

SEP 29 1898

The Faculty of the Department of Pedagogy convened in the President's Room on the above date.

The Dean presented a communication from Mr. Felix Kerrick, an Alumnus of the College, of the Dept. of Science, in which he desired to know whether he could take work in absentia which would entitle him to the Degree of Bachelor of Pedagogy. After some discussion the matter was, by motion, referred to the General Faculty for action, as none of this Faculty felt desirous of voting upon the main issue at this meeting. *

The standing of matriculates in this Dept. was canvassed, and was found quite satisfactory.

Adjourned.

R. M. Roark, Dean,
and Acting Sec'y.

* It should be made matter of record here that the General Faculty decided adversely upon the proposition to grant any Bachelor's Degree for work done in absentia.

R.
