Kentucky Elementary Schools

Lists and Classification 1976-1977

Classification of Schools

Comprehensive

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, and that provides an enriched program of studies and other features beyond those required for a Standard classification may be considered for Comprehensive rating. In the Comprehensive school, major emphasis should be placed on meeting the special needs and interests of students through broad academic, exploratory, and co-curricular experiences.

Standard

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, and that substantially meets all of the criteria included in these standards may be considered for a Standard rating. All criteria not otherwise specifically designated shall apply to this classification.

Basic

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but fails to meet the minimum requirements for a Standard rating may be considered for a Basic rating.

Provisional

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but fails to meet the minimum requirements for a Basic rating may be considered for a Provisional rating.

Special School Accreditation

A school that meets regulatory requirements as prescribed by the State Board of Education, including the minimum days set for classroom instruction, but offers special programs or partial programs resulting from phasing in or phasing out of grades, alternative programs and certain other programs designed to meet individual needs of students may be considered for Special School Accreditation rating.

Educational Arrangements

Local Boards of Education may make arrangements for certain types of educational opportunities not otherwise available through regular school operations and designate where school records will be kept and credit given.

Emergency

Schools that do not fit the scheme of classification of Comprehensive, Standard, Basic or Provisional.

Cost of printing paid with state funds.

FOREWORD

A review of the accreditation of elementary schools of the state for the school year 1976-77 continues to indicate that major progress is being made in most areas of elementary education.

Progress in the various areas reflects the great concern that elementary personnel have for meeting the individual needs of children. The importance of this concern is shown by improvement in the following areas:

- Expansion of curriculum offerings
- Increase of experimental programs
- Greater variety of teaching procedures and techniques
- The use of various teaching aids has greatly increased during recent years

Elementary schools with eight or more teachers are classified as Comprehensive, Standard, Basic, Provisional, Special School Accreditation and Emergency. Appropriate standards and criteria adopted by the State Board of Education are written into regulations for accrediting the elementary schools.

You will note that there are still relatively few schools classified as Comprehensive but you will also observe an increase in the number of Standard schools and a decrease in the number of Basic schools.

We trust this bulletin will be helpful to both elementary school personnel and others striving for qualitative elementary schools for each child in Kentucky.

James B. Graham
Superintendent of Public Instruction

FOREWORD

A review of the literature of elementary education of the year 1950-51 has been made in order to determine the state of the art in this field. The purpose of this review is to provide a basis for the selection of subjects for the year 1951-52. The review is organized in the following manner:

1. Expansion of curriculum studies
2. Expansion of experimental programs
3. Expansion of research in teaching
4. Expansion of research in learning
5. Expansion of research in the child
6. Expansion of research in the teacher
7. Expansion of research in the school
8. Expansion of research in the community
9. Expansion of research in the nation
10. Expansion of research in the world

Elementary Schools For The School Year 1976-1977

There were 1107 elementary schools accredited by the State Board of Education during the school year 1976-77. Of this number 824 were under the control of the county school districts and 141 were under the control of the independent districts. Eighteen (18) were state or federal and 124 were private schools.

Table I below shows the number of accredited elementary schools classified according to the type of control for five years from 1972-73 to 1976-77.

**Table I Number of Accredited Elementary Schools
Classified According to the Type of Control**

Year	County	Independent	State or Federal	Private	Total
1972-73	732	206	19	95	1,052
1973-74	754	204	19	107	1,084
1974-75	755	196	19	112	1,082
1975-76	797	150	19	120	1,086
1976-77	824	141	18	124	1,107

The total number of elementary schools operating in Kentucky including all of the elementary schools of seven teachers and below as well as the 1107 accredited schools, numbered 1320 schools. Of this number, there were 19* one-teacher schools compared to 13 one-teacher schools last year.

Table II gives the enrollment in the accredited elementary schools according to the grades and the control under which the school operated.

*This increase in the one-teacher schools is a result of new nonpublic Less than Eight Teacher schools. (See Table V)

Special Education Centers 1976-1977

These programs attempt to serve specific functions and purposes for those in attendance. These centers are neither classified as serving as elementary or secondary education schools. For this reason special education centers will be named in Kentucky's Elementary and High School List and Classification Bulletins.
