SERIES IV. THE DEPARTMENT OF WAR

NO. 42. TEXAS

IN TWELVE PARTS

PART 7

San Antonio, Texas
The Historical Records Survey
1939

PREFACE

The Inventory of Federal Archives in the States is one of the products of the work of the Survey of Federal Archives, which operated as a nation-wide project of the Division of Women's and Professional Projects of the Works Progress Administration from January 1, 1936, to June 30, 1937. It was continued in Texas as a state project of that Administration until September 1938, when the Historical Records Survey absorbed it.

The plan for the organization of the Inventory is as follows: Series I consists of reports on the administration of the project, acknowledgments, and general discussions of the location, condition, and contents of federal archives in the states. Succeeding series contain in inventory form the detailed information secured by workers of the project, a separate series number being assigned to each of the executive departments (except the Department of State) and other major units of the Federal Government. Within each series No. 1 is a general introduction to the field organization and records of the governmental agency concerned; the succeeding numbers contain the inventory proper, separate numbers being assigned to each state in alphabetical order. Thus, in each series, the inventory for Alabama is No. 2, that for Arizona No. 3, that for Arkansas No. 4, etc.

For each local office, information regarding each series, or unit of related records, is presented in the following order: title, inclusive dates ("to date" indicating an open file at the time the information was secured), general description of informational content, description of the system of filing or indexing (if any), a statement of frequency and purpose of use, form of the record itself (bound volumes, sheets in folders, etc.), linear footage, description of the containers, physical condition of the records (not stated if satisfactory), location by room number or other identifying information, and finally, the number of the Form 58SA on which this information was originally recorded by the worker and from which it was abstracted for the Inventory. This form is on file in The National Archives. When it contains substantial information on addenda sheets which has not been included in the mimeographed abstract, indication of this is given by use of the reference "See addenda."

In Texas the work of the project was under the direction of Dr. Richard R. Stenberg from its inception until August 1936, at which time Mr. D. Roy Parker undertook its direction. Mr. Parker served until June 1937, when he was succeeded by Mr. Cecil T. May. In December 1937 Mr. May resigned and Mrs. Blanche B. La Dura was made supervisor. Mrs. La Dura became a member of the staff of the Historical Records Survey in September 1938.

The able assistance rendered by the Regional Supervisory Council, particularly by Professors Charles W. Ramsdell, Charles A. Timm, and A. W. Walker, Jr., of the University of Texas, is gratefully acknowledged.

This Inventory of the records of the Department of War in Texas was prepared in the San Antonio office of the Survey and was edited before final typing by Dr. Henry P. Beers of the Division of War Department Archives of The National Archives.

The 9th Infantry was organized in January 1799 by authority of executive order issued by the President, July 16, 1798, and was disbanded June 15, 1800. It was reorganized in March 1812. In 1813 the 9th and 23d Infantries were combined forming the 3d Brigade, and was soon demobilized again. In April 1847 it was reorganized for the third time and soon became inactive. On April 3, 1855 it was again made active; in 1869 it was consolidated with the 27th Infantry (1861, originally designated 2d Batallion, 18th Infantry), without change in name.

It saw service during the war with Mexico in 1836; the Black Hills Campaign; the Indian War of 1855-56; the dispute over Haro Archipelago in the Gulf of Georgia; in France during the World War, 1917-18, and other places. It was first stationed at Fort Sam Houston in 1907.
