunie
between Braemar & R. Dee.

scales I thought must be S.
undulata, - wh. I did not know
well then. Mr. Bennett of
Croydon judged it to be a fragilis
form, but as it is was an
abnormal summer flowering
specimen I sent him, he did
not decide on the variety.
On seeing yours I feel almost
sure (without comparing) that
they are the same. The flowers
of yours (those I can make out
most easily) are triandrous.
You do not say which variety
of Quercus you mean ya wish
for: I will send Q. sessiliflora
as the rarer of the two I offered: I
believe I have Q. intermedia
as well, but an book-agreement
is scarcely enough guarantee
in this variety, I am waiting
for Mr. Nicholson's opinion on
my specimens. I am afraid
it will be nearly or quite a week
before I can send off the Lichen
parcel, as my leisure is occupied
with making up several parcels
simultaneously, which have coin-
cided just now, including two
Gatekeeper ones of 80 or 90 each
& lady correspondents, whom I

Feb 2 1863

My dear Sir

I would have written sooner in reply to your obliging note, but as correspondent had my only list of the plants included in the fasciculus & he has only now returned it - I had only one copy of the fasciculus left when I received your note & I reserved it for you - Perhaps you will be so kind as to let me

Hawes, 22. XII. 84.

Dear Fraser: -

I received the Lastrea rhyinosa, the all right. Thought I had acknowledged, but have been busy. You will accept my tardy thanks now, friend, I hope.

By the 2 Koeleria you send today I

Dear Sir

I have great pleasure in informing you that you have been elected a Member of the Society of Amateur Botanists, meeting at 239 Euston Road. & to add that the amount of your Entrance Fee & Subscription (5/ together) may be forwarded

have a book when convenient
I hope to have both the books
sets ready by about April
I have only got names for
the sets & only the edition of the
book, the price of which will
be raised to 5/- when it is
published

believe me
Yours faithfully
J. G. Baker

me, the B. (light col'd
flowers) is var albescens
as in Report p. 53.
That Quercus plant
is yours by the bye as
well as Mr. H. F. Parsons's
You both sent it last
year to Club. I am
sorry your name was
omitted. The A. (purple
flowers) is only the
ordinary form, grown
tall in sand. I do
not know var. gracilis
well.

The Carex from
Ledbury is ? flava
(genuina) I believe,
yet it resembles or
approaches var minor
in its low-down spikelets.

Yours very truly

Dr J. Traun

Dear Sir

I am the same E. M. Holmes— I heard of you being near me somewhere the other day, whether at Weymouth or the New Forest I am not sure. I have grown pretty tired of mosses & have taken up marine algæ of which I & friends have added about 80 new species to the British Flora. I have also occasionally gathered some very rare & good lichens and a Lithophyllum dendrophyllum; Pseg. granulare Lyngbiana, Pseg. Boryanum, &c. Rhodeorhiza, Dictyota repanda &c &c. I send you a separate note of remarks on the Junipers in case you should wish to use my letter. Did you find any lichens at Teesdale. I much want Opegrapha cerebrina — Weymouth is a grand hunting place for marine algæ — nearly 4 hours low tide

Yours very sincerely,
E. M. Holmes.

To D^r Fraser

I have much pleasure in sending specimens of a few alpine plants, which I trust will be interesting. At the time of our visit to Ben Lawers &c I did not collect duplicate specimens as a rule, & therefore (with few exceptions) have little that is worth offering, which I regret.

As to my "having the best knowledge of the Scottish alps" I can only say that, if so, it is a good character more

from the comparitive deficiency of others, than from my own proficiency! for in point of fact my knowledge of them is limited to a few districts, & even these have not been "half sought over". There is fine "scope" yet, & I trust much more will be found.

I am very respy

Jas. Backhouse Sons.

I add some specs from Forfarshire & Aberdeenshire thinking they may be acceptable, not being very common species. wed among the rubi. I regret that I am not able to lay my fingers on any Perthshire speck of Cystop. montana: nor of any of the other Ben Lawers plants asked for except those sent. I had fine specs of C. montana, but they seem to have been all given away. Absence from home & subsequent engagements have prevented my replying earlier.

J.B.

Marlborough College
Nov 5. 1864.

My dear Sir.

I have this day sent off a box, directed to your care, of Chilean Lichens, Mosses &c., which I thought you might like to see as they appear to me to be very interesting. Might I ask you to return them, and, if you would add any names to those which have come, I should esteem it a favour. I have also

Coigal, Ayrshire
18 Novem. 1864.

Dear Sir. By all means let me have a copy of your species XII: for which I will send P.O. order on receipt. I am glad to find you are continuing your Lichenological researches.

Yours very truly.
W. L. Lindsay

put in the box, a small bivalve box containing a specimen of Iron asked to send to me by my friend who could give me the name. Could you kindly name it for me? it seems to be a very interesting specimen.

Natural History makes a very fair amount of progress here. We have now a Natural History Society.

we met once a fortnight, & held discussions &c. It seem to "take" well with the boys.

