PREFACE

The Historical Records Survey Program operates as a series of state-wide projects in the several States in the Division of Community Service Programs of the Work Projects Administration. This program was organized in Florida in 1936 under the national direction of Dr. Luther H. Evans. On March 1, 1940, Dr. Evans left to become Director of the Legislative Reference Section of the Library of Congress, and was succeeded by Sargent B. Child.

The Survey program includes an inventory of state, county, municipal, and church archives, of American imprints, and of manuscript depositories and collections. In keeping with its object of making hitherto inaccessible source material available to historians and genealogists, the Survey in Florida issues herewith an abstract of the Register of White Baptisms of the Parish of St. Augustine of the Roman Catholic Church for the years 1784-1792. This volume was prepared under the supervision of Gordon C. Reeves, formerly Florida Church Editor. It was reviewed in the Washington office of the Survey by Donald A. Thompson, Assistant Archivist in charge of Church Archives Inventories.

We wish to express our appreciation to the Most Reverend Joseph P. Hurley, Bishop of St. Augustine, for his approval of the publication of this volume. Acknowledgment is also due the St. Augustine Historical Society and Institute of Science for its courtesies in providing supplies and desk space for our translators and for furnishing materials for publication of the volume.

Publications of the Florida Historical Records Survey are issued for free distribution to public and institutional libraries. Requests for information concerning the publications or work of the Survey in Florida should be addressed to the State Administrator, Work Projects Administration, 49 West Duval Street, Jacksonville, Florida.

REPORT

The following report was prepared by the author in the month of October, 1944, at the request of the Joint Committee on the Administration of the Government, and is submitted to the Committee in accordance with the provisions of the Act of October 1, 1944, (Public Law 234), which authorized the Committee to conduct a study of the administration of the Government.

The report is divided into two main parts. The first part, which is entitled "The Present Situation," describes the present state of the administration of the Government, and the second part, which is entitled "Recommendations," contains the author's suggestions for the improvement of the administration.

The author believes that the present state of the administration of the Government is one of inefficiency and waste, and that it is necessary to take steps to improve it.

The author's recommendations are based on the following principles: (1) the need for a more unified and efficient system of administration; (2) the need for a more effective system of personnel management; (3) the need for a more effective system of financial management; and (4) the need for a more effective system of public relations.

Very truly yours,

INTRODUCTION

The records of the Parish of St. Augustine of the Roman Catholic Church form the oldest extant series of records in the United States. Continuous from 1594 to 1763, they are interrupted for the period during which the English occupied Florida, as the Parish did not function officially during those years. They resume, however, in 1784, when Florida was returned to Spain. The records from that year until the War Between the States are of particular interest because many of the persons named therein are represented in Florida today by their descendants.

This volume presents a record of the 521 baptisms performed in the Parish of St. Augustine between October 8, 1784 and July 30, 1792. The original register, which is kept with other archives of the Parish in the Rectory adjoining the Cathedral, is a book of 271 pages, 15 $\frac{1}{4}$ " x 9 $\frac{3}{4}$ x 2" in size. The book apparently has been rebound and bears the title, "Baptisms White, 1784-1792, I." The first two pages are loose and in poor condition.

Entries in the register are numbered and the original numbering has been preserved in this volume. Entries 1 to 227 are set down in Latin; but in September 1788, the Most Reverend Cyrilo de Barcelona, Bishop of Tricaly, while on his Holy visitation in St. Augustine, ordered all entries to be set down in Spanish. The edict of the Bishop, as well as the form he prescribed for entries, has been translated and included in full.

In the translation of entries, much of the repetitious ecclesiastical phraseology has been eliminated and a shortened form has been adopted which gives the essential facts presented in the original. The full texts of 10 entries, with translations, however, are to be found in the Appendix.

The original spelling has been preserved, although often the same name appears in several different forms, and frequently both English and Spanish names are misspelled. This is probably attributable to the fact that the entries were made by Irish priests, who resorted to phonetic spelling of Spanish names and of English names previously corrupted by the Spanish-speaking community. The full titles of the priests who made the entries are given the first time they appear and are thereafter omitted. All civil and military titles are given in full, both in the original language and in translation. Words underscored in the entries are also underscored in the original.

The word vale, which appears frequently in the forepart of the register, indicates that a gift was made to the church by the parents or sponsors of the neophyte. In many instances the exact value of the gift in reales is shown.

A number of baptisms was performed by the "Presbiter," Dr. Peter Camps, with license, or permission, of the parish priest. Such entries

are also signed by the parish priest, the Reverend Thomas Hassett.

Baptisms performed at home or in the outlying districts of the Parish were incomplete, and are designated as baptismo non solemni or bautismo no solemne in the entries. The parents, and sometimes the godparents, or sponsors, were then advised by the priest to bring the child to the church as soon as possible, "to perform upon him the ceremonies and prayers of our Holy Mother Church," which, of necessity, had been omitted. In some instances a marginal note attests that this instruction was later complied with.

Thomas Hassett

In the year of Our Lord 1771, on the 26th day of February, was born a girl, legitimate daughter of Thomas Clarke, English, and Honora Cummings, Irish, married, temporary residents of this city, St. Augustine, East Florida. The said infant was baptized at home by Johannes Forbes, an ecclesiastic and the then minister of the English Church of this city, and her mother, a woman worthy of trust brought her to me, to whom was given the name of Margarita.

In the year of Our Lord 1785, on the 4th day of November, the above mentioned daughter of Thomas Clarke, now dead, and Honora Cummings, now a widow, presented herself in this church, asking that according to the custom and rite of the most Holy Catholic and Roman Apostolic Church, she be given the sacred ceremonies and prayers which were omitted in her baptism. Accordingly having found this girl or neophyte well instructed in the Catechism, I, Parish Priest, Vicar and Judge Ecclesiastical of this Parish Church and Province of the said city, gave them to her in the accustomed manner on the said day.