I also send with the box a copy of my Manuscript Flora, as you may not yet have seen. It is merely a first attempt.

I am Dear Sir
Yours very truly

Peninsular hero, long, A.L.s. 1840 5

Wm Finlay –

I have omitted in my last letters to mention as I intended the stoning of the Roads near the House, in answer to a question from you on that head. It is what if there is a great drift of other business, may be delayed during the frost season, (if there is to be any) and at all events, it will I think be better in

the first instance to lay on those stone roads, a very thin coat of stone, and we can add to that if in the winter it may appear necessary. but must however always take care that those roads are not broken up & left to the hill down from the Farmers House Road, up to the Keepers that they are kept in good order - and the same with Julmes as usual will be kept over

all the new made stoned Roads. would had not by your last information got so far as I had expected on the Drive he is laying out. It would be well I think if the Rollers was taken over the Drive up to Harmans land, we should see what service it would be to such made roads something may be done to the hill part of that road, where it leaves the Plantation approach. perhaps some Beach, or very small broken stone might be

mond in it. tho' I have no doubt
time will hardly suit and as
what effect nothing will have
the 19th the day you will see
this. Mr Sanderson of Grou
on Friday next will be sold

Sir

I desire to acknowledge your letter of the 14th Inst. which reached me in due course, but I was unfortunately prevented from sooner replying to it. I shall certainly have much pleasure in inspecting the Miniatures which you so kindly propose to forward to me for that purpose, & if there should be any other happens, to any little history attached to the pictures which might serve to help in identifying it I will be on additional gratification. I trust you will have the

kindness to communicate to me
your Specimens of N. American seeds should
they succeed with you, will be most
kindly accepted. As to M. Hamilton's
very obliging offer, I can not be so much
my own enemy as to decline it in
any way tho' I must own that I am
help feeling in some degree wrong by
so doing, as altho' highly admiring the Flo
I am not at all learned or even con-
versant with its botany, & M. H. has
doubtless friends of his own who would
more worthy recipients of his plants
collection. I am at this moment writing
out Fuller, who was Head Keeper at
the Zoological Society's in the Botanic
to Calcutta, to receive there a par
things in Zoology which I hope
has been able to procure for me, &
offer that to pass a Month at Singapore
in ransacking the Markets there,
with the view of collecting the Zoo
of the neighbouring localities about the
Port, & bring them hither to me.
Should you know any friends visiting
at Singapore or in the Straits when
you could induce to put them place
in communication with M. Fuller,
& to aid & promote his endeavours
in obtaining a conveyance [illegible] that
he is in search of, you would much
to the obligations already conferred
on Sir Yours most obliged

popular rights there is a strong disinclination to entertain that question. You will aim at universal suffrage through various stages, first perhaps repeal of the rate-paying clauses, then household suffrage - & lastly universal. In advocating an extension of the suffrage you will select first that amount of extension in favor of which you can obtain the most support - This is household suffrage in favor of which you will have on all the influence of the municipal elections. For these reasons I recommend you to ask for household suffrage you will have seen by the newspapers that Mr

Attwood (Thos.) M.P., A.L.S.

London July 15, 1833

Sir

I have received with much pleasure the flattering address of the Bradford Political Union which you have been kind enough to send me. The difficulties around us are many & great. The People are poor, disunited, preoccupied with many cares & sufferings. Their Enemies are rich, united, preoccupied by day & by night, in the one single object of continuing & extending plunder & oppression. A few patriotic men are now sent into Parliament, but

Yours

W. Attwood

my dear Sir
Yours faithfully
E. L. Villiers

they have derived any unity of views & opinions, & they are so overloaded with labours in resisting the encroachments of tyranny & the delusions of folly, prejudice & hypocrisy, that they have no leisure to accomplish the joining down of those views & opinions into objects essential to the national welfare.

This is our position Sir: We come from the Political Unions. We derive our strength from them. If they, who have given us strength, can give us also unity of object & operation our country may get her safe. In the ocean where we are thrown upon the ocean of accidents, it is perhaps an equal chance whether we reach the haven of general liberty & prosperity, or are cast upon the rocks of anarchy & revolution.

My dear Sir

The Master of the Mint has shewn me printed Regulations as to admission, which were established before he came into office, by which it appears that even he cannot give an Order till it has been sent to the Mint, and passed this

Lunar hands, when a day will be appointed for admission

I am sure all this cannot be accomplished whilst you remain in Paris, so what I have to propose is this that before you come up again, you shall write to me, so as to give time to go through all the forms, and then I can get an order for yourself and any friends not exceeding six in number.

I am sorry if this should be any disappointment to you but when you shall have mentioned it, I perfectly recollected that I saw a person high up of the Mint give an order as soon as he

was asked. That
however was upon
the present Regulation
were in force -

Please to inform
me if I can be of
any service to you

Yr truly
Wm. Thomas

My dear friend

Your letter just brought me by Mr Pritchard has been of great comfort to me, for I had been led to fear from Your silence that my arrangements regarding Hamstead had not been altogether agreeable to You; & I trust You are satisfied that to meet Your wishes in the case was among my principal objects. You had therefore only to write me that You desired things should be altered—

I rejoice to hear from all quarters that Your health has so much improved by Your visit to London. Mr F. Palgrave has told me the terms on which Nisbet is willing to print Your Plays; & my first object in now writing is to urge You to comply with them, if better cannot be obtained from the Bridgewater quarter. The £20— You are called upon to pay is not an object; compared with the satisfaction You will have Yourself, & the gratification all Your friends will derive from Your bringing out this work which has so long & so greatly employed You, I think, if not then brought out, will be lost to Posterity for Your

friends, & to the world, think it ought not to be.
Think the bargain, therefore, I beg of you, instantly into
the counter with this most pleasant & most honorable
occupation before you. Between Hundred & Sixteen and
Eleven able to square out the Ells —; & even if this
were not the case, the 50 Copies that you will receive
would more than pay it: for I suspect the good Trust
Men is nothing so utterly dead, & consequently, so
profitably to ourselves, as what we give away. —

The "Habes dedi quod alteri" is a most true
axiom. — God bless You, my dear friend,
most sincerely
Dan'l Parker —

1 March '69

Dear Lady [illegible] I have
(I think his name is)
the Iron-Devil-maker,
a visit, last time here
today. He brought
a cup his S. Queen,
but still only a frag-
-ment, and he wishes
to Clean with me: but
I managed to evade
that, & asked him
how he meant to Clean

He told me we had
been very kind to him,
& offered to read
him "Guilty & Unknown",
we should be so delighted
-cient: & as far as
I could make out
he wishes to read
to him & Edmund for
for about 3 months
for last reason, because
part of subsistence he
now has includes his
having almost a good
deal. But it is
very dubious if we
have he will be any
better able to him at
the end of the time, or
with his present education,
-cation, than he is now.
He seems to think he
could write a book to
sell: & do not he
called "platform". I
told him I hoped he
could not depend on
any such thing: & that
I advised him to de-
consult you also. I
gave him a little, but
I cannot give him
enough for 3 months.

I think he is an
impostor. But I cannot
see what can be done,
unless some sort of
check were = Wednesday
- he could be got to him,
and would allow him
time to avail himself
of your kind offer.
If you think he has,
any chance at the end
of his 3 months, do you
think you could collect
evidence to his mendicity!
I shd be glad if he
could widen his net to
come to me again, only
with more practical &
non-illusory object
Yrs truly Sydney Smith

My dear Dr Frazer

Please accept my most sincere thanks for your goodness & kindness in sending me your votes for the little girl Stout, recommended to me for nomination by a relative who is well acquainted with the deserving particulars of the case.—

Through the help of yourself & other kind friends, I trust she will be successful in the forthcoming election. She has 171 votes to start with, & it is to be hoped she will obtain more than that number of additional votes on this occasion.—

At the last election the three last successful female Candidates, & the four last male do were all in for less than 300 votes each, & as on the coming event, two thirds of the Candidates will be admitted & only five of them have votes brought forward, there appears to be every prospect of her being admitted.

Please accept our united Kind regards to Mrs Frazer & yourself & believe me to be

Always very truly yours

John C. Gladstone

Sc/c

My dear Sir Hunterston Castle Aug 6 - 1839.

At Dunfermline I took a Subscription Paper with my Name for a Testimonial to Mr Sedgwick, of Trinity, as a small mark of respect from the Geologists of Great Britain for his public exertions. I took on Thursday to Perth & left the Paper with Mr Lyell, but I do not know whether he left it at the Museum; but I do not think it likely that many Names for Our Friend could be got at Cambridge, as I suppose most of the Subscribers are there already, & I am not aware that Mr Lyell has any Paper. I am sorry to say that I have not been able to get any Signatures in Scotland, except those of Mr Lyell & myself.

I remain in Edinburgh.

I remain dear Sir Yours very truly

Charles Darwin

I regret to observe by your Letter to Mr Lyell that you are ill.

I regret that I could not get written speedily to you from Dunfermline. Ever believe me my dear Sir Yours very truly

Chas Darwin

to me in Elysos

Believe me

Yours very truly

J. Beete Jukes.

Wolverhampton April 8th 1845

Messrs Vincent & Higgins Jpswich

Gent

On my Return from London this morning I found your letter & Invoice of Sundries which is a Settlement of Accounts of the matter in dispute, & from the terms & Language contained in the letter accompanying this Invoice it cannot be Taken in any other way.

In Reference to my Sense of Justice or Sense of Honour, I can take Mr H Higgins who I take to be the writer of this Letter that my character for Justice or Honourable dealings stands on Public Estimation much higher than his or ever will do unless he adopts a different

Cause. I beg to inform that young
Gentleman that if he thinks to amuse me
by writing Intemperate letters he
will find himself mistaken she
will do well to submit such letters
to his Fathers inspection, before he
sends them to the Post. his long
Experience may instruct him
better than I the Person I am

most obedient Servt

G W B Kennyworthy
